The policy of the Government to use all reasonable means to reduce its expenses, is truly commendable, and should be strictly adhered to; but is it a true sense of economy to commence by reducing the wages of the poor laborer, who barely earns enough to support his family, without making any reduction in that of the salaried officers; when we reflect that the industry of the country must sustain its credit, and ultimately pay its debts? Government, through all its agencies, should use all reasonable means to encourage and stimulate industry, for by that, and that alone, we grow rich and prosperous as a nation. It demands and should receive the fostering care of Government. If labor is justly remunerated, industry will prosper, and the laborer will be satisfied. Before the department approve the action of the committee in reducing the wages at the yard, we trust it will consider the circumstances surrounding it. The demand for labor in the vicinity of all Navy Yards except this, is so great that it creates a competition, and gives to labor a fairer renumeration, and government is obliged to pay the rate established by the 'outside;' while in the vicinity of *this* yard, the supply of labor almost always exceeds the demand—it certainly does at this time—and a reduction of wages at the yard causes a reduction outside; so that instead of fixing a rate of wages to conform to that paid in the work shops and ship-yards in the vicinity of the yard, it really establishes the rate for those work shops and ship yards and unwittingly becomes the oppressor of the laborer. If the work at this yard is performed with the same brevity and skill it is in other yards, there is no reason why the Mechanics should not receive the same wages, when it is admitted the cost of living is as great. The mechanics here are equally as skilful, intelligent and loyal as they are elsewhere; and to compel them to labor for greatly reduced wages, indicates a spirit of oppression. MECHANIC.

☞ Artemus Ward's entertainment, at the Temple on Wednesday evening, we call first-rate: rich, rare and racy, indeed. We go in for the laughing school of philosophers; and if the man who amuses the people—amuses them innocently, without injuring them—*is* their best benefactor, then is Artemus Ward the greatest man of the age. He is a better specimen of the Yankee, in personal appearance, than we thought; and has thickened up and improved, since he lectured before the Lyceum here a couple of years ago.

We shall not attempt the slightest report of his inimitable talk, which (well as the reports which *have* been improperly given by the press, read,) loses half the charm when separated from the irresistibly comic and ridiculous manner of the speaker. But even after the taking of some of the wind out of his sails, both by the newspaper reports, and the bogus, imitation, counterfeit similar show which was given here and elsewhere under his name last year—we must say we pity the man who could fail to enjoy Artemus on this occasion. If "it is better to laugh than be sighing," commend us to Artemus.

THE HIGH SCHOOL CADETS, Capt. Ball, under direction of their teachers, visited Fort Constitution on Tuesday last. They were met by one of the Companies and the fine Band there stationed, and escorted by them to the Fort, where they received the polite attentions of Capt. Wells commanding, Surgeon Smart, and the other gentlemanly officers. The boys had a rare good time; having a fine opportunity of seeing the works and witnessing the dress parade of the troops. By the kindness of the Directors, they were passed over the bridges free. Our citizens are already taking a deep interest in this most important branch of the education of the youth of our city, and are marking the great benefit it has produced in the deportment of the High School.

☞ Mr. Shedd, of the Depot Telegraph station in this city, informs us that the reports of his receiving a dispatch stating that the horse Lion had reached Portland, were not started or repeated by him. He only gave the message he received—that he was dead, which proved but too true.

☞ Prominent among the exciting events of the week must be recorded the Boat Race which came off on our river Thursday afternoon, between a single shell boat rowed by a man named Walter Brown of Portsmouth, and a six-oar boat pulled by half-a-dozen stalwart oarsmen from Eliot Neck. We give their names in the order of their positions in the boat, as follows: Coxswain, Stephen A. Dixon; stroke oar, Andrew J. Dixon; 2d, Henry M. Paul; 3d, Wentworth Dame; 4th, Wm. A. Staples; 5th, John H. Staples; bow oar, Saml A. Staples.

Both parties have been making extensive preparations during the past two weeks for a trial of their own skill and the speed of their boats. Brown has been in training under Jack Shay of Boston, for some time past at Dover Point; while his opponents have only improved the time which they could obtain after their day's work.

The amount staked was $1000;—$500 a side; $600 forfeit. Many side bets were made by the parties, placing the sum staked by the representatives of So. Eliot at a high figure — probably $3000, while an equal amount or more was staked by parties of this city.

The name of the Eliot boat is "Uncle Abe," owned by Timothy Dame, Esq., and the shell is owned by Mr. Walter Brown and called the "J. Horace Kent," in honor of our old friend the illustrious J. H. K. of detective fame.

The race was advertised to take place at 5 o'clock P. M., and with a promptitude uncommon the contest was commenced. From our position it appeared that the two rivals were neck and neck until near Badger's Island Point, when the Eliot boat began to gain in consequence of a bad manœuvre on the part of Brown, and continued to gain on him until they arrived at the stake boat at the Beacon, which they reached just 40 seconds before the shell-boat came up.

It is but just to Mr. Brown to state that the wind was strong at time, causing considerable "chop," and greatly retarded his progress. And if we might be allowed to suggest, we should say that it was much too early in the tide to attempt a feat of that kind, as it proved to be nearly an hour before high water slack.

NEW HAMPSHIRE ITEMS.

—— The Claremont Advocate tells this story of a lady in Unity, who not long since became the mother of a fine daughter. A few days after, a Copperhead neighbor happening in, said to the mother, "Well I suppose you'll call it Abe Lincoln." "No, she replied, I'm sorry I can't. Like your friend Jeff. it will wear petticoats!" Mr. Copperhead vamoused without making any further suggestions.

—— When the extra train conveying the regiments to Concord, had arrived within a mile and a half of Hooksett, Tuesday afternoon, a car broke down, causing some six or eight baggage cars, containing horses, to be thrown from the track. Chaplain J. B. Higgins, of the 12th Regiment, jumped from the train and fractured his leg badly. Several of the horses were injured. They arrived in Concord at 7 in the evening, and were welcomed by Gov. Smyth, Senator Cragin, Speaker Pike and Senator Barnard, after which the column returned to the State House yard, stacked arms, and repaired to the several hotels, where a substantial supper awaited them, to which they did ample justice.

—— It has been proposed in the N. H. Legislature, to appropriate a small sum for education of idiotic children. It is said there are 100 such in the State, under 20 years of age.

☞ The Legislature proposes to adjourn to-morrow, but may fail to do so.

The delegation from Portsmouth have voted that it is inexpedient to legislate about the Police Justice's salary, and the matter will rest with the City Council to increase the salary if application is made for it—as it should certainly be.

— Gold, Thursday, 138 1-2.

SECOND TERM.

SCHOOL OF CHIROGRAPHY.

PROF. HINMAN

Begs leave to announce to the good citizens of Portsmouth and vicinity, that he will commence his Second Course of

Lectures and Blackboard Demonstrations in Spencerian Penmanship.

On MONDAY, July 3d, at 2 in the Afternoon, and 7 in the Evening,

AT ACADEMY HALL.

Terms—20 Lessons—Five Dollars.

PROF. H. courts investigation (by those who are competent,) of the character, details and results of this institution. Comparisons with schools of speciality in this country or Europe will find few to equal and none to excel.

The following testimonials from Gov. Goodwin, Col. J. N. Macomb, Jos. H. Foster and A. C. Hoyt, patrons of his first term in Portsmouth, are confirmatory of the above.

COMMENDATION NO. 271.

Portsmouth, June 25, 1865.—Having examined many of the specimens and improvements, in the hand writing of scholars, under the instruction of Prof. Hinman, which are very marked, I cheerfully recommend him to the confidence and patronage of those who wish to improve their chirography. RICHABOD GOODWIN.

LETTER OF COMMENDATION NO. 272.

Portsmouth, June 26, 1865.—SIR: Having seen the very great improvement made by your pupils in writing, I take great pleasure in recommending your system of instruction, and hope that all who wish to write a good hand will avail themselves of your teaching. I remain very respectfully, your obt. svt.

J. N MACOMB, Col. U. S. A.

COMMENDATION NO. 273.

Portsmouth, June 26, 1865.—From experience in my own family, I can bear unqualified testimony to the efficiency of Prof. Hinman's method of instruction in Penmanship.

JOS. HILLER FOSTER.

COMMENDATION NO. 274.

Portsmouth, June 26, 1865.—Having attended one term of Prof. Hinman's Writing School, and witnessed his wonderful facility of teaching, I have no hesitation in saying that, from my own observation as well as the testimony of hundreds of others, he stands *first* as a demonstrator of Penmanship in this country. A. C. HOYT.

"To whom it may concern."

A Strictly PRIVATE CLASS (limited to ten) will be taught in the Morning, from 10 to 12.

Terms—20 Lessons—Ten Dollars.

☞ Instruction given at the RESIDENCE of Pupils

Terms—20 Lessons—Twenty Dollars.

Special Notices.

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name

"AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name

"APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name

"P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near upproaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.," others "P. S. Bartlett," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,

Agents for the American Watch Company,

Je28—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, envelopped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1285, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnDawlymy28

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Sores, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is apprised, that all the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has no affiliation with the nature of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agency in America for the sale of Dr. Vaiolet's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
an10 No. 5 Beaver Street Albany, N. Y.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long and careful study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted on all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. He has since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledge no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FEMALE CORRECT. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&wly

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Enlargements, Leucorrhœa, Prolapsus, Lateral Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. Briscoe, Box 1, No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 15, 1864. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The properties of this Company consist of 642 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. The Officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered, can equal the value of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 67 Congress Street, Boston.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen promoters of this enterprise to be a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. F. Sewell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel B. Lausing, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Region is located between Oil Creek, East Oil Creek, and Allegheny river, and not twenty miles from one point to the other, and the Four Farms of Oil company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Dr. Curtis says in his Message, *fifty six million* of dollars. The last of March, B. W. Harris, Esq., a well known lawyer of Titusville, Venango District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, N. Y., went out to see to the titles of lands, and make farther examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The Jay co. have bored a well for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of this land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed 3000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 50 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is needed to make it a gushing Oil Well, is a low Titusville. Coal in that section is worth $12 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Eaton, will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if at good locations, near the Titusville, would be of incalculable value. There is abundant room on each acre for 18 wells, and on the farm generally there are 500 wells to make computation of the cost of so many wells, and the yield and profit on the whole in a year, if they are as good as they are expected, will have yielded the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one hundred millions of dollars. The Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Cherry Creek empties into Oil Creek. Wells have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company well to sell off the lands for great sums. The remarks about the location of the Mattisgn Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the Jersey that flows 300, the Shaw, Shade and other flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right side of the Creek, where is located Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eights full of machinery, it has flowed 230 barrels per day ever since. They have not dared to pull out the sucker rod yet, fearing they had not sufficient length to hold the oil. The tanks they now have will hold 3,200 barrels. Below this well, on the same Creek, another due west, has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther down is the same company's well, which is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of these flowing wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and every rod for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we should find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $500,000 for strips twelve rods by sixteen, each down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking a shaft close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

GEO. A. FRENCH,
daw3m MANCHESTER, N. H.

TRUE W. JONES,
61 **Market Street,** 61
—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and air-tight heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about removing their old or existing buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of pure heating air, which can be felt as soon as the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, are compelled to pass through the burning mass of coal after passing through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and can say in *confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 20 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

1000 Females Wanted,

American Ink Company's advertisement in Sum. on 2aw2w

Local.

PORTSMOUTH STEAM FACTORY.—For some time unfavorable reports have been current respecting the financial condition of this corporation,—of late employed in the manufacture of spool cotton—and the well-being of which is so important to our city generally. We have refrained from giving any mere rumors on so important a matter; but of course there can be no harm in copying a portion of the Boston public stock record.

In brief, the facts seem to be, that while in January last, the affairs were represented and really appeared favorably, and there was a surplus of $50,000 or so; the recent great fall in cotton, coupled with an immense stock of manufactured goods, (spool cotton) said to be $300,000 worth, lying unsold in the lofts of the *"selling agents"* (so called) in Boston, has brought the concern to grief. The stock, which has been sold within a few months at $72 and $73, has recently run down to $4 and $5, and finally not a bid could be got on it on Saturday, but on Monday again it was quoted at $7.

A special meeting of the stockholders was held in this city last week, and another in Boston on Wednesday; and the idea here seemed to be that the property of the corporation, including the Mill, must all be sacrificed to pay the debts, and that the stock would be sunk. Of the $500,000, we believe $125,000 is held in Portsmouth. The managers have advanced funds to a large amount on a mortgage of the buildings and machinery; and it was supposed they might buy the property, and thus getting it at a low price, would be enabled to run it.

But a somewhat different face was put on affairs, at the adjourned meeting of the stockholders in Boston, Wednesday—ex-Gov. Goodwin, president, in the chair.

Mr. Brown, from a Committee appointed at a former meeting, submitted a report, from which it appears that the present indebtedness of the Company is $644,766.44. To meet this indebtedness it is necessary to raise, at the present time, over $300,000. The selling agent and Directors have made very large advances, and are unwilling to increase. The advance by the selling agent amounts to about $288,000, for which he holds as security assets of the Company, including 400,000 or 500,000 dozen spools of cotton. The committee consider the property valuable, and express the opinion that if the amount of money named can be raised, the mill can be put in operation with favorable prospects. The losses had occurred, not through mismanagement, but because of the stoppage of sales and great decline in prices consequent upon the change from war to peace, and the rapid accumulation of manufactured stock at the factory. Up to within a few months, the business of the company had been carried on with profit. The report was accepted.

Mr. Fuller, of Boston, after some prefatory remarks, said the question for the stockholders now to consider was whether they would raise the $300,000 or sell the mill. He argues that the stockholders have a valuable property which at the present time could not be erected and equipped short of eight hundred thousand dollars. If put under the hammer it would be sold at a great sacrifice. The goods on hand five months ago were then valued at $500,000, and now would not bring over $250,000. This decline produced the financial embarrassment of the company.

Mr. Goodwin alluded to the great value of the mill, and its capability of making large profits, and said he doubted if it should be sold, whether it would bring half its value. At least $300,000 was required for a profitable working capital.

Mr. Fuller spoke encouragingly of the prospects of the mill. The goods were liked and if the required means were furnished they could go on.

Mr. Eaton, the Treasurer, was in favor of raising the amount recommended, and stated that if the mill were again put in operation, the firm of J. C. Howe & Co would be willing to act as selling agents.—He stated that there was a diversity of opinion as to the best method of raising the money; some wished to create new shares; others proposed to assess each share $30, which would give them the amount required.

After further protracted discussion of the subject, Mr. R. T. Paine Jr. offered a resolution disapproving of any sale of the property, and suggesting that the par value of the stock be reduced to $20; and that then 15,000 new shares be issued at a corresponding par value, the sale of which would furnish the desired amount.

Mr. Fuller offered a series of resolutions, similar in character to that of Mr. Paine, declaring it to be the general wish of stockholders not to dispose of their property, and calling for the appointment of a committee to consider the whole matter and report at an adjourned meeting what steps should be taken.

A discussion followed, after which the resolutions offered by Mr. Fuller were negatived. R. T. Paine, Jr., J. C. Merrill, H. W. Fuller, John E. Salter, M. H. Wentworth, were appointed as the committee. The meeting adjourned to meet at Boston on Wednesday next at 12 o'clock.

THE HORSE TROT.—Alas! poor old Lion was dead, sure enough. Five or six miles before ending his murderous task, his willing nature gave out, and about 6 o'clock he laid him down and died—having then about an hour and forty minutes in which to complete his journey. Peace to his manes! we have received a lock of his flowing raven tail. He was owned by a Boston man named Edward Brackett, who had long used him in New Orleans and elsewhere, and prized him very highly.

The Portland Press gives the distance between Boston and Portland at 112 miles, and states that Lion reached Saco at 4:30, and left that place at 4:45 for Portland; but in coming over the Scarboro' turnpike, showed signs that he was "used up"—swaying from side to side, evidently very 'groggy' Just after ascending the hill the poor beast dropped down, and in a short time expired. The Press adds:—

"It was a brutal act to attempt to drive a horse such a distance on a hot summer day. The fact, as we are informed, has been done, but in more propitious weather. We are informed that in addition to the wager of $1000, there was a large amount of side betting, and that the owner of the horse made a bet at Saco that he would be driven into Portland from that place within a given time. He has lost his horse and all his bets."

We *hear* that Lion appeared fresher and better on his arrival at Saco, than when here; but soon after showed signs of great exhaustion; and as us usual in such cases, whiskey was poured down his throat once or twice, and it is said the whip applied.—But exhausted nature, though never so willing, could do no more; and any live dog of a cold-blooded horse is now better than the noble but dead Lion.—Mr. Somerby accompanied the party to the sad end, but was in charge no farther than Saco.

The papers, and many people, cry out at the "brutality" of the attempt; but had the *result* been different, "success" would have excused the means. And while we do not care to attempt to justify it, we must say that we don't see but those very papers "crowd" their workmen, in setting types at gaseous and feverish midnights, on all special occasions, at a pace nearly as fatal as old Lion's. And, far different from the printer's, it is by just such severe tests as proved fatal to the noble horse, that stamina is developed and breeds improved.

THE SOLDIERS' RETURN.—A good number of our Portsmouth Volunteers have returned; and more may be here before the Fourth of July. It is the intention of the Mayor and Aldermen to give them a reception, and a Collation, at the City Rooms, or some better place. As their custom is, the Ladies will, no doubt, be prompt, liberal and tasteful in their contribution of articles for the collation. There can be no difference of opinion as to the propriety and duty of doing what we can to make their reception pleasant and honorable.

☞ The "Christian" Sabbath School announce one of their always interesting Exhibitions at the Temple to-night. They spare no efforts to prepare an acceptable and useful entertainment, and richly merit the approval of all who feel the importance of proper education for the young.

☞ Mr. Hinman, the most skillful, scientific, accomplished and practically successful teacher of Penmanship we ever saw, announces the second term of his Writing Academy to commence next Monday evening. The hall ought to be filled, every seat.

☞ Among the multitude of good things always to be found at Varney & Co's. Saloon—not least, is the splendid new Soda Fountain he has recently put in,—which, "like the Widder Cruise's jug of oil," is ever ready to spout forth one of the most pleasant and healthful of beverages, to your liking.

At Thacher's new Apothecary Store, Vaughan Street, he has also just put in a handsome new Fountain.

☞ The Boston Advertiser says the Directors of the Eagle Hill Mutual Coal (at cost) Company have voted to fix the price of coal for the ensuing month at $7.90 per ton of 2240 lbs. Mr. Harvey advertises the stock of this Company for sale in this city.

☞ This is the last day of the month and the close of the first half of the year 1865; a good time to settle all the bills, and square the books for a new start.

☞ Mr. G. W. Pike, with his talented Theatrical Company, will open at the Temple on Monday evening.

MARRIAGES.

In this city, by James DeNormandie, Minister of the South Parish, on Thursday, June 29th, HENRY S. LAMBERT to LUCY A. LAIGHTON, daughter of the late George H. Laighton, Esq.,—all of this city.

U. S. 7-30 LOAN.

THIRD SERIES,
$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the bile the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " $500 "
20 " " " " $1000 "
$1 " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

House and Land at Auction.

Will be sold at Public Auction, on the premises, *On Saturday, the 1st Day of July next,* at 12½ o'clock, M.,

The DWELLING-HOUSE and LOT situate on the corner of Meeting House Hill and Water Streets. The premises consist of a good two-story Dwelling House fronting 40 feet on Water Street and 26 feet on the Hill, with a Wood Shed. The Lot measures over 74 feet on Water Street, running back more than 60 feet, with plenty of room in the Eastern part of the lot upon which a good sized house might be erected.

A plan of the premises may be seen and terms and conditions ascertained on application to the undersigned. This sale offers an excellent opportunity to secure a comfortable homestead at a moderate cost, in a good neighborhood, and conveniently situated, especially for any one employed on the Navy Yard.

46 Market Street

Blood's Patent Improved Sifter.
For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the kitchen it is the right thing in the right place. No household would be without it after a single trial. *Recd.* (It requires but one-quarter the time of the old method.) *Next.* (The hands do not come in contact with the article sifted,—there is no dust, no spilling of contents, no cold fingers. *Durable.* (It is warranted to last ten years.)
Grocers use it to bolt their meal, saving time, expense and waste. Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Paint Dealers, for sifting Ochres, Whiting, &c.—For sitting Cream Tartar, nothing will take its place. **Price $1.00.** For sale by
E. A. STEVENS.

FAMILY MEDICINES
Need only be known to be universally esteemed.
FAMILY PILLS.—The Pills are wholly Vegetable, and a most effective, yet an easy and safe purgatic for the most feeble constitutions, and have proved effectual for the following Diseases: Headache, Dysentery, Fits, Pain in the Side, Stomach and Bowels, Jaundice, Liver and Spinal Complaints, and all kinds of Bilious Disorders.
N. B.—Every one who buys and uses these Pills, shall have all the pay refunded, if he finds them not worth all they cost.
DR. SWETT'S PANACEA, for Cancers, Leprosy, Salt Rheum or King's Evil, Erysipelas or St. Anthony's Fire, Canker in the Throat or Mouth, Rising in the Head, Sore Eyes, and Consumptive Complaints.
VEGETABLE ANTI-DYSPEPTIC BITTERS.
VEGETABLE CATHARTIC CONSERVE, for Piles, Dyspeptic Complaints, and Costiveness. It is a pleasant, easy, sure, and highly-recommended Physic for Children.
HUMOR WASH.—This preparation speedily cures sores and pimples of the face. Its immediate efficacy is its recommendation.
COMPOUND CORDIAL OF DANDELION, SPIKENARD AND BONESET—a remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
NERVE LINIMENT, highly recommended for Rheumatism, Pain in the Head, Breast, Back or Joints, Stiff Neck, Sore Throat, Croup, the Piles, Sprains, &c.
☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 Hanover St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

The Best ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DO'NT HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 3, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARK.
MELROSE, MASS., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppa Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands from my solid ink and it now flows as freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. FOLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am delighted with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing, and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and I a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient serv't,
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moor's Mayward & Noyes', D. J. Ridout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S. Orders have flowed in so rapidly and so urgently that the Company have concluded to *Wholesale* it to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awsw4m

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 1, 1865.

WASHINGTON ITEMS, June 29.—The President still continues sick and declines to see visitors.

The sale of several thousand army wagons began yesterday and will continue on alternate days. Those already sold only averaged $17.90.—The sales of mules continue daily. Average price realized $65.

The Conspiracy Court, it is understood, have determined on their verdict and agreed on the sentence of the prisoners. It will be some days before the sentence is made public.

FROM THE SOUTH WEST.—Twelve or fifteen men recently broke into the State Treasury building at Austin, Texas, and broke open the safes, robbing them of $13,000 in gold, leaving the silver. They were unable to get into the vaults where most of the treasure was kept.

A large meeting was held in Houston, Texas, on the 13th of June. Prominent men of the State participated. Resolutions of loyal character were adopted.

Advices from Shreveport to the 15th state that the quantity of cotton likely to get to New Orleans by way of Red river is variously estimated at from 15,000 to 50,000 bales. Next year the crop will be small, as little has been planted.

A Vera Cruz letter of the 1st inst. states that the Confederates continue to flock to Mexico.

Grierson's cavalry have arrived at Vicksburg, ending their months, campaign through the States of Florida, Alabama and Mississippi. The expedition passed through portions of Alabama and Mississippi never before visited by our troops. They report the interior of those States in a prosperous condition, with thousands of bales of cotton which the owners were anxious to get to market, and large crops of cotton this year. Thousand of acres which had been planted with corn, were ploughed up and cotton substituted. The crops were looking fine.

KENTUCKY.—The Union party in Kentucky are making a vigorous campaign—in view of the coming August election in that State—in favor of the amendment of the federal constitution abolishing slavery. It is thought that they will secure the Legislature and the ratification. It is not certain, but possible, and even probable: therefore there will be an effort, which it is hoped will be successful this year;—for time is valuable.

☞ The Alabama lawyer Gale, who advertised an offer of one million dollars to any one who would kill the late President Lincoln, is about to be tried before a Military commission for that act; perhaps in Washington, but more probably he will be sent to Alabama for trial, owing to the large number of witnesses—about one hundred—whom he asked to be summoned in his case, all of whom reside in Alabama.

Jos. M. Humphreys has been appointed Collector of Customs at Richmond, Va. He was one of the men imprisoned in the negro jail in Richmond with John Minor Botts and others for outspoken and persistent loyality. He is President of the Union National Association of Richmond, a body of Union men organized since the capture of that city.

— At Philadelphia, Thursday, Com. B. W. Cozzens, charged before a Military Commission with defrauding the Government in a contract for tents, was arrested by orders from Washington. The case was closed some days ago, but the finding of the commission not known. A writ of habeas corpus was applied for by his counsel and granted by Judge Thompson and directed to Provost Marshal Fink, who refused to deliver up his prisoner until he received instructions from Washington. An order was then issued by the Judge for the arrest of the Provost Marshal.

☞ On Tuesday afternoon, in Philadelphia, a large store, kept by Joseph B. Bussler, importer of fruits, &c., was utterly destroyed by fire. A large stock of fireworks had just been laid in, for the 4th, and the fire began in a pile of Roman Candles on the floor, where the ashes from a customer's cigar is supposed to have fallen. Explosions took place, and candy, lemons, nuts and raisins, rockets and crackers, all went off like hot cakes, only faster. Mr. B.'s loss $75,000; insured $50,000. Whole loss $100,000.

— Advices from Hayti, 10th inst., state that the insurrection was then confined to the city of Cape Haytien. All other towns had submitted to the Government. News of the surrender of Cape Haytien was hourly expected at Port au Prince. Cape Haytien was the headquarters of the rebels, and it was there that the rebellion first broke out. The city is invested by the forces of President Geffrad, under command of General Bartholomew.

— Spain has ceased to extend belligerent rights to the rebels, by a decree dated June 6.

NEW HAMPSHIRE ITEMS.

—— Mr. Brown, of Stratham, has procured the photographs of thirteen soldiers of that town who have died in the service of their country since the rebellion broke out, and neatly arranged them on a card for preservation, the whole making a very desirable memento. Mr. B. has supplied each of the families of the deceased with a copy of the card.

—— John Neally, employed as pressman in the tailoring establishment of Edmunds & Co., in Concord, dropped dead Thursday evening while at work, having ruptured a blood vessel. He formerly belonged to the 8th New Hampshire regiment.

—— The Manchester Mirror says that there never was so great demand for female operatives skilled in the business of working in cotton mills as now. First class weavers are particularly wanted. The Amoskeag and Stark Mills would start up double the present amount of work if they had plenty of weavers and other skilled help, and all the other mills are short of the same class of labor.

—— Last Sunday, while some young men were bathing in the Merrimack, below Haverhill, Mass., one of their number, named Abel Wallace, got beyond his depth and was drowned. He was about 19 years of age, and belonged in Candia, N. H.

—— As a freight train on the Cheshire road was passing through Walpole, on Tuesday, the engineer observed that a switch in front was not right. The alarm was given, and those aboard the engine jumped off. With them were Orren Brown and Parker Butler, both of Keene, mechanics of the road. In jumping, Mr. Brown was so injured by the shock that he lived but a short time after being taken home. Mr. Butler had his shoulder dislocated. The others were not injured. The switch was adjusted the instant the engine approached it, and the train went over safe.

IN THE N. H. HOUSE of Representatives on Wednesday, June 28, among the bills read a third time and passed, was "The bill to amend the existing *militia* law of the State, passed in 1862, being chapter 2579 P. L."

Mr. Roles of Ossipee stated the Governor approved of the bill and amendment.

Mr. Rollins, of Portsmouth, thought that the State had expenses enough without taking on $40,000 to support militia.

Mr. Bellows, of Walpole, said that the expense could hardly be $10,000 a year. The committee thought that the law of 1862 could be made effective by the amendments proposed, the pay being increased $1 per day. It would give us a system like that of Massachusetts, which saved Washington in 1861.

Mr. Bowers, of Newport, advocated the passage of the bill. It was not so expensive as the law of 1862. The reason that law did not go into effect was that there was no compelling law to put it into operation.

Mr. Hackett, of Portsmouth, said that the United States would furnish arms and accoutrements, which would somewhat reduce the expense.

The bill passed, and also

The bill in amendment of an act in relation to the taxation of deposits in savings banks.

The bill to secure accountability for money due to counties.

The bill to incorporate the N. H. Musical Association.

The bill to incorporate the City Acqueduct in Portsmouth.

A joint resolution giving the Chaplain the same pay as members of the House.

CONSTITUTIONAL AMENDMENT.—In the New Hampshire House of Representatives on Thursday afternoon, June 29, the Anti-Slavery Amendment to the Constitution of the United States passed by a vote of 256 in the affirmative, and 96 in the negative. Every Republican member in the House voted for it, also Mr. Quincy, a Democratic member from Rumney. Nineteen members elected as Democrats were absent from town, or, if present, did not vote; and five republicans were absent.

TOBACCO CULTURE.—The Northampton Gazette says that tobacco-buyers have been plenty in that region for some time past, and most of the old stock has been bought up. The new crop will be considerably less than last year's. West of the Connecticut river valley, where many acres were grown last year, there is but little set. Corn and potatoes take the place of "the weed." This is right.

— Judge Lowell, of the U. S. District Court, has ordered the rebel pirate Georgia, now lying at New Bedford, to be sold at auction.

— The coal miners in Pennsylvania have ceased their strike and gone to work. The Sunbury American says that coal by the cargo, in that place, is selling at $3.50 per ton.

— Capt. Jas K. Pritchard, of Newburyport, aged 51, of ship Elcarno, was washed overboard and drowned Jan. 1st, when three days out of Boston for Ceylon. His wife was on board.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Close of Royal Power in New Hampshire, 1775.—Gov. John Wentworth, 2d, leaves.

Governor Wentworth still retained the hope, that all difficulties between the two countries might be adjusted; and in his speech to the Assembly on the 4th of May, 1775 he desired them to adopt "such measures as might tend to secure their peace and safety, and effectually lead to restoration of the public tranquility, and an affectionate reconciliation with the mother country." He laid before them Lord North's conciliatory proposition. The House requested a short adjournment to give them an opportunity to consult their constituents, to which the Governor consented, and adjourned them to the 12th of June.

The Scarborough, ship of war, commanded by Captain Barclay, lay in the harbour, and had dismantled the fort. She seized two vessels laden with provisions, which were coming into the harbour. The inhabitants remonstrated against this proceeding, and the Governor solicited Captain Barclay to release them, but he refused, and sent them to Boston, under convoy of the Canseau, for the use of the King's forces there. A body of armed men, irritated by these proceedings, brought off from the battery at Jaffrey's point on Great Island, twenty-eight cannon — twenty-four and thirty-two pounders, which they safely landed in this town.

A convention met at Exeter the 17th of May, chosen for six months, to which this town sent five deputies; who were authorized to adopt and pursue such measures, as may be judged most expedient, to preserve and restore the rights of the colonies. This convention gave instructions to the representatives, which were regarded as the advice of their constituents.

The Assembly met, according to adjournment, on the 12th of June, 1775. The representatives were elected by virtue of writs, issued by the Sheriff to such towns as the Governor directed. Three new towns were called upon to send representatives, in which some of the Governor's particular friends resided, who would probably be elected, whilst other towns more numerous, were neglected. The first act of the Assembly was to expel the members from the three new towns, agreeable to the advice of the convention. Upon which, the Governor adjourned the Assembly to the 11th of July. One of the new members was Captain John Fenton, who was returned from the town of Plymouth. He had been a Captain in the British army, but had disposed of his commission. On the division of the province into counties, he was appointed Clerk of the Inferior Court of Common Pleas for the county of Grafton, and Judge of Probate for that county; he kept his office and resided in this town. After his expulsion, he gave vent to his passions, and expressed himself very freely as to the measures pursued by the country. This enraged the populace, who collected to assault him, and he fled to the Governor's house for protection. They brought a field-piece, mounted, and placed it before the door, and threatened to discharge it, if he were not delivered up. Fenton surrendered, and was sent to the committee of safety at Exeter, for trial. The Governor conceived this to be an insult offered to himself, and immediately took refuge in the fort. His house was pillaged.

Captain Barclay continued the practice of seizing all vessels entering the harbour, and sending them to Boston. He likewise stopped all boats from going out of the river to take fish, under pretence that his orders to execute the act restraining trade, required it. In retaliation his boats were not permitted to come up to town for provisions, and one of them was fired upon by the guard, placed near the shore; the boat returned the fire, and several shots were exchanged without damage on either side. The town passed a vote disapproving the action, and sent a copy of it to Captain Barclay.

Governor Wentworth sent a message from the fort to the Assembly on the 11th of July, and adjourned them to the 28th of September. But they never met again. On the 24th of August, he took passage in the Scarborough for Boston.

After the departure of the ships of war from the harbour, the convention appointed Major Ezekiel Worthen, engineer; and under his direction, the people formed themselves into volunteer companies, in which almost every individual took a part; they built two forts on two islands at the narrows, which commanded the channel, and planted there the cannon, which had been taken from the fort and battery.

Governor Wentworth came to the Isles-of-Shoals, and prorogued the General Assembly (which was not there,) to the month of April. This was his last official act within the province; and the royal government in New Hampshire entirely ceased.

ADVICES FROM MEXICO, via Imperial papers, confirm the reported defeat of the Liberals at Matamoras—and speak favorably of Gwin's new empire. The rebel captain of the Stonewall wishes Maximilian to buy his vessel.

— In Vermont, both political parties endorse Pres. Johnson's Administration: the Union conventions call for equal suffrage, and quote their own State's example in its favor.

— In the Boston Police Court, Thursday, a truckman was fined $5 and costs for firing a pistol in the street. This is a hint to such persons as defy the law in the same manner on the coming national holiday.

GOLD, Friday, 139 1-2.

SECOND TERM.

SCHOOL OF CHIROGRAPHY.

PROF. HINMAN

Begs leave to announce to the good citizens of Portsmouth and vicinity, that he will commence his Second Course of

Lectures and Blackboard Demonstrations in Spencerian Penmanship,

On MONDAY, July 3d, at 2 in the Afternoon, and 7 in the Evening,

AT ACADEMY HALL.

Terms—20 Lessons—Five Dollars.

PROF. H. courts investigation (by those who are competent,) of the character, details and results of this institution. Comparisons with schools of speciality in this country or Europe will find few to equal and none to excel.

The following testimonials from Gov. Goodwin, Col. J. N. Macomb, Jos. H. Foster and A. C. Hoyt, patrons of his first term in Portsmouth, are confirmatory of the above.

COMMENDATION No. 271.

Portsmouth, June 26, 1865.—Having examined many of the specimens and improvements, in the hand writing of scholars, under the instruction of Prof. Hinman, which are very marked, I cheerfully recommend him to the confidence and patronage of those who wish to improve their chirography. ICHABOD GOODWIN.

LETTER OF COMMENDATION No. 273.

Portsmouth, June 26, 1865.—SIR: Having seen the very great improvement made by your pupils in writing, I take great pleasure in recommending your system of instruction, and hope that all who wish to write a good hand will avail themselves of your teaching. I remain very respectfully, your obt. svt.

J. N. MACOMB, Col. U. S. A.

COMMENDATION No. 278.

Portsmouth, June 26, 1865.—From experience in my own family, I can bear unqualified testimony to the efficiency of Prof. Hinman's method of instruction in Penmanship.

JOS. HILLER FOSTER.

COMMENDATION NO. 274.

Portsmouth, June 26, 1865.—Having attended one term of Prof. Hinman's Writing School, and witnessed his wonderful faculty of teaching, I have no hesitation in saying that, from my own observation as well as the testimony of hundreds of others, he stands *first* as a demonstrator of Penmanship in this country. A. C. HOYT.

"To whom it may concern."

A Strictly PRIVATE CLASS (limited to ten) will be taught in the Morning, from 10 to 12.

Terms—20 Lessons—Ten Dollars.

☞ Instruction given at the RESIDENCE of Pupils.

Terms—20 Lessons—Twenty Dollars.

Special Notices

CAUTION FROM THE
AMERICAN WATCH CO

It having come to our knowledge that tions of the American Watch have been pu the market in great number, calculated b utter worthlessness to injure the reputa our genuine products, to protect our own ests and the public from imposition, we publish the trade marks by which our W may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name

"AMERICAN WATCH CO., Waltham, M engraved on the inside plate.

The SECOND has the name

"APPLETON, TRACY & CO., Wal Mass.," engraved on the inside plate.

The THIRD has the name

"P. S. BARTLETT, Waltham, Mass.," e ed on the inside plate.

All the above styles have the name Ame Watch Co. painted on the dial, and are wa ed in every respect.

The FOURTH has the name "WM. ELL Boston, Mass.," engraved on the inside plat is not named on the dial.

All the above described Watches are ma various sizes, and are sold in gold or silver as may be required.

It is hardly possible for us to accurate scribe the numerous imitations to which we alluded. They are usually inscribed with so near approaching our own as to escape servation of the unaccustomed buyer. Som represented as made by the "Union Watch of Boston, Mass.,"—no such company ex Some are named the "Soldier's Watch," sold as our Fourth or Wm. Ellery style, a known as the "Soldier's Watch." Others named the "Appleton Watch Co.;" others "P. Bartley," instead of our P. S. Bartlett; so many varieties named in such a manner as to vey the idea that they are the veritable pro tions of the American Watch Company.

We also caution the public, and pa soldiers, against buying certain articles watches, so freely advertised in illustr as "Army Watches," "Officers' Watches Time Observers," "Chrono Watches," &c. prices of which are stated to be from seve sixteen dollars. A good watch, in these ti cannot be afforded for any such money.

A little attention from buyers will protect from gross imposition.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubt did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to r edy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Un is eminently praiseworthy. This peaceful rev tion is going on throughout the whole land, thus beauty and harmony supplant homeli and incongruity. Manufactured by J. CRIS DORO, No. 6 Astor House, New York. Sold Druggists. Applied by all Hair Dressers.

REMARKABLE CURE OF STI KNEE BY ALLCOCK'S POROUS PLA TERS.—How many persons, from stepping a piece of orange peel, have been lamed for l A case which might have been of this kind t just been brought to our notice. A gentlem from putting the heel of his boot on a piece orange peel, was suddenly thrown down, and olently sprained his knee. He was six mon confined to the house, though he had the b medical advice. As a last resort a very emin physician was called in to see if anything m could be done. After examination he said, "I opinion is, your knee will never be bent agai He recommended that the whole leg and k should be encased in a plaster of Paris which would accelerate the permanen of the knee, and said, "the sooner s the better." But the patient, before application and having a stiff knee fo ped it in our Porous Plasters, and in two months his knee was perfectly Principal Agency, Brandreth H York. Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

Local.

THE GRAND OLD SPENCERIAN.—We notice Prof. Hinman is about to commence his second term in Writing at Academy Hall. This remarkable course of instruction in Writing will be continued but one term longer. Citizens of Portsmouth who have investigated this system, and manner of demonstrating it, and those who have attended the primary course, assert that, for novelty, completeness, and real value, it is unapproached by anything ever before offered to the people of this city.

No college, seminary, commercial institute, or city in the Union can afford so grand an opportunity to become a thoroughly scientific and practical writer, as is now offered at your own threshold; and without the enormous expense of going to a distant town or city.

The school will commence on Monday, July 3, and will close in time for the summer vacation.

POLICE COURT, June 30.—Daniel Brogan will not reform, but is bent on self destruction. He has appeared again and again in the dock, been warned and fined—which terms are synonymous—but all to no effect. He is sentenced to a residence in the House of Correction through the "heated term," (thirty days) and to pay the costs, amounting to $5.74. Where he will get this fabulous sum we know not, unless it accrues from the interest of his debts while he is absent at the celebrated summer residence referred to above.

Bridget—the companion of Daniel—in following her insatiate desire for rotgut, becomes a common drunkard, (which, in the case of a woman, means being reduced to a condition about ten grades below the lowest brute,) follows her husband to the House of Correction, and is ordered to pay a similar amount of costs—$5.74.

"What's in a name?" is a familiar interrogatory, and will be justly appropriate in recording the name of Joseph Merrykitty, who suffers his hilarious disposition to tempt him to disturb the public peace by making a brawl and tumult. Mr. Merrykitty's amusement cost him $3 fine and $2.95 costs. Joseph is a great man, and has a great name, and we cheerfully predict is on the road to fame; if he fails to reach this goal, he'll be left out in the cold, and thus will be the end of a merrykitten bold!

☞ A novelty in the shape of a carriage, or a novel carriage in shape of a Monitor, passed through our streets Thursday morning. It was drawn by four horses, had steam up, turrets revolving, paddles in motion, and occasionally blowing a steam whistle. The Monitor is labelled "Fuller's Museum of Art and Panorama of the War," and has been moored near the Stone Church. It is now open for exhibition, and we understand encloses a collection of stereoscopic views, mostly relating to the Rebellion war.

P. S.—We have witnessed the exhibition, and found much gratification in it. There are forty-two stereoscopic and twenty cosmoramic views, subject to any number of changes. The stereoscopes are life-like representations of war scenes, and the other pictures such as will interest the beholders. We regard the exhibition as one of as much merit as novelty, and would advise our readers to witness it.

☞ So it seems that Messrs. J. B. Adams and J. P. Morse, of this city, have swapped offices—Mr. Adams having been appointed postmaster of Portsmouth, a fortnight since resigned his office of Sheriff of the County of Rockingham. And now notwithstanding the Ballot says, "the office is not worth much, we understand there was quite a lively fight for the succession—the prominent candidates being George G. Lougee of Exeter, Joseph P. Morse of Portsmouth, and Miles Durgin of Newmarket,"—resulting in Mr. Morse's nomination by the Council, and approval by the Governor.

☞ A mare belonging to Mr. Aug. W. Peirce of Greenland, which was standing unhitched yesterday on Market Square, when the "Monitor" show drove in,—started off and stove Mr. P's monitor buggy which she was attached to, somewhat.

☞ The Promenade Concert and Tableaux Exhibition, at the Temple Hall on Thursday evening, drew out a very pleasant party; and the occasion was afterwards still further improved by the young men providing dance music and tripping the light fantastic for a while. The new flat hall improves on acquaintance, and is a spacious and very agreeable room.—Mr. Carter supplied excellent refreshments from a stand at one side of the hall,—excellent ice creams and most delicious strawberry lemonade, &c. There were sweet garden flowers in abundance; and no scarcity of yet sweeter "flowers" of another kind.

☞ The Sunday School Exhibition which opened at the Temple last night, and continues this evening also—besides being a very creditable and interesting children's performance, likewise embraces adult performances of a high order. Go and see them.

☞ Rev. Thomas Holmes will preach at the Christian Church, Kittery Foreside, at the usual hours, morning and afternoon, to-morrow.

☞ Mr. Hackett will sell by Auction this morning a House and Land at the South End. See his advertisement.

☞ Steam Fire Engine "Dearborn," No. 1, arrived from Boston last evening, and will probably be exhibited and tested on Market Square to-day.

☞ Mr. G. W. Pike, with his talented Theatrical Company, will open at the Temple on Monday evening.

NEW PUBLICATIONS.—Sayings of Labienus on Napoleon III., (the "so-called" Modern Cæsar.) By M. A. Rogeard,—with notes. This is an English translation and an American reprint of a Paris pamphlet which has made a great noise, being a satire on the Emperor, for which the author had to flee. Published in New York by J. P. Rubens,—sold in Portsmouth by Mr. Shores.

Report of the Adjutant General of New Hampshire; also Report of the Quartermaster General to May 20, 1865—received from Gen. Natt. Head.

Hall's Journal of Health for July—from the publisher.

☞ We have received from C. Dwight Hanscom, Esq., a copy of Four Years in Secessia, by Junius Henri Browne: illustrated;—one of the graphic books about the war that will be read by all classes of people. Published by O. D. Case & Co., Hartford, Conn.

☞ The feeling of the representatives of the loyal people of South Carolina, now in Washington, in regard to the enfranchisement of the blacks, may be seen in the following remark of a prominent member of that delegation, in reply to the question propounded as to what course the people of South Carolina would pursue in case the extension of the right of suffrage to the blacks should be required by Congress. He said: "Under no circumstances will the native-born citizens of South Carolina ever allow the negroes to vote in that State. We will not tolerate such legislation." This does not agree with the statements of the N. Y. News. But it does not become the S. C. dignitaries to put on airs just yet. They should have a military governor there, for a long while, and till they become sane.

GRANT'S BRAVERY.—A recent sketch of Gen. Grant has the following:

"The difference between Grant and myself," said General Sherman, is this: I fear no danger that I can see, and Grant fears none that he can't see." His courage was always self-contained. As he himself once said, after the explosion of a shell near his tent had scattered his staff, who returned to find him quietly smoking: 'A military man should never get excited.'"

— South Carolina is to be divided into four military districts.

ALL THAT'S BRIGHT MUST FADE, is not applicable to a fine set of teeth brushed with Fragrant Sozodont. Its protective, preservative and beautifying properties will preserve the whiteness, soundness and natural polish of good teeth throughout life. And when unsound, it will arrest decay, and remove from the breath the taint which decomposition generates. Steodjy1 1

JOSEPH B. ADAMS, P. M.

U. S. 7-30 LOAN.

THIRD SERIES,
$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the sale the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Auctions.

THIS DAY.

House and Land at Auction.

Will be sold at Public Auction, on the premises, *On Saturday, the 1st Day of July next*, at 12½ o'clock, M.,

The DWELLING-HOUSE and LOT situate on the corner of Meeting House Hill and Water Streets. The premises consist of a good two-story Dwelling House fronting 40 feet on Water Street and 36 feet on the Hill, with a Wood Shed. The Lot measures over 74 feet on Water Street, running back more than 60 feet, with plenty of room in the Eastern part of the lot, upon which a good sized house might be erected.

A plan of the premises may be seen and terms and conditions ascertained on application to the undersigned. This sale offers an excellent opportunity to secure a comfortable homestead at a moderate cost in a good neighborhood, and conveniently situated, especially for any one employed on the Navy Yard.

FOURTH OF JULY.

The day will not pass without notice in Portsmouth. The bells will be rung and salutes fired as usual, and the returned soldiers, in the forenoon will have a reception at the Court House, and a Collation will be provided, probably at the room under Mr. Nowell's shoe factory. In the board of Aldermen on Thursday evening, the following resolution was passed:

Resolved That a Committee of three be appointed to prepare a Collation on the fourth of July for the returned soldiers.

Messrs. Davis, Shannon and Foster were appointed as that Committee.

There will be a display of Fireworks in the evening, and the Cornet Band will be in attendance on Market Square.

RETURN HOME OF NEW HAMPSHIRE REGIMENTS.—The streets of Manchester were full of people Tuesday, who turned out to greet the return home of three of the New Hampshire Regiments, one of which, the tenth, was raised at Manchester. A liberal collation was prepared for them. The girls were out in full force and well dressed to welcome home the conquering heroes.

The soldiers looked exceedingly well, brown, but robust and healthful in appearance, and in excellent spirits. Though they were about the streets and hotels all day, only one or two of them were partially, and none very badly intoxicated. They were as lively as crickets, and joyfully received the congratulations of their friends, male and female.

A long train of cars left at 6 o'clock in the afternoon with those bound for the upper part of the State, and were vociferously cheered as they left the railroad station.

From the Portsmouth Journal
CONCORD, June 29, 1865.

The most interesting feature of the week has been the return of the 10th, 12th and 13th regiments, N. H. V. As these bronzed veterans with all the honors of a glorious and successful campaign resting upon them, marched up Main street on Tuesday evening, with light step, bearing their war worn banners, they were led by the combined bands of the 12th and 14th regiments, playing "Rally round the Flag, boys" with an effect intensified by the occasion, and causing a thrill of pleasure to the bystanders, such as an ordinary military display can never produce. The mind, on this their return home to a life of peace after the struggles and dangers of their three years of absence, naturally reverts to the parting scenes when they left home and friends for their country's service nearly three years since; and a rapturous feeling of gratitude to the Disposer of events, and of joy at the safe return of those who have survived, cause a heartfelt welcome to go forth and greet them. Their thinned ranks are a speaking testimonial of their valor, showing that they have earned names of much higher honor than that of American citizens — brave American veteran soldiers, who shall stand in the memory of man henceforth side by side with those who in our first struggle for liberty fought the battles of the Revolution. Among these returned soldiers, we notice at the head of the 10th, Capt. George W. Towle, who as ranking officer took command on the arrival at Concord. Among the other officers of that regiment, are Capt. J. Albert Sanborn, who from an orderly has risen by his own merits to the command of a company, and who has been detailed, of late, to the duties of Provost Marshal at Eastern Shore; and also, Lieut. B. Stowe Lasky. In the 13th is Capt. M. T. Betton, who has done good service, and returns with honor; Lieut. Benj. F. Winn, who has just been permitted to don his shoulder straps, having enlisted as a private; and privates Isaac H. M. Fray, George L. Sides, and John Hanson, who are looking well. Capt. Betton, we learn, has been in command of a New York regiment, and has refused the position of Lieut. Col. from that State, preferring to remain in a new regiment from N. H. The soldiers assembled front of the City Hall on Wednesday, and returned their colors to the Governor.

The Legislature has been hard at work this week, with the praiseworthy intention of closing up the business of the session next Saturday morning; and it is the opinion of those who are best acquainted with the amount of business to be done, that the final adjournment will then take place.

The Committee on Incorporations have reported a bill to incorporate a new Aqueduct Company in Portsmouth, to be called "The People's Aqueduct Co." The reasons urged for its incorporation are the insufficient quantity and the high price of water in Portsmouth while there is the abundant supply in the springs in the neighborhood of the city.

The proposed military bill provided for raising and constituting a body of volunteer militia in the State, numbering 1600 men, to be called out at such times as may be deemed advisable: the men to receive $1.50 per day. If the requisite number do not volunteer, the ranks are to be filled by drafting, in such locality and manner as the Governor may determine. The bill passed the House on Wednesday.

The Finance bill as it passed the House on Wednesday, provides for raising one million of dollars by State bonds, and one million by taxation; $350,000 of the latter, and a proportional part of the former million, to be set apart annually and invested by trustees so as to be able to liquidate the State debt at the end of five years.

INVITATION to RETURNED SOLDIERS.

The City Government

Would hereby certify that they invite the Members of Co. G, 10th Regiment, N. H. V. and Co. K, 13th Reg. N. H. V. together with all other of our volunteer Soldiers who have received their discharge within the past three months; also all disabled men of both the Army & Navy in this district, to a Collation on the Fourth of July, wishing thus to testify in some slight degree, the gratitude of our citizens towards those who have so bravely and successfully stood forward for the defence of our rights and liberties.

The details of arrangements will be notified in the Chronicle of Monday. Per order of Committee.

Collation for Returned Soldiers.

THE LADIES of Portsmouth are respectfully requested to furnish articles suitable for the occasion (as cakes, pies, &c.) also, Flowers for the decoration of the tables.

All contributions should be sent to the room in lower story of Nowell's Block, corner of State and Pleasant streets, on Monday P. M. or early Tuesday.

Per order of the Committee.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been used in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody, containing 125 engravings. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts—Sent to all parts, free of charge, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner, a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, or enclose 50 cents or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America for the sale of Dr. Velpeau's Celebrated Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for stoppages, irregularities, and other obstructions in females.

Caution—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $3, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
an30 No. 5 Beaver Street Albany, N. Y.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 Endicott Street, Boston, (Old Franklin,) on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of nearly twenty years, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfits the subject to transact business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with separate apartments, and charged for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your disease. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to the study and practice of the Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the subscriber, Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon, can give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&wly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. In all conditions, with no unpleasantness, medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. BRISCOE, by letter, describing their case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.
Boston, July 15, 1864. 17hSly

DR. M. BRISCOE still continues his successful treatment of Private Diseases and all Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charge moderate.

The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on the noted creek. This Company offer inducements seldom met with. The capital stock is small compared to the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Boiler at Titusville ready to ship, as that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. Stock will be advanced shortly, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any one of which larger and more certain dividends may at once be expected. Maps and full information given on application at the Treasurer's Office. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 27 Congress Street, Boston.

LEVI H. STRAW,
3m3awmh22 Treasurer.

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS ITSELF.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, unfading, durable metallic coat, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warran- to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the property for this company. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Hazelton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the Petroleum of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Allegheny river, and not twenty miles from our farm to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the twenty millions to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six million* of dollars. The last of the Four Farms, Mr. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and Mr. J. Wilcox, Esq., a lawyer of 76 Wall Street, New York, went out to see to the titles of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Run with East Oil Creek. The bay in the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a bed of undeveloped Coal cuts one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The Oil belts run from east to west, or from north east to south west, and pass from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil Rats south of Titusville, from which hundreds of fortunes have flowed. Here the Steele & Mead well flowed 2000 barrels per day—the Fountain 200—the Parker 600, and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five barrels per day Mattison farm, is that is not good for coal, is equal to the Flat below Titusville. Coal in that section is worth $13 per ton, and if the well should not flow, a good well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the purest refining per barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs $1 per day to work it, and it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and preventing geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPARD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepard of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on the same Oil belt, and I rely on this farm for over 900 wells. Just make computation of the cost of so many wells, and the yield per day, and the profit in a year, if they are as good as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your income from this farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let capitalists make up their own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and about two miles from the mouth of the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Cogswell Farm that has been yielding daily, we say that flows 800, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eighths full of machinery, it has flowed 230 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2,200 barrels. On the same Oil Belt, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield a flowing well. It is further north, the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of this flowing wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and well bored fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we will find in it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm to small lots for ten millions of dollars. Land on high bluffs some ways removed from the Cogswell well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil will be struck on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to make investments, by or on address

FARMING TOOLS, &c.

THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes of

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This difficulty, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites the gases. The saving of fuel is estimated at at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store three different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Manfinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Its convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARK'S.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prot. Ure's Recipe, (made of Alepps Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. *It is a good Ink*, but my occupation is all gone now. *Your Ink is the best article of the kind I ever saw.* It will not mould, nor does it make my inkstands froze up solid *twice* and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used I would not be without. I remain yours,
GEO. H. HOLMES.
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and had a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.* It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON H. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the best Ink I ever used. I have used J. Moor's Maynard & Noyes', D. J. Ridout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF a POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JULY 3, 1865.

THE NEW YORK NEWS has an article on the question, Shall the Negro vote? It says:—

The News can fairly claim to be the exponent here of Southern opinion and interest. That claim will be allowed in the South—it will scarcely be denied here.

The News certainly has been pro-rebel, and pro-rebellion, all the war. It is now for leaving this question to the several States,—and does not believe that the South is united in opposition to the elective franchise being extended to the negro. It says:—

We could mention many more than fifty leading men in the Southern States who seriously consider this the day and hour when the preservation and stability of Southern interests impel them to return on this subject to the ancient policy of the early Southern statesmen, [i. e., to have the negroes vote.]

The News maintains, as a matter of *right*, that the negroes ought to vote. It holds this remarkable language:

Nothing stood between the slave and *full* citizenship but this involuntary service—that impediment is gone, through the actual operation of the war, and the liberated black stands himself, a citizen in his *own* proper person, and not through the relation of another "called a master." Then if the abstract right to vote inheres in every citizen, why not in the native black man? What rule of law denies him that right? Is it, candidly, in the power of the State or of the National Government to give or to withhold the right? Is it not his absolute personal right, *now that he is liberated?* And if it is his, who shall take it from him, or who shall come between him and the *State* of which *he is a citizen?* It, as all other civic rights, may be forfeited by an adequate crime. But this is common to all citizens.

The States of the South will, each for itself, according to their own honor and policy, and not at the impertinent dictation of outsiders, regulate this undoubted right, as New York, Illinois, Massachusetts and other States regulate it; but with such humane, provident and economical regulations that this political power will not, in the hands of the South, be "a barren scepter in the grip."

There is no wish to deprive the *South* of all the political power that *belongs* to it—but there is no good reason why the *ghost* of the Slavocracy should have so many votes in Congress, that one decayed nabob in Charleston should count more than five workingmen in Portsmouth. *Equal and fair suffrage* is wanted. The democratic *principle* which the nabobs hate, is the one to be applied to the case. If the negro vote, and the poor white vote, would all be in favor of the old aristocracy? It is wonderful that Virginia goes the other way!

☞ A leading party print says:

One of the most cheering and hopeful things for the Democracy is that during the last four years it has got rid of the bulk of the scallawags who cursed the party in times past.

Whereupon, a humble follower reports:

That's so:—Some went over to the *secessionists*, and like Breckinridge and Sanders will be heard of no more. Others embraced radicalism for what they could make out of it, and are a *stench* in the public nostrils everywhere. Regenerated and redeemed, purified by adversity as by fire, the Democratic organization is once more the party of the people.

If it is so very *cheering* to get rid of 40 per cent. of its voters, wouldn't it be still more cheering to get rid of all the rest?

The compliment to the War Democrats is very beautiful, viz. that in the nostrils of the "organization," they smell worse than the secessionists. But let them be comforted. The "organization" may be regular,—but the party is very much divided in opinion,—and the returned soldiers will help it, over the left.

THE LEGISLATURE OF NEW HAMPSHIRE adjourned on Saturday morning, without day.—The Amendment of the Constitution of the United States, prohibiting Slavery, was ratified by the votes of both houses. In the House of Representatives, the vote stood 215 to 96. It was not as has been stated, a strict party vote. There are 114 Democratic members of the House, but eight of them voted with the Republicans. These Democrats were Batchelder of Nottingham, Clough of Sanbornton, Folsom of Upper Gilmanton, Fox of Tuftonborough, Whiting of Wilton, Rawson of Gilsum, Quincy of Rumney, and Tubbs of Gorham. And there must have been 10 others, either absent or not voting.

Resolutions were passed, almost without dissent, expressing confidence in President Johnson, and loyalty to the government. Also, with less unanimity, expressing the views of New Hampshire in favor of making all men equal before the laws, without aristocratic distinction of races.

Bills passed both houses;—for taxing the interest on U. S. Bonds, 25 per cent; and Incorporating the City Aqueduct.

A bill making new arrangements of School Committees and Schools in Portsmouth, passed the House, but failed in the Senate.

—The Sanitary Fair closed at Chicago last week. The receipts amount to $300,000.

NEW HAMPSHIRE ITEMS.

—— The annual meeting of the Nashua Manufacturing Companies was held Wednesday: they have had a prosperous year. The Nashua Company made over five million yards of goods, at a profit of $300,000, and paid two dividends of 10 per cent. each. The mills were worked half their power. The Jackson Mills made 1,700,000 yards of cloth, about one-fourth their capacity, and have paid two dividends, one of ten and the other of five per cent.

—— Major S. D. Farnsworth of Manchester, late Paymaster stationed at New Orleans, after having disbursed about three millions, has procured a settlement of his accounts by the Second Auditor, and received a balance of $1000.

—— Just before the draft in 1863, one Charles H. Brown of Candia escaped to Canada to avoid being drawn and sent to the front. He was drafted, however, and remained in Canada until about a month ago, when he returned to his home in Candia. On Wednesday last, the 28th inst., he was arrested as a deserter and taken to Concord.

—— In Winchester, June 15th, Alvin Kempton entered a well twenty feet deep for the purpose of cleaning it out. When he had got down about twelve feet, the sides of the wall began to cave in, and soon earth and rocks completely buried him to the depth of some twelve feet from the surface of the ground, where he remained about three and a half hours before he was rescued. People gathered about the well in large numbers, with whom Kempton conversed during the process of digging him out. Strange to relate he was but very slightly injured—no bones were broken, nor was the skin bruised but in a few places. He was very badly squeezed, however, and had a hard breathing time for a few hours.

—— On Monday last there was a severe snow storm in the White Mountain Notch, and on Wednesday a gale of such violence that it was impossible to travel. Thick shawls, overcoats and large wood fires have been the only comforts at the Mountains for a week past.

PRESIDENT LINCOLN AND JEFF. DAVIS. Gen. Sherman says he asked President Lincoln explicitly when at City Point, whether he wanted him to capture Jeff. Davis or let him escape, but the President gave him no reply except a story about a temperance lecturer, who, one day after a long ride in the hot sun, stopped at the house of a friend and was regaled with lemonade. His host insinuatingly asked if he wouldn't like the least drop of something stronger, to brace up his nerves after the exhausting heat and exercise. "No," replied the lecturer, "I couldn't think of it; I'm opposed to it on principle. But," he added, with a longing glance at black bottle that stood conveniently at hand, "if you could manage to put in a drop *unbeknownst* to me, I guess it wouldn't hurt me much!" "Now, General," Mr. Lincoln is said to have concluded, "I'm bound to oppose the escape of Jeff. Davis; but if you could manage to let him slip out unbeknownst like, I guess it wouldn't hurt me much!"

☞ We are really much obliged to our Mobile correspondent "Iota," for his full, graphic and interesting account of the terrible explosion in that city on May 24th; but the long time which necessarily elapsed in its mail transmission, (during which, of course, the telegraph headed it,) and the crowded state of our columns every day since, has compelled us to defer its publication, until at last we are reluctantly obliged to give it up.

— In Kentucky, Gov. Bramlette is delivering public speeches in favor of the Abolition Amendment, and the advantages of free labor over slave labor. He advises white free men to work and organize. He delivered such a speech in Louisville, on the same day when a small body of old fogies in New Hampshire were voting against the amendment, and against the current of events.

ANOTHER TROT TO PORTLAND.—The Boston Advertiser "hears that arrangements have been perfected for another trot from Boston to Portland between sunrise and sunset. A large bet made by the owner of the trotting mare Nelly Baker has been accepted, and the trial, we understand, is to come off within ten days. We are told that the gentleman is confident that his horse can perform the feat easily without any injury."

— Tyler & Co., of Philadelphia, contract to furnish 50,000 tons Schuylkill Coal to the U. S. Navy, at $5.51 per ton; and Mr. Field, of New York, to furnish 50,000 tons to the Army, at $5.34.

— The report of the Superintendent of Colored Schools in the District of Columbia shows 732 pupils and 11 teachers, most of whom are New England ladies. The schools are in a flourishing condition.

— Gen. Howard, the head of the Freedmen's department, has countermanded the order of a subordinate officer in Georgia, fixing a low price on labor.

Local.

POLICE COURT, June 30.—Frank Brown a common drunkard, was sent to the House of Correction for a period of thirty days, and pay costs of prosecution, $3.86.

George Washington Brown, an illustrious freemen of color, long since conceived the impression that the world owes him a living, and in practising this theory on Friday, he knocked down and robbed a sailor of an amount of property valued at $220, and for this interesting amusement he was held in the sum of $500 for his appearance at the October term of Court. And for the want of backers, a mittimus was issued which lodged him within the brick walls of the jail, where he will probably enjoy himself as the liberator of his race, J. Davis, does—by indulging in the skillful art of catching flies on the walls of the prison.

John Kehoe, a young man of notoriety, was arrested for complicity with the aforesaid George Washington B., but there was not sufficient evidence to retain him, and he was discharged.

Charles T. Lang and George Balch,—whose cases were continued from last month were again brought before the court, and Lang was held in the sum of $200 for his appearance next fall, and Balch was discharged, there not being proof of his guilt.

We have been furnished with the following unique specimen of letters importuning assistance from the city marshal in a domestic affair, and although it does not legitimately belong to a police court record, yet we give it as an illustration of the demands upon those whose misfortune it is to serve the public as policemen:—

Mr. Dresser Sir I want you to arrest my wife for I here she is in bail company at Portsmouth I am at homesick and she will come home to take care of me. I have had over 400 fits and very sick now I want her arrested anyway.

For *Thomas Fremont*,
formerly John S. Brown.

N. B. please not let her know who got her arrested. T F form J S B

Of course such an amount of intelligent information regarding a person whom the Marshal had never heard of, could not be acted upon precipitately, and so we give it publicity, in order that any person observing the lady referred to, in company with those whose reputation might be questioned, may arrest her on the spot, and send her to her waiting and anxious husband.

PRIZE CONUNDRUMS.—Why are the two little steamers that ply from this city to the Navy Yard like good soldiers? Because old Cloven Foot himself could not make 'em run.

What is alike fatal to the human race and to potatoes? *Tuber*cular consumption.

[The only prize which we think will be awarded the above, is surprise that any person but a lunatic would be guilty of writing such things for the perusal of our readers.]

THE PORTSMOUTH STEAM FACTORY. *To the Editors of the Boston Daily Advertiser*: Your reporter is in error in saying that the committee of the Portsmouth Steam Factory reported that the losses of the company "were not occasioned by mismanagement."

The committee felt that their duty was to investigate the present condition of the company, and was not to examine the management. That the affairs of the corporation have been mismanaged, is the very decidod opinion of at least

ONE OF THE COMMITTEE.

SALE OF REAL ESTATE.—William H. Hackett, Esq., sold at auction on Saturday, the estate at corner Water St., near the site of the Old South, for $1600. Mr. Edwin R. Laighton was the purchaser.

☞ We learn that orders have just been received at the Navy Yard to send the U. S. steamer Franklin to Boston for the purpose of receiving her engines and boilers.

— One of the lions at Washington just now is a cow which has marched with Sherman's army since November 19, 1864, and has traveled 1220 miles. She has constantly given from a gallon to a gallon and a quarter of milk daily. This veteran bovine bummer has been presented to the Soldiers' Home.

— Mrs. Wales has presented her husband with a boy baby. This second offspring, like the first, is a premature little Wale, whose preparatory education was lacking two months. Perhaps the English will adopt that as standard time.

GOLD, Saturday, 141 to 140. Only $40,000 were sent to Europe.

Grass for Sale Cheap.

SECOND TERM.

SCHOOL OF CHIROGRAPHY.

PROF. HINMAN

Begs leave to announce to the good citizens of Portsmouth and vicinity, that he will commence his Second Course of

Lectures and Blackboard Demonstrations in Spencerian Penmanship.

On MONDAY, July 3d, at 2 in the Afternoon, and 7 in the Evening,

AT ACADEMY HALL.

Terms—20 Lessons—Five Dollars.

PROF. H. courts investigation (by those who are competent,) of the character, details and results of this institution. Comparisons with schools of speciality in this country or Europe will find few to equal and none to excel.

The following testimonials from Gov. Goodwin, Col. J. N. Macomb, Jos. H. Foster and A. C. Hoyt, patrons of his first term in Portsmouth, are confirmatory of the above.

COMMENDATION No. 271.

Portsmouth, June 28, 1865.—Having examined many of the specimens and improvements, in the hand writing of scholars, under the instruction of Prof. Hinman, which are very marked, I cheerfully recommend him to the confidence and patronage of those who wish to improve their chirography. RICHARD GOODWIN.

LETTER OF COMMENDATION NO. 272.

Portsmouth, June 26, 1865.—SIR: Having seen the very great improvement made by your pupils in writing, I take great pleasure in recommending your system of instruction, and hope that all who wish to write a good hand will avail themselves of your teaching. I remain very respectfully, your obt. svt

J. N. MACOMB, Col. U. S. A.

COMMENDATION No. 273.

Portsmouth, June 26, 1865.—From experience in my own family, I can bear unqualified testimony to the efficiency of Prof. Hinman's method of instruction in Penmanship.

JOS. HILLER FOSTER.

COMMENDATION No. 274.

Portsmouth, June 26, 1865.—Having attended one term of Prof. Hinman's Writing School, and witnessed his wonderful faculty of teaching, I have no hesitation in saying that, from my own observation as well as the testimony of hundreds of others, he stands *first* as a demonstrator of Penmanship in this country. A. C. HOYT.

"To whom it may concern."

A Strictly PRIVATE CLASS (limited to ten) will be taught in the Morning, from 10 to 12.

Terms—20 Lessons—Ten Dollars.

☞ Instruction given at the RESIDENCE of Pupils.

Terms—20 Lessons—Twenty Dollars.

STATIONERY for sale at FOSTER'S BOOK-STORE, expressly for this School.

A CARD.

"To Whom it may Concern."

The subscriber having learned that certain parties in Portsmouth and vicinity (who are victims of a lack of sound judgement in regard to the capacity and speed of Row Boats, to say the least,) pretend to believe that the late Race between the shell boat "J. Horace Kent" and the "Uncle Abe" was not a fair test of the speed of the former,—that the Race was lost through the treachery of the representative (Walter Brown) of the "J. H. K," &c.

Now therefore, to the end that justice may be done to all parties concerned, the subscriber proposes to match the "Uncle Abe" (with any *Hom. Parsy*) to Row a Race with the "J. Horace Kent," pulled by any man in the United States, within fifteen days from date, from Portsmouth Bridge to the Stone Beacon, against the current, for $1000 a side. TIMOTHY DAME.

Special Notices.

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade mark by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm. Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. Bartley," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je23—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fall in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1286, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnaw1ymy28

[Communication.]

TREMENDOUS EXPLOSION—*Navy Yard Blown Up—All the Foreside of Kittery, and the East Side of Portsmouth.*—When such an announcement as this will be made, God only knows; but the probability of it at no very distant day is apparent: not to all,—for those most interested in it seem, strangely, to be as heedless as the "tempters of Providence" who choose to dwell near the craters of Volcanoes; nay, more so,—for volcanic mountains commonly give warning of an outbreak, while in the present case a stroke of lightning stronger than usual, or the careless introduction of a hammer or some other instrument of iron for work, into any of the two or three magazines—as it is reported has sometimes been done—may suddenly send us unwarned into eternity. Individual representations, long ago, of this danger, failed to be regarded; and a numerously signed petition would be but a slow work, whereas the danger is imminent, and an explosion would be terribly fatal.

To whose folly such large magazines and such a vast accumulation of gunpowder, may be attributed, I do not care to know. This I know, that in regard to this subject the present highly-respected authorities of the Navy Yard should be called into immediate exercise. Our community generally are not aware of the tons upon tons of powder and of combustible shells, whose reckless and reprehensible concentration constantly disturbs our peace, and threatens our lives every moment. "A word to the wise."

WILLOW BANK.

[Communicated.]

Messrs. Editors:—The spirit of the dog in the manger has been finely exemplified at our Navy Yard recently. Quite a large number of the employees at the yard belonging in Maine are the proprietors of farms, and these desired that all work at the yard for the present week should cease, in order to allow them an opportunity to go home and do their haying, thus depriving those who have no farms of the privilege of working. Instead of this, arrangements have been made that no man shall "lose his muster" who fails to answer roll-call this week. The fact is that men who own farms ought to cultivate them, but they work on the yard and complain of any reduction of wages from three dollars per day, at the same time that they are complaining at the high price of labor, because, forsooth, they cannot hire men to do their own work at home without paying them more than eighty cents per day! OUTSIDER.

☞ A little girl of a few months, fell from the third story window of a house at the West End of this city, a few days since, by the sudden flying open of a blind—falling 25 feet or so to the ground, and—wasn't hurt a bit! Fact, though if we didn't *know* of its accuracy, we should deem "the story about the *size* of a lie," as the old ladies used to say.

☞ The false report that Jackson & Co's. Express Office was broken open Friday night, grew out of the fact that a fellow who was arrested for robbing a sailor—among other things filched from Jack, had about him a receipt from the Express Co. for money, sent to Philadelphia by this tar; and it was erroneously supposed, must have stolen it from the Office.

☞ A big fellow who stole a hat on Saturday, from the store of Dearborn & Co., Market St., was arrested by ex-Mayor Dearborn ere he had gone half a rod, and taken into the store.

THE MOB SPIRIT.—The lack of law and government which permits all our towns and villages to be turned, every July, into bedlams, where arrogant rowdies of mature growth, and thoughtless children, are permitted to violate all regulations which are made for the general safety, the Journal well terms "the way to keep up the mob spirit." The Journal also disapproves of the bonfire on our Square the night before the Fourth, and says that "all such doings are no manifestations of patriotism, but only the first stepping stones to rowdyism and mobism. The boys who are permitted to steal the materials for a bonfire, have but little conscience in committing any other theft. The allowance of this annual outrage is the means of finding business for our Police Court for petty thefts during the year." True, no doubt; but the public, rather than the Police, are to blame for it; for many a man would now defend the absurd custom, who would be among the first to complain, should his house or store be burned thereby, or valuable property stolen from him.

☞ There was great disappointment, and not a little dissatisfaction, at the result of the late boat-race on our river—as there always must be in such contests; and some of the backers of Mr. Brown do not hesitate to charge him with selling the race—rowing a sell, as well as a shell. To give all such a chance to win their lost funds back, or to send more after them, Mr. Dame of Eliot (who is entirely responsible for all his statements,) publishes a card in another column this morning, which will be found of interest to some folks, and we trust for the sake of good sport, will be taken up by some plucky individual.

☞ The new steam fire engine Dearborn arrived on Friday night, and will probably be exhibited and tested on Pier Wharf this (Monday) forenoon between 10 and 11 o'clock—with salt water, on account of the temporary scarcity of fresh water in the city.

☞ Pike's Theatrical Company open at the Temple to-night, with a strong cast of a good bill. See the advertisement.

☞ A beautiful Sign—is that which Mr. Coffin has just put up for Ferguson & Co's Livery Stable in Vaughan street.

☞ See programme of arrangements for the reception of the soldiers on the Fourth, dinner, &c., in another column.

☞ Don't forget Mr. Hinman's Writing School which commences this evening.

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered.

Approved, July 8, 1862.

U. S. 7-30 LOAN.

THIRD SERIES,
$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the bile the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to
One cent per day on a $50 note.
Two cents " " " " **$100** "
Ten " " " " " **$500** "
20 " " " " " **$1000** "
$1 " " " " " **$5000** "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market. This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

INVITATION to RETURNED SOLDIERS.

The City Government

Would hereby cordially invite the Members of Co. G, 10th Regiment, N. H. V. and Co. K, 13th Reg. N. H. V. together with all other of our volunteer Soldiers who have received their discharge within the past three months; also all disabled men of both the Army & Navy in this district, to a Collation on the Fourth of July, wishing thus to testify in some slight degree, the gratitude of our citizens towards those who have so bravely and successfully stood forward for the defence of our rights and liberties.

Order of Exercises July 4th, in honor of our Returning Soldiers.

There will be a Welcoming Service at the Court House, where all those invited as above are requested to assemble. The meeting will be called to order by His Honor the Mayor at 11 o'clock A. M. The services will consist of Prayer, Music, Addresses, Music, Addresses, Music, Benediction. The company will then proceed to the room at the corner of State and Pleasant Streets, where a Collation will be provided.

Collation for Returned Soldiers.

THE LADIES of Portsmouth are respectfully requested to furnish articles suitable for the occasion (as cakes, pies, &c.) also, Flowers for the decoration of the tables.

All contributions should be sent to the room in lower story of Nowell's Block, corner of State and Pleasant streets, on Monday P. M. or early Tuesday.

For order of the Committee.

CITY OF PORTSMOUTH.

In the year of our Lord one thousand eight hundred and sixty-five.

No. 99.

An Ordinance directing the manner of Publishing the Ordinances, Resolutions and Orders of the City Council.

Be it ordained by the City Council of the City of Portsmouth, as follows:

Section 1. That all the Ordinances of the City Council hereafter passed, and such Resolutions and Orders as the Mayor and Aldermen may direct, shall be published by causing the same to be inserted as engrossed in the daily Chronicle and Portsmouth Journal, newspapers published in the city of Portsmouth, at the time of the passage of such Ordinances, resolutions or orders.

Passed March 24, 1866.

A true copy, attest,
MARCELLUS BUFFORD, City Clerk.

No. 100.

An Ordinance relating to the Public Health.

Be it ordained, &c. Sect. 1. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health officers.

Sect. 2. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health officers.

Sect. 3. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health officers in the name of the City.

Passed March 30, 1865.

A true copy. Attest.
MARCELLUS BUFFORD, City Clerk.

No. 101.

CITY OF PORTSMOUTH.

An Ordinance for the re-organization of the City Police.

Be it ordained by the City Council of the City of Portsmouth as follows:

SECTION 1. That a Marshal and such number of Assistant Marshals as may be deemed necessary, not exceeding three, who shall severally be appointed Constables and Police Officers, and also such number of Police Officers as may be deemed necessary, shall be appointed every year in the manner prescribed by law; and, before entering upon the discharge of the duties of their respective offices, they shall, in the same manner, be sworn, or affirmed to the faithful performance thereof; and the Marshal, and Assistant Marshals and Constables shall severally give bonds to the City in the sum of one thousand dollars, with sureties in the same sum to be approved by the Mayor and Board of Aldermen, for the faithful performance of the duties of their respective offices.

SECTION 2. The Marshal shall, under the direction of the Mayor, have precedence over, and the entire control of the Assistant Marshals, Constables and Police Officers when they are engaged in the service of the City; and, in his absence, the Assistant Marshals shall, in the order of their appointment, officiate instead of him and have the same precedence and control. The Marshal shall devote his whole time to the municipal affairs of the City, and to the prompt execution of the peace, order and cleanliness thereof; and to this end he shall execute and enforce the special laws relating to the City, the ordinances of the City, and the orders of the Mayor and Aldermen. He shall take notice of all nuisances, impediments and obstructions in the streets, lanes, alleys, avenues, squares and public places of the City, and remove the same; or take all proper measures in relation thereto, according to law, under the direction of the Mayor and Aldermen. He shall everynight attend at his office to the organization of the night watch and police, at the hour appointed by the Mayor and Aldermen, and assign their respective limits; and he shall ascertain whether the Assistant Marshals, Constables and Police Officers are attentive and faithful in the performance of their duties, and report forthwith to the Mayor any such officer who shall be found negligent or unfaithful. He shall lay before the Mayor and Aldermen once in three months, and oftener if required by them, a statement of all the services performed by him, the Assistant Marshals and Police Officers.

SECTION 3. The office of the Marshal shall be open at all times, under the direction of the Mayor and Aldermen, for the purpose of receiving complaints from the inhabitants, respecting offences against the laws and ordinances; and he shall institute prosecutions in all proper cases, and attend regularly at all trials of offenders prosecuted in behalf of the City, and use all lawful and proper means for their effectual prosecution and conviction.

SECTION 4. It shall be the duty of the Assistant Marshals to act through the week, Sundays included, as the day police to assist the Marshal in the discharge of his official duties; to execute the orders of the Mayor and the Marshal; to officiate for the Marshal in his absence, in the order of their appointment; to serve all warrants and subpœnas in criminal matters which they may receive from the Marshal or the Police Court; to prevent all disturbances and violations of law, and to arrest and commit to the proceedings every person found by them violating any of the laws of the State, or ordinances of the City; and they shall do all other duties of the Mayor and Aldermen. It shall be the duty of the Assistant Marshals to act as the Truancy Committee, and take all necessary measures to compel the regular attendance at school of the children of proper age.

SECTION 5. The Police Officers shall devote so much of their time as may be necessary, to the performance of the duties of their respective offices as a night watch and police, and they shall while on duty constantly patrol throughout their respective limits. It shall be their duty to prevent all disturbances and violations of law, and to arrest and commit to the Watch-house all persons found by them violating any of the laws of the State or ordinances of the City; and they shall obey all rules and regulations of the Mayor and Aldermen, and the orders of the Mayor and of the Marshal. In case of the neglect of either of the Police Officers to attend punctually and perform his duties as above, the Marshal shall have authority to assign another Police Officer to perform them in his stead so long as such neglect may continue.

SECTION 6. Whenever in the opinion of the Mayor and Aldermen, circumstances shall render it necessary, the said Mayor and Aldermen may appoint a Board of Special Police Officers in the manner prescribed by law, who shall have the powers and perform the duties provided by law, under the direction of the Mayor and Aldermen; and, before entering upon the duties of said office, they shall severally be sworn or affirmed to the faithful performance thereof.

SECTION 7. The Assistant Marshals and all Police Officers shall make oath to the Marshal, at such reports of their official acts and proceedings as he shall direct. The Assistant Marshals shall severally give to the Marshal, under oath, a true account of all fees by them received, except witness fees, and shall pay the same to the City Marshal; and the City Marshal shall once in three months make to the Mayor and Aldermen a true account of all fees by him received, except witness fees, and of all sums paid to him by the Assistant Marshals, and shall pay the same to the City Treasurer and shall present his receipt to the Mayor and Aldermen.

SECTION 8. Ordinances numbered eight, fifty-five and sixty-seven are hereby repealed.

Passed March 20, 1865.

A true copy, attest.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his references are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest remedies and the latest results for Private diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Nose, Nodes, Nightly Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly safe in the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Married or Single—DISCLOSURES Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plain, practical facts, with 125 engravings, sent by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy, Sections on Love, or Marriage Relations, Manhood—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Worth tenfold to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America for the sale of Dr. Michelet's celebrated male Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package. By the guidance of patent Rules, on receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, on closing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
an10 No. 5 BeaverStreet Albany, N. Y.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott Street, Boston, Mass., as HEAD QUARTERS, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unbounded extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, and unfits the fortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will find his house pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to his office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher than the professional attainments of Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should call at this office.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&w1y

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, peculiar to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, Sterility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

Medicine will be sent to any part of the country by express or mail; addressed by a communication, stating particulars, will receive prompt attention.

Office, No. 22 Endicott street.

Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that clients see none but the Doctor himself.

Address Dr. BRISCOE, at No. 22 Endicott St. Boston, Mass., stating symptoms, and all communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in their cases.

Office hours from 9 A. M. to 9 P. M.

Boston, July 15, 1864. ThSly

DR. M. S. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 22 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The properties of this Company consist of 648 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Maple, Coquet* and *Bonanza* wells on the noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the McElhany farm has commenced flowing, which gives the Company every hope of success. The Officers of this Company, in placing this property before the New England public, have full confidence that this property yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen promoters in forming this company to be a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the property for this company. He did so. Col. B. F. Mar, tin, Wm. F. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 54 Pearl St., Boston, and Daniel E. Lancaster 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Belt seems to be located between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the most profit to the State of Pennsylvania, as Corn Curtin says in his Message, *fifty six million* of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Titusville, and Matthew Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, visited our Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The land is peculiarly adapted for oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is four and a half miles in a direct line east of the great Oil Rate south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed 2000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 50 barrels daily. Nine-out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the Farm below Titusville. Coal in that section is worth $13 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, but by pipe furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than this. It costs $2000 to put down a well, and it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and preventing geological features of a more full and perfect character than any other that I am acquainted with, and I have spent much time during the last few months in examining and selecting Oil Territory in Lawrence, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPERD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepard of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on most acres for 10 wells, and on this farm for over 900 wells. Just make computation of the cost of so many wells, and the yield and profit on the product, if they do not are as good as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your interest in this Farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. Farms have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well, that flows a barrel an hour, and every that flows 200, the Maple Shade and other noted flowing wells, and pumping wells without limit. This farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is out. It began to flow at the middle of January, with its sand pump rod in, and its pipe seven-eights full of machinery. It has flowed 250 barrels per day ever since.—They have not dared to pull out to the other rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2,000 barrels. Below this oil on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little further north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised to high hopes, is the Byles Farm, of 105 acres, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, lease for fifty years at the rate of $50,000 for strips twelve rods by sixteen, each down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 340 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address
GEO. A. FRENCH,

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the disagreeable dust of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK,
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with no superior on earth, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. Dampers, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, or they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

The above for sale by
E. A. STEVENS,
46 Market Street

Blood's Patent Improved Sifter.
For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the kitchen it is the right thing in the right place. No household would be without it after a single trial. *Rural.* (It requires but one quarter the time of the old method.) *Neat.* (The hands do not come in contact with the article sifted,—there is no dust, no scattering of contents, no cold fingers. *Durable.* (It is warranted to last ten years.)
Grocers use it to bolt their meal, saving time, expense and waste. Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Paint Dealers, for sifting Colors, Whiting, &c. For sifting Cream Tartar, nothing will take its place. **Price $1.00.** For sale by
E. A. STEVENS.

FAMILY MEDICINES
Need only be known to be universally esteemed.
FAMILY PILLS.—The Pills are wholly Vegetable, and although effective, are as easy and safe physic for the most feeble constitutions, and have proved beneficial for the following Diseases: Headache, Dysentery, Fits, Pain in the Side, Stomach and Bowels, Jaundice, Liver and Spinal Complaints, and all kinds of Bilious Disorders.
N. B.—Every one who buys and uses these Pills, shall have all the pay refunded, if he finds them not worth all they cost.
DR. SWETT'S PANACEA, for Cancers, Leprosy, Salt Rheum or King's Evil, Erysipelas or St. Anthony's Fire, Canker in the Throat or Mouth, Rising in the Head, Sore Eyes, and Consumptive Complaints.
VEGETABLE ANTI-DYSPEPTIC BITTERS.
VEGETABLE CATHARTIC CONSERVE, for Piles, Dyspeptic Complaints, and Costiveness. It is a pleasant, easy, sure, and highly recommended Physic for Children.
RUMOR WASH.—This preparation speedily cures sores and pimples of the face. Its immediate efficacy is its recommendation.
COMPOUND CORDIAL OF DANDELION, SPIKENARD AND BONESET—a remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and pain in the Head, Stomach and side, Universal Debility, and the whole family of Consumptive Complaints.
NERVE LINIMENT, highly recommended for Rheumatism, Pain in the Head, Breast, Back or Joints, Stiff Neck, Sore Throat, Croup, the Piles, Sprains, &c.
☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

The Best nk in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astonishing testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to the old country.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MANCHESTER AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 7, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful ink which you have given to the public. I have made ink for eight years past, from Prof. Ure's Recipe, (made of Aloppacaid, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good ink, but my occupation is all gone now. *Your ink is the best article of the kind I ever saw.* This is no puff. Some in my inkstands froze up solid two weeks and it now flows as freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. FOLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder you sent, and to my surprise that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this, to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and have had a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient serv't,
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that want a good ink. It is the best Ink I ever used. I have used J. Moor's Maynard & Noyes', D. J. Risteout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Sole Agent.
P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to make it a staple to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awawdm

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JULY 4, 1865.

THINGS NOT DONE.—It is often as desirable to know what *failed* to be done by a legislature, as to know what was done.—Our legislature did not pass the proposed bill in regard to the Concord Railroad. On the contrary the House passed the following resolution, by 178 votes to 9:—That the subject of the contract between the Concord and the Nashua and Lowell Railroad, and an act to regulate the running of trains on the Concord Railroad, and for other purposes, and sundry petitions in relation thereto, be indefinitely postponed.

The subject of calling a convention to revise the State Constitution, was referred to the next legislature. 211 towns voted in November on the question of holding a Constitutional Convention, and that 18,422 voted in favor and 13,348 voted against it. Of these 1907, were in favor of limiting the Convention to the question of soldier's voting. The bill regulating Taxes on Savings Banks was indefinitely postponed.

☞ In the N. H. Senate, on Friday, the Anti-Slavery Amendment of the United States Constitution was ratified by the following vote:

Affirmative, Messrs. Frink, Dearborn, Straw, Burnham, Burleigh, Newell, Perkins Glidden and Barnard — 9. Negative, Messrs. Mason, Morse and Bingham—3. And the amendment was ratified.

For the Chronicle.

HAYMAKING.—Improved machines for mowing, a great saving of labor, have become very common; but most farmers in this quarter still adhere to the old method of making hay. Modern science has discovered an improved method. Many of the best farmers in other parts of the country, and some in this, after fair experiments, make their hay in the following manner. Never spread the hay in the swath, but whether the hay is mown in the forenoon or the afternoon, be sure to have it raked up and well packed in cocks. It will then undergo what is commonly called the "sweating process," in other words, it is now called curing in the cocks.

When the mown grass is left over night in the swath, it is injured by the night moisture, as well as by clouds and rainy weather the next day, which often happens; but when cocked up in a green state, it will not be injured by several days' rain, except very little on the outside,—nor will it mould, as there will be an evaporation from it, which as chemists know is a cooling process.

After being so cured in the cock, by spreading the first fair hay-day, and turning the hay three, sometimes four times, the hay will be ready to be put in the barn by about 2 o'clock P. M.

When I first adopted the new method I was a little surprised to see how fast the hay would dry after being cured in the cock. The object is to dry the *juices in*, instead of converting the grass into mere dry straw. Thus well made, the hay has a greenish color and agreeable smell, has more nutriment when the juices are dried in, and is worth two dollars a ton more than hay made in the old mode. AGRICOLA.

— Mrs. Ellen Bond, a slave woman now at Fortress Monroe, accompanied Mrs. Jeff. Davis in her flight and was present when Davis was captured. She tells the correspondent of the Philadelphia Inquirer, that Mrs. Davis threw her water-proof cloak and shawl over Davis, who appealed to her to take him out of the tent and endeavor to secure his escape. She led Davis forth, but was at once confronted by the soldiers, who took him into custody.

— A Norfolk paper, speaking of the late election there, alleges that the radicals were composed mostly of the old residents of Norfolk, while the settlers from the North who were entitled to vote, opposed giving the right of suffrage to the blacks, and either cast their ballots for Tabb or kept away from the polls.

— The people of Brooklyn, N. Y., are so scandalized by the frequency of rowdy demonstrations, especially on Sundays, that some of them give notice that if the police do not maintain order, they will defend themselves and their families the best way they can, by the formation of Vigilance Committees.

— Edward N. Scammon alias Prof. Castello, who has been gaining a living by swallowing stones and swords, was arrested in Brunswick, Me., on Monday, for breaking into a dwelling house and stealing a gold watch and other articles. He pleaded guilty. His mother lives in Andover, Mass.]

Local.

☞ A gentleman from the rural districts recently accompanied his son, a delicate youth of about 200 pounds, to the Portsmouth Navy Yard, to solicit for him a job of work, the boy having served three years or more in the army, and therefore was entitled to preference over those who have been doing their fighting "at home."

The father accordingly presented himself to the proper authorities, when the following dialogue ensued:

"What claim do you present, sir."

"What"

"Has the young man been in the army, or elsewhere served his country?"

"Yes *sir*, and he's a big fighter too. He killed every d——d rebel he come across, licked any quantity of copperheads, and when he got home he licked me, the old woman, and all the young ones. If he don't desarve a job, nobody never did!"

It is needless to add that the "fitin man" was taken on.

☞ A day or two since two young gentlemen, Mr. Fletcher D. Locke and Lieut. Welles of this city, hired a team of one of our stable-keepers to go to the beach, and on their return from the Atlantic House one of the bolts which holds the shaft to the forward axle broke off, and the horse, which was a fiery animal, started into a run, attaining at last a speed sufficient to capsize the carriage, throwing the occupants out, and injuring them severely. The horse was stopped about half a mile from the wreck by a farmer, who also kindly brought the injured individuals to this city. We are often surprised that accidents do not occur more frequently, when we realize the number of break-your-neck teams that are let now adays. COM.

[Not to mention break-neck drivers, eh? *Ed. Chron.*]

NEW HAMPSHIRE ITEMS.

—— The Mirror informs us that Hon. John Wentworth, of Chicago, "Long John" as he is more commonly termed, was the "lion" at Concord on the 30th. He is on a visit to his brothers, and sisters. He will remain in the State a week or two—is in the finest of health, and is much stouter and heavier than eight years ago.

—— Dexter Harris of West Canaan, after working in the field all day Saturday, 17th ult., was taken ill about 7 o'clock that evening and died in two hours.

—— Julius Cone, for years in the employ of Rollins & Co., druggists, of Concord, having recently purchased a farm in Columbia, his friends in Concord presented him with the note of $800 which he was owing at the bank, and a $500 U. S. 7 30 bond. Other friends secretly entered his sleeping apartment and left in it farming utensils, "so many articles and of such variety," "that friend Cone thought he was in a hardware store rather than a drug store."

—— A horse and buggy were stolen from the farm of George Williams, in Hudson, on Sunday, June 26, by three boys, and driven in the direction of Pepperell. Fifty dollars reward is offered for the arrest of the thieves and recovery of the property.

—— On Saturday night, at Concord, a soldier of Co. C, 11th V. R. C., giving his name as W. T. Moulden, shot policeman James E. Rand, with a small five-shooter, the ball passing through the fleshy part of his right arm. Moulden and another soldier were obstructing the sidewalk, shoving passers into the gutter. He turned upon Rand and fired twice as the latter was chasing him to make an arrest. Moulden and his companion, James K. Eachus, same corps, are both arrested. Rand is doing well. Moulden hails from Alfonte, Indiana.

ATTEMPT AT ROBBERY.—At Manchester on Friday afternoon John Gallagher and James Campbell, two young men, were arrested on the charge of highway robbery near the Catholic Cemetery on the road to Bedford. They attempted to rob John McGilvary of Bedford, who testified that he left the city about 4 P. M., and when near the Ryefield in Bedford saw two persons ahead in the edge of the woods. As he came near them, one of them (Gallagher) stepped up and took his horse by the head, and at the same time drew a pistol from his pocket and aimed it at witness, saying "your life or your money;" the other person (Campbell) brandishing a large knife or dirk, made the same exclamation. McGilvary offered some scrip (5, 10 and 25 cents currency) when the robber with the dirk, demanded his wallet fiercely and attempted to snatch it, without succeeding. The wife of witness, who was with him, cried out "don't shoot," "let us go,"—at the same time striking and starting the horse so quickly that they got off. An officer arrested the prisoners about 5 o'clock, finding a loaded revolver in possession of Gallagher and a sheath knife with the other. They attemped to run and hide when first seen, but he caught and brought them to the police court, where they were held to bail in the sum of $500. The Union says the prisoners are about sixteen or eighteen years of age, and it is reported that they belong in M.—It would not be very strange, if it should be found these were the same nice young men who robbed a Bedford farmer on the late Fast Day.

☞ The Portland Advertiser says the outside bets on the long horse-trot are estimated at $20,000, and that the distance from Boston to Portland by the old post route is estimated at 116 miles; and all the papers say the bets were made two and three to one on old Lion—which was foolish odds to give, under the best circumstances. The Advertiser also says:

The attempt to drive a horse this distance in a single day over a rough road, is we believe unprecedented; although several noted matches against time are fresh in our memory. Two or more horses in this country have accomplished the feat of trotting twenty miles in one hour, on a track; and a few years since a man undertook to drive a horse one hundred miles in ten hours on one of the Long Island racing courses. The animal went some ninety-eight or ninety-nine miles well inside of time, but fell dead on the track with the feat so nearly accomplished.

It is stated that Lion was put in training ten days, and up to the day of the race easily did his exercise of sixty miles per day; and that on a previous occasion he had been driven ninety miles in a day, and when taken out of harness capered like a colt. But the owner says his exercise was 10 to 30 miles per day.

The Portland Argus says:

Some appear to believe that the animal was poisoned at Saco, and others insinuate that he could have come through, had his backers desired. We give this as mere street talk. The remains of the dead horse hero were visited by a large number of people.

The Biddeford Journal says:

The horse was a noble-looking animal, and our opinion is, if properly fed and driven, would have won. The horse was plied with Jamaica rum, which was his only stimulous; and the driving, according to our theory, was stupid. The first five hours he was driven at the rate of 12 miles an hour! He reached Kennebunk at 3:30, apparently in good condition. There was then time enough remaining to have *walked* the horse to Portland; when instead, he was driven the nine miles to Saco in one hour,—too much for an ordinary fresh horse. A needless half mile was traveled over in reaching the Saco stable.

It is a mistake, that he was driven 12 miles an hour at all, we think; though, with many others, we do believe that had he been eased a little when he began to falter, he would have pulled through. The Herald said that when he reached Newburyport, the driver appeared the more wearied of the two, from "holding" him; and we understand that he was "free" enough to be driven without a whip as far as below Saco—and that when he began to fail at the hill near Scarboro, the driver took a whip. There is where the cry of cruelty as well folly comes in, we think; for it seems madness to crowd a jaded horse up a steep rise at an eight or ten mile gait. All riders of long routes know that a horse rarely thus breaks utterly down in a minute; and that usually he can walk for many miles, after all power to trot is worn out of him; and death, especially so suddenly, does not often ensue, even from being driven to an utter stand-still. Probably the poor animal's "heart" failed him—that organ actually refused further rapid service; and the forcing him up that hill was too much. We believe he would have won, had his powers been better husbanded from that point.

Then again, Lion was not allowed to relax the terrible strain on his muscles at all, by lying down, on the whole route; when everybody is aware what a blessed relief even one minute's complete rest is to a tired man or other animal. We think he should have been allowed to lie down at least twice on the way.

As to feed, probably he was in no condition to digest it at all on the route, and we question whether on such rapid work it would have done him material good. The Boston Post says he scoured considerably soon after leaving Boston, as also did the mare which was driven to Portsmouth with him. They were certainly in very poor condition for eating; and the Arabs drive their horses very long journeys without baiting at all.

The reports put in circulation by the owners of both horses, that they were poisoned or dosed, we think worthy of little consideration. The simple fact is, they were both overtaxed, and must fail somehow. Old Lion (said to be 14 years) was a mighty horse, but his great stints, so often set him, had worn him out. However, he died gallantly, with the harness on, and we don't think, such an awful death, after all—perhaps no worse than most horses die. He certainly "acted well *his* part," whatever may be thought of his owner and driver. "Poor old horse! let him die!" He deserved a better fate, and the crown of victory.

We put no faith in the rumor that his owner intends to travel the same road again, though it is said that other parties do; but we have no doubt there are horses that *can* do the feat without injury—in fact, old Lion may fairly be said to have done as much, considering the spare time he had. With the single remark that he was certainly driven very carefully and well in most respects—going around and not over any stones or bunches in the road which could be avoided—we must declare time's up, and cut short this screed of horse-talk, which is getting to be as long as that race; but which, like many another trot, we did not intend to be got into making.

P. S.—The Boston Herald says foul play is suspected, and the stomach of the horse has been preserved and the contents are to be analyzed. And Mr. Brackett, the owner, says Lion had a natural gait of 12 miles the hour, and all who knew him, thought he would do the job set him; and after being in the hands of Mr. Briggs, the driver, was put to regular work of 10 to 30 miles a day, of which he took no notice nor showed signs of fatigue. Mr. B. continues as below; and it will be seen his statements do not agree with others made:

I have not been in the habit of matching horses, this being my first match; but I have been in the horse business for the past 30 years, and consider myself well able to judge of a horse. No trouble or signs of fatigue were shown until within five miles of his destination, when he suddenly stopped, and in less than ten minutes he was dead. At the time he left Saco, bets were offered by outside parties of $500 to $50 that he would accomplish his task, but the offers went without takers. After arriving from Saco I was offered, *by parties interested*, $2000 not to let my horse go into Portland, or, to *throw the race*," the parties being well aware of my ability to win. Furthermore I have in my possession a copy of a telegram directed to one of these parties in Portland by another, which reads as follows: "*He will get there. Stop him if possible;*" with name of sender in full. By accident the original telegram came into my possession, and I ask the public to judge what such a message indicates. There was not any cruelty shown, nor was the horse ever driven, as the driver was obliged to hold him back for fear of too much exertion of the free will of the horse.

Frank Briggs, the driver, also agrees with this statement, and says:

At the time of starting, no horse was ever in better condition. Starting from Boston at 4:30 A. M., we reached Salem at 6;30, making sixteen miles in two hours, and thence to Portsmouth, where we arrived about 11 o'clock. The crowd being so great at Portsmouth that it was with difficulty we reached the stable, which rather fretted the horse, but after clearing the stable of the crowd by the police, the horse took his feed well and eat all that I gave him, and was in tip top condition, with no appearance of fatigue.

After 1 hour and 20 minutes rest, we started for Saco, the horse driving as free as on starting from Boston; arriving there at about 15 minutes of 5 o'clock, the horse looking fresh and well as before leaving Portsmouth, and taking his oat meal gruel with a good relish. After a half-hour's rest we started for Portland in good condition, with no signs of fatigue.

The condition of the horse was such that wagers were offered by outside parties of $500 to $50 that we should win the race easily. Leaving Saco, we jogged along at our ease for some 10 miles, when suddenly I noticed the horse faltered. I urged him on, but he not responding, I immediately stopped and unharnessed him, and he died in a few minutes after. In my judgement the cause of his death was other than fatigue or hard driving. The horse was not urged, but kept back the whole distance, and in my opinion was well able to perform the race.

MARRIAGES.

In Newcastle, July 2d, by Rev. Mr. Alden, Mr. ABRAM C. MELOON to Miss LAVINA TARLTON.

DEATHS.

In Newburyport, June 30th, very suddenly, Mrs. TABITHA LE BRETON, widow of Capt. Peter Le Breton, aged 87 years 8 mos.

A CARD.

"To Whom it may Concern."

The subscriber having learned that certain parties in Portsmouth and vicinity who are victims of a lack of sound judgement in regard to the capacity and speed of Row Boats, to say the least,) pretend to believe that the late Race between the shell boat "J. Horace Kent" and the "Uncle Abe" was not a fair test of the speed of the former,—that the Race was lost through the treachery of the representative (Walter Brown) of the "J. H. K.," &c.

Now therefore, to the end that justice may be done to all parties concerned, the subscriber proposes to match the "Uncle Abe" (with any *Non. Pareil*) to Row a Race with the "J. Horace Kent," pulled by any man in the United States, within fifteen days from date, from Portsmouth Bridge to the Stone Beacon, against the current, for $1000 a side. TIMOTHY DAME.

Special Notices.

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,

Agents for the American Watch Company,

Je28—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Burne's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

Special Notices.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of what *we do know*, after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

☞ **A Physiological View of Marriage**—Containing nearly 800 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 81 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally or by mail*, and medicines sent to any part of the world. mch15—3mdawsn

Local.

Invitation to Returned Soldiers.

THE CITY GOVERNMENT

Would hereby cordially invite the Members of Co. G. 10th Regiment N. H. V., and Co. K, 13th Regt. N. H. V., together with all other of our volunteer Soldiers who have received their discharge within the past three months; also all disabled men of both the Army and Navy in this District,—to a COLLATION on the 4th of July, wishing thus to testify, in some slight degree, the gratitude of our citizens towards those who have so bravely and successfully stood forward for the defence of our rights and liberties.

Order of Exercises July 4th, in honor of our Returning Soldiers.

There will be a Welcoming Service at the Court House, where all those invited as above are requested to assemble. The meeting will be called to order by His Honor the Mayor at 11 o'clock A. M. The services will consist of

Prayer,
Music,
Addresses,
Music,
Addresses,
Music,
Benediction.

The company will then proceed to the room at the corner of State and Pleasant Streets, where a Collation will be provided.

FANTASTICS.—We understand that these odd creatures will parambulate our streets this morning between half-past 7 and 10 o'clock. As our city fathers did not see fit to get up any celebration, this little farce by the sons will comprise the out door entertainment for the day.

For the Chronicle.

Messrs. Editors:—Your remarks, a few days since, about improvements in the city, were certainly commendable; but building a bridge over the South Pond for the sake of a street "four rods wide," through Mr. Elwyn's land, looks to me as paying dear for the whistle. Would not Mr. Elwyn receive more benefit than the city?* Besides, would there not be danger from crowds crossing the bridge, or children climbing over the railing?

Would it not be better to have a public walk, with trees, flowers and shrubbery, from the Universalist Church to Auburn Street? a place where our citizens could take an airing, free from bricks, heat, dust and dirt; and where young children can be carried out, without encumbering the street walks, and receive more quiet and wholesome air, when their young bodies are first forming either for a puny or a vigorous constitution. * * * Our city is really in want of such a place, and unless the inhabitants are willing to see their children that do not die and fill premature graves, come to be sickly dwarfs, they should be willing to pay the small sum it would be to each, for such a place of recreation.

Those of us who visit other cities, can see commons, parks, malls or gardens; but when we come home, we see and feel the need of such here, and regret that Portsmouth has none.

Who of our citizens that have the leisure, and would like to receive the lasting gratitude of their fellows, will make a move in the matter? It would be but a slight effort if all would move together. I think I hear, "All very well, but not now; for we are greatly in debt." True, but we never shall get out of it unless we have health to do it with. B.

[**Answer.*—Anybody who knows Mr. Elwyn, will be perfectly sure that his motive, in the generous offer referred to, which was made years ago, was solely to promote the public good—since while under other circumstances, a full share of the benefits of the acceptance of his liberality would naturally accrue to him, (as, indeed, we can see no good reason why it should not,) yet as it is generally understood that he neither desires nor will consent to sell an acre of his lands, it would seem he is far above any such suspicion.—*Ed. Chron.*]

Communication.

Messrs. Editors:—The effort of our police to abate the nuisance of loafing upon the sidewalks, having called forth a gentle remonstrance from a correspondent against enforcing the law upon "respectable" citizens, has caused the statement by several gentlemen doing business on Congress street, that the "respectable" loafers are among the most annoying that haunt the fronts of their premises.

A literary gentleman informed me that on one occasion he was arrested in New York while returning home at a late hour from a party. Brought before the night clerk at the station-house, he protested his innocence of the charge preferred against him, and was informed that he could have no idea of the number of innocent persons who were brought there. On his then asseverating his "respectability," he was told that "none but the most respectable persons were commonly brought there." In the morning several well-known citizens being made acquainted with his situation, obtained his release.

"Respectability" should be no cloak to cover infractions of law or order; and if the plea be allowed, who shall draw the line between a respectable man and a vagabond? IXION.

THE GLORIOUS FOURTH is here, and in all its glory too—whether we celebrate it or not. And in fact, to *be* itself, it needs no "celebration," more than the lily requires paint or the rose perfume. But for our own sakes, and especially for influence on the young, would we always have significant, appropriate and patriotic public notice of the day—and such we regret has been pretty much neglected here this year, we hope for the last time.

And yet we shall not be entirely without public festivities and rejoicings. The Soldiers' Collation, of which of which official notice is given elsewhere, will be an occasion of interest and pleasure to many. And this evening we are to have music on Market Square by the Portsmouth Cornet Band.

FOURTH OF JULY 1865.

AN ODE OF WELCOME.

INSCRIBED TO OUR RETURNED HEROES.

Fiercely has the conflict raged,
On the soil contested,
Holly has the war been waged,—
Treason's tide well breasted;
Oft upon the cause of right
Have the clouds portended
Dire defeat,—but God's own might
Hath our cause defended!

Thousands on ensanguined fields
Have their hearts-blood given,
Hosts have stood as living shields,
In the sight of heaven,
Standing bulwark-like before
Fiend, assassin, traitor,
Fearing not the cannon's roar,
Nor their country's hater!

God be praised! sweet peace has come,
Quelled is war's fierce spirit;
Vaunting slavery's stricken dumb,—
Nevermore we'll fear it!
Ancient Right prevailals,
Floats our flag in honor;
VIRTUE, star-pure, JUSTICE hails,
With FREEDOM'S robe upon her!

Patriot squadrons, seamed and scarred,
Hate and Hon-hearted,
Honor bright and fame unmarred,
Have for home departed;
And the Nation's day of birth,
Doubling pure devotion,
Shall not show a stolid dearth
Of deep heart-emotion.

Echo, then, the greeting shout
For our braves returning,
Hang each hallowed banner out,
Let our zeal be burning!
Show our heroes, tried and true,
That their deeds shall ever
Grateful feelings wake anew,—
Forget them, Freemen, NEVER!

EDWARD P. NOWELL.

INDEED!—The Stars and Bars says their office was sacked "by the Booth guerrillas," who, of course, are "democrats" to a man. Really, we are glad to hear it; but the public has always supposed, before tbit, that they were republicans who cleaned out that concern.

☞ Our readers will notice in another column the advertisement of our old friend Pike of theatrical fame, who comes back well flanked by excellent actors and actresses, who cannot fail to entertain and amuse. Sam Ryan is hard to beat as a comedian.

☞ Among the opportunities for enjoyment to-day,—the Pic-Nic at Sagamore Grove, and the Steamboat Excursion this afternoon, will doubtless be improved. See advertisements.

☞ It is hardly necessary to announce that we shall print no Chronicle to-morrow morning.

☞ The Rehearsal of the Philharmonic Society for this week, is appointed for Wednesday evening.

☞ The U. S. Ship Supply arrived in Lower Harbor on Sunday.

POLICE COURT, July 4th.—Wm. Johnson couldn't resist the temptation set before him, in the form of a cap in the window of Jonathan Dearborn's store on Market St., on Saturday, and yielding to the tempter, seizes the cap and attempts to escape; but "sin will surely find one out," and so it proved in William's case,—for it not only discovered him, but made him pay $10 and costs $3.86, besides $2.50 as a side dish to soothe and allay all inflammation which might otherwise ensue. Our advice to William is, to take a twenty-five cent scrip, and honestly, like a man, with the sweat of toil still fresh on the manly brow, walk up to the counter, and purchase a good cap, and in so doing, will save $16.11 by actual mathematical deduction.

Michael Kerrigan anticipates his Fourth of July by getting drunk on the Second,—supposing all the while it was the 4th. The fact is, Michael hasn't been sober for the last ten years, which accounts for his obtuseness in regard to data.

Patrick Mahoney, the same; also, Geo. Alton.

— Maximilian's Mexican Empire is troubled with guerrillas; the French and Austrian troops distrust each other; and many of the people mistrust the Empire.

— The 5th N. H. V., 450 men, and 62 discharged men from the 3d and 7th Regts., arrived in Concord on Monday.

— The New Constitution of Missouri is adopted by 1862 majority. The Soldiers' Vote saved it.

GOLD, in New York, Monday, 138 to 139 1-2. London news say U. S. 5-20s declined from 73 1 2 to 71.

CATTLE, in Albany, Saturday, declined 1 cent per lb.; top price 8 1-2c, bottom 5.

— The rebellion in Hayti is reported to have gained strength.

For Sale.

American Gold	140

U. S. 7-30 LOAN.

THIRD SERIES,
$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and sure cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the blood, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with Immense Success.

YOUNG MEN!

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures Dr. Teller's great work for the Married or those contemplating marriage, should be read by all, price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. If single Married and the Married Single.

"A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets never before published. We wanted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. DR. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions the female.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
an10 No. 5 Beaver Street Albany, N. Y.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long and extensive and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases arising from secret and other causes, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain unknown, can be cured in a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledge no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in this city, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FEMALE PILLS, England. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. eod&wly

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 22 Endicott street.

Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. Briscoe, No. 22 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.
Boston, July 15, 1864. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N.B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

President,
JOHN S. BARRY, Ex. Gov. of Boston.
Treasurer,
LEVI H. STRAW, of Boston.
Directors.
John S. Barry, Boston, W. J. Messinger, Canton, S. Johnson, Charleston, Seth B. Brown, Boston, J. S. Shaider, Roxbury, A. W. Adams, Roxbury, S. F. Tilson, Titusville.

The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, successfully producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements seldom met with. The capital stock is very small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agent at Titusville writes us that the well on the Farm is expected to commence flowing, which places this Company beyond a doubt of success. The Officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 32 State street, and at the OFFICE OF THE COMPANY, No. 47 CONGRESS STREET, BOSTON.

3m8wsuh23 LEVI H. STRAW,
Treasurer.

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS itself.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic coat*, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, conscientious, and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Hon. D. J. Daniels, Hon. John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 24 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the farms selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be bounded between Oil Creek, East Oil Creek, and Allegheny river, and not twenty miles from one point to the other, and the 1 our farms of this company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six million* of dollars. The last of March, B. W. Harris, Esq., a well known lawyer of Erie, and John Dalzell, Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 88 acres and is near the confluence of Cherry Creek and East Oil Creek.—The land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Oil or Coal flowing wells, and for Farming.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. There the Steele & Reed well proved 2000 barrels per day, the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is good for Oil, will yield to the Co. 100 barrels per day. Coal in that section is worth $13 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $600 to sink a well to the depth of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. F. F. Bull, Secretary Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richest in Oil, and most valuable for the future of a more full and perfect character than any other that I am acquainted with; and I have spent much time and money during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPHERD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, of Mr. Bull, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if it proves to be equal to Titusville, would be of incalculable value. There is abundant room on each acre for 13 wells, and on the farm for over 900 wells. I make no computation of the cost of so many wells, and the yield and profit on the whole in a year, if they are as good as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. The Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into it. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally wel. to this.

THE BYLES FARM.

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the derrick of which is 200, the highest derrick on the world flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Fraser well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe over eight hundred feet above ry, it has flowed 230 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 3,300 barrels. Below this well, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther up the same creek, the Union Oil Company is putting down a well that looks already better than the Fraser well, and great expectations rest upon it. There are two spouting wells and bored wells the Fraser and the one which has raised so high hopes, is the Byles Farm, all low land, and every foot is a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,
On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the art of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the ashes falling up or the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable; and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the heating part of such a building.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DO'NT HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen which has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of those Powders, and although the Fluid has been before the public but a few weeks the unprecedenting testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will be enough to fill fifty common bottles that are retailed at ten cents each.
4th—Its convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MELROSE AND AMESBURY OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink for which you have given to the public. I have made ink for eight years past, from Prof. Ure's Recipe, (made of Alcohol, Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. *It is a good Ink, but my occupation is all gone now. Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-third quicker with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. ROLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: It have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder three years ago, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long sought an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and had a quantity of it, for which I paid a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superior cover at other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires any *amount of writing.* It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the best Ink I ever used. I have used J. Moor's Maynard & Noyes', D. J. Rideout's, and many others, but yours far exceeds any I ever used.
Yours respectfully, G. E. STILES
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 6, 1865.

WASHINGTON ITEMS, July 3.—The N. Y. Herald's despatch says the President's health is such that no danger is apprehended, still much anxiety is felt.

The Times' despatch says we now hold no rebel prisoners below the rank of Colonel.

The Tribune's despatch says the Treasury Department Saturday paid in Gold the July interest, amounting to $9,753,902.

Another protest has been presented against the appointment of Judge Parsons as Provisional Governor of Alabama.

The Treasury Department announces no vacancies existing, therefore further application from disabled soldiers is useless.

☞ The N. Y. Herald's Athens, Ga., correspondence says the rebel archives have been captured by General Wilson. They show that the rebels organized a government with great rapidity, and proposed calling it the Republic of Washington. They also proposed acknowledging both the old and new testament, but refrained in deference to Benjamin; they also discussed the proposition to recognize the Christian Sabbath, but voted it down in deference to portions of the people of Louisiana and Texas.

THE HONORABLENESS OF LABOR.—Voltaire, in his story of "The Princess of Babylon," mentions an Emperor of China who cultivated a piece of land with his own hands, in order to show the aristocracy of his empire that agriculture was respectable. Would it not be well for some of the defeated and beggared traitors of the South to imitate this Emperor? The sight of a few Southern Governors, Major-Generals and members of Congress working stoutly with the spade, would put new life into the poor whites.

— At Gettysburg, Penn., the Fourth was celebrated with great enthusiasm, and the corner stone of the soldiers' monument was laid with imposing ceremonies. The exercises opened with prayer and a discourse by Rev. Dr. Tyng. The ceremonies of laying the corner stone were then performed, when General Howard delivered an eloquent oration, followed by a poem written and read by Col. Charles G. Halpine. The exercises were concluded by an address from Governor Curtin.

— A member of the Alabama delegation, now in Washington, brings the intelligence from that State that most of the Union citizens are unarmed, while the rebel element is well supplied with the arms formerly used by them in the army. He was present at the surrender of the rebel Rhoddy's command, and states that out of 2000 men, but 80 delivered up their arms, accounting for the balance as lost, whereas they had been hidden, only to be afterward reclaimed by the rebels.

— George Ware, of Biddeford, Me., retired to his room as usual Friday evening last, and was found at about 5 o'clock Saturday morning dead upon the floor, shot through the head from a gun ingeniously fastened to the lounge, with a string tied to the trigger. His age was about forty. Cause—illness and partial insanity.

— During a tremendous storm on Saturday evening, the steeple of the German Reformed Church, on 16th and Green streets, Philadelphia, was blown down, crushing in the roofs of two adjoining houses, the occupants of which fortunately escaped uninjured. Much damage was done in other parts of the city.

— The 3d Maine Battery, which was paid off at Augusta last week, took $12,000 of the seven-thirty bonds, an average of more than $100 per man. The paymaster had an agent for the sale of the bonds by his side when he paid the men—an arrangement which is worthy of adoption by the paymasters.

— Rev. George Duffield, jr., who was recently dismissed from his church in Adrian, Mich., in consequence of the utterance of his opinion in favor of freedom, has been promptly taken up, and has accepted a call to the Second Presbyterian Church in Galesburg, Ill.

— Some of the Virginia loyal refugees who recently returned to their homes, finding themselves unwelcome, are again coming North. So says a Washington item. If this is so, it only shows that we must have a large armed police to keep *reconstructed rebels* in order.

☞ We are informed by a man from that town, that a man named Pinkham, of Farmington, while engaged in a mowing on the Fourth of July, in the town, had his head actually taken clean off, by a scythe in the hands of his son, who was excited by liquor. The horrid story seems almost incredible.

— The Louisville Journal pertinently asks, "What is the use of being against abolition when abolition is a fact? Why advocate a dog's life when the dog is dead?"

— The New York Citizen states that our government will commence proceedings this week, through Daniel S. Dickinson, U. S. District Attorney, against Ben Wood, editor of the New York News, for the recovery of that $25,000 of rebel government money which is proved to have been received by him. All the property of the rebel authorities is liable to confiscation, this among the rest.

— A singular interchange of emigration is going on between Missouri and Illinois. Missourians who have been secessionists are removing to Illinois and purchasing lands, while large numbers of the Illinois farmers are going into Missouri. The Unionists of the latter State make it uncomfortable for secessionists, and compel them to seek new homes, the Illinois farmers buying their lands at low rates, and selling their own at high rates.

— R. M. Lee, a well-known Democratic politician, and member of the Philadelphia Bar, who was convicted before the U. S. Court in that city of having defrauded the U. S. Government, by means of forged enlistment papers, was sentenced to an imprisonment of three years and to pay a fine of $500.

— Ollendorf, the Grammar writer, who died recently, is said to have lived shabbily in the 4th or 5th story of a chocolate factory in the Rue Richelieu at Paris. He bought none but second-hand newspapers, that is, papers a day old, and which had gone thro' many hands. He died wealthy.

— In the Newburyport Herald, is an account of the arrest of one Benjamin Dorr, alias Gov. Dorr, for stealing oxen belonging to Mr. Nathaniel Peabody of Bradford. From the admissions of Dorr, one Wilkinson, after a long search, was arrested in Newburyport, as an accomplice.

CURE FOR NEURALGIA.—A friend of the Ballot, and of mankind and especially womankind in general, who has found relief from it, says a table-spoonful of cologne and a tea-spoonful of salt, mixed together, will immediately relieve the pain and cure this distressing complaint.

— A copperhead at Milwaukee, named Warnecke, a few days since knocked down a one-legged soldier named Bœbel, who had lost his limb at Gettysburg. Bœbel sued Warnecke for the assault, and the jury, taking into consideration that it was soldier who was attacked, brought in a verdict of $400 and costs, to be paid by the assailant.

— The Galveston Bulletin of the 13 ult. makes complaint of the want of a sufficient quantity of shipping in that port to transport to New Orleans and the Northern ports the cotton now there, and which is arriving from the interior. The quantity of the staple is estimated at about a million of bales.

— On the Fourth, Gen. U. S. Grant was at Albany, N. Y.; and seven other generals with him. The oration, by Rev. Dr. Chapin, was a finished and thrilling production. He argued in favor of universal liberty and universal education and suffrage. It was not corn, nor cotton, nor land that voted, but mind. He would make no distinction. He was frequently applauded.

— Three sailors have been sentenced twelve years each in the Connecticut State Prison, for breaking open a coffin containing the remains of another sailor, and stealing $60 which they knew to be sewed up in his pants.

— Miss Anna Dickinson has published a card denying a report that she is preparing for the stage; on the contrary, she states she will endeavor by study to sustain the place which she has gained by the favor of the public.

— Two hundred and fifty thousand dollars' worth of lemons, oranges, vegetables, &c., have been distributed among the troops encamped around Washington by the Sanitary Commission within the past few weeks.

— A new journal, the Tribune Ouvriere, is about to appear in Paris. The staff will be composed of workmen, and the profits will be equally divided among the shareholder, the managers, and the writers.

— The Emperor Napoleon has ordered trials to be made with a new square-mouthed gun, which has been invented by an officer of the French navy.

— Judge Trigg, of East Tennessee, recently charged the Grand Jury to indict Gov. Brownlow for executing the laws. The Jury unanimously refused to find a bill

— Wilmington, N. C., is said to be a very dirty place; and people are dying there with fever; some call it spotted fever, others are afraid it may be yellow.

— Southern planters propose to let out their plantations in small lots to anybody, black or white, taking a per centage of the crops for rent.

— The New York Herald calls Ben. Wood a Benedict Arnold without his bravery, and a Judas Iscariot who has not the grace to hang himself.

— Landseer defined photography to be "justice without mercy."

— The U. S. soldiers encamped about Washington complain of the commissaries.

NEW HAMPSHIRE ITEMS.

—— The DeForrest Gold Medal, valued at $100, awarded to that member of the Senior Class "who shall write and pronounce the best English oration," has been presented by the faculty to Joseph Appleton Bent, of New Ipswich, N. H., for an oration on "The Statesman and Politician."

—— At the close of the late session, the House of Representatives resolved, "for the good order which has prevailed in the city of Concord during the session of the Legislature, resulting as we believe in a great degree from the very general suppression of the sale of intoxicating liquors, the thanks of the House be tendered to the government of this city."

—— Rev. A. M. Bridge of Hampton Falls, has been called to be pastor of the Unitarian church at Hampton falls.

—— The White Mountain Bank, at Lancaster, is placed in the hands of James W. Weeks as Assignee. Bill-holders need not sacrifice their bills,—as there seems to be property enough to pay them.

—— During the heavy thunder shower last week, four valuable three year old steers belonging to Colonel Robert I. Burbank of Boston, were killed by lightning on his farm in Shelburne, N. H. At the same time eleven sheep, belonging to a neighbor of his, were killed by the same stroke.

—— At Concord on Monday, the soldiers Moulden and Eachus were examined in the Police Court, Judge Dana presiding, and re committed for trial. Moulden was held on the shooting case in $2400, and Eachus, for robbery, &c., in $1400.

HOW TO PAY NEW HAMPSHIRE'S DEBT. The Boston Transcript, after quoting the account of the debate in the Legislature on the Constitutional Amendment, suggests that one sure way of raisng money to pay the State debt, would be, to exhibit the two members who signed the minority report, and that the largest halls would be nightly crowded, even at twenty-five cents admission.

☞ The mare Lady Brooks, of Eliot, and the stallion Kennebec Boy, of Portland, trotted at the Granite State Trotting Park, in Dover, for $500, best 3 in 5 to harness. Lady Brooks won the race in three straight heats, viz: 2:53, 2:49, 2:49. The K. Boy, however, showed finely, and pressed Lady B. closely.

— The Savannah Herald gives reports of two cases in Court where the original owners raised actions to recover horses taken by Gen. Sherman's army, and afterward purchased by loyal citizens. Judge Parsons decided that the original owners' titles ceased when the horses were captured by the U. S. army in a time of war.

— The emigration across the Plains this season exceeds that of any previous year. During the month of May 4000 wagons passed Fort Kearney, and trains continue to pass that post in large numbers. Indians have not troubled the emigrants to any noticeable extent, and all the routes are considered safe. Troops are stationed at various posts.

— The Marquis of Westminster, whose income is valued at $10,000 a day, has been much berated for his mean and penurious spirit. But he has now done a generous thing. He has given a public park, worth $250,000, to Chester, England.

— The steamer Silas O. Pierce passed through the Dutch Gap Canal on Sunday. The Pierce is forty-three feet wide. Thus is this great but much maligned work demonstrating its usefulness in saving seven miles of watercourse in the James River.

— In consequence of the embarrassed situation of the Spanish finances, upward of forty telegraphic offices are to be suppressed in Spain.

MRS. WOOD'S NEW NOVEL.—T. B. Peterson & Brothers, Philadelphia, have just published Mildred Arkell; by Mrs. Henry Wood.

— The wheat, corn, potatoes, oats and grass crops of Northern Iowa are represented as being most cheering.

— William Galligan was badly scalded on Thursday at the rolling mill at Fox Point, Providence, and died on Sunday.

— Beef was 2c lower in New York Cattle Market, Monday; and many beeves remained unsold.

— Pete Everett, a rebel guerrilla, has been lodged in jail at Lexington, Ky., for burning railroad trains, and for murder.

— The papers are full of celebrations of the 4th. Very few accidents reported as yet.

— Rev. Dr. Storrs preached his 54th Anniversary Sermon at Braintree, Mass., on Sunday, July 2.

—It cost a distillery firm at Peori, Ill., over $300,000 to try to cheat in their income returns.

— The President has appointed Benj. F. Ferry Provisional Governor of South Carolina.

— A butcher died in New York last week from the bite of a fly.

GOLD, Wednesday, 140 1-2 to 139 1-2.

— Prés. Johnson's health is much better.

ALL THAT'S BRIGHT MUST FADE, is not applicable to a fine set of teeth brushed with Fragrant Sozodont. Its protective, preservative and beautifying properties will preserve the whiteness, soundness and natural polish of good teeth throughout life. And when unsound, it will arrest decay, and remove from the breath the taint which decomposition generates. 3teodjy1 1

Agents Wanted

IN EVERY COUNTY IN THE UNITED STATES

Chance to make $100 per week. The American Ink Company at Manchester, N. H., can give any smart young man or woman an opportunity to make $100 per week. Every family will buy the article, and where there is a village, a smart young lady can make $20 per day. See advertisement of American Ink Company in another column. sn 2aw8mw

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

Collector's Notice.

I shall attend at Portsmouth, at the Naval and Surveyor's Office, FRIDAY and SATURDAY, July 7th and 8th, from 10½ o'clock A. M. to 4 P. M., for the purpose of receiving pay and giving out Licenses for the current year; and all who have not taken their Licenses will call for them.

N. M. JEWELL,
U. S. Deputy Collector.

Exeter, July 3d, 1865. jy6

Special Notices.

CAUTION FROM THE
AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold in our Fourth or Wm. Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 5 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spndawlymy23

The author may be consulted upon any of the diseases upon which his book treats, either personally or by mail, and medicines sent to any part of the world. mch13—3mdawsn

Local.

THE FOURTH, a lovely day, passed off in the most quiet manner here. Many people of course went out of town, after a noisy, dirty, uncomfortable "Celebration" elsewhere; but one of the most agreeable, enjoyable, successful little affairs ever gotten up anywhere, was our City Reception and Dinner to the returned soldiers. The speeches, music, &c., at the Court House, were brief and to the point, and highly appreciated by a good attendance of the "Johnnys" and citizens generally.

Then the dinner at the new Mechanics Reading Room. Ah! this was some approach to our idea of a Celebration. The City furnished the substantials—meats, &c., and called upon the ladies for delicacies and adornments. And right liberally, as usual, did they respond; and such piled-up tables of goodies are rarely seen. When all was spread—or rather all that *could* be laid on three long tables, (leaving about as much more unpacked,) amid the profusion of bouquets and flowers, the sight was a most beautiful and tempting one. And the lady waiters—ah, the girls looked sweetly, and the matrons presided with all the grace imaginable.

The soldiers did not all come in a body, but there were enough, first and last, to fill all the tables. And besides feasting *them* to the full, hundreds of other citizens, among them the City Government and most of the clergymen and leading men, with ladies, sat down also; and for hours the scene presented was the most lively and social imaginable. Then the hosts of boys and girls that were welcomed and "treated," and the more than twelve baskets full which were sent to many a family not used to such niceties—is not all written in the memory of that happy throng? Verily, old Portsmouth did not go without a 4th, after all, and a good one too; and the whole affair reflects great credit on the Mayor and Aldermen, the ladies, and the citizens generally—and was a most beautiful and fitting tribute to our brave boys who are just laying aside the blue.

☞ The U. S. Receiving Ship "Vandalia," anchored in the river, and the "Supply," lying below the Navy Yard, were gaily decked out with flags and streamers, on the Fourth, presenting a beautiful appearance. And the absence of a display of fireworks by the city in the evening was in part supplied by an impromptu scene on the Vandalia. This vessel was beautifully illuminated from stem to stern, with variegated lanterns, transparencies, and devices of different kinds. A large calcium light shed its rays across the river with splendid effect, and with the blaze of light in the tops and on the yards, produced a spectacle rare and rich indeed.

Quite a fleet of boats, laden with lads and lasses, embarked at about 8 o'clock, to enjoy the full effect of the scene; merry voices rang from boat to boat, and echoed along the shore, giving the impression that nature was closing the lovely day by holding high carnival with her sons and daughters. The upper beacon was almost encircled with a wealth of beauty, in striking contrast with the grim old rocks peering out from the isle on which it rests. The remembrance of that enchanting evening hour, will ever be pleasant to the participants.

There was also a more general display of Fireworks from private houses in various parts of the city, than usual.

☞ The Phantasticks, Capt. ——, were out in good numbers, on the morning of the 4th, and looked like the d—ickens. A good deal of taste (?) and ingenuity was displayed in their getting-up, and their march created much fun. We did not learn the name of their Band, but believe it was the one that was engaged for Dunducketty's Pick Nic, but never got there—and we phancy he was better off without it, seeing the key to it was lost.

☞ A rocket entered a front open lower window of the house of Miss Sarah A. R. Shores, on Vaughan street, on the evening of the Fourth—crashing through the blind, and in the explosion doing considerable damage to the furniture, but no person was in the room. It is not known whence it started.

☞ The Proclamation of President Johnson, appointing a Provisional Governor for South Carolina, has some provisions not in the previous manifestoes issued for the reorganization of seceded States.—There is not the slightest allusion to former State laws, and the convention to alter the Constitution is to be chosen by that portion of the people who are loyal to the United States, *and no others.*

☞ Among the delicacies to be had at almost any time, at the extensive and excellent Fish Market of Messrs. Marston, Randall & Co., at "The Spring,"—not least is a fresh Salmon, from the Penobscot or St. John. Our thanks to these gentlemen for a handsome cut from a rich 15 pounder, of one of these the most beautiful and delicious of all table fish.

POLICE COURT, July 5.—We are reluctantly compelled to record that Oliver Dennettithe 2d, in endeavoring to kill his share of instantaneous-lightning-three-minute-kill-at-sight-damnation whiskey, got fearfully demoralized, and was conveyed to the rear—of the Brick Market—in an insensible condition. He was obliged to remit $5.74 for his carelessness in thus needlessly exposing himself to such a galling fire, and was then sent to the House of Correction for 30 days to recuperate.

The following letter was picked up in the lockup by a policeman, who submits it to us for publication. We give it as an extraordinary instance of the tenacity with which a man will cling to life, even after all hope has fled. The style is much after that of A. Ward, barring the orthography, which resembles A. W.'s "too much."

BOSTON, June 1865.

Dear Aunt—With Hast i will wright a few lines to you to inform you how I am Dear Aunty i am in the poorest of health and without a sent of money now be so kind in sending me 10 or 15 dollars you may think hard of that but i have been like many other follish now i depend on you for that favor if you wish to do it for me Aunty i need it Badly you may think you dont care Wether i dy or not but goozey has ben a good boy to you and you will be a mother to him in such a Case as this. I ad nothing to eat for 2 days now dont delay in sending it to me and I shall soon be in Portsmouth. Now dont refuse me that favor for i have not ben bad for you i shall go the post offis to nite or tomorrow for that favor expecting it.

Your Most Humble Servant,
John S. goozey.

Address like this John H Fremont
Boston Mass.

It will be observed by the intelligent reader that "goozey" is or was "hard up," and only called on the person above alluded to for his own funds which his "Dear Aunt" (?) held "in trus'."

☞ The Portsmouth Cornet Band was out 21 pieces strong, and played splendidly on their march to the depot, for Lynn, Tuesday morning. And on their return in the evening, they furnished an excellent concert on Market Square, for our citizens, by engagement with the City Government.

☞ The skillful and famous Dr. Lighthill, of Boston celebrity, announces to be at the Rockingham House in this city, the rest of this week—where he may be consulted as per his advertisement.

☞ The advertisement of Grass for sale *cheap*, is worthy the attention of consumers of hay who would get it for a low price.

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered

Approved, July 8, 1862.

Ten " " " " $500 "
20 " " " " $1000 "
$1 " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837,
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of Specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of *having* the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

R. H. EDDY.

J. W. & A. STAVERS.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with unmeasured Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healthy and destroyed the hope of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and must happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures Dr. J. Teller's great work, the Married Man's Friend, contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the last year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner, a complete work on Marriage, with a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with unmeasured Success.

Young Men addicted to secret habits, who have impaired their healthy and destroyed the hope of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and must happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures Dr. J. Teller's great work, the Married Man's Friend, contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the last year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner, a complete work on Marriage, with a quick and rapid cure, to be obtained at no other office in America.

Dr. Teller's Medicines are put up in vials containing hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, sent to any part of the world by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 3 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No agents or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
an10 No. 5 Beaver Street Albany, N. Y.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a private nature, and DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has the gratification of presenting to the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those deplorable cases, by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale a French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay from home during their treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases, he offers Complaints, acknowledged no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, at No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott Street. It is well known that the cure of an experienced physician and surgeon should give him a call.

N. B.—Dr. Dow invents and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod&wly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all cases of Disease of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country, by express or mail, efficiently by a communication stating particulars, will receive prompt attention.

Office, No. 25 Endicott street.

Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients may board in the Doctor's house.

Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 8 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established Office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

LEVI H. STRAW, of Boston.
Directors.
John S. Barry, Boston, V. J. Messinger, Canton, S. Johnson, Charleston, Seth B. Brown, Boston, J. S. Shailer, Beverly, A. W. Adams, Roxbury, S. F. Tillson, Titusville.

The properties of this Company consist of 642 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements paid-out wells, and the Directors have every small for the amount of valuable oil lands the Company possesses. Three engines are already at the wells. Our Agents in Titusville write us that the well on the McElhany farm has commenced flowing, which places this Company beyond a doubt of success. The Directors of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 Congress Street, Boston.

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS ITSELF.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gal lons to the ton less than any mineral, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic* coat, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

Where Subscription Books are now open and all information may be obtained.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in organizing this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting lands for this firm. Mr. Bates, Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Brown, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms in Oil Creek. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The Oil Creek Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Allegheny river, and not twenty miles from east to west to the either, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the most oil to the State of Pennsylvania, as Geo. Curtis says in his Message, *fifty six million* of dollars. The last of March, Hon. Harris, Esq., a well-known lawyer of Boston and late District Attorney, F. H. Burns, Esq., a shrewd business man of Dover, N. H., and J. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make farther examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek—the land is beautiful for Oil, having rough lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of this farm is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Brown Farm could be had a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Noble Well became well flowed 2000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, will be found to be below Titusville. Coal in that section is worth $13 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs $600 per day to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPARD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepard, of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of inestimable value. There is abundant room on such acres for 10 wells, and on this farm for over 200 wells. Just make computation of the cost of so many wells, and the yield and profit on the whole is a great, if they are as good as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Oil Creek and Cherry Creek Flows. Here they have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally wel to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 800 barrels daily, the derby that flows 800, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January and with its seven inch rod in, and its pipe seven-eighths full of machinery, it has flowed 230 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2,200 barrels. In the same valley as the Oil Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther up the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. The right of way for pipe lines, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and every foot fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On WEST PIT HOLE, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address
GEO. A. FRENCH,

TRUE W. JONES,
61 Market Street, 61
—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—OF THE—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal. They stay at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

The above for sale by
E. A. STEVENS,
46 Market Street

Blood's Patent Improved Sifter.

For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the Kitchen it is the right thing in the right place. No household would be without it after a single trial. *Raised.* (It requires but one-quarter the time of the old method.) *Neat.* (The hands do not come in contact with the article sifted,—there is no dust, no scattering of contents, no cold fingers. *Durable.* (It is warranted to last ten years.)

Grocers use it to bolt their meal, saving time, expense and waste. Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Farmers, for sifting Ochres, Whiting, &c.—For sifting Cream Tartar, nothing will take its place. **Price $1.00.** For sale by
E. A. STEVENS.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!

INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.

THE INK MADE in Three Minutes.

Forty Cents will buy Powder enough to furnish a family for years.

FREEZING DON'T HURT IT.

An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced

It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.

A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all uncollicited. We select a few from the many.

The greatest qualities of these Ink Powders over everything else in the market are:

1st—It makes an ink of a beautiful, glossy, rich color; that every body will be delighted with.

2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.

3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.

4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.

5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.

Testimonials.

MIRAGO AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.

To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.

MELROSE, Mass., Feb. 1, 1865.

American Ink Company - Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppa Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is good Ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever tried.* This is no puff. Some in my inkstands froze up with the cold and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write uncommonly fast with it then with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.

Washington, D. C., Feb. 4, 1864.

To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. Hd. Artillery

Kewanee, Henry Co., Illinois, Feb. 20, 1865.

American Ink Company—Gents: Received the Powder the other day, and to say that I am pleased with it is tame, but does express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*

I have introduced it into my school in this place, and had a quantity of it, ready made and ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.
GEO. W. PARKER.

Deering, March 1, 1865.

To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.

Nashua, N. H., March 13, 1865.

American Ink Company—Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of Ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS,
Brookline, N. H., March 13, 1865.

American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all who have any writing to do, as the best Ink I ever used. I have used J. Moor's Manard & Noyes', D. J. Kidcout's, and many others, but yours is quite any I ever used.
Yours respectfully, G. E. STILES.

PRICE of a POWDER.

An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.

Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.

P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale it* to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awaw8m

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JULY 7, 1865.

☞ Ex-Gov. Magoffin, of Kentucky, a noted pro-slavery politician, an ultra State-Sovereignty man, and a friend of the rebels, has come out with a letter, wherein he *advices Kentucky to ratify the Abolition Amendment!*

His argument is very simple and cogent. The ratification of the amendment by the requisite three-fourths of the States is certain. Slavery is extinct in the United States in any case. Why then raise a new issue on something that is dead? They cannot possibly get back all their "rights" inclusive of Slavery, consequently let them concentrate their energy to save all their rights *minus* Slavery.

Magoffin has not yet parted with his former political views; still if he frankly admits that his former views about Slavery have been thoroughly shaken. At the beginning of the war he thought that Slavery was a divine institution, and that the slave was in a better condition as a slave than as a freeman. But the events which have lately transpired have caused him to doubt the truth of his conclusions. God, he argues, has brought about this destruction of Slavery, and "I am not going to raise my puny arm against his decrees," especially as "He is backed by the people of the whole civilized world, and by the people of our own country." In conclusion, the Governor proves very clearly that the amendment is strictly constitutional, and not in the least a violation of the State rights doctrine.

☞ A Washington letter says:

Very few of the Southern people here object to the employment of their former slaves at remunerative wages, but insist that they should be allowed to regulate by legislative enactment the terms of their service, so as to *bind the laborer* for a *year at a time*, under *forfeiture of pay*, for faithful fulfillment of his contract; for, in the cotton producing regions, an equal force of field hands must be kept up during the whole year, or the crop be lost to the planter.

How would our mechanics, farmers, and, our workingmen of all sorts, like to have Factory Directors, Great Land Owners, and great Merchants, make a *law to bind them for a year*,—and if the workingman left in 6 or 11 months, he should not have his pay? U. T.

THE CONSPIRATORS SENTENCED.—A Washington dispatch of Thursday says:

In accordance with the findings and sentences of the military commission, which President Johnson appoved yesterday, David E. Harrold, Lewis Payne, Mrs. Mary E. Surratt and George A. Atzerott are to be hung to-morrow by the proper military authorities. Dr. Mudd, Sam Arnold and O'Laughlin are to be imprisoned for life.—Spangler is sentenced to six years imprisonment hard labor in the Penitentiary at Albany.

WASHINGTON ITEMS.—The N. Y. Herald's Washington dispatch, July 6, says the President, for the first time since his illness, left his bed to-day. About 170 pardons were granted to-day, 130 of which were from North Carolina, recommended by Gov. Holden.

Soldiers and sailors, and others entitled to them, can procure homesteads on surveyed public lands by direct application to the U. S. District Land Office for State or Territory, paying the fees fixed by law, and need not make use of land and claim agents.

☞ The Boston Post has a correspondent in Richmond who says:

All we ask is our *State rights* and everything will go smoothly.

This shows his political *status*: Yet the same correspondent says:

In perusing the Northern papers I observe quite a number of paragraphs that are most absurd about the ways and habits of our *people*. The blacks are *not so ignorant* as is supposed; they are as eager to make a greenback as the white people. As for supposing their old master, it is not so; they are leaving here almost every day for different points. I overheard five colored wenches in conversation on the corner last evening. "Well, Rose, whar is you livin now? "I's not livin wid de white folks; I's wid my friends."

Butler's Dutch Gap Canal is becoming renowned for a passage. Quite a number of vessels and steamers go through every day, which lessens the distance seven miles.

He must take care how he calls negroes people; and how he asserts their intelligence, or represents them as acting like other people.

GOLD, Thursday, 139 1-2 to 138 3-4.

— The friends of temperance in Maine are roused to the fearful prevalence of the use of intoxicating drinks, and are making exertions to enforce the prohibitory laws upon the statute books.

— A lady of New Jersey has devised a method of rendering mowing machines harmless in case the driver is obliged to disentangle a tuft of grass from the knives. The cutting bar is thrown out of gear the moment the driver's weight is removed from the seat, and when he resumes his place the knives are again thrown into gear and ready for cutting.

NEW HAMPSHIRE ITEMS.

—— Rev. A. M. Bridge of Hampton Falls, has been called to be pastor of a church at East Marshfield, Mass.; and Rev. Everett Finley has been called to be pastor of the Unitarian church at Hampton Falls.

—— In Concord, on Saturday July 1, John N. Witham, of Bow, was before Judge Dana, charged with passing two $5 counterfeit bills on Paul Morrill and Henry A. Fellows, of Henniker. The bills were on the Eastern Bank, Bangor, Me., and were numbered alike. Witham is in jail for trial.

—— Moulden and Eachus, the two soldiers now in jail for assault and robbery in Concord, are not New Hampshire men; they enlisted in one of our regiments, while it was stationed at the west.

— The title to the land on which St. Paul, Minn., is built, is in dispute. The Press of that city says that a Mr. Uri Lamprey recently left at the Register's office a quit-claim deed given to him by Louis Roberts, amounting to $85,000. The deed quit claims for the sum of $85,000 eighty acres of land on which St. Paul proper was originally located.

—— The following New Hampshire Post Offices have been designated money order offices, and went into operation July 3d—Claremont, Dover, Exeter, Great Falls, Hanover, Lancaster.

—— Surgeon Bela B. Stevens, of St. Elizabeth Insane Asylum, near Washington city, died July 5, of typhoid fever. His remains will be brought to New Hampshire.

——The U. S. Hotel, at Amherst, known as "the old Ray," or "Nutt stand," together with a stable opposite belonging to Mr. Nichols, were totally destroyed by fire on Friday night last. Insured for $2500.

A FALSE WIFE.—The Concord Monitor states that on last Monday night, the wife of a returned soldier in the southerly part of Concord, feigning sickness, sent her husband for some medicine, and while absent appropriated his pocket-book, containing $441, and hastily gathering up her garments, departed from the bed and board of her liege lord, to meet a fellow known by the police as "Joe Richardson," who conveyed her away in a carriage to that pandemonium known as "Break of Day." The husband soon ascertained the loss of his money, and information was given to the police, one of whom kept a lookout, and about half past one the team returned to the stable. Information was immediately sent to the husband, and Jacob Hutchinson of the police, was dispatched to the "Break of Day," where he found the woman and the money, minus ten dollars, which she had *given* to Richardson. Futher investigations developed the fact that they intended to commemorate "the day we celebrate," by a journey to the West, in search of an elysium of love. But the journey came to a sudden end.

☞ Mrs. Bond, the mulatto woman, who waited on Mrs. Jeff. Davis, has a curious boquet of South Carolina ladies hair, which was a present to Mrs. Jeff. and from her to Mrs. Bond. Mrs. Bond remained with Mrs. Davis till her arrival at Fortress Monroe, when she was taken from the Clyde by her husband, who is employed as a servant at Fortress Monroe. Mr. Bond escaped from Richmond a year ago. Mrs. Bond relates many interesting reminiscences of the last fifteen months of rebel rule in Richmond.

The table of the rebel President's house, was remarkable for plainness. No dessert or wines were ever used, except when distinguished company was present. Mrs. Bond speaks of Mrs. Davis with a fond affection. Asked her if she would like to return to her, and be again a bound-woman? "Oh no, sir," she answered, with a startled air, "I never want to go South again as a slave, I would rather be free, much rather. Mrs. Davis was good to me, but I don't want to be her slave, for all that."

— The Lewiston Journal says that on Friday night week, some wretch entered the stable of Mr. George W. Bailey at Southwest Bend, and stabbed his horse in four places, three or four inches deep. A murderer is respectable in comparison with the fiend who can be guilty of such barbarity, as murder requires courage; stabbing horses requires none.

— The London Times of the 20th ult., announces the retirement of the special relief commissioner for the cotton districts, which is regarded as an official recognition of the end of the great cotton famine. It says that the result of the stoppage of the influx of cotton turned out so much better than had been anticipated, that it may be a question whether any thing but good has beendeveloped thus far.

— Mrs. Dr. Walker, who was once captured and imprisoned in Castle Thunder, has been creating a sensation in Richmond by appearing there dressed in a handsome military uniform—blue coat with bright buttons and nicely fitting blue pants.

— In New Orleans, Mr. Kennedy has been reinstated into the Mayoralty, and appointed a committee, which announced a programme for the 4th of July.

☞ The Press gives a glowing account of the Regatta in Portland, on The Fourth, which it says was the most exciting and successful affair of the kind that ever took place there. The stake boat was anchored one mile down the harbor, and all boats competing for the prizes were to start from a line from the Cutter, round the stake boat and return—making a distance of two miles.

The first race was for all wherries and fancy boats of any description, to be pulled by one man, with one pair of sculls. First prize $50; second prize $25. Seven boats entered, but only three started. "Charley," entered and pulled by Michael McCarty of New York; "Zephyr," entered and pulled by J. K. Webber of Portland; "J. H. Kent," entered and pulled by Walter Brown of Portsmouth. At 3.25 a second gun gave the signal to start. McCarty's boat at the start was struck by a flaw and nearly capsized, but he quickly recovered his balance and pulled away. W. Brown shot ahead, and it was very evident that his superb muscular strength and fine tact in pulling would give him the race. They rounded the stake boat, Brown first, Webber second, and McCarty third, and came back to the starting point in the same order, Brown winning easily. The time was:—"J. H. Kent," 17.20; "Zephyr," 19.20.—The third boat did not come up to the Judges' stand, and therefore her time was not reported. The first prize of $50 was awarded to Walter Brown, and the second prize of $25 to J. Webber.

For the second race, open to the organized clubs in Portland, four boats were entered and started: "Union," by the North Star Club; "Una," by the Una Club; "Ariel," by the Ariel Club; "Alpha," by the Alpha Club. Each boat pulled six oars.—They all got off handsomely at the signal, rounded the stake boat and came back to the starting point in the following order: 1, Alpha; 2, Una: 3, Ariel; 4, Union.—It was a finely contested race, as will be seen by the time made by each boat, viz: Alpha, 14m. 20s.; Una, 14m. 25.; Ariel, 15m. 6s.; Union, 15m. 6s. The first prize of $125 was awarded to the Alpha, and the second of $75 to the Una.

The third race was for a prize of $40, open to the boats from the Forts. They entered and started as follows: Fort Gorges, No. 10, 14 oars; Fort Gorges whale boat, 10 oars; Fort Scammel, 14 oars. There was naturally splendid pulling in this race, the boats being large and heavy and the crews putting themselves to the work with measured and powerful strokes. The Fort Gorges boat, 10, broke an oar soon after starting, but she handsomely held her place, and but for that accident would have probably won the race, which was won by Fort Scammel—time 26 minutes.

For the fourth and last race for a prize of $150 to the first boat and $100 to the second boat, open to all six cared boats, there were ten entries, but six only started, as follows: Ariel, by Ariel Boat Club; Alpha, by Alpha Boat Club; Alpha, 1st, by Alpha Club; Una, by Una Boat Club; Monitor, by T. Hopkins; Unknown, by H. E. Willard. This was a three mile race. The boats all belonged in Portland, and there was considerable excitement among the friends of the various clubs. At the start, by a collision between one of the Alpha's boats and the Una, the former had an oar broken and she withdrew from the race. The contest appeared to be between the Una and the Monitor. The Una came in first, having made her three miles in 20m. 50s.; the Monitor came in second, in 21m. 15s. After the race an objection was entered against awarding the first prize to the Una, on the ground that her crew belonged in Portsmouth, and were not members of the Club which owned the boat. But this objection was not considered valid, because the race was open to all six oared boats, no matter by whom rowed. The crew of the Alpha considered it unfair that the Una and Alpha having pulled in the second race, (and won the prizes,) the former should be allowed a new and fresh crew, while the same crew that pulled the Alpha in the second race pulled her in the fourth. But the Judges could not consider this point at all, according to the terms of the race, and they awarded the first prize of $120 to the Una Boat Club and the second prize of $100 to the Monitor. The crew of the Una was composed of Henry Paul, stroke oar; Alexander Dixon; Orrin Drake; John H. Staples; Charles H. Staples; Walter Brown, bow oar. They belong in Portsmouth, and went down expressly to pull this boat, though the Press says it was not known until a short time before the race that they were to do so.

☞ Abner Niles, a member of the 8th Vermont regiment, who had served through the war, was killed on Sunday when within a few hours ride of his home. He was standing on the top of a car as the train which conveyed the regiment was passing over the Hammond bridge in Pittsford, when he was struck by the bridge on the back of his head, and thrown from the car into the water. His body was found the following morning.

— The U. S. Sanitary Commission have closed their rooms at Fortress Monroe, which during the past four years have been the headquarters for the direction of an immense amount of patriotic and benevolent work among our soldiers, the termination of the war rendering a further continuance of their operations at that point unnecessary.

— In North Carolina it is reported Government is about to make an important seizure in the direction of the North Carolina gold mines.—Recent orders instruct Gen. Cox to remain in command until the return of Gen. Schofield.—There is a great rush of political sinners to Governor Holden for pardon. He has appointed J. T. Hough Mayor of Newbern.

— The Paris Society for the encouragement of National Industry has offered a prize of $300 for an ink which will not corrode steel pens.

— A young French nobleman, the Count Albert de Revel, has been left $10,000 by an eccentric uncle, on the condition that he shall marry a tall, slim lady, of "harmonious proportions," with long and thick golden hair. She must have an open forehead, blue eyes, a brilliant white skin, a well made nose, a small mouth, graceful limbs, and she is to be full of grace; and her character is to be slightly shaded with a poetic languor.

Removal.—Hair Work.

Mrs. MORAN has removed from No. 4 Daniel Street to

CONGRESS BLOCK, CONGRESS STREET,

Room No. 4, Up Stairs,

(Next door to Wm. R. Preston's Apothecary Shop, same entrance with Salem's Photograph Rooms,)—where she will continue manufacturing Gentlemen's and Ladies' WIGS, FRIZETTS, BANDS, Plain and Curled WATER-FALLS, BOW KNOTS, BRAIDS, RINGLETS, &c.

Ladies by **furnishing Hair**, can have it made into Rings, Rings, Water-falls, &c, at less than half the price of those for sale. All orders promptly and faithfully executed. Water falls and Ringlets dressed in the best manner at short notice. jy7

U. S. SANITARY COMMISSION

ARMY & NAVY CLAIM AGENCY.

No Charge for Services.

S. HOLMAN, Local Agent,

Office, No. 5 CONGRESS STREET, (up stairs.)

The U. S. SANITARY COMMISSION desiring to relieve Soldiers, Sailors, and their families from the heavy expenses usually paid for the prosecution of such claims, have established this Agency, to collect pensions, arrears of pay, bounty and other claims against the Government, WITHOUT CHARGE OR EXPENSE OF ANY KIND WHATEVER TO THE CLAIMANTS.

On application sent to this Agency, stating the name and post office address of the claimant, the name, rank, company, regiment, service, and State of the soldier on whose account the claim is made, date of discharge or death; the proper blanks will be filled out as far as possible and forwarded to the person applying. These can be executed and returned to this office, where the claim will be prosecuted to a final issue in the shortest possible time. jy7

CAUTION FROM THE

AMERICAN WATCH COMY.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm. Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je26—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and vi olently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, envelopped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1285, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnaw1ymy28

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, *and can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists througout the world.

Price, Only 35 Cents per Bottle.

HYPOPHOSPHITES

ACT with PROMPTNESS and CERTAINTY in *every stage* of CONSUMPTION, and UNCHANGEABLE EFFICACY in NERVOUS PROSTRATION, General Debility, Dyspepsia, Asthma, Bronchitis, Female Weakness, Loss of Flesh or Strength, and all derangements of Blood. They *increase the nervous or vital energy*, relieve Cough, check Night Sweats, diminish Expectoration, improve the Appetite, arrest Diarrhœa, promote refreshing sleep, and restore NEW AND HEALTHY BLOOD. Let no sufferer try this remedy without a trial.

PRICES:—In 7 oz. and 16 oz. bottles, $1.00 and $2.00 each. 6 small or 3 large bottles for $5.00, by express. Sold by all respectable druggists, and at the sole general depot, wholesale and retail, by J. WINCHESTER, 36 John St., f23meoeod&w3m* New York.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Please inclose a stamped envelope, addressed to yourself.

Address JOSEPH T. INMAN, Station D, Bible House, d24eod6m New York City.

☞ **A Physiological View of Marriage**—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mch18—3mdawsn

Local.

REBEL BARBARITIES.—The recent publication of the two mournful Books from the famous newspaper correspondents, brings again to our mind's eye and pen's point, similar heathenish cruelties practised on our own friends and acquaintances. And since some rebel sympathizers (of course nobody else does) pretend to disbelieve all the tales of infernalism told of their "Southern *brethren*;" and since also, even some other people are too ready to forgive traitors and murderers, we deem it best to produce a scrap or two from our note-book, respecting the treatment bestowed on some of our own citizens, which, we trust, may tend to "fire the *Northern* heart" to feel a righteous indignation, to demand a just retribution, and insist on a sensible curbing of the traitors' political and social power in future.

To our mind, from the very start—the only proper or safe way to treat rebels was, and is, *like* rebels, and visit them with a traitor's doom; and we think a few scores of the foremost villains hung at the outset, would soon have squelched the whole causeless outbreak. At any rate, such monsters as are guilty of the following diabolism, deserve the halter, if ever anybody did:

Mr. S. Judson Adams, of York, Me., whose death in hospital at Annapolis we chronicled a few weeks since, was an officer on board a coasting schooner bailing from this port; which being in North Carolina at the time of the Fort Fisher and Wilmington campaign, she was taken into Government service. While near that place, Mr. Adams, with others from the vessel, went ashore, and strolling too far from the lines, had the misfortune to be gobbled up by a party of rebels, and taken to one of their open prisons or stockades. Here they were stripped of all their clothing except their underclothes, and had no protection or covering from the weather, and were scarcely provided with food or drink sufficient to keep them alive.

And these were but civilians, too, remember—not men taken with arms in their hands. A few weeks of such inhuman treatment threw Mr. Adams into violent fever, from which he never recovered. Being exchanged, he was enabled to travel as far as Annapolis, where his father and wife reached him only in time to smooth his dying pillow. The poor fellow's last words almost, were to assure his friends of the unremitting care and attention he had received from the blessed ministers of the Sanitary Commission bounty—in praise of which beneficent and munificent charity the bereaved father is since as profuse and earnest, as before he was (like many others who know not what they say) ready to doubt and condemn the whole glorious institution.

One more instance, still nearer home: Acting Master (now Ensign) Thomas S. Gay, U. S. N., of this city, was with Lieut. Cushing when he blew up the rebel ram Albemarle, and was captured, with all the crew, and marched to prison at Danville, Va. Here the party were left for two days and nights, in an open fort, or camp, without a morsel of food! until on representing their need to the commander of the post, they were supplied with rations—he stating that he did not know of their arrival. Of such little consequence were a dozen Yankee prisoners.

We cannot go into all the details of their sufferings, but must content ourselves with copying the following remonstrance offered by the party, against a cruelty which no decent man would practice toward a dog:

CON. S. M. PRISON, *Danville, Va, Nov.* 19, 1864.
COL. SMITH, Com'g Post:

We, the undersigned, in behalf of all the Federal Officers held here as Prisoners of War, would most respectfully ask of you to inquire into the state of the Rations—the quantity and manner in which they are issued to us daily. There is injustice done us through some source. Our Bread rations are growing less than when first confined here. Our Meat rations, which are issued two or three times per week, are very meagre. Our Soup is issued to us in the most disgusting manner, being the essence of jaw-bones, eyes, lights, and part of the entrails of the ox, boiled up. The Beans are also very dirty, and unpicked—rat-dung frequently forming part of the bulk.

While some few have money, the generality of the Officers have to depend upon the Rations allowed them by your Government, which we believe they do not receive; and if they do, it is scarcely sufficient to sustain life. Therefore, believing as we do, you will do us full justice in the premises, we present this memorial to your consideration, without disrespect, and with a full assurance that we will receive the rations allowed us as Prisoners of War, in Bread, Meat and Soup in a proper manner.

Yours, &c., Respectfully, (Signed.)

NOTE.—Until the first of Dec., Rations of this character were issued, since which time, to Feb. 15th, when the prisoners were paroled, corn bread alone was issued, 1 lb. of meal to serve two men for one day.

☞ A rare group of half-a-dozen workingmen, was that which an employer at the South End got together the other day, without any attention to the matter—in which there was no smoker or chewer of tobacco. And besides the decency, safety, comfort and health of the thing—probably those six men save not less than $300 a year by their freedom from this disgusting vice, (disgusting to everybody not imbruted by it.)

PORTSMOUTH STEAM FACTORY.—At the adjourned meeting held July 5, in Boston, Ex-Gov. Goodwin presiding, it was reported by members of the committee, that owing to the 4th and other causes, they could only make a partial report. They had already obtained pledges for about a third of the new stock necessary to meet the $300,000 due and required at this time, and hoped to complete the account in a week or two. The meeting adjourned to the 17th, at Portsmouth.

☞ The bay crop in New Hampshire and Maine is estimated to be one-third greater than on the average. In many places haying, which does not commence usually until after the 4th of July, is far advanced. We hear of offers to fill barns in this city, as low as $10 per ton.

POLICE COURT, July 6.—No large batch of arraigned drunkards follow the Fourth, but on the contrary, fewer cases of the kind than on ordinary occasions. *Ergo*,—it is proper to infer that there was but little drunkenness in this city on the anniversary of our Independence, but it may be attributed to the fact that Portsmouth was drained of its population by the attractions and inducements held forth by other more patriotic cities; or, if not possessed of more patriotism, they had an appearance of existence and wakefulness which was at least commendable.

Allen Carroll—no relation to the carol of the feathered songsters, of which poets are wont to talk about—was discovered to be intoxicated, and a legal caustic was applied in the form of $3 and $3.86 costs, which he could not bear, and so was sent up for thirty days.

Thomas Cremens, for drunkenness, was fined $3 and costs $3.86. The following exquisite doggerel was composed in his behalf (by particular request). It should have been headed, "An Apeal:" "Mister Thomas Cremens, you will have the tremens, if you linger round the bar, which is but a funeral car, and we warn you now to quit, that is, if you have the grit, so that finally at last, when all things are gone and past, if you steadfastly refrain, you'll be able to retain—your identity."

☞ Job Jenness & Son's spacious and elegant new Ocean House at Rye Beach, was opened to company for the season, on the 1st of this month—a result which was only achieved by the most unremitting exertion on the part of those gentlemen.

☞ Among the trials which so thickly crowd the pathway of every mortal, none are more prominent than that of sailing down river with a spanking breeze, and when about to return, find no wind and a strong head tide, compelling the occupants of the boat to a row of an hour or more, with tired arms and blistered hands resulting from the hour's toil.

Two gentlemen of clerical habits, on Wednesday, we learn, had their equanimity tested as above; having got as far as Boar's Head and the wind dying away, they were obliged to depend upon a *white ash* breeze, influenced by their delicate yet sinewy arms. It sounds very nice to talk about pulling from Hampton Beach to Pier Wharf, Portsmouth, but to try it is no joke, at least so thought the parties in this affair, one of whom had faced the cannon's mouth, and done valiantly in many of the Waterloos of the rebellion, while the other had braved many a tempest on the "sad, sea wave," but was nearly *tuckered* out when they arrived in port on Thursday morning, just as the old North clock was announcing the "wee sma hour" of one.

MARRIAGES.

In this city, on the 3d inst., by the Rev. Thos. F. Davies, Mr. JOHN H. STEINORE to Miss SATHA STAPLES, both of Portsmouth.

—On the 4th, by the same, Mr. THOMAS LESTER of Needham, Mass., to Miss CATHERINE CLEWES of Portsmouth.

In this city, July 4th, by Rev. S. Holman, Mr. STEPHEN B. YEATON of Newcastle, to Miss ELIZABETH WILLIAMS of Kittery, Me.

ALL THAT'S BRIGHT MUST FADE, is not applicable to a fine set of teeth brushed with Fragrant Sozodont. Its protective, preservative and beautifying properties will preserve the whiteness, soundness and natural polish of good teeth throughout life. And when unsound, it will arrest decay, and remove from the breath the taint which decomposition generates. 3teodjy1 1

Agents Wanted

IN EVERY COUNTY IN THE UNITED STATES

Chance to make $100 per week. The American Ink Company at Manchester, N. H., can give any smart young man or woman an opportunity to make $100 per week. Every family will buy the article, and where there is a village, a smart young lady can make $20 per day. See advertisement of American Ink Company in another column. sn 2aw3mw

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

Room Papers and Borders.

Selling at a Great Reduction.

J. W. & A. STAVERS.

U. S. 7-30 LOAN.

THIRD SERIES,

$250,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.30 the currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which you will the option to pay interest in Gold be realized, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All models of rejected pieces sent to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be *sure of* having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, &c. &c. &c. and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healthe and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course a male that is delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.
A book for everybody—Startling disclosures Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid, on receipt of 25 cts. in postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use, for the reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, inclosing the price, these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing Dr. Teller, Albany, N. Y., inclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
an10 No. 5 BeaverStreet Albany, N. Y

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases requiring the skill of a DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charged for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to be near the Doctor while under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of GONORRHŒA AND SYPHILIS, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott Street, who has had the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow prepares and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. eod&w1y

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S PILL AND PILLE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. They continue, with unsurpassed success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Nervous Affections, and all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing their cases, and by remittance securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor.

Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. 1Thsly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and all Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Directors.
John S. Barry, Boston, Y. J. Messinger, Canton, S. Johnson, Charlestown, Seth B. Brown, Boston, J. S. Shaller, Roxbury, A. W. Adams, Roxbury, S. F. Tillson, Titusville.

The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements to parties who wish to purchase Oil Lands, small for the amount of valuable oil lands the Company possesses. Three engines are already at the ground. Our Agent at Titusville informs us that the well on the McElhany farm has commenced boiling, which places this Company beyond a doubt of success. The Directors feel confident in placing this property before the New England public, have full confidence that no properties yet offered are superior to this, and that of which late, or and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by JOS. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 27 Commercial Street.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, one of Titusville, has been every year since the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen promoters of the Company to be a man, strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the principal farms. Mr. Bates, Mr. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Collins, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells, have yielded, for the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six million* of dollars. The last of these, Mr. W. Harris, Esq., well known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusion the others had come to, that the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek. The land is of the best and most fruitful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of this farm is valuable for Coal or boring wells, and there is no waste to it.

The oil bells run from east to west, or from north east to south west, and pass from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the wells of Mead well flowed 2000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 50 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres on the Mattison Farm, and that is not good for coal, is equal to the Flat below Titusville. Coal in that section is worth $13 per ton, and if the vein of coal should prove well it would be a fortune in itself. It is spoken of coal, burning freely as Cannel.

The average price of oil per barrel the last year was $20 at the wells, the producers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs $6 per rod to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and preceding geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPHERD, Geologists of eminent reputation, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd, of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room for such work. Twenty wells on this farm for over 900 wells. Just make computation of the cost of so many wells, and the yield per rod, and per acre, for a year, if they are as good as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your increase from this Farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Oil Creek and Pithole. The Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

(On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Cooper Well that flows 1000 barrels per day. Men say that flows 300, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Fraser well is on it. It began to flow about the middle of January, the week its sucker rod in, and its pipe seven-eighths full of machinery, it has flowed 200 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2,000 barrels. Below this farm, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will probably flow. Adjoining further north the same company, the United States, is putting down a well that looks already better than the Fraser well, and not expectant, rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles Farm, all in land, and very rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Rates that farm very highly of it, and no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leased for fifty years at the rate of $50,000 for stripe twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 12 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil well will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Address to the subscriber,

GEO. A. FRENCH,
dawsm MANCHESTER, N. H.

TRUE W. JONES,
61 Market Street, 61
—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes of the

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of healthy Furnaces have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This difficulty, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites the gases, and causes a heat so intense as to melt at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

As to ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Blood's Patent Improved Sifter.
For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the kitchen it is the right thing in the right place. No household would be without it after a single trial. *Rounds.* (It requires but one quarter the time of the old method.) *Nest.* (The hands do not come in contact with the article sifted,—there is no dust, no scattering of flour, no cold fingers. *Durable.* (It is warranted to last ten years.)
Grocers use it to bolt their meal, saving time, expense and waste. Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Paint Dealers, for sifting Ochres, Whiting, &c.—For sifting Cream Tartar, nothing will take its place. Price $1.00. For sale by
E. A. STEVENS.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARK.
MELROSE, MASS., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppa Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid once and it now does just freely as at the first, and is not changed from what a single shade. It is a beautiful black; it flows so freely that I can write one-quarter faster with it than with any other Ink. I shall try to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used I would not be without it for any money.
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 8, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing, and that would not corrode the pen, and several have been discovered. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and find a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection, it has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 18, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 18, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moore's Blue Black, Noyes', D. J. Rideout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale* it to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awawdm

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 7, 1865.

THE REASONS.—Messrs. Harry Bingham and E. A. Hibbard, presented a minority report to the New Hampshire House of Representatives, opposing the Anti-Slavery Amendment of the U. S. Constitution, and giving three reasons for opposing it. 1, because the events of the four years have left the South in an unsettled condition, &c. 2d, Because the proposed amendment is not an amendment authorized by the Constitution, but is revolutionary in its character. And 3dly, because they believe it would destroy the supposed authority of the States over all matters of a local and domestic character, and as the relation between master and servant is a matter of a nature purely local and domestic.

Answer, 1. This amendment will go far toward *settling* their condition, on the foundation of justice and honesty. 2, the second reason or consideration is *no reason at all*,—but mere foolishness; the constitution offering no barrier whatever to this amendment, or to any other, except as specified. 3d, the rebellion and consequent emancipation has upset the recent *relation* between master and *slave*, together with a heap of other fallacies by which it was surrounded. The objections are *obsolete*,—the amendment has passed our legislature, and will be adopted in full. The men and the party, that record themselves against it, only record their own condemnation, for the wonder of posterity at their stupidity and folly.

A MAN OF STRAW.—We have before us a reported speech of John McNeil, Esq., in the N. H. House of Representatives, which he doubtless intended to be an argument against the Abolition Amendment.—He says:—

It requires some assurance, and to my mind very little modesty, for the members of this House to stand up here and proclaim that the wisdom of the present has discovered the errors of the past; that they have found a way out of this wreck to rise in, a sure and safe one, "though our fathers missed it." And that is by a commingling, socially and politically, the race of the Anglo Saxon with the race of the African Negro. Sir, God knows that our country needs to be tranquilized, but not in this way. No Sir, whatever gentlemen will say, New Hampshire will *never give her voice* in favor of making this operation practical within her own borders.

His *commingling* is a mere man of straw, made by himself and his friends:—and whether he knocks it down or not, New Hampshire *has given her voice* in favor of the Abolition Amendment by a two-thirds vote of both Houses:—and she *has always* given "her voice in favor of making negro voting practical within her own borders!"—for negroes have been citizens and *voters* in New Hampshire ever since the State was formed.

THE COUNCIL AND EX-GOV. GILMORE. The Concord Monitor publishes a letter from the gentlemen of the Executive Council, on the retirement of Governor Gilmore from office, bearing witness "to his zeal and efforts to promote the honor and best interests of the State and the fidelity with which he has administered the varied and responsible duties of Chief Magistrate;" with Governor Gilmore's reply, in which he acknowledges the pleasant relations which has existed between them, and the uniform courtesy and forbearance which he has received from them.

BUGABOO!—The New York Herald's Richmond correspondence says, in consequence of rumors in that city Monday, that the negroes contemplated insurrection, the guards were doubled and other precautions taken by the military. [The precautions were all right—but the rumor puts us in mind of hundreds just like it, that used to come from Jamaica, via Havana and New Orleans, 20 years ago.]

☞ Messrs Adams, Sampson & Co., 47 Congress street, have just issued the Boston Directory for 1865. This publication has become the model of its kind in the country, and the present issue excels its predecessors in completeness and perfection of arrangement and increased information. In its preparation 13,348 names have been expunged from that of last year, and 18,968 have been added, showing an increase of 5,620, and making the whole number 61,091. Other changes have been made to the number of 14,080. As a book of reference it is indispensable to every citizen, and valuable to business men everywhere; and is furnished handsomely printed and substantially bound, at the moderate price of three dollars.

FIRE AT SEA; LOSS OF LIFE.—Ship William Nelson, Capt. Smith, from Antwerp, June 4, of and for New York, with passengers, was burned on the banks of Newfoundland on the 1st inst. 30 passengers were picked up and conveyed to St. John, N. F. The boats, with crew, &c., are missing, and it is supposed 400 lives are lost.

— Commander Parker, of the U. S. Navy, is relieved from arrest.

NEW HAMPSHIRE ITEMS.

—— Mr. Kendall Wadleigh died at the residence of his father, at Lake Village, on the 3d inst., aged 25 years. He was a reporter in the Manchester Mirror office several years, and was obliged to leave a year ago from ill health caused by dyspepsia, from which he suffered beyond description. He was a good Reporter, reliable, impartial, thinking no evil, and dealing justly with all. His death, though long expected, causes deep sadness among his numerous friends.

—— The old steamer Dover had her forward deck blown off Thursday morning, at the wharf at Centre Harbor. Some one put powder under it and set it on fire. She is not so disabled but she is making her regular trips.

—— The two white crows which were recently captured in Tamworth were taken to Manchester on the Fourth, and an ordinary black crow of the same brood, which was taken at the same time, accompanied them. They remain at M.

—— The Mirror states that the Manchester Banks, in the course of a week past, at the solicitation of Governor Smyth, have loaned the State money to the amount of $139,000. This action of those who manage the banks shows that the Governor is popular at home. It also shows that our citizens have implicit faith in the integrity of the State government, and its ability to pay eventually all demands against it. The State pays an annual interest of 8 per cent.

—— Rev. George Denham, of Chelsea, Mass., has accepted the rectorship of St. Luke's Church, (Episcopal) of Nashua. The sittings in this church are free, and the expenses are met by collections every Sunday.

—— Thomas Pinkham, who was killed on the 4th, at Farmington, by his son Chas. E. Pinkham, had returned home only the Saturday previous, after having served in the 10th regiment. Both father and son were under the influence of liquor, procured in a neighboring town, as none is now sold in Farmington. Commencing somewhat sportively to see who was strongest, the son got excited and angry, and with a scythe struck his father, severing the muscles, veins and arteries of the arm, and injuring him in other places, so that in a very few moments the father bled to death. The son was arrested without resistance. The wife of Mr. P. died last winter, leaving a family of children, now in double mourning.

TEXAS.—The Tribune's Galveston correspondent, 20th ult. says that place was occupied by colored troops as provost guard. Gen. Gordon left on the 20th for Houston with a force to occupy that city. Galveston is dreary. The impoverished people still cling to the idea of State rights and the "Lone Star."

There are more slaves in Texas than before the war, but the institution is waning, and little effort is made to capture runaway negroes. There is a reign of terror in the interior, where the rebel soldiers are taking vengeance on rebel quartermasters and contractors.

Gen. Sheridan, after visiting Galveston, proceeded to Brazos Santiago, and thence to Brownsville, and was expected back to New Orleans. Gen. Weitzel was established at Brazos Santiago, and would soon proceed to Brownsville.

Gen. Granger, in an order, gives the people of Texas distinctly to understand that slavery has ceased to exist, and that there is to be equality and rights of property between the negroes and their former masters.

AFRAID OF NORTHERN KINDNESS.—The Nashville Union of the 28th ult. publishes the letter of S. J. Crooke to the rebel Gov. Harris, proposing to assassinate Gov. Johnson. This precious document, dated April 24th, 1862, was found among the State archives recently captured. Cooke appears to have been an adept at firing the Southern heart, and was sagaciously alive to the danger of having the fire extinguished by coming in contact with Northern humanity. He says: "I fear the enemy will treat our men behind too kindly; thereby converting them to Yankees. Killing a few pickets, etc., would *soon terminate their damnable civility*." Here is a hint of the barbarous policy that pervaded the South.

THE SPECIE OF THE NEW ORLEANS BANKS.—The New Orleans *True Delta* says the agents that were sent into the Confederacy after the surrender of the rebel armies, to secure the specie belonging to the New Orleans banks, found that it had been appropriated by the rebel authorities, some high Confederate dignitaries taking large sums for their own personal benefit. The amount thus lost is about $4,500,000.

THE CONSPIRATORS EXECUTED.—Harrold, Payne, Atzerott and Mrs. Surratt, were hanged at half-past 1 o'clock on Friday, at Washington, pursuant to the sentence of the Military Commission.

— Gov. Pierpont has abolished the old Virginia Court of Appeals. He expects to have a civil government running by the 1st of August.—Gen. Terry has received orders to muster out all the troops in his department whose services are no longer required.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TONY.

Character of Gov. John Wentworth, 2d.—Fear of burning Portsmouth, 1775.—Provincial Congress at Exeter.

Governor Wentworth was educated at Harvard College, and was graduated in the year 1755. He was distinguished for the brilliancy of his talents, a good classical taste in literature, and for those amiable qualities, which gained him the esteem of all who knew him. He spent some time in his father's counting house, after he left College, to obtain an insight into mercantile business, and then went to London, where he resided several years, and until he was appointed Governor of the province. He received the degree of Doctor of Laws from the Universities of Oxford in England, and Aberdeen in Scotland. He was the friend of learning and of learned men. Dartmouth College was established during his administration, and flourished under his patronage. His constant endeavor was to promote the interest of the province, and through his influence its settlements rapidly increased. He did all in his power to preserve the union between this country and Great Britain, but was obliged to yield to the spirit of the times, and submit to a separation. The Rev. Doctor Dwight, in his travels, says, "Governor Wentworth was the greatest benefactor to the province of New Hampshire mentioned in its history. He was a man of sound understanding, refined taste, enlarged views, and a dignified spirit. His manners also were elegant, and his disposition enterprising. Agriculture in this province, owed more to him, than to any other man. He also originated the formation of new roads, and the improvement of old ones. All these circumstances rendered him very popular; and he would probably have continued to increase his reputation, had he not been prevented by the controversy between Great Britain and the colonies. As the case was, he retired from the chair with an unimpeachable character, and with higher reputation than any other man, who at that time held the same office in this country." Soon after he left this province, he went to England, and was there created a Baronet, and was appointed Lieutenant Governor of the British province of New Brunswick.

October 18th, 1775, several British armed vessels, commanded by Captain Mowat, set fire to, and partly consumed the town of Falmouth, since called Portland, Maine. It was expected that they would proceed to Portsmouth for a similar purpose. The inhabitants were in continual alarm for several days. A violent storm prevented the ships from going to sea. Sunday morning the 22d, the wind changed, and the weather became pleasant. Every thing in town was in the greatest confusion. A great number of teams from the neighboring towns, came to the assistance of the inhabitants, who generally sent their goods and furniture to a distance for security: and many, not thinking themselves safe here, removed their families into the country, and remained there till the spring. Brigadier General Sullivan was sent by General Washington, to take command of the militia, and defend the harbor.

The provincial convention at Exeter determined that the public offices, which had always been kept in this town, should be removed to Exeter, as a place of greater security. They appointed Ebenezer Thompson, Secretary, instead of Theodore Atkinson; Samuel Brooks, Recorder of Deeds, and Nicholas Gilman, Treasurer, instead of George Jaffrey.

The convention just before the expiration of their term, issued writs to the several towns in the province, to send representatives to a provincial Congress, which was to meet at Exeter on the 21st of December. The members were chosen for one year, and authorized to transact such business, and pursue such measures, as they should judge necessary for the public good, and to resolve themselves into a House of Representatives, if such a form of government should be recommended by the General Congress. Portsmouth sent three representatives.

The number of inhabitants in Portsmouth were computed at four thousand, five hundred and ninety.

SUFFERING IN EASTERN KENTUCKY.—The Newport (Ky.) Free South says the Union people of Eastern Kentucky were robbed of nearly everything during the hopeful days of the rebellion, and are now in the most wretched condition. Many children are entirely naked, and the women nearly so. The most of the Union men not slain fled for safety, others yielded, subservient to the slave power, producing a very melancholy state of affairs.

SOUTH CAROLINA.—Charleston correspondence says Gen. Hatch, learning that the planters, in their contracts with freedmen, have introduced clauses establishing a system of peonage, the negro being obliged to work out any debt that he may hereafter incur to his employer, has issued an order annulling all such contracts. He also gives notice that no language must be used in these contracts intimating that the planters design, at a future day, to contest the question of emancipation.

EXCITEMENT AT HARRISBURG.—Owing to numerous recent fires, which are believed to have been set, the people of Harrisburg, Pa., have become considerably excited, the impression being that there is an organized plan to burn the place. A public meeting was held June 30, at which the Mayor presided. It was determined to close all drinking places at 12 o'clock, and an extra police force was provided for. What *can* be the reason for closing drinking places? Is it possible that incendiaries visit places so respectable?

Special Notices.

CAUTION FROM THE
AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.," others "P. S. Bartley," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertized in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every part of the Union, is eminently praiseworthy. This preparation is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life, a case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 50 cents per box. Can be sent by mail on receipt of 50 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnd&wlym28

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to you ourselves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 20 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

d24sneod1m New York City.

☞ **A Physiological View of Marriage**—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomony of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, Perfect Manhood, Impediments to Marriage, Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 21 Maiden Lane, Albany, N. Y.

The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mo13—3mdawsn

Local.

POLICE COURT, July 7.—Wm. Aiken, a soldier, had an aching head on Friday morning caused by an over-indulgence in ardent spirits. He too, has the impression that the world owes him a living, and in pursuance of this idea commenced a raid on the premises of Mr. Jonathan M. Tredick, but Officer Fredson by a skillful manœuvre managed to flank him, when Mr. A. surrendered unconditionally to him. Three dollars and three eighty-six is the balm for such eruptions of humor, and the same was applied to poor Aiken.

Wm. Holden, drunkenness, was fined $3 and costs $3.86.

Hugh McSorley is again arraigned before the grim assize, and is informed that $6.86 will cancel the matter, but poor Hugh has not the needful, and therefore a mittimus is issued, which, being interpreted, simply means a free pass to the House of Correction.

Julia Galligan, brawl and tumult,—$3 fine, and costs $3.86.

Male and female recruits are fast accumulating, and unless these inconsiderate beings leave off getting drunk, new quarters must be built. In recapitulating the above record, we find this celebrated summer resort reinforced by Messrs. Hugh McSorley, Wm. Aiken, and Miss Julia Galligan,—a beautiful trio, well calculated to make an impression at any watering-place.

NEWCOMB'S MINSTRELS.—This talented troupe will give two of their most excellent entertainments at the Temple, Thursday and Friday Evenings, July 13th and 14th. This troupe, which has visited our city several times, within past years, is a favorite one with our citizens, for the reason that their singing is always good, the delineations of negro character ludicrously life-like, and the comic acts novel and mirth-inspiring. Since their last visit, the troupe has been remodeled and enlarged, and now numbers 22 performers, and is pronounced by our exchanges even better than before.

☞ In our item of yesterday mentioning Mr. Gay, he was promoted the wrong way—from Acting Master to Ensign—when the fact is, his gallantry and good behaviour richly earned him promotion just the reverse of this, and his present rank is Acting Master. Perhaps, however, in view of the *new* private service he has recently entered, and in which no *gallant* soldier can ever be really the *acting* "master," no matter what his nominal title,—our item was not so far wrong after all.

☞ Acting Volunteer Lieutenant Keene has been ordered from the command of Fort Sullivan in this harbor to the Charlestown Navy Yard, for the purpose of assuming the duties of Naval Storekeeper on the 1st of August, in place of Josiah Dunham, removed. Lieutenant Keene was in charge of a Maine merchantman when the late war first broke out, as master, and left his ship to serve his country in the naval service. He has been in several engagements during the war, and lost a leg at Hillsboro, North Carolina.

☞ An invitation is kindly extended to the returned soldiers, to be present at the Universalist Church to-morrow morning. The Pastor will preach on Peace and the Peacemakers. Text, Matt. 5th, 9th.

☞ The closing Rehearsal of the Philharmonic Society, before the summer vacation, will be held at Mercantile Hall, on Tuesday evening, July 11th, at 8 o'clock,—when the attendance of all members is desired.

Per order.

REAL MUSCLE.—Walter Brown of Portsmouth, who won the first prize in the race of wherries pulled by a single man with one pair of oars, at our Regatta on the Fourth, and who, in the fourth race, was one of the winning crew of the Una, possesses great muscle and strength. And no wonder. When invited to "take a drink" he replied, "I never drink intoxicating liquors of any kind." "Well then take a cigar," remarked a friend. "Thank you," was Brown's reply, "I do not use tobacco in any shape." This will serve as an hint for his great muscular strength, and it is an honor to him.—*Portland Press.*

GOLD, Friday, 139 1-2.

— Col. Northrup, formerly Chief Commissary of the rebel armies, has been arrested and imprisoned in Castle Thunder.

— Wm. C. Winslow, a son of the late Rev. Dr. Hubbard Winslow, was admitted in New York, July 2, to Holy Orders in the Protestant Episcopal Church.

— At Louisville, Ky., on the 4th, Col. Munday, the candidate for Congress, made an eloquent speech in favor of the Constitutional Amendment. Gen. Brisbane advised negro suffrage, the laying of heavier tariffs on foreign manufactures, and of holding the rebel States until the adoption of the Constitutional Amendment.

— On the 4th, at New Orleans, Gen. Banks delivered an oration, and asserted the justice, right and necessity of conferring the elective franchise on the colored people of the South. The celebration wound up with a magnificent freedmen's torchlight procession.

☞ The Manchester Union, in reporting President Johnson's confab with the South Carolina delegation, says, "Mr. Johnson, we observe, falls into the vulgar error of attributing the culpable cause of the war to slaveholders, instead of abolitionists." This is very stupid as well as "vulgar," no doubt in the Union's estimation. It takes a Northern copperhead to get the right view of the thing. Mr. Johnson, a Southern man and a democrat always, can't see it in any such light.—*Enquirer.*

— John R. Clanahan fell from a window in the Gayoso House, in Memphis, and was instantly killed. Mr. Clanahan was widely known as one of the editors of the Memphis Appeal.

A SPECK OF DANGER.—The minutest black spot on the enamel of a tooth, is an evidence that decay's effacing finger has touched it. Quickly interpose the Sozodont as a safe guard, or the tooth is gone—and not only that one, but perhaps half-a-dozen. Be assured that nothing but Sozodont will either effectually prevent or arrest dental disease. 2

DEATHS.

In this city, Friday morning, July 8, WILLIE CLARK CHEEVER, aged 4½ years, son of Wm. H. Cheever. ☞ Funeral Sunday morning, at 9 o'clock, from No. 21 Vaughan Street.

JOSEPH B. ADAMS, P. M.

Another Humbug.

Until quite recently the scheme of making money without labor, by investments in Petroleum Stocks, has met with favor by some of our people; but experience has proved that the projectors and not the innocent buyers of the stock in these concerns, were the fortunate ones who made the money. A new phase is now presented, that apparently commends itself to the conservative and economical portion of the community—in the organization of COAL COMPANIES, with the alleged object of supplying shareholders with coal at cost! The process is for a few sharp men to buy a coal mine in Pensylvania, say for $50,000, put it in a Company at a value of say $200,000, and "have a few shares for their friends, which as a favor they can take." The coal is then mined, or other coal purchased at market rates, and delivered in its rough state, with dust and screenings, to the fortunate stockholders, at whatever cost the mathematics of the Treasurer may reckon it; while the stockholders have the pleasure of congratulating themselves, that notwithstanding they may have paid a great price for an inferior article of coal, they have at least not paid any profit to the regular dealer, who keeps for their accommodation, at all seasons of the year, a good article, and who helps pay the taxes in their community; but that if cheated at all, it has been handsomely done by some foreign operators, who will be ready with another scheme as soon as daylight dawns upon the last humbug.

U. S. 7-30 LOAN.

THIRD SERIES,

$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " $500 "
20 " " " " $1000 "
$1 " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

GEO. M. GUILD & CO.,

Grand, Square and "Parlor Favorite"

PIANOS.

Warerooms 544 Washington St., Boston.

Our "PARLOR FAVORITES" have all the modern improvements, with overstrung *bass*, full iron frames, good tone and action, and thoroughly made in every particular.

They are not more than two thirds as large as "full size" Pianofortes, and can be sold for less than the wholesale price of large Pianos.

Our list comprises every variety of Piano, from the "PARLOR FAVORITE" to the SQUARE and PARLOR GRAND, and at prices varying from three to fifteen hundred dollars.

Send for Illustrated Descriptive Catalogue, giving details of all our different styles of instruments.

The Best and Cheapest

FARMING LANDS IN THE WHOLE WEST, ARE THOSE OF NORTHERN MISSOURI.—Rebels are moving away, and are selling for whatever they can get, and are coming immigrating from the Northern States and from Europe, already begun, will soon occupy that part of the State, and develop its immense natural wealth. American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate for a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Boils, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. Teller, broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject does not permit a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures! Dr. Teller's great work, the Married or Those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Matrimony, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, or three post office stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1 (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to
J. TELLER, M. D.,
an10 No. 5 Beaver Street Albany, N. Y.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE NATURE, ACCURATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the consideration of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or pleasure. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your disease. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to remain a few days under his treatment. Dr. Dow, since 1846, having confined his whole attention to an office practice for the cure of PRIVATE DISEASES and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, office 7 Endicott street. Persons who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow invents and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 2, 1865. eod4w ly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues to MAKE A SPECIALITY, medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and happy success of 17 years, also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 22 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 22 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. 1YThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 22 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with elegant rooms. Charges moderate.

Directors.
John S. Barry, Boston. Wm. Messinger, Canton.
S. Johnson, Charleston, Seth B. Brown, Boston.
J. S. Shaller, Roxbury. A. W. Adams, Roxbury.
S. F. Hilson, Titusville.
The properties of this Company consist of 643 acres, principally owned in Fee Simple, of the most desirable Oil Lands, situated mostly in Oil Creek, Penn., upon which there are three wells now down, capable of producing from 100 to 1000 barrels per day when completed, as they are located so near the great producing interests of the *Empire, Noble, Sherman* and *Drake* wells, on this noted creek. This Company offer inducements seldom met with. Its capital stock is very small for the amount of valuable oil lands the company possesses. Three engines are already at the wells. Agent at Titusville writes us that the well on the Company farm has commenced pumping, which places this Company beyond a doubt of success. The officers of this Company, in placing this property before the New England public, have full confidence that no properties yet offered are superior, or any out of which larger and more certain dividends may at once be expected. Maps and full information given on application to the Treasurer. Subscriptions received by Mr. W. DAVIS, Banker, No. 25 State street, and at the OFFICE OF THE COMPANY, No. 47 Congress Street, Boston.

Portsmouth, N. H., June 5, 1865.

Pleasure Sailing.
The fine Schooner PILGRIM, about twelve tons, will run from Portsmouth, to accommodate Parties in the Harbor, or for a Shore to the other, point, by the hour, day or week. The Pilgrim is a staunch boat and fast sailer, and well found in every particular. She will well accommodate 30 or 40 ladies and gentlemen. At any time during the season, on receipt of a Message, *fifty six million* of dollars. The last of Mr. Wm. W. Morrill, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilson, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They went on the ground, and on conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek. The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through it, and a level piece of land at the one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil lets run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, where so many of the fortunes have flowed. Here the Steele & Mead well flowed 2000 barrels per day—the Fountain 200—the Parker 100—and hundreds of others now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A well bored well will cost forty thousand dollars, and a sixty barrel well sell for half a million.

It is for every good judge that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville. Coal in that section is worth $12 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of Oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $60.00 to sink a well to the depth of 400 feet, and a few go lower than that. It costs $20 per day to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm, of Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and selecting Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors MAYNARD and SHEPARD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. The results have come up to the expectations of Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be a permanent property. Oil is abundant room on each acre for 15 wells, and on this farm for over 900 wells. Just make computation of the 900 wells, and the yield and profit on the whole in a year, if they are as good as they are expected. If they only yield the usual average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the Oil Creek Railroad, one mile from East Oil Creek, and between Cherry Creek and East Oil Creek, and between Cherry Creek and East Oil Creek empties into Oil Creek. They have bored one well right opposite this farm and struck oil. A single good well on this farm would enable the Company to sell or lease the lands for great profit. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil City, directly east of the Coquet Well that flows 100 barrels daily, the Jersey that flows 300, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eighths full of machinery, it has bored 250 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 3,200 barrels. Below this well, on the same Creek, another fine well has been struck, and stowed its spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is pulling down a new Well that promises better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between Frazer and the Pipe Line, they have raised so high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well, struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high lands some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it that promise excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and and-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the ashes and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—OF the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.
"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask the attention of those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

BIRDS VS. TREE WORMS.—At the New York Farmers Club, Dr. Trimble presented specimens of the span worm, which is so destructive to the shade trees of that city, and stated that he had been trying his plan of shaking them off in one of the parks, and had succeeded in completely ridding the trees of this pest. Some of the worms exhibited were dark brown, and others of a high green color; and the speaker explained that the change of color resulted from the shedding of his coat by the worm.

Dr. Trimble also presented specimens of the canker worm, which devours the leaves of the fruit trees of New England, and observed that this pest is extending its ravages westward to New Jersey and other States. This worm is, like the span worm, one of the family of *geometra*, or earth measures, and is very similar to the span worm in appearance. The different manner in which the two worms attack the leaves was illustrated by green branches which had been subjected to their depredations. The span worm eats holes in the leaves, while the canker worm strips the ribs of the leaf clean, and then curls them into a tangled mass.

Dr. Trimble said that wherever trees are so situated that the cedar birds can come to them without fear, they are effectually protected from the depredations of the canker worm. This bird is the natural enemy of the canker worm; and the New England people, instead of shooting these beautiful pets for market, would do well to pass stringent laws for their protection.

☞ In Boston, on the 4th, a boy named Michael Cosgrove was fatally shot in his neck, in Moon street, by an old man named Charles Johnson, because he was irritated by the lad's firing India crackers. The boy died next morning.—Wm. Carr of East Cambridge, while sitting at a window at No. 50 1-2 Portland street Boston, about 2 o'clock in the morning, was shot in the head, apparently by some person firing a pistol in the street. The man was taken to his home, where he died in a few hours. Carr was a retured soldier.

—The New Orleans *Picayune* says the negro troops landed at Brazos have been very mutinous since their arrival at that place. Water being scarce, they broke away from all control, boarded the vessels lying at Brazos, and took casks out of some and took others to the Rio Grande to fill with water, and committed other excesses. It was feared that on their march into the interior they would become far more mutinous, as they were very indignant at being sent to Texas.

—During the shower on Friday afternoon, the barn of Hugh Haley, in Worcester, was struck by lightning, and a jackass therein killed. As the jackass had engaged to take part in the exercises on Tuesday, the *Spy* says, it is a national as well as private loss.

— Mrs. Col. Mulligan, of Chicago, has been presented with $2,500 in cash, and a $5000 homestead, by the admirers of her brave husband, deceased.

☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (nutgalls of Aleppa Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone with your Ink. *It is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid twice and it now flows just freely as the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. FOLAND.
Washington, D. C., Feb. 4, 1865.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used I would not be without it. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected at all.
I have introduced it into my school in this place, and had I a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moor's Maynard & Noyes', D. J. Kilbourn's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JULY 10, 1865.

WASHINGTON ITEMS.—A Washington correspondent says:

A few days since an address appeared here in an obscure evening sheet, purporting to be from a so-called executive Democratic Committee, and signed by Charles Mason chairman. After devoting several columns to abusing the last and present administration, it has the cool effrontery to conclude by declaring a cordial support of President Johnson. Lest the public may be deceived, it is due to state that this committee is the offspring of the old Breckinridge Democratic Committee of five years ago; and there has been general regret here that it did not follow its sympathies and its candidate into the rebellion where it really belonged. It has no more right to speak for the loyal democracy than Ben Wood or Breckinridge.

Gen. Dix, it is understood, is about to resign from the service. He will be succeeded in New York by Gen. Hooker, who will have command of all of the Department of the East.

MRS. SURRATT.—As much misplaced sympathy is expressed for the fate of this woman, it is well to review her connection with the assassination conspiracy, as developed by the evidence adduced at the trial. It was shown that she received and entertained all the prisoners, except Dr. Mudd, O'Laughlin and Arnold. With Dr. Mudd she planned the means and assistance for the escape of the assassins. She visited Surrattville at 5 o'clock on the day of the assassination to see that the carbines, &c., should be in readiness, and informed Lloyd, the tavern-keeper, that they would be called for that night. Booth frequently called at her house, and held long and confidential talk with her. He was in her company a few minutes the afternoon of the 14th. When confronted with Payne on the night of his arrest, when he went to her house in disguise, she protested that she had never seen him, and added, "I did not hire him; I don't know him." It was proved that she knew Payne well, and that he had lodged at her house. In fact, her character appears to have been that of general manager, cognizant of the intended assassination almost from its inception.

TREASURY AGENTS MISSING.—A Shreveport letter of the 29th ult., to the New Orleans Times, says: "Considerable anxiety exists regarding the fate of five United States Treasury agents, who went into the country a week since, in search of rebel cotton, unaccompanied by an escort. It is reported, and generally belived, that they have been murdered. The country people are represented as highly exasperated at the attempt of our authorities to look up Confederate property, large quantities of which have undoubtedly been clandestinely made way with.

INCIDENTS OF THE EXECUTED CONSPIRATORS. — Washington correspondence of the Boston Herald says: The execution of the conspirators passed off in a quiet manner, the arrangements being carried out with military precision.

In their interviews during Thursday night and Friday morning, with their spiritual advisers, all of the prisoners acknowledged their guilt, except Mrs. Surratt, who to the last maintained that she had nothing to do with the murder of the President.

Payne wrote a statement, in which he declares that Mrs. Surratt had no complicity in the assassination. A copy of this was furnished Judge Holt and another given to the friends of Mrs. Surratt.

Atzerott informed the Rev. Dr. Gillette to day that he took a room at the Kirkwood House on the day preceding the assassination, in order to get a pass from Vice President Johnson to go to Richmond and open the theatre in conjunction with Booth. The plan was to abduct the President when he visited the theatre in Richmond. He said John Surratt got him to join the plot to abduct the President.

Harold charged the same thing in his conversation with clergymen.

All of the prisoners were visited by their relatives, except Payne.

When the prisoners were suspended, Mrs. Surratt and Payne scarcely moved a muscle. Atzerott exhibited some twitchings, but Harold showed more nervous sensibility than any of the others.

The bodies hung until life was extinct and were afterwards given over for burial, the rough coffins being already at hand for that purpose.

— Fortress Monroe correspondence details a melee at Smithfield on the 4th inst., caused by the residents refusing a party of colored excursionists from Fortress Monroe a landing. A detachment of the 3d N. Y. cavalry appeared to preserve order. Robert Earle, a butcher, attempted to shoot the captain of the boat, when Major Ebbs, commanding the cavalry, struck him on the head with his sabre. In the melee, private Grap of the cavalry was mortally wounded, by mistake, by a sergeant. The disturbance was promptly quelled.

— In an important case recently tried in New York, the jury after being out nearly an hour, came in and informed the court that one of their number knew nothing of the English language, and had not understood a word of the evidence, arguments, or charge of the judge. The court, after some hesitation, dismissed the jury.

CLOSE OF THE FISCAL YEAR—*Large Gold Surplus in the Treasury.* The fiscal year 1865 closed on Friday last, June 30. Altogether the actual consumption of foreign merchandise, owing to the extravagant price of gold last summer and fall, is found to be about eighty millions in gold value less than the previous year, while the customs in gold derived from this moderate consumption are only seventeen millions less than in 1864. The duties now average 44 1-2 per cent. upon the invoice or appraised value of the goods entered for consumption. This rate, on a consumption of about $194,000,000, gives a customs revenue in gold of $86,000,000. Last year the duties averaged 37 1-2 per cent., and gave $103,000,000 on a consumption of about $275,000,000.

The Secretary of the Treasury, in view of the effect last summer of the high price of gold, and consequent high rates of exchange on the consumption of foreign goods estimated in his annual report in December for only $72,000,000 of customs. The fall of gold, however, the close of the war, the flattering condition of the crops and the near prospect of a renewed regular, if not active, trade with the South, have all contributed to swell this source of revenue to $86,000,000.

As the wants of the Treasury in the way of gold to pay interest on the gold bearing funded debt were less than $60,000,000 in 1865, the Treasury comes into the new year with a surplus in gold and silver of about $35,000,000, including the appropriations made to pay the present July interest on the public debt and not yet called for.—*N. Y. Times.*

MEXICO. — Maximilian is still on his tour, meeting with cordial receptions.—Guerrillas are active. Over 1000 fresh French troops had arrived at Vera Cruz and been sent to the interior.

— The President's health is restored.

— The rebel Gen. Ewell was visited at Fort Warren on Friday by his wife and daughter.

— The Herald's correspondent travelling through the South says the cotton still in that section exceeds any estimate yet published. The great difficulty is in getting it to the seaboard. South Carolina planters have so little faith in paper money that they will sell cotton for 10 cents in gold in preference to 15 in greenbacks.

— The Washington Chronicle emphatically contradicts the published report that Mr. Seward has placed his resignation as Secretary of State at the disposition of the President.

— The Richmond Whig says: "We learn from a source that we apprehend is reliable, that Major Thos. P. Turner, late commandant of the Libby Prison; Major Geo. W. Alexander, at one time commandant of Castle Thunder, and Frederick Wiley, Adjutant of the latter post, had all safely arrived in London, England, at last accounts."

☞ The Newburyport Herald noticed on Friday, the robbery of Mr. Milton Ellsworth, a returned Rowley soldier, of $700, the money being taken from his house during his absence, on the 4th. The money consisted of one $500 bill; three $50 bills, and some smaller—all greenbacks. The next night the $500 bill was brought back and placed on a window sill, with a brick to keep it from blowing away. This shows that the "vital spark" is not totally extinguished in the thief, and the Herald hopes the movings of conscience will yet induce the return of the balance.

— In Hayti, the only country in the Western Hemisphere where the colored population have control, it is said no white man can be a citizen (of course he cannot vote) —no white man can hold real estate—and the bond of no white man will be received.

— It was eleven years from the time Newburyport celebrated Independence with her returned sons and daughters, to the celebration of Peace and a renewed Union of the States this year. It will probably be eleven years more before she has another celebration, and that will take those who survive to the date, to the centennial of the Declaration of Independence.

— In three weeks 2244 dogs, found astray and unmuzzled in New York, have been killed. We are glad of it, and trust the same course will be pursued everywhere.

— The Pittsburg Chronicle says the miners' strike at the mines in the vicinity of Youngstown, after lasting over two months, has finally come to an end, and work has been resumed at the rate of wages proposed by the proprietors in April last. The miners before going to work agreed to abandon the Union. At Mineral Ridge they still hold out. The proprietors contemplate another reduction of wages before long as a matter of necessity.

— The Toronto Leader of June 28 states: "To such a pass have the affairs of the corporation of Quebec been brought, that the question has for some time been raised whether it would not be better to supersede the functions of the corporation by an administrative committee. Messrs. Baring Bros. (the English merchants,) as large creditors of the corporation, are reported to favor this expedient."

— A Queen Anne gun, 235 years old, which went through the Revolution and the war of 1812, was fired at the Van Rensselaer mansion in Albany on the 4th.

A BEASTLY SIGHT.—On Thursday evening, two women were taken from State street, Newburyport, in a state of brutal intoxication, unable to walk or care for themselves. They were both mothers of three or more children each. One of them has a husband in the army, while she, sentenced by the Police Court on Friday, is now at the County House for three months. The husband of the other, we hear, is employed in the Navy Yard at Portsmouth. She was a very well dressed woman; and after she was in the lockup her husband visited her with three little children, who were alarmed and grieved at her situation, and all wept in bitterness together. When she recovered she was allowed to go home. This was a shocking scene for a christian community like ours, and shows that we have yet a field at home for the exercise of philanthropic and christian action, that should not be entirely neglected while we are caring for the rest of mankind.

We should like to see some fifty places in this city where men, women and children are allowed to drink rum and get drunk dealt with according to law. We do not urge the city government to extreme or obnoxious measures. If they don't want to stop rum-selling as a whole, that is a matter for them; but it is not optional with them—and should not be—whether these low grog shops shall continue to be sinks of pollution and pour out their vile streams of death, corruption and damnation over the community. It is their duty to close them, and to do it at once. They have no more right to leave one of these shops open for the free ingress and egress of those who may be poisoned by them, than persons in charge of small pox cases have of allowing that loathsome disease to prevail. Nobody would doubt that if a physician or public officer having such a matter in his hands did not put out the flag and seclude the disease, he would deserve to have his own house pulled down over his head!!!!

We do long to see the needed action on this question. How long must we wait? And when the work begins, heaven forbid that a dozen of them that connect gambling and licentiousness with the drinking, and are unblushing in it, should fail to receive their full deserts. We have not so exhausted ourselves in putting down treason at the South but we can give one effective blow for the good of the community at home.—*Herald.*

THE PLATFORMS.—The Boston Recorder proposed to print the Saybrook platform—but finding it would occupy eight columns, only publishes extracts making about one column; which column, however, contains the peculiar features of the Predestinarian and Trinitarian creeds. The Cambridge and Saybrook platforms are both printed in a little book; but only a portion of the people, or even the ministers, will ever read it; and only a very small portion of either believe it in full, though they do assent to it "for substance." In this they are like other peoples who have a long, exact, and old, written creed or confession of faith, viz, they assent to it in a lump, believe as much of it as they can, and pass the rest. There was a curious omission in the published Declaration of Faiths adopted in Boston the other day. After the words, "With them we confess our faith in God," the following words of the original copy should be supplied: "the Father, the Son, and the Holy Ghost, the only living and true God." The omission was first made in one of the daily papers in Boston, and copied from that into the Recorder, Congregationalist, Independent, New York Observer, &c. The Declaration, as written and passed, contained the words quoted.

☞ The Army and Navy Official Gazette, the publication of which has just been suspended by the War Department, should not be confounded with the Army and Navy Journal, which is now left alone in its special sphere of journalism. The Official Gazette was intended only as a temporary means of communicating official orders and information to the staff-corps and departments. The Army and Navy Journal, in addition to its official publications, embraces the whole range of military journalism, and is designed to be the permanent representative of our army and navy. It is a very able, interesting paper.

☞ A private letter dated Memphis, June 30, has the following paragraph:

They held a municipal election here yesterday—very spirited, (no liquor). To-day one of the heavy workers came into my office, and said: "The Irish bought up the Registration office; they carried everything, and own Memphis; and I go for the negroes to vote at next election." True, and his exact words; and so the negroes will be used by the South as voters, and before Illinois, Ohio or Indiana will allow.

THE LIQUOR SHOPS OF BOSTON were closed last Sunday by the admirable arrangements of the Mayor and Chief-of-Police. This judicious action on the part of the city authorities will, we trust, be continued, until it becomes a part of our permanent municipal policy. It meets the cordial approval of the great mass of our citizens, of all classes, sects and parties.—*Transcript.*

This is well, as far as it goes, says uncle Toby; and if one sober day is such a blessing—how would it do to have a whole week of them?

— The force of the navy is to be reduced from 65,000 to 15,000 men.

— At a recent trial for murder at Gallatin, Tenn., the only witness of the crime was a colored woman, and under the laws of the State her testimony was ruled out.

— The city gates of Quebec have never been without guards since its capture from the French by Gen. Wolfe, until recently, when they were permanently withdrawn.

SANDERS AND SALA.—The New York Times says that it would be interesting to have "an explanation from Sanders of his conference with George Augustus Sala on the subject of these assassinations, six or nine months before they took place. Sala says distinctly that Sanders told him of the plotting of atrocities which would make the world shudder. Those atrocities have been committed, and if Sanders desires to save his own neck, he may turn State's evidence against his confederates. He knows who planned the murders. He boasts of knowing it. Let him purchase his personal safety by a full confession. He has done acts quite as villainously mean as this before.

MOONLIGHT EXCURSION.

THE STEAMER "PIONEER,"

AMAZEEN, Master, will make an

Excursion to the Shoals,

On TUESDAY EVENING, July 12th,

Leaving RAILROAD WHARF at 7½ o'clock, and returning at 10 o'clock.

KNIGHT'S CORNET BAND

will be in attendance.

Special Notices.

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warrant ed in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not warranted on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near appoaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED Watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

Burno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnbawly1ny28

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, evidoped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

J. W. & A. STAVERS.

Local.

MR ROBERT E. SHILLABER, aged 26 yrs., 6 mths, died in this city July 7, of general paralysis and chronic diarrhœa, contracted while in the U. S. army. He enlisted in the N. H. division of the 1st R. I Cavalry in 1861, and re-enlisted in the 1st N. H. Cavalry in 1864, and was a sergeant of Co. A when discharged for paralysis. This complaint commenced last December; and he had been previously weakened by diarrhœa so fatal among the soldiers and others. Mr. S. was a good citizen and a good soldier,—and had had very recently been elected by the legislature Commissary General of N. H.

His funeral will take place to-day at 3 P. M., from No. 3 Wibird St.

☞ Another gay error our item of yesterday made,—setting Mr. Gay as much too high, as the day before he was rated too low—so we must now pull him down a peg, (we hope for only a short time,) from Acting Master to an A. M. Mate, whence he was promoted to Ensign, where he now rates. So you see our statements average about right, after all; and we only left off the "Mate" this time,—which won't do at all, however, for a newly-mated man.

☞ Arrived at the Rockingham House' Col. Wm. Gates, 3d Reg. U. S. Art'y, by order of the President, to command Fort Constitution at the entrance of the Harbor. Col. G. is son of Captain A. Gates, who commanded that post many years ago.

☞ The following epistle was left on our table a day or two since, we suppose, for publication. At any rate, it is an interesting item written in an interesting manner. We prefer not to tamper with the author's style, and hence give it as we receive it.

KITTERY POINT, July 4th, 1865.

Mr. Editor :—I want to inform you of a gross outrage by a man from Fort Constitution who is in Company B his name is Keen he came over at Kittery Point with some others of his comrades he mett a Citerson of Kittery Point by the name of Bowman and commenced firing rocks at him he hitt in the head with a rock with great violence last night they thought his case was doughtful he insulted three or four of bower citersons with out any Provication. we think he ought to be brought to Justis

P S—on thrusday the commander at Fort Constitution give him up to Officer Foy in our State Justis Vennetts Find him cost of Court and give Bons four hundred Dollars or be committed this is the out lines of this case

Yours—J GUNNISON

☞ As Mr. Henry L. Varrell of Rye, was driving to this city on Saturday, in a wagon with two ladies, a sheep run before the horse when near the city, (in Rye,) throwing the horse down, and Mr. Varrell out, and severely bruising and cutting the horse; and as Mr. V. was trying to get the animal up, he kicked him severely in the chest, knocking him several feet. We understand Mr. Varrell intends to sue the town or the owner of the loose sheep, for damages.

☞ We presume many will avail themselves of the opportunity afforded for a pleasant moonlight excursion around the Shoals on Tuesday (to-morrow) evening. Fifty cents is cheap fare for a two hours' ride upon the water, to say nothing of the music afforded. Our friend Perkins, who is a skilful caterer, will not allow the excursionists to lack for refreshments, as he will have open on this occasion his well-stocked saloon.

☞ The latest amusement inaugurated by the loafers who infest the South Burying Ground is to use the door of the principal tomb as a target for pistol shooting.

A FINE BOAT.—The Yacht Eclipse, advertised in our issue of to-day to run from Rye Beach to the Shoals, is one of the best boats ever owned in this vicinity. She has excellent accommodations for a large party and her sailing qualities are A No. 1. It will be seen that parties can arrange to be taken to any other point they may choose.

☞ On Sunday forenoon a boat, containing four men and a boy, was capsized in our lower harbor during a flaw. The parties were rescued by Mr. James Miller; and a boat from Fort Constitution, which put off to their relief, took their boat in tow and carried it to the shore.

— The iron-clad Agamenticus sailed from Portland on Saturday forenoon.

— The Department of State has been officially informed that the Spanish Government proposes issuing orders to the Captain General of Cuba to deliver to the United States Government the insurgent ram Stonewall, now at Havana.

— The last number of Punch says, in reference to Mr. Jeff. Davis: "Surely there is such a word in Johnson's Dictionary as pardon. We are certain it would have been in Webster's, had Daniel lived till now." Why couldn't Punch have been a little more exact, and said—if Daniel had not been hanged.

NEW HAMPSHIRE ITEMS.

—— On the 4th, at Marlboro', by the premature discharge of a cannon which he was charging, Oliver Tilden had his right leg and arm badly broken and two fingers so shattered as to render amputation necessary.

—— In Manchester, two young men were recently before the Police Court for mutilating and destroying shade trees on the public commons, both of whom were fined. This should be a lesson to others.

—— Ex. Governor John H. Steele, in the 77th year of his age, died at Peterboro' on Monday, July 3. He was a "poor white," born in North Carolina, but came North in 1811, and became eminent as a machinist and manufacturer.

—— The *Weekly* of the Manchester Mirror has a new pictorial head, and is now called "The Mirror and Farmer," which title the editor deems "long enough." So it is.—and we think "Farmers' Mirror" would be better, as well as shorter. It is a good paper, and every farmer in New Hampshire should have it.

MATRICIDAL LUNATIC.—A young man named Drolet, son of a farmer at St. Damase, near St. Hyacinthe, Canada, has, in a fit of insanity, killed his mother, by inflicting upon her three blows with an axe. For some time previous he had been in a state of great religious excitement. He had just performed a *neuvaine*, or nine days' act of devotion in the church, and two days before the murder had received the holy sacrament. Previous to the insane deed he was inoffensive and of a mild disposition.

☞ The Chicago Republican says that Horation Seymour, during his trip in the Northwest, has had interviews with the leading politicians of the section, respecting future campaigning. The plan of the Albany Regency, as developed at these sanhedrims, is to keep Sherman prominently in view as a candidate for the Presidency, without any intention of nominating him, but in the hope of producing such divisions between the friends of Grant, Sherman and Johnson, that Democracy will be able to run a man of their own, whom they can "trust."

— A veritable black flag, raised by the rebels over the College buildings at Bassellville, Ky., in 1862, was deposited in the Indiana State Library recently, by Col. Wells, of the 50th Indiana regiment. The flag is made of black alpaca. In the centre is a large white skull, with a ghastly grin, and beneath it are the cross bones, done in white paint.

MARRIAGES.

In Newburyport, Mr. DAVID W. MERRILL to Miss MARY COPPS.

In Newbern, Dr GEORGE G. ODIORNE, formerly of Exeter, N. H., now 1st Assistant Surgeon of 4th U. S. C. L., to Mrs. R. W. MORRELL of Kensington, N. H.

DEATHS.

In Hampton Falls, Mr. NATHAN BROWN, aged 69 years 5 months.

☞ The closing Rehearsal of the Philharmonic Society, before the summer vacation, will be held at Mercantile Hall, on Tuesday evening, July 11th, at 8 o'clock,—when the attendance of all members is desired.

Per order.

A SPECK OF DANGER.—The minutest black spot on the enamel of a tooth, is an evidence that decay's effacing finger has touched it. Quickly interpose the Sozodont as a safe guard, or the tooth is gone—and not only that one, but perhaps half-a-dozen. Be assured that nothing but Sozodont will either effectually prevent or arrest dental disease. 2

Proclamation No. 64.

All peneeable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

U. S. 7-30 LOAN.

THIRD SERIES,

$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the bile the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7-30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.	
Two cents " " " "	**$100** "
Ten " " " " "	**$500** "
20 " " " " "	**$1000** "
$1 " " " " "	**$5000** "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837,

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Morning Chronicle.

— The only New England soldier of the war of 1776, Mr. William Hutchings of Penobscot, who has grand children and great grand children in Newburyport, was present at the celebration of Independence in Bangor. He is more than a hundred years old, but still in good health and mind. A revenue cutter was sent for him, and in passing two forts in reaching Bangor salutes were fired in his honor.

— The Democratic party in Ohio has divided on the question of slavery, a faction led off by Alexander Long, late member of Congress, declaring for slavery in the Southern States as the best form of society. Vallandigham is the leader of what now is the anti-slavery Democracy, as opposed to Long.

— The *Baptist Chronicle* says: "At an examination of girls for the rite of confimation in the Episcopal Church, in answer to the question 'What is the outward and visible sign and form in baptism?' the reply of a bright little theologian was, 'the baby sir.'"

— Col. Brown, the Assistant Commissioner of Freedmen for Virginia, has issued an address to the colored people, reiterating the advice already given them. Schools are to be established for them.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) of obtaining the valued as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and sure cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cord, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blles, Ulcers, Abscesses, and all other impurities of the blood, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN,
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married state, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
Address DR. TELLER as above, with a stamp.
A book for everybody.—Startling disclosures DR. TELLER'S great work for the Married or those contemplating marriage—sent in a sealed envelope—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the treasure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached by any. Beware of imitations of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married females or those in certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the guidance of patients in all parts of the world, the price per box, these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or observation.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, and sent by return mail. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to
J. TELLER, M. D.,
ja20 No. 5 Beaver Street Albany, N. Y.

HIGHLY IMPORTANT TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in relieving all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that attendes see none but the sick himself.
Address DR. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. TThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

C. W. CARTER.
Portsmouth, June 15, 1865.

Important to the Afflicted.
DR. DOW, Physician and Surgeon, can be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate afflicted with a remedy, the advantage of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married females or those in certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the guidance of patients in all parts of the world, the price per box, these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or observation.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, and sent by return mail. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to
J. TELLER, M. D.,
ja20 No. 5 Beaver Street Albany, N. Y.

HIGHLY IMPORTANT TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in relieving all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that attendes see none but the sick himself.
Address DR. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. TThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in purchasing Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest and competent, and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, (4 Pearl St., Boston,) and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, Pine Creek, and Allegheny river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says, the sum of *fifty six millions* of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the title of lands and make personal examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The land is the best in beautiful for Oil; high lands on either side, very Creek running pretty through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil bells run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a straight line from the broad oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Mead well flowed 4000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for ten times that.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville, and the best section is worth $25 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely like Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the Oil Rock, and a little more to bore that. It costs $20 per day to work it after it yields oil. G. F. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features more favorable for a productive Oil Region, than any other that I am acquainted with; and I have spent much time during the last few months in examining and selling lands in Venango, Warren, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors Rogers and Hitchcock, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells, and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of considerable value. There is abundant room on each acre for 15 wells, and on this farm for over 900 wells. Just make computation of the cost of a many wells, and the yield and profit on the whole in a year, if they are as good as they are expected. If they only yield the minimum of pumping wells that Oil Belt, and your income from this Farm alone is over one million of dollars. This Company do not expect such results, but simply state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the Oil Creek Railroad, and far from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Oil Creek. They have been offered $1000 per acre for half of it, and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great profit. The remarks about the location of the Mattison Farm, apply equally wel to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. Its about three miles east of Oil Creek, directly east of the Coquet Well that flows 700 barrels daily, the Jersey that flows 300, the Maple Shade and other noted flowing wells, and pumping wells without end. It. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well on it, it began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eighths full of machinery, it has forced 300 barrels per day over place.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 3,000 barrels. Below this well on the same Creek, another fine well has been struck, and above it is a spouting well, which, when it gets low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the Byles, have been raised so high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in small streams and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both for gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 114 feet; at 140 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and and drop heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. Reasons for this are obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which, in addition to the heat thus obtained from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Daily Morning Chronicle

VOL. XXVII. PORTSMOUTH, N. H. TUESDAY, JULY 11, 1865 : 189. No. 8.

The Chronicle.

— Rev. Dr. Bushnell having expressed a very poor opinion of "that which claims to be a national hymn entitled 'America,'" a friend of the author rejoins that he wrote the verses forty years ago for a Sunday School celebration, never claimed them to be a national hymn, and is not to blame because the nation *will* sing it. The people like the tune, (God save the king,) for two reasons; 1. because it is easy to pronounce words in it; and 2. because they know it. And the Hymn supplied a deficiency: we had nothing of the kind before Rev. L. F. Smith wrote America. It has filled a useful place through the war, and it will continue to be sung, in spite of the critics.

— When a Spaniard eats a peach or a pear by the roadside, wherever he is he digs a hole in the ground with his foot, and covers the seed. Consequently, all over Spain, by the roadside, walks, and elsewhere, fruit in great abundance tempts the taste, and is ever free. Let this practice be imitated in our country, and the weary wanderer will be blest, and will bless the hand that ministered to his comfort and joy. We are bound to leave the world as good, or better, than we found it; and he is a selfish churl, who basks under the shadow, and eats the fruit of trees which other hands have planted, if he will not also plant trees which shall yield fruit to coming generations.

— An insane man named Sammy Sly, incarcerated for the last ten years in the New Haven County Jail, for murder, has lately fancied himself the prophet Elijah, and for more than a week has been waiting for his translation, steadfastly refusing all food and drink, and spending his time chiefly on his callous knees in prayer. It is doubtful whether he can survive more than a day or two longer. — His death has been reported.

— Col. Mundy, candidate for Congress in the Louisville district of Kentucky, made a telling oration on the Fourth, in which he took decided ground in favor of the Constitutional Amendment abolishing slavery. He also affirmed the remarkable doctrine for a Border State politician, that "emancipation must be accorded as a natural right, and with it the attendant privileges of a state of freedom."

The Eagle Hill Mutual Coal Company.
The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to
JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

NEW HAMPSHIRE BIRD LAW.
AN ACT to promote the interests of Agriculture

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit, for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered.

Approved, July 8, 1862.

The above for sale by
E. A. STEVENS,
48 Market Street

Blood's Patent Improved Sifter.
For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the kitchen it is the right thing in the right place. No household would be without it after a single trial. *Saved* (It requires but one quarter the time of the old method.) *New.* (The hands do not come in contact with the article sifted,—there is no dust, no scattering of contents, no cold fingers. *Durable.* (It is warranted to last ten years.)
Grocers use it to bolt their meal, saving time, expense and waste. Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Paint Dealers, for sifting Ochres, Whiting, &c.—For sifting Cream Tartar, nothing will take its place. Price $1.00. For sale by
E. A. STEVENS.

DR. SIMEON SWETT'S
FAMILY MEDICINES
Need only be known to be universally esteemed.
FAMILY PILLS.—The Pills are wholly vegetable, and although effective, are an easy and safe physic for the most feeble constitutions, and have proved officinal for the following Diseases: Headache, Dyspepsy, Fits, Pain in the Side, Stomach and Bowels, Jaundice, Liver and Spinal Complaints, and all kinds of Bilious Disorders.
N. B.—Every one who buys and uses these Pills, shall have all the pay refunded, if he finds them not worth all they cost.
DR. SWETT'S PANACEA, for Cancers, Leprosy, Salt Rheum or King's Evil, Erysipelas or St. Anthony's Fire, Canker in the Throat or Mouth, Rising in the Head, Sore Eyes, and Consumptive Complaints.
VEGETABLE ANTI-DYSPEPTIC BITTERS.
VEGETABLE CATHARTIC CONSERVE, for Piles, Dyspeptic Complaints, and Costiveness. It is a pleasant, easy, sure, and highly-recommended Physic for Children.
HUMOR WASH.—This preparation speedily cures sores and pimples of the face. Its immediate efficacy is its recommendation.
COMPOUND CORDIAL OF DANDELION, SPIKENARD AND BONESET—a remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and pain in the Head, Stomach and Side, General Debility, and the whole family of Consumptive Complaints.
NERVE LINIMENT, highly recommended for Rheumatism, Pain in the Head, Breast, Back or Joints, Stiff Neck, Sore Throat, Croup, the Piles, Sprains, &c.
☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen as what has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astonishing testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken in the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. For only cents will buy enough to fill all the common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MERRIMACK AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect Ink in three minutes, the best Ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my Inkstands of all other kinds of Ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, one eight years past, from Prof. Ure's Recipe, (made of Copper Ill, Sulphuric Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands Neck Stocks and Scarfs, Suspenders, &c. Every article is made faithfully and of the best materials.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JULY 11, 1865.

JEFF. DAVIS.—Washington correspondence says that the conspiracy trial over and the sentence of the Military Commission executed, there will soon be some definite action concerning Jefferson Davis. If it should be determined to try him for treason, the proceedings will of course take place before a civil tribunal; but, from present indications it is more probable that he will be tried by a Military Commission as the leader or instigator of the conspiracy, for it is said in Government quarters there is newly discovered proofs against him in that connection.

ANOTHER ASSASSINATION PLOT REVEALED.—The Nashville Union of the 24th inst., says that the rebel Governor Harris's secret papers, seized at the time of his capture, contain a proposition to assassinate Gov. Johnson, in Nashville, indorsed by Harris.

☞ The colored people of Washington have issued an appeal to their brethren throughout the country to contribute to a fine to be used in the erecting of an educational monument in Washington to the memory of the late President Lincoln. The association design erected a college for the instruction of colored children in the highest branches of education.

☞ The Vienna Press says a manufacturer of that city was going to celebrate his marriage with a young girl without any fortune. On arriving at the church the intending bridegroom wished to leave his hat in the carriage. He raised it from his head, but unfortunately brought away his wig as well. No sooner did the young lady see the artificial head of hair detached from the skull of her lover than she refused to become his wife, and each returned home, to the great disappointment of the witnesses and others who were present.—What a fall (water-fall) was there, my countrywomen!

— We have approached a period of the year when it is very hard to keep milk from turning sour. The heat develops an acid in the milk, which acts on the other elements as if you had poured vinegar into the milk-can. It is easy to prevent this chemical process. Add to the milk 15 grains of bi-carbonate of soda for every quart of milk you have. There is not the least danger in the use of bi-carbonate of soda: it aids digestion. This is the recipe of 98. Where have these persons been during the past four years? Have they heard of the rebellion? Have there been any volunteers for the war in their localities? Do they know how to read or write? Belonging to the Granite State it may be that their heads were made at the period of that rock formation, and take no impressions of the time except an occasional quack advertisement. These mighty human boulders, rolled down to us from a pre-historic age, are well worth a visit to New Hampshire to see.—*Boston Trans.*

NAVAL.—Actg. Asst. Paymaster Joseph Foster has been ordered to the Commodore McDonough.

Actg. Asst. Engineer Wm. Johnston, and Actg. 3d Asst. Engineers David McDonald, W. H. Adams and T. F. Bisbelle, have been detached from the Wamsutta and granted leave.

Actg. 3d Asst. Engineer Charles Wolf has been detached from the Arkansas and granted leave.

☞ A private letter from Windsor, Vt., reiterates for that vicinity the anticipations of great crops we have had from other portions of New England, saying:

"The crops look the most promising here that I have ever known them. I think that we shall cut the most hay we ever have in one years since I can remember. Now that the Armory has almost ceased work, it is very dull here. The only lively occurrence of late was a crazy woman's drowning herself in the millpond week before last."

THE LIQUOR SHOPS OF BOSTON were closed last Sunday by the admirable arrangements of the Mayor and Chief-of-Police. This judicious action on the part of the city authorities will, we trust, be continued, until it becomes a part of the permanent municipal policy. It meets the cordial approval of the great mass of the citizens, of all classes, sects and parties.

☞ On Sunday, the 18th ult., the whole community were startled by the discovery of a horrible murder which had been perpetrated in the quiet town of West Roxbury, the dead bodies of two children, Isabella N. Joyce, aged fourteen years, and John S. Joyce, aged twelve years, being found in a piece of woods. It gives us pleasure to chronicle the fact that the supposed perpetrator of the deed, a young man named John Stewart, belonging to West Roxbury, was Saturday afternoon taken into custody. Stewart is an accomplished bounty jumper and has followed that rascally business some time. He is said to have enlisted seven or eight different times, sometimes under other names. At Fort Independence he enlisted in the 20th Regulars, June 16th, under his own name. He denies all knowledge of the crime.

WAIFS FROM AN ESTRAY.—*Summit of Mt. Agamenticus, York, Me.*—Seated here, within sight of Portsmouth's spires, I wonder that I ever should have gone far away to the White Mountains to behold scenery, when so near home we have a view which I count unsurpassed by any single view I have ever obtained in the mountain ranges of New Hampshire, Vermont, Pennsylvania Tennessee or Texas. I don't know that a reproof for not visiting this spot would come with a very good grace from me, who have gazed at the crest of Agamenticus for about a quarter of a century, and who to-day for the first time plant my foot upon its bald head.

The road as far as Chase's mills is very good, that is for Maine, [are there *no* good roads in this State?] and then it somewhat resembles "Jordan" for ease of travel. Carriages can be driven to within a mile and a half of the summit, and then the ascent made on horseback or on foot. The road up the mountain is winding, quite gradual in ascent and delightfully shaded to the very top.

The marine view is especially fine, comprehending the whole ocean sweep from Wells Beach to Cape Ann, with Boon Island and Smith's Isles, while in the foreground lies the the belt of land intervening betwixt the base of the mountain and the shore, with here and there a creek or pond, and the whole coast line indented by bays and headlands.

Turning from the sea, to the west and north, Kittery, Portsmouth and Dover are prominent among the creations of man that dot the landscape, while the long range of mountains, beginning with Pawtuckaway, stretches far away into the lofty crests of the White Hills, giving studies of color and distance worthy the attention of any artist. I made out over seventy distinct peaks with the naked eye, and with a glass many more can be seen.

The almost isolated position of the mountain, and the great expanse of comparatively level country intervening betwixt it and the next range, renders the north view of a character rarely obtained.

Eastern Hill, an outstanding spur of this mountain, also has a fine view from its summit and is considerably visited. Blueberries abound here, but we think it worth the full price they bring in your city, to convey them there after being picked. ION.

SOUTH CAROLINA BEATEN.—There were 98 members of the New Hampshire Legislature who voted against the anti-slavery Constitutional amendment to the Constitution—we suppose on the principles of 98. Where have these persons been during the past four years? Have they heard of the rebellion? Have there been any volunteers for the war in their localities? Do they know how to read or write? Belonging to the Granite State it may be that their heads were made at the period of that rock formation, and take no impressions of the time except an occasional quack advertisement. These mighty human boulders, rolled down to us from a pre-historic age, are well worth a visit to New Hampshire to see.—*Boston Trans.*

NAVAL.—Actg. Asst. Paymaster Joseph Foster has been ordered to the Commodore McDonough.

Actg. Asst. Engineer Wm. Johnston, and Actg. 3d Asst. Engineers David McDonald, W. H. Adams and T. F. Bisbelle, have been detached from the Wamsutta and granted leave.

Actg. 3d Asst. Engineer Charles Wolf has been detached from the Arkansas and granted leave.

☞ A private letter from Windsor, Vt., reiterates for that vicinity the anticipations of great crops we have had from other portions of New England, saying:

"The crops look the most promising here that I have ever known them. I think that we shall cut the most hay we ever have in one years since I can remember. At Fort Independence he enlisted in the 20th Regulars, June 16th, under his own name. He denies all knowledge of the crime.

Local.

POLICE COURT, July 8.—James Fields for drunkenness is fined $3.00 and costs $3.86.

James Buckley in an attempt to buck against the "peace and dignity of the State" by using vociferous language in the public street on Friday last, got the worst of it by a heavy night sweat in the lockup, and more of it in the Court room the next morning, closing with a disgorge of $6.86 in stamps.

☞ Look out for that moonlight excursion to-night, in the good little steamer Pioneer, which waits not for wind or tide. Knight's Cornet Band supplies the music—very appropriately, it being a night entertainment, though by no means a dark one. The low price should induce a full company to enjoy the rare beauties of the occasion—*if* fair weather.

☞ We learn that His Excellency Gov. Smyth, and the Honorable Council, are expected to be in attendance on one of the Examination days of the High Schools in this city.

☞ The funeral of Mr. Robert E. Shillaber, of this city, at his father's residence, on Monday afternoon, was largely attended; the services being in charge of St. Andrew's Lodge of Free Masons, of which he was a member—the Portsmouth Cornet Band furnishing the music.

☞ We learn that Lt. Henry J. Bishop, of the U. S. Marine corps at this station, received orders a few days since to prepare for his transfer to Pensacola, but we are pleased to learn that through the influence of friends the matter has been quashed, and therefore he remains with us. We are glad of it, as Lieut. B. is a fine fellow, and a most gentlemanly and efficient officer. He has, during his short stay here, won hosts of friends, who will cordially unite with us in congratulations on the result of efforts in behalf of his continuance with us.

THE SECRET SERVICE: *the Field, the Dungeon and the Escape.*—Albert D. Richardson, the intelligent correspondent of the New York Tribune, whose graphic descriptions over the signature of "A. D. R," are familiar to all newspaper readers, has written, and the American Publishing Co. of Hartford, Ct., are issuing, a work with the above title,—be one of the most interesting books which the Rebellion war has brought out.

Mr. Richardson, who made himself pretty well known to the people of the country during the Kansas struggle, early in 1861 went to the field as a war correspondent of the New York Tribune; for two years gave stirring descriptions of the conflicts in the field, and then with several comrades, while attempting to run the rebel batteries at Vicksburg, was taken prisoner, confined for twenty months in various rebel prisons, in which he was subjected to all the barbarism of rebel treatment; and finally made his escape with several comrades, and endured extreme hardship in travelling three hundred and forty miles in midwinter through the enemy's country, fed and hidden by negroes and Union white men by day and guided by them at night, until they reached Knoxville; and then went to Washington to inform the government of the desperate condition of the Union prisoners in rebel prisons, and by his representations hastened an exchange of those suffering prisoners.

On his return Mr. Richardson was besought to give public addresses narrating his adventures, and did so in several cities to great acceptance, until compelled to desist in consequence of indisposition. With such adventures to narrate, a brilliant descriptive writer could make only an interesting volume, in which fact appears stranger than fiction. The volume appears in the best style of typography, on good paper, and contains over 500 octavo pages, with eight engravings from the best artists. Price in cloth binding, $3.00; in leather, $3.50. The work is to be sold only by subscription, and an agent is now canvassing our city for subscriptions, affording an opportunity for our citizens to procure the work.

☞ "Galway's Pacific Monthly,"—a Magazine of General Literature, History, Travels; Art and Fashion Gossip; Mining, Science and Agriculture,—for July, is received and for sale by J. H. Foster.

— Queen Victoria has now eight grandchildren, six of whom are boys.

HOLMES' STEREOSCOPES plain and mounted. For sale by JOS. H. FOSTER.

COAL AT COST.
EAGLE HILL MUTUAL COAL COMPANY.
This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.
The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in the market, and from its advantages can mine cheaper than most others. It has been in operation over six months, has more than 400 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.
Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.
JOHN S. HARVEY, 47 Congress St.,
Agent for Portsmouth.

Fifty Dollars Reward.
I will pay $50 to any person who will give me information sufficient to convict the person or persons engaged in throwing poison in the streets and yards of this city recently, which caused me to lose a valuable dog. JOHN H. LOWD,

U. S. SANITARY COMMISSION
ARMY & NAVY CLAIM AGENCY.
No Charge for Services.
S. HOLMAN, Local Agent,
Office, No. 5 CONGRESS STREET. (up stairs.)
The U. S. SANITARY COMMISSION desiring to relieve Soldiers, Sailors, and their families from the heavy expenses usually paid for the prosecution of such claims, have established this Agency, to collect pensions, arrears of pay, bounty and other claims against the Government, WITHOUT CHARGE OR EXPENSE OF ANY KIND WHATEVER TO THE CLAIMANTS.
On application sent to this Agency, stating the name and post office address of the claimant, the name, rank, company, regiment, service, and State of the soldier on whose account the claim is made, date of discharge or death; the proper blanks will be filled out as far as possible and forwarded to the person applying. These can be executed and returned to this office, where the claim will be prosecuted to a final issue in the shortest possible time. jy7

House Wanted.
A convenient HOUSE, pleasantly located, for a small family. Apply at Chronicle Office.

Special Notices.
CAUTION FROM THE
AMERICAN WATCH COM'Y.
It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.
We manufacture four styles of Watches.
The FIRST has the name
"AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.
The SECOND has the name
"APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.
The THIRD has the name
"P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.
All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.
The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.
All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.
It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. Bartlett," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.
We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.
A little attention from buyers will protect them from gross imposition.
ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

To Die in a Bad Cause
as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand
Dyeing for a Good Cause,
as those who are wise and prudent enough to remedy the defects of nature with
CRISTADORO'S HAIR DYE
are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1285, New York City.
At Wholesale by DEMAS BARNES & CO., New York. spnd&wly1my28

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee joint. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.
Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.
LADIES AND GENTLEMEN: If you wish to marry you can do so by addressing me. I will send you, without money and without price, valuable information, that will tell you how to be happy and speedily, irrespective of age, wealth or beauty. The information will cost you nothing, and if you wish to marry, I will cheerfully assist you. All letters strictly confidential. The desired information sent by return mail, and no reward asked. Please inclose postage, or stamped envelope addressed to yourself. Address,
my15 SARAH B. LAMBERT, Greenpoint, dw3mos Kings Co., New York.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP,

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

MORE WATER.—*Mr. Miller:* Sir: A few days since I saw an article in your paper, the subject of which was Water. Yes, that is it—Water, Water, Water; an indispensable luxury, acknowledged by every one; and there was a time here in Portsmouth, when every one, citizen or stranger, could at any time help himself in most any part of the then town. But since we have become a city, we cannot stop at the pump to allay our thirst, but must patronize saloon and pay five cents for a tumbler of small beer, or ten cents for the same amount of mineral water, composed no doubt of substances injurious to health, but made palatable to the taste, so that the more one drinks the more he wants.

We all remember the good old days when public pumps were an institution here, with ladles affixed, and good drinking troughs for horses, oxen, &c.—a public convenience for all. By what authority those pumps were taken up, or for what purpose, has never been known to the public; but it is pretty generally supposed that it was done by some one connected with the aqueduct corporation, who happened to be elected to some office as engineer, or as one of the Selectmen,—and who was very much interested in the prospects of the corporation; so by taking up all the pumps, make all the citizens patrons of the company.

There are now but three of the pumps left,—one at Christian Shore, another at the head of Vaughan street, and another on Daniel street. Now, as a friend of temperance, I would suggest that some, if not all of them, be replaced,—especially the one on Market Square, with a drinking ladle chained to it, and a good iron trough attached, for accommodation of ourselves and country friends, who leave their homes long before sunrise, and drive from five to fifteen miles to bring us the necessaries of life. As it now is, these countrymen have to drive their cattle into the yard of some public house to drink; and not wishing to be beholden to the proprietors for the accommodations rendered, to offset it they must patronize the bar. What *sine qua non* the corporation give the city for the privilege of tearing up the streets, I do not know; but from the tax they receive from the water takers, I should think they could well afford to at least keep one trough full on Market Square.

Drink the people must, and drink they will; and if they cannot get what the Almighty intended for them, they must take that which is compounded by man, and composed of we know not what. Were that old Parade pump back there, any one would be surprised to see the number of customers it would draw, this hot weather; and if our Mayor and Aldermen would attend to this matter, in my opinion they would confer a greater benefit to the cause of temperance in this city, than all the lectures that could be introduced here for the next five years. AQUA.

[*Remarks.*—We wish we *could* have more good out-door water drinking places in the city—though so many as formerly are not needed, now that good water is so plenty in-doors almost everywhere. The pump behind the Market is a vast deal better every way, than the old pump on the Square ever was. The water in the old pump was hard or brackish,—and in a dry hot summer it always failed. The new pump behind the Market has a constant supply of the excellent fresh water from the Portsmouth Aqueduct. But at the Creek, where some foolish scamps of boys so often disarranged the fixtures placed a year or two ago, there is need of a stronger and better hydrant. This is one of the few places in the city where the water will always *run* into a trough of itself; and its being dry and out of order so long makes it one of the most dilapidated looking things in the city. Do, somebody, fix it up, and set to running; and if nobody else will pay the bill, send it to us.

It is very easy and common—not only here but everywhere, the world over—to growl at and find fault with water and gas companies, not to mention tax assessors and toll-takers, milkmen and bakers, &c.; and nobody ever thinks it necessary to say a word in their praise. But we don't believe these useful classes or corporations are so much different from other men. And as to our Aqueduct Company especially, now, (though we are sorry to say we don't own any of their stock, and have no further dealings with them than to pay their regular yearly rates for water—which is worth five times as much to any consumer as it costs; and though we are not always well supplied with this water, being located very high, both at our residence and place of business,) we must say we consider it as a precious boon indeed. Before the introduction of the Aqueduct here, many of the wells were poor, while everybody knows that now we have water of the very best quality. And besides the great influence on the comfort and health of a family, which the different kinds of water must have, in a lifetime; the expense of keeping a well in order, we should say would amount to as much or more than the Aqueduct rates—not to mention the greater trouble and expense of procuring a supply.

Few people have much true idea of the difference between good and bad water—and we don't think "ignorance is bliss," in this connection. A few years since, in the course of a discussion on this subject, between several gentlemen of this city, it was finally decided to refer the matter to Dr. Chas. T. Jackson of Boston, State Assayer of Massachusetts; and accordingly, four demijohns full of as many samples of water, were sent to him to be analyzed—one from the Aqueduct, one from a "boiling" spring on South Road, and one each from two wells at the West End of the city, which their respective owners and users from, stoutly insisted were of the best quality. Well, Dr. Jackson sent back word that Nos. 3 and 4 (this was all he knew of of the matter, the numbers,) "were unfit for manufacturing purposes or for drinking," while Nos. 1 and 2 were "excellent for any purpose"—the wells, you see, it not being well to use.

Now as to the pulling up of the old street pumps,—we know not who is responsible for it, though we don't see how it could benefit the Water Company—though we have sometimes regretted *that* ourselves; still as regards those of them that would not send forth a liberal supply of good water, their noise and dirt were surely not to be endured. If more street drinking-places are needed for man or beast, (and in this matter of "drinking," man is often proved the greater beast of the two,) by all means let us have them.—And with one word about the "tearing up of our streets," we must cut off this stream of words, if not flow of ideas. Of course all corporations have rights and powers, and we never heard that the Aqueduct exceeded those the people granted them at the outset; and of what value would be such property, if it could not be gotten at for repairs?—*Ed. Chron.*

HIGH SCHOOLS.—The annual Exhibition of the High Schools of this city will take place at the School House on Daniel street as follows: The Boys' on Wednesday, July 12—the Girls' on Thursday, July 13,—at 2 o'clock P. M. No person will be admitted without a ticket, and children will not be admitted under any circumstances. Per order.

MARRIAGES.

In this city, July 7th, by the Rev. Thomas F. Davies, Mr. JOSEPH HAYWARD to Mrs. ANN RILEY, both of Portsmouth.

DEATHS.

In Kittery Foreside, Mr. JOSEPH B. WILLIAMS, aged 25 years, son of Mr. Joseph Williams, foreman of the gun-carriage shop at the Navy Yard. Mr. W. was a member of St. John's Lodge of Free Masons, of this city, and was buried by them, the Portsmouth Cornet Band attending, at Kittery, on Sunday afternoon.

In New Britain, Conn., June 30, Mr. DWIGHT E. WYMOUR, aged 32 years.

In Epping, on Saturday, July 8, JOHN DOW, Esq., aged 74.

U. S. 7-30 LOAN.

THIRD SERIES,

$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the bile the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

je20 Naval Storekeeper.

American and Foreign Patents.

E. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. E. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on *their* cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **E. H. EDDY.**

Morning Chronicle.

☞ The wheat harvest in the Genesee valley has begun, and will be as abundant and as of fine a quality as has been known in many years.

The harvest in Ohio is progressing. A Cincinnati letter says the wheat crop is a very fair yield. The hay crop is very large. Hay is now selling at $12 to $15 per ton. Oats are rapidly falling in price; so is corn. The amount planted is large and growing finely. The grapes are rapidly disappearing between mildew and the rot. Next year more than half the vineyards will be rooted out.

— Capt. Hiram Crowell, who has been in command of the steamer Monohansett, while she was in Government service, died very suddenly Friday, at his residence in Edgartown, aged about 47 years. His disease was probably dropsy of the heart.

— The citizens of Chester, Eng., to show their gratitude to the Marquis of Westminster, for presenting them with a public park, intend to re-elect his oldest son and heir, Earl Grosvenor, to Parliament, free of expense.

Albums. Albums.
The best assortment of FIFTY DIFFERENT ALBUMS to be found in the city, is at No. 12 Market Street. J. W. & A. STAVERS.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his Institution being known in correspondence with the most eminent Physicians of the Old World, of obtaining the safest as well as the latest remedies for their patients, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Boils, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that it consults Dr. J. Teller, one of the best men living, a friend to consult and a Physician who has cured thousands, in almost every part of the United States, who applied Dr. J. Teller, broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A Lecture on Love, or how to choose a Partner—a complete work on Matrimony, full of some hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Lahou's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine, for removing irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid these pills. Dr. Teller reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) Dr. Teller will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. Teller, inclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. Fee, $5 for advice.
N. B.—No students or boys employed. Notice this, address all letters to

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most lingering cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time and attention to those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, board, and every comfort and attention.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of the disease. Dr. Dow has for sale, at his office, the French Capotins, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Improved Pills for Females
IN DELICATE AND STRONG.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has had more extensive experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who wish to visit the city for the purpose of being under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
☞ All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charge Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Persons who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. eod&wly

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS ITSELF.
It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic coat*, protecting wood from decay, and iron or other metals from rust or corrosion.
☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Mills and Decks of Ships. Put up in kegs of 25 lbs. each.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to be one of the gentlemen most competent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum region, and was solicited to join in selecting the proper farms. He did so. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the Mirror, of Manchester, J. B. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 410 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and were so convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Allegheny river, and not twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the extreme Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his message, *fifty-six million* of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. P. Burns, Esq., a shrewd business man of Dover, N. H., and A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:
THE MATTISON FARM.
This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek. The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through it, and is a semi-undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.
The oil belts run often one rod to a rod, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil Belt south of Titusville on the ground which immense fortunes have flowed. Here the Steele & Mead well flowed 2000 barrels per day.—The Fountain 200—the Parker 200, and dozens of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A barrel well is worth for forty thousand dollars, and a sixty barrel well sell for half a million.
It is believed by good judge that every rod of the second five rods of the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville. Coal in that section is worth 50 per ton, and if the Company should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.
The average price of a barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to depth of 700 feet, and few wells go less than that. It costs $20 per day to work it after it yields oil. G. P. Ball, of the Cherry Creek Warren Petroleum Company, says of this Farm Section:
"I consider all the lands located there, as being richer in Oil, and preventing geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and selecting territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors Mayberry and Newberry, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. All that I have come up to the expectations of Prof. Shepherd of Yale College, of Mr. Ball, of Mr. Bates; it will have pumping wells and the most of the flowing wells. The pumping oil for large sums of money, and the pumping wells, if as good as those south of Titusville, will be of the highest value. There is abundant room on each acre for 12 wells, and on this farm for over 900 wells. Just make computation of the cost of so many wells, and the yield and profit on the whole in a year, if they are as good as they are expected, if they only yield the minimum average of the wells in Flat Oil Belt and your income from this Farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let others make his own figuring and reach his own conclusions.
THE PARKER FARM
Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and about two miles from Oil City. The Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.
THE BYLES FARM,
On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil City, directly east of the Coquet Well that flows 700 barrels daily, the Jersey that flows 300, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole Creek, and the Farm will be worked in flow about the middle of January, and with its sucker rod in, and its pipe seven-eights full of machinery, it has flowed 250 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 3,000 barrels. Below this well, on the same Creek, another line well has been struck, and above it a spouting well, which, when bored low enough will yield abundantly. A little further north the same company, the United States, is putting down a well that looks already better than the Parker well, and excitement is rife upon it. In sight of the spouting wells, and between the Frazer and the one which has raised the Jersey spouting oil, is the Byles Farm, all level and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet Well leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.
THE DAWSON FARM,
On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it.—In a letter dated March 25, 1865, he says: "My well is showing as finely as it possibly can, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 50 feet; a good show of oil at 112 feet; at 340 feet gas is rising and roaring loudly."
Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.
Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.
The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacturer of the above valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. Well aware of the difficulties, the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without being once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

NEW HAMPSHIRE BIRD LAW.
AN ACT to promote the interests of Agriculture

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered

Approved, July 8, 1862.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.]
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions; and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
Also, besides an extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commr. of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them a speedy and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to prepare their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

Pleasure Sailing.
The elegant Sloop Yacht ECLIPSE, will run daily between RYE BEACH and the Shoals: leaving the Ocean and Atlantic House at 10 o'clock; and returning, leave the Shoals at 4 o'clock. The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode its particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles, that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm, they make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARK.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, made of Aleppa Gall, Sulphate Iron and Gum Senegal, and have sold a large quantity of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands from up-solid *twice* and it now flows just freely as at the first, and I think it cheaper than the cost of a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. I thought to be introduced into every school in the Union.
Yours truly, J. W. TOLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best-writing fluid I ever used. I would not be without it. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Sept. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and thaw, and would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I froze this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and had I a quantity of it, it would find a ready sale. Thankful for the boon to the community and myself for such a discovery, I remain, very respectfully, your obedient servt,
GEO. W. TARBER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is in most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used Prof. Mott's, Maynard & Noyes', D. J. Kalsom's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE 25 CENTS PER POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S. Orders have flowed in so rapidly and urgently that the Company have concluded to *Wholesale it* to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awawdm

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 12, 1865.

WASHINGTON ITEMS.—It is *said* by a correspondent that Jeff. Davis is to be tried by a military commission within two or three weeks.

A crowd of several hundred people assembled in front of Ford's theatre on Monday evening to witness its re-opening, but the military authorities seized the building before the doors were opened. Mr. Ford received several threatening letters during the day.

Prof. McCullough and Gen. Thomas A. Harris, prominent in the rebel service, have been brought from the coast of Florida and lodged in prison at Washington.

The trial of Mary Harris for killing A. J. Burroughs, Treasury clerk, is in progress. Her counsel mean to make her out insane, and so get her clear.

Gen. Sickles has come back from his South American mission. His report shows that he was *not* (as rumor had it) sent out to provide a resting place for freed men.

John Celestina, the Cuban, arrested on suspicion of complicity in the assassination plot, has been released and ordered to leave the country within ten days.

NORFOLK NAVY YARD.—According to rebel documents just brought to light, the value of the property, including lands, buildings, ships, work-shops, &c., in the Norfolk Navy Yard at the time the State of Virginia turned it over to the Confederate Government, was $7,307,187. The State of Virginia, in *turning over* the Norfolk Navy Yard, puts us in mind of an old story, in which the Devil is represented as proposing to *turn over* all the Kingdoms of the world and the glory thereof, to Jesus, if he would only fall down and worship his Satanic Majesty.

☞ The Boston Herald's Washington correspondent says that on Sunday, Rev. Dr. Gillette, in his sermon, stated that Atzerott, in his conversation to him, implicated Mrs. Surratt in the plot to kill the President. He seemed to blame her more than Booth. Thus, there can now remain no doubt that all the four traitor-conspirators who have been hanged, were deeply guilty, and deserved a dreadful fate.

TEXAS.—Gen. Sheridan has notified refugees from Texas that the U. S. troops are now in possession of that State, and that they can return to their homes with security, and resume possession of their property. He also announces that no home guards or armed bands for self-protection will be permitted in the State, as the military authorities are sufficient to protect persons and property. All the acts of the rebel Governor and Legislature of Texas are declared illegitimate.

WESTERN LOUISIANA. A Shreveport letter says very little cotton has been planted this season west of the Mississippi. What little there is looks well. The field hands are leaving the plantations, and on many not a single negro is left. Thousands of acres of fine corn will be useless, as there is no one to gather the crops. A few of the planters have engaged other hands, but the majority must lose all.

OUR SECURITIES ABROAD. The New York Times of Saturday says:

"Unusually liberal purchases of Government gold-bearing bonds were made yesterday, chiefly to fill foreign orders, of which a considerable number came to hand by the China. The letters, accompanying those orders, speak very positively of the rapidly growing demand for our national securities in foreign markets, and of the probability of an early and material rise in their special value abroad. German buyers now find easier competitors among English capitalists. Satterthwaite's London Circular, received by the China, says: The London market for American securities has during the past week, been characterized by considerable animation and buoyancy. United States Government Bonds have been in request on home account, and a rise of 5 per cent. has been established since our last."

NOT AMICABLE.—John Mitchell, says a Fortress Monroe letter, is more morose than ever. He has shoes and stockings but will not wear them. Bare-footed he walks to and fro in his casemate, his brow contracted and a sneer upon his lips. He snaps out an occasional abusive or ill-natured remark. His health continues good.

☞ It is stated that Emerson Etheridge has been arrested at Columbia, Ky., for incendiary talk in Tennessee. Gov. Brownlow has issued a proclamation against demagogues there, who stir up the people to nullify the Constitution.

GOLD, Tuesday, 140 to 139 1-2.

— Governor Pierpont of Virginia has addressed a long manifesto to the President arguing in favor of the extension of the amnesty and pardon to the people of Virginia without reservation. He claims that they are entitled to it under President Lincoln's amnesty proclamation, issued during the rebellion. Their new *claims* are not worth much more than their old claims to be a superior people.

MORE OF THAT TROT.—*Its Moral.*—The Trot to Portland, from Boston, 116 miles, between sunrise and sunset, resulting in the death of the horse, has caused a good deal of public indignation. That is natural enough, and very proper, but the indignation is running in the wrong direction. The indignation should be against *any* treatment that will result in the death of the noble animal. There are plenty of horses that can go 116 miles in fifteen hours, or an average of 7 3-4 miles per hour for fifteen hours, as easy as ordinary horses can go sixty miles in the same time, and not be hurt a particle.

What is known in Manchester as the "Norcross Horse," owned for a while by Dr. Geo. A. Crosby, a splendid specimen of the enduring All-Four breed of horses, went from Lowell to Woodstock in a day in a common carriage, just 116 miles, a good deal of the way over bad roads. The horse was not injured by it. Many horses have been 100 miles a day on business, in common vehicles, much harder than 116 to a light sulkey, and no public remark made about it.

The number of miles was not the trouble. The horse was out of condition, or not properly driven and fed. As to his condition we cannot say. But we regard it as poor judgment to push a horse up to ten miles an hour, to Portsmouth, causing him to feel as if he did not wish to eat much, when he might have arrived there at an eight-mile an hour jog without weariness, and ready to have gone on without stopping. Never hurry your horse the first part of a long day's journey, is the common and true rule. Such a journey as that would not admit of uncooked food, or much of any. How many dogs have been killed by being fed just before they started a fox! What would be the result if a hound was stopped in the middle of the chase and fed! The food would not digest, and death would ensue. Every year horses die from misjudgment in feeling and driving. A horse driven sharp 20 miles, given six quarts of oats and started back again, died within four miles of home. The oats were undigested, and killed him.

We understand "Lion," the horse killed, was given raw meal in his water. In a heated stomach that meal would ferment in a few minutes, and cause great distress. We understand uncooked food was given him at Portsmouth; if so, it was a cruel offering. We do not consider it so hard an undertaking for many horses to go 116 miles in 15 hours, as it is for racing horses to go four-mile heats, as did Fashion and Boston in 1842, or Peytona and Fashion in 1845—making the four miles in 7:32 1-2, 7:45, in 1842; and 7:39 3-4, 7:45 1-4 in 1845. Those always seemed to us cruel, but those were contests between the North and the South, and no one complained. We should like the opinion of Veterinary Surgeons upon the question whether it would be cruel to drive some horses that distance, and how they should be fed. Will Dr. Wood, of Lowell, favor us with his ideas?

We understand that Nellie Barker, owned by Luther M. Underhill of Manchester, has been matched to accomplish the feat. She is a Young Morrill mare of great speed and endurance, and whether she can do it or not depends upon how she is fitted and who drives her. We close by stating this proposition: Any feat injurious to the horse is cruel; but driving 116 miles in 15 hours is not necessarily injurious.—*Manchester Mirror and Farmer.*

Remarks.—The editor of the Mirror, as is well known, is one of the best "horsemen" to be found anywhere; and his opinions, derived from much experience and wide observation, are more reasonable than any others we have seen. People and papers were all ready to cry out, cruel, brutal, useless, because the poor horse died—but few or none of them, except the Mirror, seem to hit the cause. As to the trial itself, it is the sheerest nonsense to say that whatever tends to develop or exhibit the speed and endurance of one of the noblest of man's servant-animals, is of no use. And yet even Wilkes' Spirit calls all such trials brutal, (while it goes in for prize-fights, and so of course could not condemn cock-baiting;) and after agreeing with us, that poor Lion "broke his heart and dropped dead between the shafts"—"hopes there is no truth in the report of another such trial proposed to be made by the mare Nelly Barker, or that the parties concerned in the brutal wager will take warning by the unmistakable tenor of public opinion, and abandon the affair;" and says "there is no good purpose to be accomplished by such exhausting trials, and the cruelty of the performance attaches an undeserved stigma to those proper trials which tend to develop and improve the horse."

Now we don't believe any such nonsense; and we hope the trial *will* be made, and will succeed also, as the first one ought to. Would it not be useful to mankind, to learn so to feed and drive the noble horse, as to travel farther and faster *without hurting him?* We say it is a matter worthy competition; and here is just the point: to find out the best mode of treatment. We have before stated what we regarded as several errors in the treatment of Lion, and it will be seen that the Mirror agrees with us. Especially is the matter of eating most wretchedly misunderstood—both of feeding men and animals. It is never a benefit, but always an injury, to give any animal feed, either immediately before or after any great or any unusual exertion. And the cruelty consists in the *abuse* of an animal, whether ignorantly or otherwise—not in so skilfully developing and carefully husbanding his powers and resources, as to enable him to perform feats otherwise impossible.

And as much cruelty may be exhibited, and results as fatal produced, in one mile of driving, as in a hundred—either through ignorance or negligence. How many fine horses do we see, any day, which have been spoiled, usually in a few hours' time, and generally by want of proper care after some severe tax of their powers. And who cries out brutal, on this? or when a mean fellow buys poor hay for his horse? or when he is—as many are—too stingy to pay for having water "brought into" their stable, and so waters his horse once or twice a day when it comes handy, and lets him suffer from thirst half his days and all his nights? Ah, all is not gold that glitters, nor is all the cruelty so evident to "the wayfaring man," as the murder of poor old Lion—who, please bear in mind, was *not* killed by doing his 100 miles, but by improper feeding and perhaps erroneous driving.

It is no more cruel for a fast horse, when in condition, to go fast, than for a bird to fly, or for a slow horse to jog along. The outrage is in overtaxing the powers of anything. What it were death to demand of one horse or man, is but sport for another. Does anybody call it cruel, for one of our great walkers to heel-and-toe his forty miles a day? well, the job would sew up or kill most men, who have not such powers or do not develop them? Beautiful little Flora Temple, and others of our flyers, have clipped the daisy from many a turf, in time that almost caused the sun to stand still in wonder; and yet to-day, though fifteen years old or more, the Queen is smooth and supple as a colt. Is it cruel for one of the saddle ponies to climb Mount Washington, scores of time every season, because the job would use up horses not used to it? We say, and will wind up by saying it—that the cruelty consists in demanding of a horse or other animal, to do what he *cannot* without injury, and that the general idea that sport and sporting men are cruel to animals, is very far from the truth.—*Ed. Chron.*]

CRIMES AND PUNISHMENT.—On Monday P. M. much excitement was created at East Albany, N. Y., by the shooting of a prisoner in the Police Court room. Last Friday afternoon two girls, named Ann and Bridget Burns, went to the woods a short distance from their home to pick berries; while thus engaged they were seized by four men, and so abused that Bridget, 14 years of age, it is supposed cannot live. Lewis Majorry, aged forty, and his son, were arrested and recognized by the girls as two of their assailants. They were taken before the Police Magistrate for examination, but the proceedings were scarcely opened when a brother of the girls shot the eldest Majorry twice in the arm and leg. The mother of the girls followed up the attack by striking Majorry a heavy blow with a hatchet upon the head. Burns and his mother were arrested, and Majorry was carried to his house, where a threatening mob were only deterred from resorting to lynch law by the presence of a strong police force. Majorry was formerly an engineer on the Hudson River Railroad, but discharged for misconduct. His son is said to be a notorious bounty jumper. Young Burns tried to stab him, but was prevented by a policeman.

——Brevet Brigadier General John L. Thompson, Colonel of the 1st N. H. cavalry, has been appointed to the command of the cavalry corps of the Army of the Potomac.

—— Admiral Farragut is in New Hampshire, among the Mountains or on the Lake.

CHIEF JUSTICE CHASE is to be at the Commencement at Dartmouth College next week. He is an alumnus of the college, of the class of 1826.

THE ARAB HORSE is watered only once in the twenty-four hours. He is often obliged to content himself with dates instead of barley; these are given to him before they are perfectly ripe, when their stones are soft, and are eaten stones and all. In the spring he is turned out on the pastures; but in the summer, if his master can afford it, he gets a little barley. On this scanty fare, a good horse in the desert is expected, if necessary, to accomplish, for five or six successive days, distances of a hundred and twenty-five to a hundred fifty miles; and after a couple of days' rest and good feeding, he will be quite well enough to repeat the feat. If he shakes himself at any resting-place, or paws the ground with his foot, it is held that there is no occasion to pull up in the journey; and if you would know at the end of a day of excessive fatigue how far you can yet depend upon your horse, get off his back and pull him strongly by the tail—if he remains unmoved, you may still rely upon him. "It is of no very rare occurrence to hear of a horse doing one hundred and eighty miles in twenty-four hours!" The requisites which the men of the desert look for in him are, that "he should carry a full grown man, his arms and a change of clothing, food for both his rider and himself, a flag even on a windy day, and if it be necessary, drag a dead body behind him." *English Paper.*

☞ The Richmond Republic says the agricultural population prefer the labor of their former slaves to any other species of labor whatever, although at first there was a strong feeling in favor of getting rid of the negro altogether, and importing white labor. This shows that people there begin to come to their senses. The men who thought to send off their old laborers, and run for luck to get new ones, must have been F. F. V., i. e., the Foremost Fools in all Virginia.

☞ Sec. Seward's health is now pronounced good: his recovery is wonderful.

— A dispatch states that the town of Denton, Md., was nearly destroyed by fire on the night of the 4th; not a store, shop or hotel was left standing, and many families were rendered destitute. The day had been enthusiastically celebrated, and the fire took from the explosion of a rocket in the upper story of a store.

— It is said, by a correspondent, that only a little cotton was planted in Florida this year; it is doing well, and the corn there is very promising for a great crop. In Western States grain crops appear well.

— An International Trade Convention of Carolinian and U. S. merchants and others, is in session at Detroit.

— John Hess died suddenly at Utica Tuesday night. A soldier son, who had been absent more than three years, returning home, an overjoyed sister went to awaken her father and inform him of the glad tidings, when to her horror she found that he was a corpse, having died from disease of the heart.

PORTSMOUTH

Special Notices.

CAUTION FROM THE
AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name
"AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name
"APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name
"P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm. Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnd4wlyny28

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

POLICE COURT, July 11.—The readers of the Chronicle will pardon a gentle digression from the grim record of the dealings of Justice with transgressors of the law, and allow us to pleasantly allude to the subject of "dogs." These canine quadrupeds, or some of them at least, we are aware are not to be tampered with except by those who can fire in the rear and run,—such as representatives of the press, rostrum, &c.

We well remember of paying a touching tribute to the qualities of the dog, in our early school boy days, in a "composition," which was duly headed "The Dorg." After a few unimportant remarks by way of introduction, it was stated that the Dorg is a very useful animal as the hair of this noble creature will cure a bite from the same. His flesh is good to eat, and is called dorg meat, which is extensively used in the manufacture of sassingers! Tradition has it that these latter articles of food have been actually known to come down at the call of the whistle, from their nail or peg on which they were suspended, and follow the whistler to his home. (Doubtful.) The bark of a dorg very closely resembles the bark of a white oak tree, as the latter will cure the diarrhea, while the former cures the "desire to hear." (The reader will discover the point, doubtless, that if an eaves-dropper should hear the bark of the faithful housedog, his desire as a listener would instantly cease.)

For this fearful pun, the perpetrator was obliged to practice the useful art of balancing himself upon a brick turned up edgewise in the middle of the floor of the *dear* old schoolroom!

But we wish to allude more particularly to the dog of to-day; for the dog of yesterday is not the dog of the present time, as Death ghastly and grim stares him in the face at every street corner, and lingers in every court, lane, alley or place where the canine representative of creation frequents. The cause of this sudden onslaught upon dogs is not apparent to us, and as some suspicion has been cast upon the Police we will here state upon their authority, that they know nothing of the authors of this infraction of dog-rights, and are using every means in their power to ferret out the matter, and bring the offenders to justice. There is an ordinance relating to the dog, the enforcement of which will properly dispose of these animals. More than fifty of these quadrupeds have been called to pay the great debt of Nature within the past week, which striking amount of mortality is naturally alarming the dog Tray proprietors, and induces them to call loudly for an investigation.

We have at great expense succeeded in obtaining the services of a distinguished poet who composed the following touching lines:

As every girl must have her way,
And every woman have her say,
And every boy indulge in play,
So "every dog must have his day."
Therefore 'tis righteous to demur,
And loudly warn the human cur
Who thus doth title with and worry
My Doggie.

The author here exhibited alarming symptoms, and fears being entertained that he had been foully dealt with, his pen was suddenly wrested from him, and the poet securely bound with a strong bed-cord and laid away for recovery. The attending physician says he wants rest after such a severe mental exertion.

Izette Hubbard complains that her son of fifteen years is refractory, and suggests that he be sent to the State Reform School, but His Honor the Judge could not behold it thus and therefore ordered the youth discharged. It is said that the boy is an intelligent little fellow having obtained his own living for a number of years past, but was induced by his mother to leave the place at which he was employed, and afterwards becoming tired of him, adopts the above mentioned course to rid herself of, to her, an incumbrance.

The City Marshal is the recipient of another of those inimitable and profound specimens of literature, the author of which is evidently "in the mud," and in attempting to get out flounders about in a dangerous manner. If any one can interpret this mystical document and will communicate the solution to the Marshal's office, he will be liberally thanked.

☞ The annual meeting of the stockholders of the Eastern Railroad in New Hampshire, was held in this city on Tuesday. Messrs. Benj. T. Reed, Robert W. Hooper and George M. Browne of Boston, and Wm. H. Y. Hackett and Wm. M. Shackford of Portsmouth, were chosen Directors. At a meeting of the Directors, John B. Parker was re-elected Treasurer and William H. Hackett Clerk.

☞ The habit of administering poison to dogs is becoming alarmingly prevalent.—Several valuable dogs have lately been killed by this method, and as yet the authors have not been discovered. A few days since a large Newfoundland dog was discovered in an upper room of one of the dwellings on State street, and after unavailing efforts on the part of the lady of the house and servant to eject him, assistance was called from outside, and by repeated trials, the animal was persuaded to leave the premises. The dog had doubtless been poisoned, and sought this place in which to die. Q.

☞ The U. S. ocean monitor Dictator, Com. Rodgers, and her consort the Vanderbilt were to sail from New York on Saturday. This is the final trial trip of the Dictator, and if she meets the expectations of her commanding officers, she will be accepted by the Government. The trip is thus laid down: She is to steam from New York up Long Island Sound, stopping at Newport; thence proceeding with her consort to Boston and from thence to Portsmouth, Portland, and finally Halifax. It then becomes discretionary with her officers whether she steams across the Atlantic; if everything works well, she will attempt the passage without fail. Her speed is required to be at least ten knots, which she has already made in coming from Fortress Monroe to New York. It is expected she will now make 11 and 12 knots, as her machinery has been considerably improved under the direction of Captain Ericsson. This vessel is 3033 tons capacity, with a single turret, and was built by C. H. Delamater, in New York. She was launched December 26, 1863. Her crew numbers 202 souls.

— The retail lager beer dealers in Albany, N. Y., held a meeting and raised several hundred dollars to fight the Sunday liquor law.

MARRIAGES.

In this city, July 11th, by Rev. A. J. Patterson, W. A. GREENOUGH, Esq., of Chicago, Ill., to Miss GEORGIE A. WHIDDEN, daughter of Mr. Joseph Whidden of this city.

In Northwood, Mr BYRON D. HOITT to Miss EMMA H. YOUNG.

In Atkinson, Mr. JOSIAH BAILEY to Miss JULIA A. CHASE.

In Dover, Mr. JOHN J. FALL to Miss SARAH CARLTON.

DEATHS.

In Newburyport, MRS. NANCY CHASE, aged 65 years 6 months.

In Dover, Mr. JOHN S. FULLER, aged 70 years.

ABRA E. WENTWORTH, wife of Charles Wentworth, aged 22 years.

In Rochester, BETSY A. SANBORN, wife of Oliver W. Sanborn, aged 57 years 6 months.

In Deerfield, MRS EUNICE FRIESS, aged 82 yrs

In Washington, D. C., July 3, at the General Hospital, Camp Sherman, 1st Div., of Chronic Diarrhœa, Mr. CHARLES H. LEAVITT, of Exeter, aged 23½ years. His remains will be brought to N. E. for burial.

In Newburyport, July 8th, at the residence of of Mr. John I. Page, MRS ANN BAILEY, aged 72 years, formerly of Upper Gilmanton, N. H.

HIGH SCHOOLS.—The annual Exhibition of the High Schools of this city will take place at the School House on Daniel street as follows: The Boys' on Wednesday, July 12—the Girls' on Thursday, July 13,—at 2 o'clock P. M. No person will be admitted without a ticket, and children will not be admitted under any circumstances. Per order.

A SPECK OF DANGER.—The minutest black spot on the enamel of a tooth, is an evidence that decay's effacing finger has touched it. Quickly interpose the Sozodont as a safe guard, or the tooth is gone—and not only that one, but perhaps half-a-dozen. Be assured that nothing but Sozodont will either effectually prevent or arrest dental disease. 2

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOMEE is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

SPANISH ROUGE,

FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Brittannia, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of a home than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery Dealers everywhere.

U. S. 7-30 LOAN.

THIRD SERIES,
$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U.S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the afflicted, of a safe and speedy cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Pimples, Blotches, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed their vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. Teller, and are now in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures Dr. Teller's great work for the unfortunate, and those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the last year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Marriage, Manhood—hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. These Pills will be sent, in 100 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for obstructions, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid these Pills. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price of one box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All communications strictly confidential. Advice—N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
an10 No. 5 Beaver Street Albany, N. Y

HIGHLY IMPORTANT TO UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. They are continued with the usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and happy experience of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicine will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that clients see none but the Doctor himself.

Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Portsmouth, June 15, 1861.

Important to the Afflicted.

DR. DOW, Physician and Surgeon, continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By long and extensive course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate to whom cures have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three of $1 and upwards.

Highly Impor ant to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, continues to be consulted for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of females than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to his office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the BRANCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. eod&wly

PAINT! PAINT!

Winter's Metallic Brown Paint
RECOMMENDS itself.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs than any mineral, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic coat*, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted *to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.*

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so. Col. R. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel S. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and are twenty miles from one point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six millions of dollars.* The last of March, R. W. Harris, Esq., a well known lawyer of this city, and United District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions as the others had done. The Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek—The latter is the well known Cherry Run, high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Everything needed for boring wells for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have been made. Harris Steam Mead well flowed 2000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 50 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is now good for oil, will be found to be of the low Titusville. Coal in that section is worth $13 per ton, and if the vein of coal should work well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little more than $600 to sink a well to the depth of 700 feet, and few go lower than that. It costs $20 per day to work it after it yields oil. As N. P. Burns, Esq., of the Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other that I have visited with; and I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments."

Professors MAYNARD and SHEPARD, Geologists of eminence, report the opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Professor Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as some south of Titusville, would be of incalculable value. There is absolutely no risk in this each score for 18 wells, and on this farm for over 50 wells, and that make computation of the cost of so many wells, and the yield and profit on the whole in a year, if they are as good as they were last year, would be the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. The Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Caldwell Creek empties into Cherry Creek. They have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally wel to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 300 barrels daily, the derrick of which is visible from the Farm. Good other not-flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is a great excitement about Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe seven-eights full of machine, it has flowed 230 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 2,200 barrels. Below this well, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United Oil Co., is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of these spouting wells, between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and very rod fit for a well, and is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm to small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 20, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 215 feet; at 400 feet gas is rising and roaring loudly."

Within rifle shot of this farm, sixteen years ago a well was sunk twenty seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

GEO. A. FRENCH,

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.

THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the coatings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and will be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine this.

MAGEE COOK.

Also on hand an assortment of the different sizes
—OF THE—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about removing, building or erecting buildings to examine this highly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of these Furnaces are in contact with the fire-pots is used for respiration, will tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the most great part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert K. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

☞ We will not send more than one copy of the Daily Chronicle per week to out-of-town Advertisers, unless paid for.

The Chronicle.

SILENT PREACHERS OF RIGHTEOUSNESS. "The City Council of Bath have voted to place neat casks in different parts of the city, and to keep them constantly filled with cool water during the hot weather."

This is no new thing in Bath. For nearly if not quite half a dozen years, it has been the custom in that city, at public expense, to keep fountains of iced water, during the entire warm season, at the most public points, where strangers particularly would be most likely to congregate. These fountains stand on wooden frames made for the purpose, of sufficient height to make the faucets convenient, and to each fountain is attached by chains a couple of drinking cups, so that all who thirst may drink of the cooling beverage without money and without price. Arrangement is made with parties to fill the fountains as often as necessary, and keep them supplied with ice; and the luxury to a thirsty man, woman or child, on an a hot, sultry day, of such a privilege of slaking thirst, can be appreciated only by those who have experienced similar relief under similar circumstances.

When the proposition was first made to maintain such fountains at the expense of the city, there were those who objected, and who, doubtless, thought it a small business for the city to engage in. But the experiment proved a success. It not only afforde refreshment to those in pressing need, but it has proved one of the most efficient means of curtailing the use of vile liquors and mixtures sold for money, which increase thirst and aggravate the very evil sought to be overcome by them.

It is the custom in Bath to place these fountains in the near vicinity of the most noted tippling resorts, as well as in places where the crowd gathers.—*Portland Press.*

FASTING AND FEASTING. Where the thinking power is not much exercised, the powers of the stomach to endure long fasts and digest the food of several days in a few hours, are often developed to a wonderful degree. The camel drivers between Cairo and Suez fast during the thirty hours of the journey; but an Arab, who dines often on a handful of dates, will sometimes be heard to boast that he can eat a sheep at a meal. The Bedouin, when travelling in the desert, takes as daily food two draughts of water, and two morsels of baked flour and milk. But, when meat is before him, and he is not travelling, he can eat and digest as much as would satisfy six Europeans. A native Australian, attendant upon Eyre, could consume an average of nine pounds of boiled meat daily. A Guarini will eat up a small calf in a few hours. A strong young man in Greenland eats daily for several months ten or twelve pounds of meat, with much biscuit. On the other hand, an Arowake lives in the field for three weeks, or a month, on ten pounds of Cassava bread.

As a general rule, power of long fasting, and excessively spare living, is associated with a power of digesting, and a will to eat, enormous meals when they are to be had. Set a little Bushman, who has sustained life for a fortnight upon salt and water, before a civilized Christmas dinner for twelve, and he will eat up the whole of it—turkey, sausages, beef, bread, vegatables, pudding, and mince pies—eat it, digest it, and convert it into flesh. For a Bushman or a Caffre, after a few days of such feeding, enlarges visibly in bulk; thus showing that the food of which the system had been starved, has, with extraordinary rapidity, been digested, converted into blood, and used for the building up of the starved human frame.

— In Boston, on Monday, five of the lads inhabiting the Harbor SchoolShip were taken in custody by the Harbor police, for setting fire to that vessel on Sunday. Their dangerous plot failed on account of early discovery, and thus many lives were doubtless saved.

— James Russell, a master ship-builder at Brunswick, Me., had his skull fractured last Saturday by falling from a distance of fifteen feet and striking his head against the keelson of a vessel he is building. He is not expected to recover.

— John A. Sillick, late pastor of the Yorkville, N. Y., Methodist Episcopal Church, but more recently real estate agent, committed suicide Monday morning at that place, by hanging, during a fit of aberration of mind.

E. A. STEVENS,
46 Market Street

Blood's Patent Improved Sifter.
For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the kitchen it is the right place for the right place. No household would be without it after a single trial. *Rand.* (It requires but one quarter the time of the old method.) *Neat.* (The hands do not come in contact with the article sifted,—there is no dust, no scattering of contents, no cold fingers. *Durable.* (It is warranted to last ten years.)
Grocers use it to bolt their meal, saving time, expense and waste. Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Paint Dealers, for sifting Ochres, Whiting, &c. For sifting Cream Tartar, nothing will take its place. **Price $1.00.** For sale by
E. A. STEVENS.

☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DO'N'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonals have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill 200 common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, into the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 14, 1866.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 1, 1866.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made ink for eight years past, from Prof. Ure's Recipe, (made of Aleppa Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. Your Ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands from up solid ever since I now how, but freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-third faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. FOLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. Lt. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and I can get a quantity of it, if would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.,
GEO. W. PARKER,
Deering, March 1, 1865.
To the American Ink Company—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moore's Maynard & Noyes', D. J. Kidder's, and many others, but yours far excels any I ever used.
Yours respectfully, C. E. STILES
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 13, 1865.

WASHINGTON ITEMS. The Old Virginia banks are now in process of liquidation, and it is thought the holders of notes will not realize over 20 cents on a dollar.

Henry A. Wise has applied to the military authorities for a restoration of his estates near Norfolk with a poor prospect of succeeding. Some Virginians propose running him for Governor.

Assistant Commissioner Fisk of the Freedmen's Bureau, writes from Nashville that returning rebel soldiers declare they will re-establish slavrry after the withdrawal of the Federal forces. No attempt is made by the white people to assure the blacks that slavery is abolished, in consequence of which the colored people, in large numbers are leaving their employers. Gen. Fisk addressed a meeting of 4000 colored people, and assured them that their freedom was beyond a doubt, and they promised to return to work.

VIRGINIA.—The Richmond Whig says that in six counties through which its informant passed there were but nine negroes at work in the field, but the county Court House villages are full of them. Negro men are said to be deserting their wives, who, with their children, are left a burden upon the farmers. [This informant's stories are to be taken *cum grano salis*. He who saw all the negroes in all the fields in six counties, must have had vision both wide and sharp.] The corn crop is small but good. Oats are rank and going to wreck. Of wheat there will be a good crop.

NORTH CAROLINA. — Miss Nealy, of Mocksville, N. C, shot a negro woman through the heart on the 2d inst., while the latter was engaged in a controversy with her master. [A lovely miss.]

The Fourth was a great day in North Carolina. It was generally celebrated without distinction of color.

Petroleum is reported to have been discovered in large quantities in the counties of Chatham and Moore, the centre of the bituminous coal mines, in Deep River, N. C.

TREATMENT OF UNION PRISONERS.—In a letter written at Montreal, H. S. Foote fully confirms the reports which we have read of Southern inhumanities to Union prisoners. It states positively that Seddon, the rebel Secretary of War, endorsed the proposition of a brute named Northrop to withhold meat altogether from Union prisoners, and to give them nothing but vegetables and bread. For attempts to bring this matter to the attention of the rebel Congress Mr. Foote says he was "acrimoniously censured." Thus, by their own confessions, the rebel government deliberately planned to starve the prisoners who fell into their hands.

EVILS CORRECTED.—A report has been received at the Bureau of Refugees, Freedmen and Abandoned Lands, on the subject of outrages committed upon negroes. The report states that prior to the dissemination of our troops through the interior of the South many slaves were hunted, shot down and left in the woods, while endeavoring to reach our lines. This accounts for their bodies being found there, but since the cessation of hostilities this business has stopped. There are, however, still instances of cruelty, but the majority of the people appear willing to obey the authority of the United States.

GOLD, Wednesday, 140 to 140 1-2. A steamer for Liverpool took out $239,000. The foreign news noted a decline of 1 per cent in U. S. 5-20s,—and this was used by the operators to push up gold a little.

☞ A sensation report from Washington, in the N. Y. World, looks to driving Maximilian from Mexico by the U. S.;—another, in the Tribune, tells a most improbable tale from a counsellor, about Mrs. Surratt's Catholic priests being warned by Sec. Stanton.

☞ The N. Y. Evening Post says nothing has hitherto checked the upward rebound of gold to 200 but the expectation that Secretary McCulloch would shortly fulfil his promise to reduce the volume of legal tender afloat, compelling speculators in all sorts of commodities to realize, and thus repeat the lesson they learned so painfully in March and April last.

— Hon. Benj. F. Perry, the new Provisional Governor of South Carolina, was formerly editor of the Greenville Mountaineer, and in nullification times he firmly supported the administration of President Jackson. The nullifiers sent a man to challenge him; he pootested against settling difficulties in that manner, but accepted the challenge, and killed his antagonist at the first shot. He was let alone, after that. He has always been a leader of the poor whites in the warfare between them and the slave masters, and has favored free schools and an extension of the right of suffrage.

— The Dutch Gap Canal is being widened and deepened.

POOR ITEMS.—Only two days before the miserable conspirators were hanged, the Washington correspondent of the New York Commercial telegraphed as follows:

From what I hear, and I believe it to be reliable, I think President Johnson will set aside the whole proceedings, and refer the cases to a civil tribunal.

An eastern paper only one day before the execution, had this:—

Reverdy Johnson's unanswerable argument against the constitutionality of the military court, it is said, satisfied the President that the proceedings were without validity.

In both these cases, the wish seems to have been the father of the thought. The U. S. Cabinet happens to be largely composed of lawyers quite as competent as Reverdy Johnson, and every whit as loyal: they doubtless advised the President as to the trial.

REV. JOHN PIERPONT wrote two hymns which were sung at the consecration of the two monuments on the Bull Run battlefields last Sunday. Forty years ago Mr. Pierpont wrote two patriotic poems for the services at the laying of the corner-stone of Bunker Hill Monument, (June 17, 1825.) The last verse of one of these pieces, "Warren's Address to the American Soldiers," is specially appropriate to both Massachusetts and Virginia battlefields:

In the God of Battles trust!
Die we may—and die we must;—
But, O, where can dust to dust
Be consigned so well
As where Heaven its dews shall shed
On the martyred patriot's bed,
And the rocks shall raise their head
Of his deeds to tell!

HARVARD COLLEGE & CHARITY SCHOOL. In a letter written by Dr. Peabody, of Harvard College, he makes the following interesting statement of the charities of Harvard College, which will astonish those who have accustomed to think that the advantages of this institution were only for the rich:

"It may not be generally known to what extent Harvard College is a charity school. The funds distributed by the faculty among poor students amount to about twelve thousand annually. A nearly or quite equal sum is distributed by private liberality, about half of it through the agency and at the discretion of individual members of the faculty. The recipients of this bounty average not far from one hundred, and many of them have no other pecuniary dependence. There is no department of their official duty in which the persons entrusted with this charge are more diligent, careful and faithful than in seeking out the condition of the poor students, and in adjusting the aid awarded to them in the due ratio of need and merit."

TRINITY CHURCH, NEW YORK.—By a statement in the New York World it seems that in 1856 the ninety-nine-year leases given by the pre-revolutionary corporators of Trinity Church in that city, to John Jacob Astor and others will expire, and an immense amount of property in the lower part of the city will be in the market for improvement. Many of the Astor-leases, paid only seventy cents per lot on property which now rents all the way from five hundred to two thousand five hundred dollars per house and lot and is worth now by the increased value of property, an aggregate of six millions of dollars. Trinity Church will be among the richest corporations in the world, and its rent-roll will equal that of an English duke.

— Three negro soldiers, named James Carr, Jackson Walder and Washington Bannister, under sentence of death for committing a murder near Vicksburg, have had their sentence commuted by the President to five years' imprisonment.

— On the Fourth, while the steamer New York, of the International line, was passing Lubec, Me., it was decided to fire a salute, but the vent was not properly served, and as the charge was being driven home the piece went off, blowing one man, named James Longheed, clear overboard. He was not seen after striking the water. It is presumed he was instantly killed.

— The Democratic Central Committee of Brooklyn, N. Y., and the Republican Central Committee of N. Y., have both indorsed President Johnson's scheme of reconstruction. All the political conventions which have recently met have taken substantially the same ground, says the N. Y. World.

—The Census of Lawrence, according to the American, shows the population of that city to number 21,699 souls, an increase of 5,986, in the last ten years. One woman, who is put down as "thirty-five," "single," and "intensely secesh," declared herself a cousin of Jeff. Davis, and was very abusive to the officer.

— Champ Ferguson, the guerrilla, now on trial at Nashville, is charged with no less than fifty-four murders. He is about 40 years of age, and does not bear himself very courageously, which is generally the case with cruel men when in extremity.

— Sixteen years ago this July, Lieut. Gen. Grant was mining for gold on the north fork of the American River, California. He dressed in blue flannel shirt and coarse miner's rig, labored away for about two years, literally earning his bread by the sweat of his brow. He was not successful, however.

NEW HAMPSHIRE ITEMS.

—— The Wolfborough News states that some time in the month of June, Mr. T. C. Rollins, while at work in Mr. Albert L. Chamberlain's mill in Brookfield, met with a very singular accident. Being about to throw off a large driving belt he stepped upon a stick of wood, which rolled and threw him upon a circular saw, still in motion, although the gate had been shut down, and the speed nearly gone. The saw entered a little above the bridge of the nose, cutting through so that the air rushed in and out as he breathed, then passing into his scull just above his eyes, cut up the distance of two and a half inches, breaking and crushing the bones in a fearful manner. At this point the motion of the saw ceased. The front portion of the scull was almost entirely severed and the front brain exposed, but fortunately the saw had passed between the scull and the membrane which covers the brain, and the latter was not injured. In ten days Mr. Rollins was able to be out of doors, and is now able to give some attention to his business, with a good prospect of a complete recovery.

—— The Monitor states that on Monday afternoon, Charles Wentworth, aged 43 years, escaped from the State Prison. He was put at work in the grounds belonging to the Prison, as usual. He is 5 feet 8 inches high, and dark complexioned. He belonged in Moultonborough, and had but two months more to serve. Twenty-five dollars reward is offered for his recovery. He formerly belonged to the 2d Regiment.

—— The Sixth Regiment has been ordered to be discharged by the Secretary of War.

—— Daniel Hall, of Campton, a peddler, committed suicide in Rowley about three weeks ago, by cutting his throat with a razor. His body was found in the woods last Sunday.

GEN. GRANT IN MANCHESTER. —Considerable excitement was occasioned in Manchester Tuesday forenoon by the announcement that Gen. Grant would arrive at the station here at 2 o'clock. Hundreds of people of both sexes repaired to the station at that hour to get a peep at the hero of Vicksburg and Richmond. The General, who was never behind time, arrived in advance of the train, and every one was gratified with a good view of his features. They were all very much surprised, however, to find that he was much larger than he has been represented to be. His weight was about 28 tons. His dress and other arrangements were manufactured by Mr. Blood at his works in Manchester, and cost about $20,000. All efforts to induce the General to make a speech were unavailing. It is said that he is to be employed in some service on the Concord Railroad.—*Mirror.*

This Gen. Grant is a powerful engine; like its name sake, made of stern stuff.

☞ When the members of the expedition to bury the remains of the soldiers killed in the battle of the Wilderness arrived on the ground, two weeks ago, they found an old lady wandering among the partially record graves in search of the remains of her son who fell in the first day's fight. She had been three weeks in the almost hopeless search, and the last day the party stayed there the lost grave was found. The bereaved mother bore the remains of her son homeward with a lighter heart.

— As foreign fruit meets with a larger consumption in the United States than ever before, notwithstanding prices have more than doubled within a few years, the West India planters are turning their attention to this trade, instead of their former crops. In the Bahamas, for instance, the culture of tobacco, once very extensive, is almost abandoned.

— The Jews in New York are to have a hotel built for their particular benefit, so that roast pig, smoked ham, or other unclean food shall not appear on the tables, says an exchange. But, the Charlestown Advertiser says, this is not the only benefit that will follow from the new hotel: all the other hotels will be free of "unclean" people.

— There is residing in Chatham Barracks the descendant of a family of soldiers who have been serving their country uninterruptedly, and wearing the British uniform, for a period of one hundred and sixty-five years.

— The health of the Emperor Maximilian, now at Puebla, is said to be very poor, and he has transacted but little business during his more than two months' absence from the capital.

— There were more than one hundred persons prostrated by sunstroke in Cincinnati and vicinity on the 4th of July. The mercury marked one hundred degrees in the shade.

— The report of an apprehended insurrection at Richmond was a canard. The freedmen are quiet, and, beyond the apprehension of a few for carrying concealed weapons, there has been no trouble.

— B. S. Osborn, the naval reporter, under arrest charged with publishing contraband news, has been notified by Gen. Dix that he has approved of the finding of the Court in his case, which was "not guilty."

— The deposits in the Freedmen's Savings bank at Hilton Head, since last October, have been over $100,000.

THE GOLDEN SHEAF BOURBON.

A. R. H FERNALD, Propr's Clerk.

Portsmouth, N. H., June 29, 1865. 1w

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same as in principle the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 600 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

OLD POTATOES WANTED, by

JOHN STOKELL,
jy6 Market Street.

Special Notices.

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. BARTLEY," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je23—1m 182 Broadway, N. Y.

To Die in a Bad Cause

as those who fall in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je20

☞ **Dame's Celebrated Catarrh Snuff** is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies, States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DUROND, P. O. Box 1285, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnaewlymy28

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Bronson's Boston House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.

Local.

NEWCOMB'S MINSTRELS.—Our citizens will hear in mind the Concert of this celebrated troupe of merry black-birds, this evening. We copy the following from the Cincinnati Commercial:

The Newcomb's were greeted yesterday afternoon by an audience that packed the hall to its utmost capacity; and at night, another large and fashionable assembly bore testimony to the excellence of the troupe. The musical element is the most finished that ever graced the irrepressible opera. The vocal element is particularly strong, numbering a quintette of accomplished singers, among whom the well remembered deep mellow tones of Reimer loom out with bell like effect. Newcomb, Pell and Baker, in the comic element, succeed in infusing a spirit of mirth and good humor in the audience.

EDITORIAL EXCURSION.—An Excursion of the Editors of New Hampshire and a liberal supply of Editors from the Bay State, is to come off on Friday, when the craft will meet at Portsmouth, for a trip to the Shoals in the steamer Pioneer. Each editor is invited to take his wife with him, and and those not having a wife are expected to take one as soon as practicable. Should the weather prove favorable, the affair will no doubt be a most pleasant one. Invitations have been accepted by Editors in Boston, Worcester, Lowell, Lawrence, &c., while the N. H. Editors will of course be on hand.

POLICE COURT, July 12.—A bouquet of four worthies graced the dock of the court this morning, having been induced to visit this sequestered place by the mute appeal of a watchman's "billy." Their names are Joseph Davidson, Michael Garvin, John Higgins and James Curreus, forming a quartette well calculated to make night hideous with their appearance alone, to say nothing of their vocal demonstrations, which are immense when assisted by a little "tangle-foot." We have not consulted them in regard to their future arrangements, but understand from good authority that they have abandoned out-door concert-giving for the present, as it is not sufficiently remunerative to encourage them to continue, each member of the quartette being $6.86 out at the last entertainment.

☞ Gen. Meade, in command of this district, has accepted an invitation to be present at the Commencement at Harvard College next week. A niece of the gallant General is to be married in this city on Tuesday next, (as we are informed by good authority) to a leading lawyer and politician of this State,—and it is expected the General will arrive in this city on that morning. Would it not be well to give him a welcome at the depot?

☞ We learn that Chas. Francis Adams jr., and his brother John Quincy Adams, sons of the Hon. Charles Francis Adams, arrived in this city on Tuesday, and stopped at the Franklin House. They intend spending a few weeks at the Shoals.

☞ Admiral Dahlgren's flagship, the Pawnee, is daily expected at this yard.

☞ The U. S. steamer Monticello, from Norfolk, was at Fortress Monroe, July 10, bound for Portsmouth, N. H.

☞ The United States Service Magazine, for July, has a fine engraved likeness of Gen. John Logan, and an equally fine notice of his deeds of merit during the rebellion. Published by Chas. B. Richardson, New York.

— In Lawrence, when the firing of the national salute at noon, on the 4th, was nearly accomplished, owing to the vent of the cannon not being properly secured, a premature explosion took place, and Mr. Wm. Sharrock, who was ramming down the charge, had both arms blown off. Mr. Frank Howard, who was aiding him, was somewhat burned. Mr. Sharrock served three years in the 1st Heavy Artillery, and had been discharged but a few months. Two hundred dollars was raised for the unfortunate man at the city dinner. He lived but a short time.

— The newspapers publish the details of the murder of a woman and child by three robbers, near Loudon, Madison county, Ohio, last week. The owner of the premises occupied by the woman, accompanied by another man, approached the house while the robbers were ransacking it, and killed all three of them with revolvers. No names or dates are given. Rather a tough story;—but *may* be true.

— Strong efforts are now being made to raise the wreck of the ill-fated frigate Congress, sunk by the Merrimac March 8, 1861. The "diver" firm of Underwood & Co. have been at work for some time. They have raised up out of the wreck thirty-two guns and a large quantity of tackle and furniture. The Cumberland lies deep in the channel, is full of sand and cannot be raised.

— The Confederate Cotton Agent for Alabama has recently been captured, with all his books, papers and other documents, containing the names of all who had ever given a pound of cotton to the rebel government, or aided it in its work of destruction in the slightest manner.

— On Wednesday the crowd upon the President was so great that visitors were stopped at the stairs. The crowd thus detained half filled the east room.

— The New York Tribune recommends universal suffrage and universal amnesty, as the best means not merely of reconstruction, but of reconciliation.

— There are but three Revolutionary Veterans now living in the United States, one in each of the States of Maine, Missouri and Ohio.

— Crocket, the noted lion-tamer, fell dead at Cincinnati, just as he was about to enter the cage of wild beasts.

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, pigeons, swallows, martins, woodpeckers, bob o'links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered

Approved, July 8, 1862.

Samples and circulars sent free by mail for 25 cents. WHINEY & SON, No. 6, Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,

Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or by hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use (from a teaspoonful to a table spoon full), it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their sickness. Through its action in the Blood, it will expel all *Humors* and *Impurities*, that are working a slow but certain effect, invariably leading to death. The *Juices of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For Diarrhœa and the *Flux*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 31 Bond street, New York, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

FOR CONSUMPTION, it is the only reliable remedy known. If has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS.—Its effects in this troublesome disease are very marked. It is necessary, to persist in its use for a considerable length of time.

FEMALE DEBILITY.—To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Monitor Hair Dye

Is superseding all of ers. It requires no preparation, does not stunt or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.* Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

Humphreys' Homœopathic Specifics

Have proved from the most ample experience, an entire success,—Simple, Efficient and Reliable. They are the only medicines perfectly adapted to popular use—so simple, that mistakes cannot be made in using them; so harmless, as to be free from danger; and so efficient, as to be always reliable. They have raised the highest commendations from all, and will always render satisfaction.

No. 28 is a sure cure for *Seminal Emissions* and involuntary discharges. Price $1.

SOLDIERS—Nos. 4 and 5 for Diarrhœa and Dysentery. 5 boxes $1.

FAMILY CASES.—Cases of Thirty five vials, morocco case and book complete, containing a specific remedy for each well known disease liable to occur in every family, $10. Case of twenty large vials in morocco, $6. Single boxes, with directions, 25 cents, 50 cents, or $1.

VETERINARY SPECIFICS.—Mahogany cases, 10 vials, $10. Single vials, with directions, $1.

☞ These Remedies, by the case or single box, sent free of charge, on receipt of the price. Address HUMPHREYS' Specific Homœpathic Medicine Company. Office and Depot, No. 562 Broadway, New York.

For sale by every Medicine Dealer.

DR. HUMPHREYS is consulted personally or by letter, as above.

IODINE.

IODINE WATER. A Pure Solution of Iodine, without Solvent. Sought for by Chemists and Physicians for the last 50 years. Discovered by Dr. H. Andres after 15 years of scientific research and experiment.

The most astonishing cures have followed its use in cases of SCROFULA, both hereditary and acquired. All kinds of Humors, Consumption Malarious Fevers, Rheumatism, Female Weaknesses, Dyspepsia, Mercurial Diseases, and all those distressing complaints arising from a Bad state of the Blood. Chronic Diseases, that have baffled the best medical skill, often yield to the subtle influence of this remarkable medicine. It is the most powerful vitalizing Agent and Restorative known. *Its effects often seem miraculous.*—Pamphlets sent free. Price $1 per bottle, or 6 for $5. Sold by Druggists.

Address Dr H. ANDERS & CO., Physicians and Chemists, 482 Broadway, New York.

U. S. 7-30 LOAN.

THIRD SERIES,
$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the blic the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.					
Two cents	"	"	"	"	**$100** "
Ten	"	"	"	"	**$500** "
20	"	"	"	"	**$1000** "
$1	"	"	"	"	**$3000** "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.

U. S. 7-30 BONDS.

Of all denominations for sale at the

New Hampshire National Bank.

J. P. BARTLETT, Cashier.

Portsmouth, May 13, 1865.

Morning Chronicle.

—A good story is told of a Northern merchant who was eating his dinner at the Battle House, at the time of the recent explosion in Mobile. Although badly cut by the flying fragments of the windows, he managed to rush to the telegraph office and send a message to his partner to "ship nothing but glass and putty." This duty done, he fainted, and has been in a brain fever ever since.

—In the Orthodox Church at Malden, July 2d, the twin children, a boy and a girl of Rev. Mr. Reed, were presented for baptism. The mother was accompanied to the altar by the four grandparents; the grandfathers each bore a child in his arms, while Rev. Mr. Reed officiated himself in the performance of the ordinance of baptism, giving to the two children the names of their four grandparents.

☞ In a trial now in progress in one of the Courts of Sweden, a series of the most appalling crimes has been brought to light. A clergyman named Lindback is charged with the murder of several of his parishioners by administering to them poison in their sacramental wine. The proof is so conclusive against him that not the slightest doubt of his guilt is entertained.

— A sad accident occurred on the steamer Ottawa on the 4th, in the vicinity of Tousang river, says the Sandusky Register. The clothing of a lady became entangled in the machinery of the vessel, and two other ladies ran to her relief and were caught in the same trap, and all three were crushed to death.

—A distinguished California divine was asked after a trip to silver land, "What he thought of the country." He replied: "There are but three things at Washoe, air —big mines, little mines and whiskey shops; in other words, Opher holes, gopher holes and loafer holes."

— On Wednesday last an infant was thrown from the cars by a passenger on the Grand Trunk Railway, just above Northumberland station, Me. The fall killed the child, but who the guilty party was is not known.

— The Boston Banks have arranged to loan the U. S. Treasury $10,000,000, to be paid after 30 days, with 5 per cent. interest.

— The Washington Chronicle severely denounces Judge Willey's action in issuing a writ of habeas corpus in Mrs. Surratt's case.

SPANISH ROUGE,
FOR POLISHING,
Or Cleaning Gold, Silver, Silver Plated, Brittania, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For Sale everywhere. Ounce of this article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of your house than one hundred dollars spent in new ware. Every article of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*
Put up in three different qualities, for the finest Gold to the coarsest Metals.
Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery Dealers everywhere.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE and DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to place themselves under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to any part of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Chemical Compound, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no equal in this country or elsewhere in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who wish to remain a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases. No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. eod&wly

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS ITSELF.
It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, unfading, durable *metallic coat*, protecting wood from decay, and iron or other metals from rust or corrosion.
It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who has been very successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the proper farms. He did so, and Col. B. F. Martin, Hon. N. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Houghton & Coolidge, 64 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from one point to the other, and the Four Farms with the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells that have yielded the last year so much petroleum. Pennsylvania, as Curtis says in his Message, *fifty six million* of dollars. The last of March, B. W. Harris, Esq., a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and F. A. Wilcox, Esq., a lawyer of 76 Wall St., New York, were sent out to see to the titles of lands, and make farther examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 84 acres and is near the confluence of Cherry Creek and East Oil Creek.—The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich undeveloped Coal vein on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil flats south of Titusville, from which innumerable fortunes have flowed. Here the Steele & Maud well flowed 2000 barrels per day—the Fountain 200—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this flat are a success. A ten barrel well will sell for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judge that every rod of the seventy-five acres of the Mattison Farm, all that is not good for oil, is equal to that of the best low Titusville. Coal in that section is worth $13 per ton, and if the vein of coal should work well it would be a valuable item to itself. It's splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the wells, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs one day to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and presenting geological features of a more full and perfect character than any other that I am acquainted with; and have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, of which I have made considerable investments.—Professors MAYNARD and SHEPHERD, Geologists of eminence, are of the same opinion regarding the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Professor Shepherd of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would at once pay back the cost of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room on such acre for 18 wells, and on this farm for over 900 wells. Just make computation of the cost of so many wells, and the yield and profit on the whole in a year, if there are as good as they are expected, if they only yield the minimum average of the wells on that Oil Belt, and your income from this Farm alone is over one million of dollars. This Company do not expect any such results, but merely state facts, and let each person make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Cherry Creek and where the Old Farm Well Creek Company are sinking the have lately sunk a well right opposite this farm and struck oil. A single good well on this large farm would cash the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally wel to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. Its about three miles east of Oil Creek, directly east of the Coquet Well that flows 100 barrels daily. The Jersey that flows 800, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its sucker rod in, and its pipe capped the full of machinery, it has flowed 250 barrels per day ever since.—They have not dared to pull out the sucker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 3,200 barrels. Below this well, on the same Creek, another Oil well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. Right in the oil belt, and lying between the Frazer and the one which has raised so high hopes, is the Byles Farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

(On West Pit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now making one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet; a good show of oil at 112 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

Circulars, prospectuses, &c., containing every information, will be furnished on application at the office of the Company, or sent by mail to parties wishing to subscribe. Apply to or address

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water: also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would speak about a remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites the gases as they pass through, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a heat so intense as to make it unbearable to the chimney the hottest part or your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Coal at Cost.
The Eagle Hill Mutual Coal Company,
The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to
JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.
EAGLE HILL MUTUAL COAL COMPANY.
This Company is organized on the mutual plan, the same as principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.
The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any other in Pennsylvania, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 400 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.
Any one who will take the trouble to investigate the facts, will see at once that the cronkings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.
JOHN S. HARVEY, 47 Congress St.,
jy13tf Agent for Portsmouth.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity and utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is more SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All access'y, such as a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
HENRY L. ELLSWORTH,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.
Boston, Jan. 1, 1865.—6mwly

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in five minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Will pour out dry after using it, and a single steel pen will last with this Ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect Ink in three minutes, the best Ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, MASS., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's recipe, made of Aleppo Gall, Sulphate Iron and Gum Senegal, and have sold large quantities of it. Have supplied the schools in the town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone now. *You take the wind out of the sails of ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows just freely as at first, and is not changed in the color by a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected *at all.*
I have introduced it into my school in this place, and had I a quantity of it, it would find a ready sale. Thanks to you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.,
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is in most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Burnham's, Cordwell & Noyes', D. J. Rideout's, and many others, but yours far excels any I ever used.
Respectfully, G. E. STILES
PRICE POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receip. of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JULY 14, 1865.

MR. GEORGE W. L. BUCKLEY, President of the Golden Circle, who is now confined in Fort Warren, has written a long order, or circular, in which he suspends the labors of the several departments of the "Circle," until July, 1870, when the congress of the order will assemble in Washington with open doors, and afterward proceed to lay the corner stone of the Saxon University. All the members of the military department are released from allegiance to the order, and from all obligations of secrecy pertaining to the same.

He states that it *was a fillibustering* scheme, and defends it as such. But he denies "that it was a Democratic concern, and as such was upheld and supported by that party. Nothing can be more untrue than this charge, for neither political nor religious tests were ever known in the practices or tolerated by the laws of the order."

He denies that the Circle precipitated the rebellion; and he tries to steer a middle course between abolition and pro-slavery fanatics,—but throws the *beginning* of contention on the former, as all such people do. Finally, he says:—

If any man prefers negro society to that white people, let him go to San Domingo; as for myself, being a white man, I prefer white society. And while I would not again reduce the negro to bondage, I would gladly see the last one of the race returned to his own native Africa; and if this is not done, then I respectfully suggest it as my opinion, founded upon observations of the negro in the North and in the South, that the black man will find that he has lost more joys and real happiness in leaving his Southern home than he has found in the perilous of Northern cities.

This last paragraph shows how such men felt two years ago;—and as Buckley has been shut up two years, he is not aware that the black man has no idea of leaving his Southern home for Northern cities, tho' he has some idea of leaving slavery and becoming a free laborer. The idea of returning the 4,000,000 negroes to their *native* Africa, is about as *sane* as would be the idea of returning all the whites here to their *native* England, Ireland, Germany, &c. There is room in our country for all laborers; and the room of fillibusters, traitors, and loafers in general, is better than their company.

SOUTH CAROLINA.—James Redpath recently forwarded to Gov. Andrew, for transmission to the President, a petition signed by 1800 colored loyalists of Charleston, asking for Universal Loyal Suffrage and the appointment of one of the following gentlemen as Military Governor of South Carolina: Gen. Fremont or Albert Brisbane, natives of South Carolina; Gen. Saxton or Gen. Butler. The large majority of the signatures were autographs. A Loyal League (chartered by the National League) numbers already about 1000 members. 4000 pupils attend the public schools; 500 adults attend night schools. A Reading Room and Library have been established. We are told that among the colored people the only question discussed is that of suffrage. Many of the leaders assert that they dare not live in South Carolina without it.

MISSISSIPPI.—Provisional Gov. Sharkey of Mississippi has issued an address to the people, setting forth their duties to hasten reorganization. He has reappointed rebel county officers, who are required to take the oath of allegiance prescribed by the President. He has named the 7th of August as the day for the election of delegates to the State Convention. We have a great dislike to Judge Sharkey, on account of his whole public life hitherto; and though his address contains some grand sentences against slavery, we are not yet able to rely on him with full confidence.

SOUTH CAROLINA.—The N. Y. Herald Charleston correspondence says great excitement was caused in the country above the city, by a report that the negroes intended rising in insurrection. Troops were sent to different points to meet the emergency. South Carolinians have complained so much of the using of negro troops to garrison places, it is probable they will be removed. [Query, whether the Chivalry of S. C. are aware that there is any U. S. government, or whether they suppose they are the Supreme Sovereigns of the whole country?] The 4th of July was celebrated exclusively by soldiers and colored firemen. White citizens did not participate.

GREAT FIRE IN NEW YORK.—A terrible fire broke out in Barnum's Museum about 1 o'clock Thursday afternoon, and it was feared that it would destroy the whole block running from Broadway to Nassau street, which includes the New York Herald office, the Belmont Hotel, and many stores, printing offices, &c. One account at 2 1-2 o'clock, said the Herald office had already been reached.

GOLD, Thursday, 142 1-8.

— The number of persons professing the Mahommedan faith, is one hundred millions. That shows what one man can do.

MARYLAND.—One of the very recent cases of the colored apprentices (formerly slaves) who were discharged from their former masters and owners under a writ of *habeas corpus*, issued in May last, by Judge Bond of Baltimore, is to be taken to the court of appeals for final adjudication of questions involved, Judge Bond and Judge Tuck of Anne Arundel county having given conflicting decisions thereupon. The apprentices referred to were discharged by Judge Bond from the custody of their masters, upon the ground that the statute law of the State providing for negro apprenticeship had been superseded by the provisions of the present constitution abolishing slavery, and that colored children could only be apprenticed under the statute law applicable to white children, &c.

MEXICO.—City of Mexico advices state that the Imperialist General Castoginy claims to have achieved a great victory at the town of La Passion, in Sonora, May 22. He says with 70 French soldiers he routed an encampment of 2500 Republicans, and captured an immense amount of valuable stores. [This is either a great achievement, or a very big story—probably the latter.] As an offset to this, the Republicans are driving everything before them in the State Michoacan, where Gen. Regules had taken the town of Urapan, capturing the Imperial garrison of 300 men. In San Luis Potosi and other States the guerrillas are giving Maximilian great trouble. No mention is made in these advices of Maximilian's decree ceding Mexican territory to France.

THE SEA ISLAND LABOR EXPERIMENT. The great labor experiment now being tried on the islands on the coast of South Carolina, is of interest to the world at large, and to the people of the South in particular. A correspondent of the New York World, who has recently visited these islands, says there are now over two hundred acres of land under cultivation by free labor. The enterprizes are mostly by Northern men, although there are natives working their negroes under the new system, and negroes who are working land on their own account. The profits of some of the laborers amount to five hundred and in some cases five thousand dollars a year. The amount of money deposited in bank by the negroes of these islands is a hundred and forty thousand dollars, One joint subscription to the seven-thirty loan amounted to $80,000. Notwithstanding the fact that the troops which landed on these islands robbed indiscriminately the negroes of their money, mules, and supplies, they went back to work again. General Saxton, who has the chief charge of the enterprise, has his head-quarters at Beaufort. If these facts, and the actual prosperity of the island could be generally known throughout the South, it would do more to induce the whites to take hold of the freed-labor system than all the general orders ever issued.

PROF. MCCULLOUGH is in prison at Washington, charged with aiding and abetting, by the use of his scientific acquirements, infamous plots for the destruction of property and persons. He has not only been a traitor, but one of the vilest and most barbarous of traitors—if that which is charged against him be true. This man was formerly Professor of Chemistry at Columbia College, New York. He was chosen in preference to Prof. Wolcott Gibbs, because the latter was a Unitarian, or not Orthodox enough to suit the managers of that institution.

The precise relations between chemistry and divinity were not apparent to the public, but the trustees felt themselves bound to elect none but an orthodox man to teach chemistry, and accordingly they elected McCullough. He is a bitter traitor. He remained in New York nearly two years after the beginning of the war, and then ran away to Richmond, where he at once took the place for which he had sold himself, as head of the Chemical bureau. He prepared inflammable compounds, which were to be used for the destruction of New York and other northern cities, and showed a readiness to abet with his technical skill the most infamous plots of the rebel leaders for the destruction of the women and children of the North. As an adventurer, unscrupulous, treacherous, and ready to serve any cause for pay, he is one of the most detestable characters brought out by the rebellion.—*Exc. Post.*

☞ T. B. Peterson & Brothers, Philadelphia, have published in a 50 cent pamphlet, a Full Account of the Trial of the Assassins and Conspirators for the Murder of President Lincoln.

— The corner-stone of a new Methodist Church, Rev. Mr. Brewster pastor, was laid in Newburyport on Wednesday.

The Times's Washington despatch says the Richmond Whig has been suppressed for using disloyal language. Right.

At the Cabinet meeting Wednesday, it was decided to let the question of pardoning rebel generals and high civil officers of the rebel government remain in abeyance for the present.

— The "Golden Circle" has been suspended, by order of its President, George W. Buckley, to July, 1870. The members ought to be "suspended" individually.

— In Boston, recently, a young girl of 15 years married a man of more than three score. We wonder who gave a "thus saith the Lord" to that precious bit of profaneness?

Local.

☞ The Portsmouth Philharmonic Society, after a full and agreeable rehearsal on Tuesday evening, voted to take a Summer vacation until the first of September. Among the programme of the evening, were the Hallelujah Chorus, the Heavens are Telling, Daughter of Error, Soldiers' Chorus, Here in Cool Grot, &c. A small assessment was laid, to settle every bill to date; and a vote of thanks passed to Mr. Day, Conductor, and Miss Emery, Pianist, and the officers generally, for their services. The Society has met with good success and made considerable progress, and will no doubt reassemble next fall in strong chorus and with undiminished interest.

A COMPLIMENT, OVER THE LEFT.—The Boston Courier, of July 8, speaks of one of our cotemporaries as "the able but extremely stiff-backed and unreasonable editor of the Portsmouth States and Union." He also recently called this Chronicle "a little bob-tailed concern." He is expected down to go on the editors' excursion to-day. Come, Br. Stars and Bars, let's go and push the fellow overboard.

☞ It will be seen that Mayor Bailey offers a reward of a hundred dollars, for the detection of the persons who place poison in the streets, whereby many dogs have been killed, and other animals, as well as men, women, and especially children, are liable to be injured.

☞ It is said that the marriage of Col. John H. George to a niece of Gen. Meade will take place at the Episcopal Church in this city on Tuesday next, and that the General has signified his intention to be present if possible.

"BRIGADIER GEN. DODGE."—The Portland Argus says of the young man held for trial in Boston a few days ago on a charge of larceny: Dodge's Brigadier Generalship is a gratuitous assumption, he is 23 years of age, and was a compositor in a newspaper office in Portsmouth, N. H., but belongs in Fremont, Me. "Dodge enlisted as a private in the 30th Maine, and succeeded in making the Portland military authorities believe that he was about to be commissioned, enjoyed 'the liberty of the city.' His fine deportment, agreeable address, and (in the light of subsequent events) amazing impudence, enabled him to impose upon a number of generous-hearted citizens. He at last got into trouble, however, by attempting to 'do' a fashionable tailoring house out of an elegant $55 colonel's coat, passing himself as an important government detective. The tailor was up to such 'dodges,' and proved detective enough to take the coat from the fellow's back, and have him arrested by a Deputy Provost Marshal as a deserter. He left under charge of an officer immediately after, and how he got rid of the charge of desertion or out of the army we are not informed, but we fancy he will find it more difficult to slip through the meshes of Massachusetts criminal laws." He is up for horse stealing.

NEW HAMPSHIRE ITEMS.

—— Knight May, a young man residing at North Weare, was wounded in the leg, on the 3d inst., while in a mowing match with another youth; the leg mortified, and he died on the 11th.

—— The Manchester Mirror says Daniel Butterfield, Jr., has sold his young Morrill stock horse, five years old, to Mr. Northad, a well-known horseman of Bradford, Mass., for about $3000.

—— When the 1st N. H. battery left the State, it had 115 horses; after 3 years' service the battery was mustered out, and then, 8 horses only remained, besides one or two sold by officers.

—— The Manchester Coal Co., has declared a semi-annual dividend of 5 per cent.

—— A few days since, the house occupied by James Wyman of North Weare, was consumed by fire with all its contents. No insurance. He is a hard working teamster, and is left with a large family, without beds, bedding or clothing. But the good people of Weare are kindly remembering him.

—— The State authorities are making preparations to receive at the State Prison about fifty convicts who have been tried and found guilty of offences against the General Government. The Government is to pay the State one dollar per week for the board of each prisoner. They are all to be employed at labor in the same manner as the other convicts. Some of the prisoners who have lately arrived from Washington have occupied high social positions. One Maryland Colonel who was convicted of defrauding the Government, is said to be worth $100,000. He is to serve three years.

Gov. Smyth, by the advice of the Council, pardoned Ira Mooney, of Kingston, and a man by the name of Carpenter, who belongs in Coos County. Their term had nearly expired, and during their imprisonment they had conducted themselves in an exemplary manner.

— A writer in the Country Gentleman, strongly recommends Hornless Cattle. He says the horns are useless (among tame cattle,) dangerous, and expensive.

— The New Orleans Times' Brazos correspondent, writing on the 1st inst., reports a terrible storm there 30th ult. Gens. Weitzel and Steele were at Brazos. A large number of their troops had moved up to Clarksville and White's Ranche. Gen. Steele had demanded of the Imperialists the surrender of the ordinance given them by Gen. Slaughter.

— The belief is gaining ground in Washington political circles that President Johnson will recommend to the next Congress in his first message that unless the rebel States adopt measures or embody in their new constitutions provisions for universal suffrage that they should not be admitted, and that in determining qualifications of members from Southern States the ensuing Congress will require in respect to all classes in the South a rigid endorsement of all changes which have rendered existing laws and proclamations necessary.

— Miss Boyd, the young lady supposed to have been abducted in New York last week, has returned to her anxious parents as a wife, and the affair turns out to have been no abduction at all.

— On Tuesday evening, Miss Abigail Hunt of Newburyport, fell down an entire flight of stairs. She is 84 years old, and serious results are apprehended. She was taken up speechless, and was unable to move herself on Wednesday.

— The rebel traitor Breckinridge, and one Helm, *late* Confed. agent at Havana, have taken passage for England, in the British mail steamer Conway.

— Gen. Dix withdraws entirely from public service.

—In Philadelphia on Monday, George W. Naylor, 10 years of age, snapped a gun that was picked up at Gettysburg and was supposed to be empty, when it went off and the charge struck a little boy named Harvey in the next yard, killing him almost instantly.

— A paragraph has been going the rounds of the press lately, to the effect that Major General Hurlbut of Illinois, was to be court martialed at New Orleans on various grave charges. The New Orleans Times having made the proper inquiries as to the matter, announces that the statement is entirely without foundation in truth.

— Col. C. R. Jennison, Seventh Kansas Cavalry, has been dismissed the service dishonorably by a court martial. Among other charges, he was found guilty of stealing sixty head of cattle and plundering the cattle below Fort Scott, while in pursuit of Price last Fall.

LOST—On the evening of July 9, between Cape Neddock and Kittery Village, a small GOLD WATCH with CHAIN attached. The finder will be suitably rewarded by returning the same to M. V. B. STIMSON.

CAUTION FROM THE
AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name
"AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name
"APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name
"P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm. Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. Bartley," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m 182 Broadway, N. Y.

To Die in a Bad Cause
as those who fall in the rebel ranks undoubtedly did, is foolish. But on the other hand
Dyeing for a Good Cause,
as those who are wise and prudent enough to remedy the defects of nature with
CRISTADORO'S HAIR DYE
are doing every day, in every City of the Union, is certainly praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums. Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1285, New York City.

At Wholesale by DEMAS BARNES & CO., New York. sptdaWlymy28

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be best again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL COMPLETELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn, and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, scaling and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors, Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. sp25m6md

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the most linen.

It will instantly arrest the hair from falling off; causes hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 3 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP
For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

Room Papers and Borders.

Selling at a Great Reduction.

J. W. & A. STAVERS.

Local.

☞ The Stockholders of the Portsmouth Steam Mills will hold a meeting in this city on the 17th inst., to determine what course to take in the present condition of their affairs. The Ballot correspondent says, "one project is to raise $300,000 and get a new selling agent, and it is proposed to issue 15,000 new shares at $20 and reduce the old stock to the same par value. Another plan is to wind up the affairs of the corporation, sell the property and pay the debts, dividing any possible balance among the shareholders." The building of these fine mills here has been a great advantage to the business of our city; even though, we regret to say, the enterprise has never been very remunerative, directly, to the stockholders. And the public will await with considerable interest, the action of the corporation at the next meeting. We presume there is little doubt but the machinery will be kept running by somebody—and probably many of the old stockholders will take the new stock.

☞ The Spanish Rouge, advertised by Messrs. Stavers for polishing or cleaning gold, silver, plated, Britannia and other ware, is pronounced by all who have used it a superior and elegant article. It saves so much labor and does its work so brilliantly, that it has already become invaluable.

☞ Newcomb's Minstrels give one more of their bang-up Concerts at the Temple to-night. Lots o'fun, besides good music.

☞ The new Ocean House, at Rye Beach, has opened well. One hundred guests or so, mostly boarders, sit down to dinner daily, and much company is engaged. The house is a success, as of course it must be with Job Jenness & Son to manage it.

☞ The Governor and Council did not attend our High School examination,—as was to be expected.

☞ Col. Robert Lefavour, our City Collector and Treasurer, is very low indeed, of the sickness with which he has been afflicted for several weeks, and it is feared may not recover.

☞ We learn that Sheriff Joseph P. Morse has appointed Charles H. Joy as a Deputy and Jailor, and will commence his duties immediately.

☞ Among the pleasant places in this vicinity, is Dover Point. A sail up the river, and a dinner at Kimball's, should be indulged in by one and all who can find time and means. The width of the river and the picturesque scenery, contribute to charm, and cause the appreciative of grand to be expressed wholly unreserved by q.

☞ The schooner recently launched at Fernald's (Raynes') shipyard is a fine double-deck craft, intended for parties at Cape Cod, and is being rigged at Gray's wharf.

☞ Referring to the editorial party excursion to be made to Smith's Islands—Isles of Shoals—to-day, the Newburyport Herald well says, "we wish the editors and all others would get rid of that detestable name—Isles of Shoals, which is most singularly inappropriate since there are no shoals there; and give to John Smith, the discoverer of the Islands, what is due. It is the only spot on the continent to which he attached his name."

MARINE ITEMS.—Lieut. George M. Welles has been detached from this Naval Station and ordered to Pensacola.

Sergeant Lyman P. French transferred from sea duty to this Naval Station.

☞ The annual Examinations and Exhibitions of the Boys' and Girls' High Schools took place on Wednesday and Thursday; and were, as usual, occasions of much interest and attraction to our citizens generally. The attendance was as large as possible to the accommodations, the rooms were beautifully ornamented with flowers, &c., and all passed off most satisfactorily. We are absolutely unable to give any detailed report of the exercises at this time; and can only congratulate the teachers, pupils and committee, that all went so well,—and hope that they may now enjoy their vacation of "six weeks in August."

☞ The fine steamer Franklin, now lying at our Navy Yard, very nearly came to grief on Wednesday. Through the negligence of the officer in charge (as near as we can come at the truth from reports of those who were present,) the steamer caught upon the wharf, and but for the mustering of about all the available force on the yard, by which the vessel was removed from that precarious position, great damage must have been caused to her as the tide fell.

☞ Arrangements are in progress for opening the new Mechanics' Reading Room and Exchange, in Nowell's Building, at an early day. The room will have a larger and better list of newspapers than was ever before furnished in this city, and will supply a need long felt by the business community and working men, as a social and commercial rendezvous.

POLICE COURT, July 13.—William Fanning for drunkenness was fined $3 and costs $3.86.

George Rose, a member of the brawl-and-tumult club, was fined $3 and costs $3.86, for attending a rehearsal of the troupe above referred to about midnight on Tuesday. The peculiar performances of this band of brothers consist first in laying in a heavy stock of the noisiest kind of r. g. liquor, and with this propelling power they tear down fences, and commit various depredations, accompanying their manipulations with vociferous yells. Mrs. Rose, George's mother with a rosy face arose in Court and vindicated her son, asserting that he was never known to mingle with base fellows and that she knew the boy was not the man. Nevertheless the *testimony* of the policeman,—who was thoroughly convinced that George *was the man* from the fact that his opportunities for cultivating his acquaintance while accompanying him to the station-house on the night were immense—seemed to overpower the *convictions* of Mrs. Rose and caused her to be defeated in the case.

Mary Hubbard, a female of Irish extraction, and a daughter of her mother whom we know not, yet presume that she is distantly related to that motherly Mrs. Hubbard of whom we sang in our youthful days, and who lived in just such sorrowing times as these, if the testimony of the poet is correct regarding the visit of this piousold lady to the cupboard to get her dog some bread, and on her return found the docile beast to have expired—altho' it has since occurred to us that the heartless poet killed the poor dog in orderthat *dead* mightrhyme with bread.

But to return to Miss Hubbard, who has held the position of *femme de chambre* at the Ocean House at Rye Beach, and barring a desire for the "flowing bowl" is a good girl for aught we know, in the capacity mentioned. The poor thing probably realized her weakness, and therefore made a resolution that she would not "touch, taste, or handle," and would clench these resolves by signing the pledge So in company with a male acquaintance she set out for the city of P, to see the priest, and with his assistance intended to record her name on the mystical tablet and thus fortify herself against the snares and allurements of the tempter. But alas for poor, weak and erring humanity! ere she reached the priest, she was overcome by liquor, in which condition she was forsaken by her attendant, found by the policeman, and the sequel to this unhappy tale is an arraignment before a court of justice for drunkenness, found guilty, and sent to the House of Correction for thirty days.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Arr. sch Glendoy, Moody, New York.

A SPECK OF DANGER.—The minutest black spot on the enamel of a tooth, is an evidence that decay's effacing finger has touched it. Quickly interpose the Sozodont as a safe guard, or the mischief is gone—and not only that one, but perhaps half-a-dozen. Be assured that nothing but Sozodont will either effectually prevent or arrest dental disease. 2

VINELAND LANDS.
To all Wanting Farms.

Large and thriving settlement, mild and healthful climate, 20 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*

From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.

Capital, $150,000: Shares, $100 each. 7000 Shares in treasury, 2000 for sale. Price $30 per share; $50 per Share after August 1.

Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.

We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in 60tm. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. H. PARKMAN, Esq., Cashier of the Atlantic Bank, 143 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.

Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $2,000 per day, or $1,200,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SEROUL, President.

S. H. HUTCHINSON, Secretary.

Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can net from their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, to do an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article long needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHINEY & SON, No. 6, Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,

Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general debility and dejection, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *counteract the inflammatory tendencies of their secretions*,—thus arresting the cause of their weakness or debility. Through its action in the Blood, it will cure Dysentery, and *prevent relapses*, that are working a slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.

Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.

The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.

For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.

BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.

FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.

In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being administered before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!

Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.

Wilbor's Mocitor Hair Dye

Is superseding all others. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.* Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

Humphreys' Homœpathic Specifics

Have proved from the most ample experience, an entire success,—Simple, Efficient, and Reliable. They are the only medicines perfectly adapted to popular use—so simple, that mistakes cannot be made in using them; so harmless, as to be free from danger; and so efficient, as to be always reliable. They have raised the highest commendations from all, and will always render satisfaction.

No. 28 is a sure cure for *Seminal Emissions* and involuntary discharges. Price $1.

SOLDIERS—Nos. 4 and 5 for Diarrhœa and Dysentery. 5 boxes $1.

FAMILY CASES.—Cases of Thirty-five vials, morocco case and book complete, containing a specific remedy for each well known disease liable to occur in every family. $10. Case of twenty large vials in morocco, $6. Single boxes, with directions, 25 cents, 50 cents, or $1.

VETERINARY SPECIFICS.—Mahogany cases, 10 vials, $10. Single vials, with directions, $1.

☞ These Remedies, by the case or single box, sent free of charge, on receipt of the price. Address

HUMPHREYS' Specific Homœopathic Medicine Company. Office and Depot, No. 562 Broadway, New York.

For sale by every Medicine Dealer.

DR HUMPHREYS is consulted personally or by letter, as above.

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

U. S. 7-30 LOAN.

THIRD SERIES,
$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the blic the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD-BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to

One cent per day on a $50 note.	
Two cents " " " "	**$100** "
Ten " " " "	**$500** "
20 " " " "	**$1000** "
81 " " " "	**$3000** "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these disorders, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Chancre, Strumous Affections, Nodes, Bones, Cutaneous Eruptions, Bites, Ulcers, Abscesses, and all other impurities of the system, are speedily cured under the control of these Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has secured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agent in America, for the sale of Dr. Delboit's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For fee, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All advertisements, No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
an10 No. 5 Beaver Street Albany, N. Y.

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints of whatever nature peculiar to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spine, Side, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication, stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. Briscoe, No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1864. 17bSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

ΙΩΛΗΣ.

IODINE WATER. A Pure Solution of Iodine, without a Solvent. Sought for by Chemists and Physicians for the last 50 years. Discovered by Dr. E. Andres after 15 years of scientific research and experiment.

The most astonishing cures have followed its use in cases of Scrofula, both constitutional and acquired. All kinds of Humors, Consumption Malarious Fevers, Rheumatism, Female Weaknesses, Dyspepsia, Mercurial Diseases, and all those distressing complaints arising from a Bad State of the Blood. Chronic Diseases, that have baffled the best medical skill, often yield to the subtle influence of this remarkable medicine. It is the most powerful vitalizing Agent and Restorative known. *Its effects often seem miraculous.*—Pamphlets sent free. Price $1 per bottle, or 6 for $5. Sold by Druggists.

SPANISH ROUGE,
FOR POLISHING,

XL

Or Cleaning Gold, Silver, Silver Plated, Britannia, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of a home than one hundred dollars spent in new ware. Every article of household metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which can only smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore can do no harm.*

Put up in three different qualities, for the finest Gold to the coarsest Metals.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by Druggists and Country Dealers everywhere.

Portsmouth, June 15, 1865.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases requiring PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now discovered a PERMANENT CURE for unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for enjoyment or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Impo ant to Females

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has now had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who desire to remain a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Seminal Weakness and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow is married and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1865. eod4wly

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS ITSELF.

It is a pure, durable and economical paint. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs. than any mineral, and possesses more body than any other paint. It forms a glossy, outstanding, durable *metallic coat*, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Mills and Decks of Ships, Tin and Shingle Roofs, &c.

The New Hampshire Petroleum Co. is organized with great care, under the management of some of the ablest financiers and most successful business men in the State, whose integrity is above reproach, and who cannot be led by excitement into speculations that have not to their minds a golden foundation. Their lands have been selected with great caution. Mr. N. R. Bates, of Titusville, who is the very most successful the past year in selecting Oil Lands and boring wells, was known to some of the gentlemen prominent in starting this company as a man strictly honest, sagacious, and experienced in the Petroleum regions, and was solicited to aid in selecting the property for the Company. Col. B. F. Martin, Wm. P. Newell, Esq., and John B. Clarke, Editor of the *Mirror*, of Manchester, J. S. Fogg, Esq., of the firm of Fogg, Hudson & Coolidge, 54 Pearl St., Boston, and Daniel E. Lancaster, 419 Broadway, New York, were appointed a committee to visit the farms spoken of. Early in February they looked over the lands selected by Mr. Bates, and became convinced that they were among the very best that could be had. The great Oil Basin seems to be situated between Oil Creek, East Oil Creek, and Alleghany river, and not twenty miles from the point to the other, and the Four Farms of the Company are within the Basin and on the same Oil Belt of the great flowing and pumping wells have yielded the past year to the State of Pennsylvania, as Gov. Curtin says in his Message, *fifty six million* of dollars. The last of the Four Farms, Mr. Bates, a well-known lawyer of Boston and late District Attorney, P. H. Burns, Esq., a shrewd business man of Dover, N. H., and Wm. P. Newell, Esq., a lawyer of 76 Wall Street, New York, were sent out to see to the titles of lands, and make further examinations. They came to the same conclusions the others had, and the Four Farms were bought, which are thus described:

THE MATTISON FARM.

This Farm contains 88 acres and is near the confluence of Cherry Creek and East Oil Creek. The lay of the land is beautiful for Oil; high lands on each side, Cherry Creek running directly through, and a rich vein of coal shows out on one side. Every inch of the land is valuable for Coal or boring wells, and there is no waste to it.

The oil belts run from east to west, or from north east to south west, and are from one to three miles wide. The Mattison Farm is two and a half miles in a direct line east of the great Oil Basin south of Titusville, where immense fortunes have flowed. Here the Steele & Mead well flowed 2000 barrels per day—the Fountain 500—the Parker 200—and scores of wells are now being worked that yield from 10 to 60 barrels daily. Nine out of every ten wells bored on this farm are a success. A ten barrel well will for forty thousand dollars, and a sixty barrel well sell for half a million.

It is believed by good judges that every rod of the seventy-five acres of the Mattison Farm, all that is not good for coal, is equal to the Flat below Titusville. Coal in that section is worth $12 per ton, and if there is a good vein of coal upon well it would be a fortune in itself. It is splendid coal, burning freely as Cannel.

The average price of oil per barrel the last year was $10 at the works, the buyers furnishing the barrels. It costs a little less than $6000 to sink a well to the depth of 700 feet, and few go lower than that. It costs $2000 more to work it after it yields oil. G. P. Ball, of the Cherry Creek Farm Petroleum Company, says of this Farm Section:

"I consider all the lands located there, as being richer in Oil, and preventing geological features of a more full and perfect character than any other that I am acquainted with; and I have spent much time during the last few months in examining and selecting Oil Territory in Venango, Crawford and Warren Counties, in all of which I have made considerable investments.—Professors Maxwand and Shepherd, Geologists of eminence, are of the same opinion, and have the lands generally throughout the valleys of East Oil Creek. If this Farm comes up to the expectations of Prof. Shepard of Yale College, of Mr. Ball, of Mr. Bates, it will have pumping wells and flowing wells. The flowing wells would sell for large sums of money, and the pumping wells, if as good as those south of Titusville, would be of incalculable value. There is abundant room for each one to make his own figuring and reach his own conclusions.

THE PARKER FARM

Contains 100 acres, a heavily timbered, situated near the road to Enterprise, not far from East Oil Creek, and between Oil Creek and the place where the Caldwell Creek empties into Oil Creek. They have lately sunk a well right opposite this farm and struck oil. A single flowing well on this farm would enable the Company to sell or lease the lands for great sums. The remarks about the location of the Mattison Farm, apply equally well to this.

THE BYLES FARM,

On Pit Hole Creek, contains 105 acres. It is about three miles east of Oil Creek, directly east of the Coquet Well that flows 500 barrels daily, the Jersey that flows 300, the Maple Shade and other noted flowing wells, and pumping wells without limit. This Farm is on the same Oil Belt and on the right range. There is great excitement on Pit Hole. The Frazer well is on it. It began to flow about the middle of January, and with its wicker rod in, and its pipe seven-eighths full of machinery, it has flowed 250 barrels per day ever since.—They have not dared to pull out the wicker rod yet, fearing they had not sufficient tanks to hold the oil. The tanks they now have will hold 3,300 barrels. Below this well, on the same Creek, another fine well has been struck, and above it is a spouting well, which, when bored low enough, will yield abundantly. A little farther north the same company, the United States, is putting down a well that looks already better than the Frazer well, and great expectations rest upon it. In sight of the spouting wells, and between the Frazer and the one which has raised so high hopes, is the Byles farm, all low land, and every rod fit for a well. It is splendidly located. It abounds in sand rocks and oil indications. Mr. Bates thinks very highly of it, and has no doubt but we shall find on it flowing wells superior to any yet struck in that section. A single flowing well struck would enable us to sell the farm in small lots for ten millions of dollars. Land on high bluffs some ways removed from the Coquet well, leases for fifty years at the rate of $50,000 for strips twelve rods by sixteen, cash down.

THE DAWSON FARM,

On West Fit Hole, contains 25 acres, and is in the same wonderful oil region. It has oil springs on and around it, and many wells are now being bored near it with excellent show for oil. Mr. Bates is now sinking one close to it. In a letter dated March 25, 1865, he says: "My well is showing as finely as it progresses, both in gas and oil, as any well has ever shown at the same depth on Oil Creek; gas at 90 feet: a good show of oil at 115 feet; at 140 feet gas is rising and roaring loudly.

Within rifle shot of this farm, sixteen years ago a well was sunk twenty-seven feet deep for water, and oil came in and spoiled it. We have no doubt that rich oil wells will be sunk on this Farm, and there is land enough, if they are rich, to make the Farm a fortune.

THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfect in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—OF THE—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would take this opportunity of remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

BIRDS AND INSECTS.—At the grounds of the Pennsylvania Hospital for the Insane, at Philadelphia, the good effects of protecting birds are very strikingly exhibited. About fifty acres are inclosed by a high stone wall, and for twenty-five years no one has been allowed to discharge a gun on the grounds. In consequence of this protection, all the birds that will live there are found in the enclosure in great numbers. There are cherry trees in the grounds, and when the cherries first began to turn red the trees were swarming with birds, especially the grakle, or crow blackbird. But they soon became cloyed with the fruit, and by the time the cherries were ripe had almost entirely ceased to eat them. A number of naturalists made a search for worms, but none were to be found; the birds had exterminated them. Two crow blackbirds were shot and their crops examined; not a fragment of cherry was found in either, but the crops were filled with water beetles from the neighboring marshes, showing that the birds had learned to come to this inclosure for protection, even when they were obliged to seek their food elsewhere.

☞ Mayor Gunther of New York is continually shocking either the patriotism or risibilities of the people. His last stroke is a humorous one. In a communication addressed to the Board of Supervisors, he congratulates them on the fact that the county court-house on the Park is nearly completed, and adds the information that it "will be highly ornamental, and by affording the courts of justice suitable accommodations, will tend to increase that respect for law, which should pervade the minds of the people." Think of a New York Dead Rabbit, Plug Ugly, or Rynderserian so morally impressed by the architectural elegance and ample accommodations of a court house, as to resolve to do nothing which should render his presence necessary in its spacious halls.

WOMEN HUNG.—In 1778, Bathsheba Spooner, a daughter of Timothy Ruggles, a tory, was hung at Worcester, Mass., with three men, who at her instigation had murdered her husband.—A woman was hung on Boston Common about seventy years ago. Her crime consisted of snatching a bonnet and reticule from a lady, on one of the streets leading from Fort Hill. She was indicted for highway robbery, was convicted, and suffered the extreme penalty of the law.

In 1739, Sarah Simpson and Penelope Kenney were hung in Portsmouth, for the murder of an infant child; and in 1768, Ruth Blay was hung here for "concealing the death of her infant child."

ECONOMICAL INDUSTRY.—The St. Albans (Vt.) Daily Messenger says that a Franklin county boy, engaged by the month in a large shipping house in Boston, profiting by the maxim "a penny saved is a penny clear," carefully extracted the nails from the old boxes which had "served their time. "In four weeks he had collected in the course of his business two or three kegs of good nails. His employer noticing the accumulation, after consulting the scales, handed the young man sixteen dollars as the immediate proceeds of his economy; and has honored this invaluable business trait, in connection with a sterling character in other respects, by an offer of partnership.

—Considerable amusement has been produced by the announcement that Judge McCunn of New York is to head a delegation to the President to remonstrate against the imprisonment of John Mitchel. McCunn it will be remembered, was disgracefully expelled from Washington and the army for conduct unworthy an officer and gentleman, under an order by General McClellan which has never been rescinded, and it is questionable whether he will not render himself liable to arrest and trial by court-martial should he ever again appear in the national capitol.

— A stable boy in an English town, a few weeks ago, wished to reduce his weight five pounds, so as to ride a horse at a race. He wrapped himself in flannels and a great coat, and started out on a hot day to sweat himself down; but after walking two miles he fell down and soon died. The cause of death, as stated by the surgeon, was effusion on the brain, produced by the heat of the weather and over-exertion.

—Gen. Halleck is devoting his leisure hours to writing a history of the siege of Corinth. Probably Gen. Halleck thinks "the pen is mightier than the sword," and that is the reason he didn't devote his leisure hours to *taking* Corinth when Beauregard occupied it with his army.

The above for sale by
E. A. STEVENS,
46 Market Street

Blood's Patent Improved Sifter.
For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the kitchen it is the right thing in the right place. No household would be without it after a single trial. *Round* (It requires but one quarter the time of the old method.) *Neat.* (The hands do not come in contact with the article sifted,—there is no dust, no scattering of contents, no cold fingers. *Durable.* (It is warranted to last ten years.)
Grocers use it to bolt their meal, saving time, expense and waste Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Paint Dealers, for sifting Ochres, Whiting, &c.—For sifting Cream Tartar, nothing will take its place. Price $1.00. For sale by
E. A. STEVENS.

☞ The above, with other valuable Preparations, for sale by DR. S. SWETT, No. 7 High St., PORTSMOUTH. Orders by mail or express, promptly filled. my8

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DOES'NT HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been developed till the most beautiful writing fluid, better than anything imported or home made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up, thicken on the pen or corrode it, is particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that can be retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your INK Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleaned my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, MASS., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Lee's Recipe, (made of Aleppo Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone since I got your *Ink as the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. I ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used I would not be without it. I remain yours,
GEO. H. ALLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected at all.
I have introduced it into my school in this place, and had I a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt.
GEO. W. PARKER.
Deerfield, Henry, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to say it is perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the Lawyer, merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I can say that it is all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moor's Maynard & Noyes', J. Ritcouty's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and state distinctly.
THOMAS W. LEE,

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 15, 1865.

WASHINGTON ITEMS.—The defence in the Mary Harris murder trial concluded Thursday with the evidence of Dr. Nichols, Superintendent of the Government Insane Asylum, who pronounced the prisoner clearly insane.

General Terry, in his order suppressing the Richmond Whig, says he does it on the ground of its open threats against the laws of Congress.

Manager Ford has received an intimation that his theatre shall never be used again for theatrical purposes.

It is understood that the Attorny General has recently furnished the opinion that the President has not power to appoint a Commission to decide the claims for the large amount of cotton captured at Savannah, Charleston, &c., but applicants must find relief in the mode prescribed by law in regard to captured and abandoned property, and also that all property turned over by the military authorities to the Treasury agents must be regarded and treated in the same manner.

The Secretary of the Navy has addressed a letter to Rear Admiral Dahlgren in which he pays him a high and deserved compliment.

ALABAMA.—A correspondent who has lately been through Northern Alabama, says that region is almost a continued field of cotton. The planters have given as much attention to that culture as before the rebellion, and the crops look finely. The negroes are working for their former masters for wages, and the new labor system appears to progress well.

OHIO.—The Tribune's Columbus, Ohio, special dispatch says Gen. Sherman, in a speech, indorsed the nomination of Gen. Cox for Governor, and announced himself as not a candidate for either Gubernatorial or Presidential honors.

CONFISCATION.—Richmond correspondence says the work of confiscating property of wealthy rebels commenced in Richmond on Monday, much to the consternation of the people, by the seizure of the famous Tredegar Iron Works. Descriptions of a large amount of other property liable to confiscation have been taken, and tenants notified to pay no more rent to the rebel proprietors.

BARNUM'S MUSKUM, in New York city, was totally destroyed by fire on Thursday afternoon, with 19 other buildings. Nothing was saved from the Museum but the glass steam engine.

The heat was so intense that the front of St. Paul's church, opposite the Museum, took fire, but the firemen saved it from the flames. No person was injured. Loss said to be a million, in which there was half a million insurance. The fire originated over the boiler in the Museum.

Mr. Barnum was in Connecticut when the Museum burnt. The learned Seal was saved,—the whales, and animals generally, were destroyed.

GEN. SHERMAN ON TRAVEL AND TRADE IN THE SOUTH.—In a speech to the merchants of Cincinnati on Saturday last, Gen. Sherman remarked:

I want to go wherever I choose in this country; and if any one should try to stop me from going down the Mississippi or any where else, I should shoot him. (Laughter.) But a short time ago you were told that your boats could not go below Vicksburg. The country at the mouth of the Mississippi was purchased at a cost of fifteen millions of dollars. Tennessee and other States declared that if they were denied the right of way through, they would filibuster through. We have a right to every drop of water in the Mississippi, and, thank God, we have made that right good. In doing this I have simply been your agent. It has been accomplished by the acts of soldiers. Gen. Grant and myself have acted together. The river is now clear, and you can send your whiskey and corn to New Orleans, and get your pay for it.

GOLD, Friday, 143 1-8.

— Two men, named White and McGrendy, had been at work for a German farmer at Nashville, Ill., named Meier, and on the 4th they murdered Mrs. Meier, because she refused to tell them where her husband's money was. They set fire to the house and left. Neighbors came and found the murdered woman in the burning house; and next day they pursued and caught White, brought him back, and hanged him on a tree near the ruins of the house.

— Last week a vessel arrived at Gloucester, from France, and during the night thirty barrels of French brandy and three pipes of wine were secretly landed from her, all of which were seized by custom house officers, and will be forfeited fo violation of the revenue laws, and the vessel will also probably be condemned.

— Stephen Hiss, a worthy citizen, was accidentally shot dead in Baltimore on Tuesday, by a policeman who shot a mad dog. The ball passed through the dog and then through Hiss, three hundred feet off, killing both.

Local.

☞ If any one has, or may find, a policeman's whistle, in the vicinity of the Factory, they will confer a favor on Mr. Marks by leaving it at the City Marshal's Office. It is of no value to any one except a policeman.

☞ We are informed that two vessels are now at the Navy Yard, unloading cargoes of powder and shells; and that other vessels are expected with similar cargoes. The quantity of powder there, before these arrivals, was variously stated from 10,000 kegs to 17,000. If these statements are facts, the danger from explosion, to the immense amount of U. S. property on and near the Yard, to property in Kittery and Portsmouth, and to life, is quite too great,—it should not be increased, and it ought to be diminished. If *not true*, the common report is injurious, and should be corrected at once by a plain statement from some competent authority. It is not within the province of the officers of the Yard to remove the danger:—but a statement from them, and a request from the City, to the Navy Department, would surely be attended to.

CORRECTION.—Our types in yesterday's issue made us rank *Lieut.* Lyman P. French as *Sergeant*. All who know him, doubtless know his rank; those who do not would not be likely to notice the error. We of course cheerfully make the correction.

☞ Of that Editorial Excursion to Smith's Isles, on Friday—we having devoted our day to it, have only time this morning to say, that it was an immense success—the best thing of the kind we "ever went anywhere." Hurray for the Pioneer! Appledore forever!

☞ The beautiful piece of music, written by Mr. Morey of Concord, and so finely sung at the Old Folks Concert here last Spring, by Messrs. Davis, Tompson and Foye, and Miss Hatch, has just been published in Boston, and is advertised elsewhere. It is a gem.

☞ On Friday afternoon, two men employed on the Navy Yard, named J. W. Leach and Oliver Kidder, got into a dispute, when Kidder struck Leach with a stone, and a fight ensued, in which the latter got worsted. Leach then went to his boarding-place, and procuring a pistol, returned and shot Kidder in the breast, which will probably result fatally.

☞ We have received the first number of the Nation, a weekly paper of 32 quarto pages, published in New York at $6 per annum. Ably edited, with a good stock of advertisments to start with, and a good list of writers, it will succeed; especially as the publisher does not mean to sell it for less than cost, but to get a fair price for it.

☞ Five U. S. officers have been sent down to Andersonville, to see to the proper burial of our soldiers who died in that horrible rebel prison-ground,—and afterwards to gather what evidence they can, against the agents and authors of rebel barbarity there.

— In a recent speech of Gov. Stone, the republican governor of Iowa and candidate for re-election, he is reported to have taken strong ground against the President and his plan of reorganizing the States of the South. So much the worse for the Governor, says an exchange. But we don't believe quite the whole of the story, which sounds like the invention of an adversary.

— Henry Winter Davis has been quoted in favor of negro suffrage, by an amendment of the constitution.

— Two duels are reported as occurring at New Orleans during the past week, between returned Confederates and stay-at homes. One person is reported killed and another mortally wounded.

— The daily newspaper establishments in Detroit have discharged their old printers, and refuse to employ any bound by a union.

— There is a great hubbub among the English Order of St. Benedict, at Norwich, England. Brother Ignatius has been suspended on charges of tyranny and undue severity to the monks. The services of the police have been required.

— The Philadelphia Inquirer reports more activity in the coal trade, and agents have orders not to sell large lots at present rates. Since the war a large number of factories are going into operation, and producers look for as great a demand as when Government was buying largely.

— The Toronto correspondent of the N. Y. Herald states that the execution of Mrs. Surratt caused intense excitement among the rebel conspirators in Canada. They manifested their feelings by wearing crape on their arms, singing secession songs, and threatening the President of the United States with terrible retribution.

☞ The N. Y. Times' Washington special dispatch says there is no truth in the story that Mrs. Surratt's spiritual advisers had o promise they would not proclaim their belief in her innocence from the scaffold, before gaining admission to her cell. [We thought the story was *bogus*, and therefore did not copy the item.]

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Portsmouth in 1775—Trade by sea, suspended—Mast Ships—Saw-mill—Grist mill—Windmill—Dun Fish.

The war put an end to all commercial intercourse with Great Britain and its dependencies, with whom the trade of this town had been almost exclusively carried on. Lumber, beef, fish, oil, and live stock, were the principal exports, and these were generally sent to the British West India islands; and in return, rum, sugar, molasses, and coffee, were brought back. Ship-building was carried on extensively on the several branches of the river, for merchants in this town, who paid the builders principally in goods. The ships were sent to the West-Indies, their cargoes disposed of, and the proceeds remitted here in smaller vessels. A cargo of sugar was sent on freight in the same ships to England, where they were sold, and the proceeds, with the freight money, were paid to the merchants there for cordage, anchors, canvas, and other goods, which they had advanced on credit the preceding year. Some merchants in this town built and sent off in this manner, ten or twelve, and in one instance, thirteen ships in a year. They were usually from two to three hundred tons burthen. This was profitable business, and left, at the commencement of the war, a large balance due to the merchants in Portsmouth. Considerable trade was carried on with the southern provinces, where corn, rice, flour, pork, and naval stores, were received in exchange for West-India goods.

In all the royal grants of land, the pine-trees of certain dimensions were reserved for the use of the navy. Agents were employed to procure these trees to be roughly formed into masts and spars, and delivered here, ready for shipping; government sent ships to transport them to the places, where they were wanted. Several of these mast-ships have been laden here in a year. The agents made large fortunes by this business; but the laborers, who felled the trees, and brought them to market, were always poor and dependent. Husbandry was much neglected by those who followed the lumber trade. Corn and pork were not raised in sufficient quantities for the consumption of the country. These articles were imported from Connecticut, and other southern ports.

No manufactories of any importance had been established in this town. Works for refining sugar, and a brewery were set up, but they did not succeed. There were three rope-walks, but these were insufficient for the demand for cordage. Four or five tan yards supplied the town with leather, but very small quantities of it were exported. The saw-mill, erected by Mr. Cutt at the head of Islington-Creek, was taken down, after the timber in the neighbourhood had been cut away. The grist-mill was suffered to decay, after Mr. Livius built his mills at the entrance of the creek.

About the beginning of the eighteenth century, Mr. John Pray erected a wind-mill on the hill, opposite to the place where the goal now stand, which was afterwards called wind-mill hill. It stood nearly fifty years.

A ship or brig was loaded early in the season every year at the Isles of Shoals for the Bilboa market, with fish of a superior quality, caught in the months of December, January, and February in the open sea, several leagues from the coast. This species of fish is very distinctly marked—the backs are of a grey colour, the bellies, white; it appears only in the winter months, and does not mix with other species of the codfish: its shape is also different. Of this kind or species of fish, is prepared the dumb or dun fish, for which the Isles of Shoals have been so long celebrated. It is not fit for use, till the month of August, when, after undergoing a fermentation, it changes its colour, and assumes an earthy hue; at which time it is sold for double the price of other fish. It is a singular fact, or supposed fact, that the different species of cod fish keep in separate shoals; so that a good judge of fish can, on inspection, say with considerable accuracy that this fish was caught in shore near the rocks; that on Cashees Ledge this at Cape Sables, and another sort, at New Foundland banks; but why this excellent fish should visit our cold coast in winter, whether in search of smaller fish, or for feeding on the sea-grass, it is difficult to determine.—*Adams.*

— On the 5th inst., as the Lawrence morning train was coming down, just before reaching Danvers, a man was seen lying on the track, and efforts to stop the cars proving unsuccessful, the train passed over him. The deceased was Mr. John Wholly, a track repairer, and he had been seen about an hour before, perfectly sober, and the conclusion is that he fell in a fit, and was perhaps dead before the cars struck him.

NEW ENGLAND CATTLE MARKETS, at Cambridge, Brighton and Medford, this week.—Abridged from the Boston Post

From Maine 50 Cattle, 315 Sheep. New Hampshire 64 Cattle, 221 Sheep. Vermont 425 Cattle, 1989 Sheep.

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and Relief and Health to Your Infants.

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of *"what we do know,"* after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examining the knee, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.

LADIES AND GENTLEMEN: If you wish to marry you can do so by addressing me. I will send you, without money and without price, valuable information, that will enable you to marry happy and speedily, irrespective of age, wealth or beauty. This information will cost you nothing, and if you wish to marry, I will cheerfully assist you. All letters strictly confidential. The desired information sent by return mail, and no reward asked. Please inclose postage, or stamped envelope addressed to yourself. Address,

my19 SARAH B. LAMBERT, Greenpoint.

daw3msn Kings Co., New York.

Proclamation No. 64.

All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

J. H. THACHER, Agent for Portsmouth and vicinity. my19—3mo*

"A thing of beauty is a joy forever."

Martha Washington Hair Restorer

Is a perfect success—*It not a Dye*—Will not color the skin,—Will restore Gray and Faded hair to its former Beauty—Change Dry, Harsh and Wiry Hair to a soft and silk like appearance—Cure all humors and disease of the scalp—Remove dandruff and scurf—Prevent the hair from falling off—Promote a healthy growth, and cause it to grow on bald heads, where there is life and vitality at the roots, but if these are gone there is so hope of success. **PRICE $1.00.** SIMONDS & CO., Fitzwilliam, N. H. Proprietors.

☞Sold in Portsmouth by WM. R. PRESTON and J. H. THACHER. sp27

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

TEBBETTS BROS., Proprietors, Manchester, N. H.

Sold in Portsmouth by THACHER BROS., and by Druggists everywhere. ap1se6md

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off; causes hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, No. 2 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

CAUTION FROM THE

AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name "AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name "APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.

The THIRD has the name "E. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.;"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm. Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" other "E. S. Bartlett," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m **182 Broadway, N. Y.**

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrhal Deafness, and removes the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1285, New York City.

At Wholesale by DEMAS BARNES & CO., New York. spnd&wlymy28

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je20

City Express.

Order Slate at Mr. COBB'S Music Store, 20 Market Street. je14

Local.

A FAMOUS CREOLE LADY.—Not a little interest has been created in this city and vicinity, by the report that a celebrated creole damsel, from Madeira, had arrived at Mr. Clement March's fine estate in Greenland, and was to be his bride—the wonder being, that the groom should not go out after, and escort her to their future home, next to the wonder that he should take a companion to his heart and home at all! So, while passing there a day or two since, with a few friends, we called in to congratulate the happy couple—and found the lady one of the most quiet and unimpressible possible, considering her beautiful appearance, interesting history and varied experience. But a word of her adventures first:—

The fine brig "Creole" was on the passage from Richmond to New Orleans, in 1841, with a freight of Virginia's "peculiar" production; when the slaves rose, killed part of the officers and crew, and overpowered the rest, and took the vessel to Nassau, N. P. Here, in spite of the protestations of the "owners" or claimants of the negroes, and the blustering of all the Southern slavocracy,—the British Government very properly and persistently declared the blacks free; though the violent discussions in Congress at one time seemed to threaten war between this country and England. The Legislature of Mississippi passed resolutions declaring it cause of war; and the President made the affair the subject of a special message to Congress.

But the plucky negroes were slaves no more; and all the Southrons could do, was to pocket the loss of their cargo and freight-money, and try something that wasn't so liable to "shift" for itself on the passage. So the brig was afterwards run between the States and Madeira; and the next year, in 1842, was wrecked near that lovely island. And the heroine of this tale was rescued from the wreck, and taken to the ever-open and hospitable American Consulate there, as a relict of the noted vessel, and a memento of the disaster—where she has presided with infinite grace and unfailing dignity over the almost regal establishment of Mr. Consul March, for a score and more of years, without fading or growing older in the least, to all appearance. And the most singular part of it is, that she was the *only* lady who ever resided there, and that on no occasion did her patron ever have occasion to make the slightest complaint of her.

But alas! the happiest homes must be broken up, and the most pleasant earthly relations be severed. Consul March was called to his long home, where they neither marry nor are given in marriage, and Miss Creole must seek a new residence. And fortunate was she again, in finding one hardly less hospitable than the Consulate itself. Acting Consul H. J. Burden, (who is spending the summer with Mr. March, and whom we found a very agreeable and companionable gentleman,) from his long acquaintance and watch over her welfare, naturally felt an interest in the lady's future; and so, gallantly escorted her across the waters to our Greenland, there to perform the same thankful offices for "the nephew of his uncle," as she had so long at Madeira for him who now sleeps beneath almost the same grove which waves over her still youthful head.

Her ladyship, in full dress, but with head uncovered, (no water-fall) and without the monstrously-absurd farthingale *our* fair ones sport to-day,—met us on the piazza as we entered, and with the ease of one accustomed to see much good company, quietly allowed us to enter. [Of the enjoyment of an hour about the mansion and grounds, this recital hath nothing to do.] Sufficient to say, that the lady is to be domiciled within, in choice elevated position, and will add much to the very interesting and beautiful articles of ornament already so profuse there. The figure (we omitted to say that it was a figure-head of the bark Creole,—but a Jack tar passing having discovered and announced it, this is no longer a secret,) is about life size, and exceedingly well executed in wood, but colored rather highly, and is often mistaken for wax. In her left hand she holds a scroll, but whether this is significant of the freeing of those slaves, is not known; nor whether she was placed at the prow before or after this event.

But young couples, you know, like to be left alone; and even a man who has had wedded a "wooden" wife, (and these seem not few, to *other people*,) of course considers long callers as bores—so we will wish the pair a merry march through life, and bid them good evening, without kissing the immaculate lips of the bride.

POLICE COURT, July 14.—James Jackson, for brawl and tumult, fined $3.00 and $3.86 costs.

Charles H. Ross, drunk, fined $3 and $3.86 costs.

James Burke, drunk, fined $3 and $3.86 costs.

Michael Cunningham, for assault, fined $5 and costs $3.86. Appealed and gave bonds in the sum of $80.

James Burke, assault, fined $5.00 and costs $4.63.

NEW HAMPSHIRE ITEMS.

—— The family of the late Hon. Albin Beard have disposed of their entire interest in the New Hampshire Telegraph establishment to Messrs. G. A. White and R. W. Berry, of Boston, who have assumed its proprietorship and will make their bow to the public this week.

—— A Concord correspondent says, at the depot we notice, Gen. Pierce and Long John Wentworth in a pleasant conversation about old times. We could not stop to learn particulars. They attracted great attention from the five hundred bystanders, including soldiers, ladies, and others looking out of the car windows. Colonel Wentworth is staying here a few days visiting his aged mother.

—— Mr. Brooks Shattuck, Supt. of the N. H. House of Reformation, has furnished us with a copy of his Annual Report, a very interesting document, worthy the perusal of every friend of the institution, and of good morals in the State.

— The Superintendent of Freedmen at Shreveport has given notice to planters that they will not be allowed to drive their old, infirm and helpless slaves from their plantations, as is practiced by those who desire to get rid of them.

—As the evening freight train on the Boston and Maine Railroad was passing through East Kingston, on the 10th inst., a man was seen walking on the t ack. The alarm was given and he stepped off. When the train was very near he returned to the track; every effort being made to stop the train, but too late; he was instantly killed. The body was taken to the station in East Kingston. The town authoritres used all means to identify the body, but in vain. The deceased was apparently between fifty and sixty years; had evidently lost the sight of his right eye; was rather small in stature and stooped while walking, and was dressed in dark clothes with straw hat. He had with him a small bundle, consisting of a coat, pair of overhalls, and a few shoemakers' tools,

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. 3

To all Wanting Farms.
Large and thriving settlement, mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, productive farms are offered, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $35 to $35 per acre, payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Pamphlets giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*
From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $50 per Share after August 1.
Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. R. FREEMAN, Esq., Cashier of the Atlantic Bank, 142 Broadway, or HERMAN CAMP, Esq., 55 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $2,000 per day, or $1,500,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. R. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHITEY & SON, No. 6, Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD ROOT ELIXIR a sure medicine to restore them to perfect health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their secretions*, thus arresting the cause of their weakness or debility. Through its action in the blood, it will expel all *Humors and Impurities*, that are working at blow but certain effect. Invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave sufferers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. O. RICHARDSON, who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands, has arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Cough, it is a reliable remedy. Nineteen of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 185 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Monitor Hair Dye
Is superseding all of ers. It requires no preparation, does not smut or wash off, will not soil the finest linen. Our application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.* Manufactured only by ALEX. B. WILBOR, Chemist, No. 185 Court Street, Boston.

Humphreys' Homœpathic Specifics

U. S. 7-30 LOAN.

THIRD SERIES,
$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7.30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.
GOLD - BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to
One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "

Notes of all the dimominations named will be promptly furnished upon receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is

The Only Loan in Market

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
SUBSCRIPTION AGENT, Philadelphia.

Portsmouth, May 13, 1865.

Morning Chronicle.

NORFOLK, VA.—An order has been issued by Brevet Brig. Gen. O. S. Mann, who has been assigned to the command of the Sub-District of Norfolk, declaring the city of Norfolk under martial law. In compliance with this order the municipal police, under control of Mayor *Tabb*, has been withdrawn, and Capt. Hoffman, of Co. B, Thirteenth New York Artillery, placed in command of 150 soldiers, with a proper complement of officers, to take charge of the police of the city. All arrests of white civilians for violations of police regulations are to be turned over to the civil authorities for trial, except where the testimony of colored persons is required. All cases where soldiers and sailors are either complainants or defendants will be disposed of by the military authorities. Citizens, without regard to color, are strictly prohibited from carrying deadly weapons of any kind in the streets of Norfolk.

We copy the above from a New Jersey copperhead journal, which calls the proceeding an "Outrage" :— but it is not so: it is done to *stop* an existing outrage, and to *prevent* more of the same sort.—It was well understood, when Mayor *Tabb* was elected, that he was a pro-rebel copperhead, and that no Union of any color was safe under his government. Such rebel reprobates must be made to feel the strong hand of military rule, until they learn how to govern themselves :—and many of them seem to be dull scholars.

— A paroled rebel, seven and a half feet high, recently arrived at Cairo. He started out with the Missouri troops at the commencement of the war, and stuck to them until the "dog was dead," and never received a scratch. When the Colonel first saw him on dress parade, he ordered him to "get off that stump." This created great merriment among the men; "Get off that stump" became a by-word with the Missouri rebels, and it will no doubt live as long as the long Missourian.

— A little steamer, called the Traveller, has been from Lawrence to Lowell, thence to Plum Island, Ipswich Bluffs, and Newburyport, and back to Lawrence. The boat is 25 feet long, draws 15 inches of water, and carried six passengers on the above trip. Her engine is of two-horse power. With a very little expense in clearing the river, a good sized boat could make the same trip, and make a good business in freight and passengers.

— A man in Dartford, Wisconsin, has a chicken with three pair of wings. One pair are where other chickens wear theirs, on his sides. The second pair are attached to his legs at the joints, and are as large as the first. The third pair are where Mercury wore his, attached to his feet. The chicken is about two months old, strong, and active, and as large again as any other of the same brood, and makes a decidedly funny appearance in running.

— Chalk James Webster, aged seventy-four years, who resides on Stevens Creek, Grant County, Kentucky, is the father of forty-five children. His grand-children number eighty, and his great-grand-children twenty seven. He is now living with his fourth wife, who is a sister of the wife of one of his own sons. Father and son thus stand in the relation of brothers-in-law to each other.

— The "starter" for the Brooklyn City Railroad went to church not long ago and fell asleep. When the sermon was about concluded, he awoke, and imagining himself on duty at the Fulton Ferry, he exclaimed, "What's the matter with that Myrtle Avenue car; are you going to stay there all day?" The effect upon the audience can be better imagined than described.

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues with his usual success, to medically and surgically remove Obstructions, Retrogressions, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 25 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. Briscoe, at No. 25 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1864. 1Thsly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 25 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with rooms and nurses. Charges moderate.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given and a small amount of stock furnished on application to

JOHN S. HARVEY,
Je30 67 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as men of integrity, who have never been associated for what any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, his more than 4000 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent. Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this Company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being his own exclusive property, and unknown to Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, after ineffectual trial by others, that he can quickly and rapidly cure, to be obtained at no other office in America.

Of Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Erysipelas, Pimples, Blotches, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been treated in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their constitutions by improper indulgence of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to him, and who are now hearty, and now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of the subject will not admit a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Marriage, and contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. This article of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for suppressed, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price of one box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Offices hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—No A—No students or boys employed. Notice this, address all letters to

FARMING TOOLS, &c.

THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES,

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which lights them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

☞ FOR SALE BY ALL DRUGGISTS.

IODHS.

IODINE WATER. A Pure Solution of Iodine, without a Solvent. Sought for by Chemists and Physicians for the last 20 years. Discovered by Dr. H. Andres after 15 years of scientific research and experiment.

The most astonishing cures have followed its use in cases of SCROFULA, both hereditary and acquired. All kinds of Humors, Consumption Malarious Fevers, Rheumatism, Female Weaknesses, Dyspepsia, Mercurial Diseases, and all those distressing complaints arising from a Bad State of the Blood. Chronic Diseases, that have baffled the best medical skill, often yield to the subtle influence of this remarkable medicine. It is the most powerful vitalizing Agent and Restorative known. *Its effects often seem miraculous.*—Pamphlets sent free. Price $1 per bottle, or 6 for $5. Sold by Druggists.

Address Dr H. ANDERS & CO., Physicians and Chemists, 482 Broadway, New York.

HANCOCK HOUSE,
Court Square, BOSTON. Kept on the European Plan. Board by the day or week.
ROOMS FROM $1 TO $2 PER DAY.
Hull & Fisher, Proprietors.

SPANISH ROUGE,
FOR POLISHING,

Or Cleaning Gold, Silver, Silver Plated, Britannia, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. It is a fine powder, intended for the article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of a dollar's worth of Jewelry than everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a general without any competition whatever, therefore can do no harm.*

Put up in three different qualities, for the most Gold to the coarsest Metal.

Try the Spanish Rouge, and it will become a household word and a great assistant. Every person who has a ring or pin-drop, to an engine manufacturer, needs it. For sale by Druggists and Grocery Dealers everywhere.

Wholesale Depot, No. 95 1-2 Washington St., Boston. J. R. BRADSTREET, General Agent. For sale by

J. W. & A. STAVERS,
No. 13 MARKET STREET,
Sole Agents for Portsmouth.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of nineteen years, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since its introduction, been equalled, and never, with alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the prospects of many a young, and ultimate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receipt of a description of your cases. Dr. Dow has also for sale the French Capotics, warranted the best preventive. Order by mail, three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail, three or $1 and a red stamp.

Boston, April 7, 1865. eod&wly

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, flycatchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipe, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shallbetween the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered

Approved, July 8, 1862.

American and Foreign Patents.
H. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other Foreign countries. Also Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the validity of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or procuring the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and adjudicated decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior inducements for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved to inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can confidently place their interests in *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. H. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in consideration of his large practice, made on *twice* rejected applications SIXTEEN ORIGINAL CLAIMS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Jan. 1, 1855.— 3tawly

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, & c. and all complaints of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and nursed by experienced nurses.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly
DR. M. S. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The above for sale by
E. A. STEVENS,
46 Market Street

Blood's Patent Improved Sifter.
For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the kitchen it is the right thing in the right place. No household would be without it after a single trial. *Round*, (it requires but one quarter the time of the old method.) *Neat*. (The hands do not come in contact with the article sifted,—there is no dust, no scattering of contents, no cold fingers. *Durable*, (it is warranted to last ten years.)
Grocers use it to bolt their meal, saving time, expense and waste. Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Paint Dealers, for sifting Ochres, Whiting, &c.—For sifting Cream Tartar, nothing will take its place. **Price $1.00.** For sale by
E. A. STEVENS.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mud up chicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company:—I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—*Gents*: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prussian Blue, made of Aleppa Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools in this town with it for two years, and every one using it gave it great praise. It is a good Ink, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows just freely as at the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. It ought to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company:—I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without it. I remain yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: Received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced. Your Ink's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is not affected at all.
I have introduced it into my school in this place, and had a quantity of it, it would find a ready sale. Thanking you in behalf of my community and myself for such a discovery, I remain, very respectfully, your obedient servt,
GEO. W. FARRER.
Deering, March 1, 1865.
To the American Ink Company:—This is to certify that I have given your Ink Powder a trial, and I am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the farmer, the merchant, or any person whose business requires *any amount of writing*.—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the best Ink I ever used. I have used J. Stevens' Record & Noyes', D. J. Rideout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State distinctly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S. Orders have flowed in so rapidly and urgently that the Company have decided to *Wholesale it* to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awawóm

Portsmouth, N. H.

MONDAY, JULY 17, 1865.

WHY GEN. EWELL BECAME A REBEL. A gentleman of St. Paul, Minnesota, who was formerly a non-commissioned officer in General (then Captain) Ewell's company of the regular army, wrote a friendly letter to his old commander a few weeks ago, and has received a reply, dated at Fort Warren on the 13th ultimo, which is communicated for publication to the St. Paul Pioneer. Ewell says:

* * * I came from Arizona, sick, in the spring of 1861. Staid in the country, in Virginia, my State, trying to get well, and found the war, to my bitter regret, was being started. All the highest United States army officers were resigning, except General Scott, and he published a letter that the U. S. officer would divide into four parts, thus showing that all was over. An United States said he would march a *Northern* regiment to *help* the South, for every one sent sent against her. Nothing was done with either of these men, or with others whose deeds were *treasonable*. A member of Congress, from California, made a public speech calling upon the South to resist the election of Mr. Lincoln.

Now I found myself forced to fight against my brothers and all my nearest and dearest relatives—against my own *State*, when many *abler men* than myself contended she was *right*.

That is to say, he must have done so, had he remained loyal to the U. S. The Virginia *abstraction of State Supremacy*, and the Buchanan mumble of no right to coerce a *State*, turned poor Ewell's little brain.

Ewell's testimony is condemnation to the "conservatives" and pro-slavery politicians, who promised Northern help to Southern oligarchs, and who, calling themselves democrats, were only the tools, yes the tools of a base aristocracy. It also condemns the wonderful Sovereign State men—as the aids and helpers of the rebellion. And now that the rebellion is put down by force, the same conservative, pro-slavery, sovereign states men, are pleasing themselves with a nice programme, whereby their "old masters" can ride into power, and they themselves be favored with *crumbs* that may fall from their table. U. T.

NO SPLIT—*only a Division, or Secession.* A few days ago, we copied an item, stating that the Democratic party in Ohio had divided on the slavery question, Alex. Long leading the pro-slavery wing, and Vallandigham the anti-slavery.

Now the Ohio Statesman says:

Some of the abolition papers are endeavoring to create the belief that there is a split in the Democratic party in Ohio—not that they believe it, but that they want it to be believed. * * * It is true that a few men—a very few—the leaders of whom have oftener been out of the Democratic party than in it, are talking of organizing what they are pleased to call "The State Sovereignty Democracy." * * * This is the same little knot of notoriety-seekers who tried to get up a third candidate for the Presidency last fall, and signally failed,—in plotting to bring out a "Simon Pure Democrat" against McClellan. * * * And what is it they ask the Democratic party to subscribe to, or suffer annihilation? Why, Democrats, you are required to declare that Jackson was no Democrat, because he denied the right of a State to secede.

Secondly—You are requird to proclaim from the house-tops that negro slavery is inevitable, desirable and right. Here again it is true that the South, whatever may be its opinion as to the right, policy or humanity of negro slavery, seem to have made up their minds that negro freedom is inevitable.

The Boston Post copies and approves the article from the Statesman, and says:

The Statesman considers these men seekers of personal notoriety at the expense of the party, and whose ultra and factious course has been one of the principal causes of the defeats of the Democracy where success was justly expected. It is the same class of men—few in number throughout the different sections of the country—who have embarrassed the Democrats. * * * The sooner the Democracy in every State in the Union is freed from that class of men who listen with favor to the extremists who follow in the wake of the Woods, the Longs, the Corrys, et id genus omne, in the West and in the East, the sooner it will recover its rightful influence in the country and exercise that control over national affairs its policy and its principles secured to it for half a century.

The reader can judge whether there is any split, or whether all is solid and perfectly smooth.

THE BODIES OF THE EXECUTED ASSASSINS.—It is understood that no objections exist to delivering the bodies of the persons executed on Friday to their respective friends after the lapse of a sufficient time to prevent any excitement that might ensue from immediately doing so. There may be imprudent and injudicious relatives, who would favor imposing funerals. Violence would be the certain result. To prevent the possibility of this, the authorities have wisely decided to withhold the bodies until passion has somewhat subsided.

GOLD, Saturday, 142 1-4 to 142. The steamer took out $30,000 to Liverpool.

— Sen. Toombs is reported to have left the country and gone to Cuba, where, instead of "calling the roll of his slaves," he will play the *role* of a refugee.

NEW-YORK, July 13th.

The telegraph will have advised you of the destruction of Barnum's Museum by fire, at one o'clock to-day. Of the whole establishment, not one stone remains in position. The fire was discovered at a few minutes before one; and now, an hour after, the destruction is complete, and the contiguous blocks on Ann and Fulton streets partially destroyed. With the Museum, perished the most complete collection of birds, the aquarium, and all the curiosities of foreign lands, and of the Indian and Revolutionary eras. These were of inestimable value, not to be replaced; and give to the conflagration the character of a calamity, even without loss of life, which is yet uncertain. The flames glowed from every window, and mounted and mounted an hundred feet into the air, in a vast lurid sheet. At night the scene would have been gorgeous, but at that time the catastrophe would have entailed, no doubt, much loss of life. It occurred fortunately just before the usual afternoon Exhibiton.

The insurance will probably protect Mr. Barnum personally, but the loss as a valuable repository, and one of the attractions of the Metropolis, is beyond computation. Even the "lightning calculator" couldn't make it up. All the powerful steam engines from Brooklyn and the upper districts were thereabouts, and prevented the extended spread of the conflagration. It was the grandest fire we have had since the destruction of the Crystal Palace. Within twenty minutes after the alarm, the whole building was a complete mass of fire, and the whales, alligator, and all, were consumed. And so ends Barnum's Museum, which always gave its patrons ten times their money's worth, and whose owner has been the most popular caterer for the public amusement that ever lived.

The Legislature has recently authorized a Metropolitan Conveyance Co., which is to convey passengers to all parts of the city, at the rate of twenty-five cents for every three miles, and twenty-five cents additional for each piece of baggage, excepting such as passengers may carry in their hands,—and twenty-five cents extra fare for every mile exceeding three. If the Company is successfully organized, it will be a great improvement on the present system of hackage, which differs from highway robbery only in being done under a license.

Fashion has taken a new freak. Every lady who belongs or wishes to belong to the "bon ton," must wear her dress looped up in the street, displaying the white skirt. Indeed, our fashionable modistes are now making dresses permanently looped up for street service. This is certainly on the principle that "if you have a pretty foot, show it," and sets an inquiring mind a-wandering how much farther fashion will go in the same direction. Street-sweeping is now done solely by the Corporation.

"Arrah-Na-Pogue," the new play by Boucicault, was produced for the first time last evening, at Niblo's. Miss Josie Orton sustains a leading character,—her first appearance in New York. Kate Reignolds, another Bostonian, is also here, at the Broadway Theatre, recently occupied by John Owens. N.

☞ The Machias Republican is responsible for the following: "Capt. Christopher Bancroft of East Machias, was drafted last fall, and instead of reporting at Belfast, reported in the Province of New Brunswick. Subsequently, just before the expiration of the days of grace, he returned home, but failed to report personally to the Provost Marshall. This week he applied at the Custom House for papers as Master of the schooner Yantic, and was refused on the ground that he was not a citizen of the United States."

☞ The steamer Magnolia, which was sold by the Navy Department in New York on Wednesday, captured the celebrated blockade runner Memphis, and her good luck in this instance was owing to a singular circumstance. After the Magnolia was ready to sail it was found that a paper of tacks were required for some purpose, and the vessel was detained one day, which threw her directly on the track of the Memphis, and resulted in her capture.

THE MILITIA of the United States,—What it has been, What it should be.—These words are the title page of an able pamphlet of 132 pages, just issued from the press of Marvin & Son, Boston. The writer began his work in the Boston Advertiser, but the work grew under his hands too large for a newspaper,—and in this book he has discussed the matter fully and ably, and has introduced much important testimony from officers and others. Every legislator should read it.

— The N. Y. Herald's Galveston correspondence says the rebel Gen. Shelby, with 3000 followers, accompanied by Ex-Govs. Moore and Allen of Louisiana, and other rebel leaders, were on their way to Mexico. They professed going only as emigrants, and not to fight on either side.

— The new directory of Boston has 5650 names more than the one of last year.

MISSING SOLDIERS. — We hear that Miss Clara Barton, daughter of Judge Barton of Worcester, Mass., who has obtained national repute by publishing a list of missing soldiers, and by her heroic deeds to the wounded in battle, and even under fire, left this city on Friday on a government vessel, with a party for the purpose of inclosing the area of ground at Andersonville where so many Federal prisoners perished from want and exposure, and of putting up head boards at their graves. She conceives that she has a suitable list of the deceased, and has accordingly obtained seventeen thousand head-boards for the purpose. This grand design of philanthropy will require a long period of hard toil for its accomplishment, and most sincerely do we hope that she may be rewarded with perfect success. —*National Intelligencer.*

THE OLD DIALECT STILL BOTHERING THEM.—It is amusing to see how hard the people down South find it to suit their dictionaries to the altered state of things. Even some United States military officials still talk of "masters" and "servants" in public documents; and a Richmond paper vehemently calling for white emigrants from the North, assures them that if they will come, they shall find among other rose-colored blessings "*indulgent task-masters.*"

TENNESSEE. — Governor Brownlow has issued a lengthy address to the people of Tennessee, explaining the present Constitution and Government of the State, stating that the Constitution was the work of President Johnson, and that the President will sustain his scheme of reconstructing the rebel States with so much force applied and in such manner as may be necessary.

Gov. Brownlow also announces that the act passed by the Legislature to limit the elective franchise to loyal men will be enforced on the day of election by the civil and military authorities, and all elections effected by illegal votes will be annulled, and, if necessary, officers elected will be arrested. The civil and military authorities will act in harmony. Gov. Brownlow alludes to the harangues of aspiring politicians denouncing the extermination of slavery as showing that the spirit of rebellion still exists, and must be defeated.

NAVAL DEPOT ON THE MISSISSIPPI.—The St. Louis Republican says the government enterprise of establishing a large depot for naval ordnance just below Jefferson Barracks is carried out with all practicable speed. The land to be occupied is part of the Military Reservation. The buildings will comprise two large stone powder magazines, each about one hundred and fifty feet by fifty, a structure for general stores two hundred and fifty feet by sixty, and an immense shed of capacity sufficient to cover eight hundred cannon with their carriages.

☞ D. Van Nostrand, New York, has just published The Rebellion Record, by Frank Moore, past 53, containing Sherman's Campaign in part, with fine portraits of Gen. Sherman and Col. Benedict.

— Gov. Bradford has appointed men in Maryland to register the voters, as provided by the new Constitution, who will not put on their lists any returned rebels or secession sympathizers. The loyal people of Maryland declare that a negro in the United States service is better than a white man who opposes the government.

— It is stated that the Emperor of Austria has agreed to reinstate Maximilian in all his rights in Austria in the event of his returning from Mexico.

— The editor of the Plattsburg Sentinel charged a Mr. Gay with having uttered disloyal sentiments at a celebration of the "Festival of St. John the Baptist," on the Fourth, in which many French Canadian citizens participated. Mr. Gay, feeling aggrieved, undertook to thrash the editor, but got very much the worst of it.

— The New York Commercial's special Washington despatch says it is not true that 80,000 troops have been sent to Texas. The whole force in that country consists of only 14,000 men, being parts of the 13th and 25th army corps, and it will be distributed over the whole State. It is not an army of observation.

— The establishment at Livermore Falls, for condensing milk, has been changed into a cheese factory. There is less demand, now that the army has been broken up.

—Gen. Grant has issued a request to Gen. Canby to protect loyal owners of cotton in his department. It seems that he refused to allow that owned by rebels to be seized by the Treasury agents.

— Some malicious individual lately sent a false marriage notice to the Albany Journal, in which it was published. A young lady was accused of being the author of the hoax, and her feelings were so wrought upon by the opprobrious charge that she went into spasms and died almost immediately.

— A special dispatch to the N. Y. Times says citizens from the interior of Alabama announce that the appointment of Mr. Parsons to the Governorship of that State is satisfactory to the people. They also state that much of the crops will be lost for the want of negroes to harvest them.

— The wheat harvest has commenced in Western New York. The crop is abundant and fine.

— David F. Devins, who, it will be remembered, killed his aged parents near Adrian, Mich., to get their property, and his own young wife, about to become a mother, that he might marry a lover in Grafton, Ohio, has been sentenced to the Penitentiary of that State for life, this being the severest punishment known to the law of that State.

—Bishop Potter's 'Pastoral' has called out two more replies, one from Rev. E. H. Canfield, Rector of Christ Church, Brooklyn, and one from Rev. John Cotton Smith, Rector of the Church of the Ascension in New York, and editor of the Church Monthly. Both these clergymen take ground similar to that of Dr. Tyng.

—Foreign exchange is dull and plentiful, the steamer which sailed from New York for England taking out only $214,000. Although gold stands at 142 1-2, there is very little demand for it, and it is more than insinuated that what has lately been sold has not been used for a more legitimate purpose than to bull the home market.

— In New York, on Friday, fourteen thieves, garroters, etc., were sentenced to State Prison by the Courts of the Sessions, for from one to five years:—and 750 Irish and 570 German immigrants arrived on two vessels.

— It is reported in London that John Mitchell was the author of several of the letters from Richmond, written during the rebellion, and full of falsehood, which were published in the London Times.

Mrs. WINSLOW
An experienced Nurse and Female Physician, presents to the attention of Mothers her
SOOTHING SYRUP
For Children Teething,
which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.
Depend upon it, mothers, it will give rest to your selves and Relief and Health to Your Infants.
We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.
Sold by all Druggists throughout the world.
Price, Only 35 Cents per Bottle.

A Card to Invalids.
A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*
Please inclose a stamped envelope, addressed to yourself.
Address JOSEPH T. INMAN,
Station D, Bible House,
d24sndaw New York City.

☞ *A Physiological View of Marriage*:—Containing nearly 300 pages, and 130 fine Plates and Engravings of the Anatomany of the Human Organs in a state of Health and Disease, with a Treatise on Early Errors, its Deplorable Consequences upon the Mind and Body, with the Author's Plan of Treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful advisor to the married, and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y.
The author may be consulted upon any of the diseases upon which his book treats, either *personally* or by *mail*, and medicines sent to any part of the world. mch15—3mdawsn

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.
Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.
LADIES AND GENTLEMEN: If you wish to marry you can do so by addressing me. I will send you, without charge and without price, valuable information, that will enable you to marry happy and speedily, irrespective of age, wealth or beauty. The information will cost you nothing, and if you wish to marry, I will cheerfully assist you. All letters strictly confidential. The desired information sent by return mail, and no reward asked. Please inclose postage, or stamped envelope addressed to yourself. Address,
my15 SARAH B. LAMBERT, Greenpoint,
daw8mas Kings Co., New York.

Proclamation No. 64.
All peaceable and well disposed citizens who will purchase one bottle of PEASE'S VEGETABLE HAIR RENEWER, will find the result as follows: It will turn your Gray Hairs to their natural color; it will prevent your hair from falling off or becoming gray; it will keep your head clean and healthy; it will dress your hair beautifully; it does not smell of sulphur. Ask your druggist for Pease's Hair Renewer, and take no other. Also, PEASE'S PHILOCOME is unsurpassed as a Hair Dressing. No Lady will be without it who knows its value. *See Circulars.*

CAUTION FROM THE
AMERICAN WATCH COM'Y.
It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.
We manufacture four styles of Watches.
The FIRST has the name
"AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.
The SECOND has the name
"APPLETON, TRACY & CO., Waltham, Mass.," engraved on the inside plate.
The THIRD has the name
"P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.
All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.
The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.
All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.
It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others "P. S. Bartlett," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.
We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcadia Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.
A little attention from buyers will protect them from gross imposition.
ROBBINS & APPLETON,
Agents for the American Watch Company,
Je28—1m **182 Broadway, N. Y.**

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores all the organs to their offices are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.
Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1235, New York City.
At Wholesale by DEMAS BARNES & CO., New York. spnDawlymy23

To Die in a Bad Cause
as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand
Dyeing for a Good Cause,
as those who are wise and prudent enough to remedy the defects of nature with
CRISTADORO'S HAIR DYE
are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and that beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

Local.

☞ The examination of Leach, the man who shot Kidder at Kittery Foreside on Friday,—took place on Saturday afternoon before Justice Dennett. Leach plead guilty and was ordered to give bonds in the sum of $5000 for his appearance at the next term of Court, failing to procure which he was committed to jail. We learn that Kidder's symptoms are more favorable and it is thought that he may recover.

ROBERT HELLER IS COMING.—The veritable Robert Heller, the great pianist and somatic conjuror, who for more than one year opened nightly to crowded houses in New York, and whose success in Boston more recently, should be accepted as conclusive evidence of his popularity—is to visit Portsmouth, and will give one of his classical soirees of Music and Magic at the Temple, on Friday evening next. Mr. Heller's reputation is world-wide as an artist of first class ability; he not only excels as an Illusionist, but as a Pianist. He is immense, having no superiors and but few equals in this country. The grand Piano on which he will perform, is one of Steinway & Son's grand $1500 instruments, and is sent by express for Mr. Heller's special use. We hope our readers will not confound Mr. Heller with any of those performers who have heretofore visited this section under similar sounding titles, and thereby deprive themselves of the gratification of hearing and seeing this great artist.

☞ We understand that Paymaster C. J. Emery of the Portsmouth Navy Yard, has been appointed Navy Agent at this station, in place of Hon. Thomas L. Tullock removed. Mr. Emery is a native of this State, is one of the oldest Paymasters in the service, and a most thorough and efficient business man.

POLICE COURT, July 15.—George Danielson and Patrick Haley involved themselves in trouble by stealing copper from a boat belonging to a man named Ricker, which they sold to Andrew D. Gerrish.—For this method of amassing wealth, they were each ordered to pay a fine of $5 and one half the costs $5,42 and disburse to the said Ricker $1,40, treble the value of the property confiscated. One paid down and and the other (Haley) paid up, i. e.—went up to board with the new jailor, Mr. Joy, where he will have a room all to himself and be allowed to enjoy the hospitalities of that celebrated up-town hotel.

☞ We learn that Mr. Charles A. Shannon has been appointed Collector and Treasurer for this city.

☞ John G. Whittier, Esq., the poet, has been spending a day or two in this city with Col. Julian Allen, who is his cousin by marriage—Mr. Whittier's mother having been a Miss Hussey.

☞ Manager Pike got into limbo in Augusta for not taking out a license for his theatre.

☞ Mr. J. E. Ayers, for two years past assistant teacher in our Boys High School, has accepted an appointment as Principal of the Preparatory Department of an University in Pittsburg, Pa.

NEW HAMPSHIRE ITEMS.

—— Mr. Charles L. Hutchinson of Concord was admitted to Deacon's orders by Bishop Chase at St. Paul's Church in Concord on the 11th.

—— The people of Dunbarton are preparing to celebrate the one hundreth anniversary of the establishment of that town.

—— A letter from the 6th N. H. Regiment, dated at Alexandria, Va., July 12th, says the regiment would be mustered out on the following day and start for home immediately. It will probably arrive at Concord during this week.

—— On Friday morning about one o'clock a fire broke out in the dwelling house of Mrs. Lawton, widow of the late Rev. John Lawton, situated in Hillsborough Centre. The family had only sufficient time to escape with their lives. The house, barn and shed were all destroyed.

—— A letter from Major Wyman, of the 1st N. H. Cavalry, dated July 10, states that they are to be mustered out, and they will probably arrive in New Hampshire within a week.

—— At the Reform School near Manchester, there were 179 members of the school last year, of whom 61 were committed during the year—44 boys and 17 girls. There were discharged during the year, &c., 66—56 boys and 10 girls; leaving at the Institution on the 30th of April, 113 members—88 boys and 25 girls. Stealing and stubbornness seem to be the two principal offences. The amount of produce raised on the farm, $3,147.50.

—— C. W. Butts, Union candidate for the Second Congressional District of Virginia, has sued the Philadelphia Inquirer for stating that in a late interview with President Johnson he had requested a military interference in the election in order to secure his own return. Should the case come to trial the President will be a witness.

AMOS KEAG.—The New York Times in an account of the reorganized fire department of that city, says:

"The commissioners will in a few days introduce a new style of steam engine, a specimen of the style they contemplate procuring for the entire department. This machine was built by AMOS KEAG, of Manchester, N. H., and is a fine and powerful double-pump engine, manufactured with especial reference to the requirements of a paid fire department."

The Boston Advertiser remarks that Amos builds excellent engines.

☞ At Jamestown, Illinois, on the 10th inst., the bonded warehouse was struck by lightning, and the building and 2500 barrels of whiskey, belonging to P. L. Howlett, was consumed. The whisky ran down the hill-side into the river, one sheet of flame more than a mile in length and the full width of the river, making one of the grandest spectacles ever seen. The bridge of the Great Western Railroad, near the distillery, narrowly escaped destruction, the burning current passing under it, the flames not quite reaching the timbers.

☞ A good story is spoilt, by an item in the New York Tribune of Thursday, as follows:

The family of Admiral DuPont desire to contradict the statement that he had left his prize money, $175,000, to a charitable institution in Washington. No such bequest was made, and the whole prize money received by him was something less than $50,000.

—Patrick Gaffney of New Britain, Connecticut, went out on the limb of a tree to pick green butternuts last week, and upon stepping upon a weak branch was cautioned by his little girl that it would break. He replied that he couln't die but once, and immediately fell and broke his neck.

—On the 21st ult., Dr. W. A. Martin, a returned rebel, shot and killed Casper M. Smith at Randolph, Tenn., in a personal encounter growing out of a remark by Martin that he wished a fleet of vessels then passing, containing soldiers, would sink and drown all of them. The murder is regarded by all citizens as an outrageous one.

—The income of John Roe, pork packer at St. Louis, is $571,000. The income of Ames & Brother, pork packers and provision dealers, is over $700,000.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. 3

MARRIAGES.

In this city, July 15th, by James DeNormandie, Minister of the South Parish, Mr. WILLIAM K. STILES of Machias, Me., to Miss JULIA A. HANSCOM of Kittery, Me.

DEATHS.

In this city, July 15, Capt. JOSEPH HART, aged 49 years.

In this city, Saturday morning 15th inst., NATHAN W. ADAMS, aged 14 years, youngest son of Josiah and Frances D. Adams.

Funeral this (Monday) afternoon at 2 o'clock, from No. 2 Gates St.

MARINE CHRONICLE.

Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; $200 for sale. Price $50 per share; $50 per Share after August 1.
Stock full paid, and no individual liability. Company organized under the General Law of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in GOLD. Any Clergyman, Insurance Agent, or Cashier of Bank is authorized to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. R. FREEMAN, Esq., Cashier of the Atlantic Bank, 149 Broadway, or HERMAN LEMAY, Esq., 25 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore so silver bullion at the net profit of $2,000 per day, or $1,000,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. H. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the "Soldiers' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make from 25 to 50 dollars every day. Also for sale rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $30 per day. This is no patent right or medical humbug, but an article of merit, needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHINEY & SON, No. 6, Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the System*, caused by change of Water or of Food, or the hardships of a military life, will find DR. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately* remove the *causes of their sickness*, thus arresting the cause of their weakness or debility. Through its action in the Blood, it will expel all *Humors and Impurities*, that are waiting to slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Costiveness* and the *Piles*, it is the best remedy ever discovered.
Prepared by Dr. S. O. RICHARDSON, M.D., who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, BOSTON, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 166 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Mocitor Hair Dye
Is superseding all others. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair dye. *It is warranted not to injure the hair or skin.*—Manufactured only by ALEX. B. WILBOR, Chemist, No. 166 Court Street, Boston.

Humphreys' Homœpathic Specifics
Have proved from the most ample experience, an entire success.—Simple, Efficient, and Reliable. They are the only medicines perfectly adapted to popular use—so simple, that mistakes cannot be made in using them; so harmless, as to be free from danger; and so efficient, as to be always reliable. They have raised the highest commendation from all, and will always render satisfaction.
No. 28 is a sure cure for *Seminal Emissions* and involuntary discharges. Price $1.
SOLDIERS—Nos. 4 and 5 for Diarrhœa and Dysentery. 5 boxes $1.
FAMILY CASES.—Cases of Thirty-five vials, morocco case and book complete, containing a specific remedy for each well known disease liable to occur in every family, $10. Case of twenty large vials in morocco, $6. Single boxes, with directions, 25 cents, 50 cents, or $1.
VETERINARY SPECIFICS.—Mahogany cases, 10 vials, $10. Single vials, with directions, $1.
☞ These Remedies, by the case or single box, sent free of charge, on receipt of the price. Address
HUMPHREYS' Specific Homœpathic Medicine Company Office and Depot, No. 562 Broadway, New York.
For sale by every Medicine Dealer.
Dr. HUMPHREYS is consulted personally or by letter, as above.

Hair Dye! Hair Dye!
BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye Known.
This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** or Dressing the Hair. Jy8—1ydaw

U. S. 7-30 LOAN.
THIRD SERIES,
$230,000,000.
By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the sale the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the
7.30 LOAN.
These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into
U. S. 5-20 Six per cent.
GOLD - BEARING BONDS.
These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.
The interest at 7.30 per cent. amounts to
One cent per day on a $50 note.
Two cents " " " " $100 "
Ten " " " " " $500 "
20 " " " " " $1000 "
$1 " " " " " $5000 "
Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.
The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7.3-10ths in currency up to July 15th, at the time when they subscribe.
The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.
The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.
The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.—This is
The Only Loan in Market
Now offered by the Government, and its superior advantages make it the
Great Popular Loan of the People.
Less than $300,000,000 of the Loan authorized by the last Congress are now on the market.—This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.
In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Portsmouth, May 13, 1865.

From the Portsmouth Journal

THE HIGH SCHOOL EXHIBITIONS. — The school rooms were decorated with exquisite taste for the Exhibitions this week—that of the boys' school taking place on Wednesday and the girls' on Thursday. The armed sentinels at the doors, the neat uniform suit, and the soldierly bearing of the boys, indicate the new era in education; while in the old standards there is no retrograde, but marks of progress under the efficient and earnest efforts of the teachers.

Mr. Lewis E. Smith, the principal, fills his position with much credit to himself, happily combining those good qualities, "*Suaviter in modo, fortiter in re.*" We learn that Mr. Ayres, the able assistant teacher at the boys' school, is about leaving Portsmouth to enter upon a larger field in Pennsylvania.

The entertainment at the girls' school is highly spoken of by those who were fortunate enough to obtain a standing place inside the door. Mr. A. M. Payson sustains a well earned reputation as an excellent teacher, and Miss Morgan is much esteemed by the young ladies under her charge, and is evidently a very efficient teacher.

ACCIDENT. — As a picnic party at North Portsmouth on the 4th inst. were inspecting "Devil's Den" near Freeman's Point, Mr. Josiah Brown, who was inside the cave, was severely injured by the fall from the roof of a number of heavy stones, which cut his head and neck severely, and badly lacerated his hands. It was a narrow escape with life. One stone required the united strength of two to lift it from a hat which fell beneath it. The raising of his hands to protect his head was all that saved his life, as was evident from the manner in which they were cut and bruised. Fortunately no bones were broken, and Mr. B. has recovered from his wounds sufficiently to attend his usual duties.

GREEN CORN.—T. G. Furber, Esq. of Newington, brought us dozen and a half ears of corn, with well filled kernels, on Thursday, the 13th day of July. This is nearly a week earlier than we have ever before seen corn of equal quality in our market.

The first appearance of green corn in our market in 1858 was on July 22; in 1854, 20; in 1855, 18; in 1856, 23; 1857, 25; 1858, 20; 1859, 20; 1860, 21; 1862, 19th.

The corn is five days earlier than on any previous year.

ROBERT HELLER. — This great Pianist and somatic Conjuror, will give one of his classical entertainments, consisting of music and magic, at the Temple, on Friday evening of next week. Mr. Heller's experiments in second sight, and the wonders wrought by his miraculous cabinet, are said to exceed anything ever accomplished by the Davenport boys.

Our readers must not confound this great artist with any of the many who have travelled about the country under similar sounding titles. The immense popularity of Mr. Heller in New York, where he opened nightly for more than one year, and the great success which he has met with more recently in Boston, is a sufficient guarantee of the attractiveness of his performances.

"WOODWARD'S GRAPERIES, and Horticultural Buildings," is a scientific work of much value, containing twenty designs, worthy the attention of all who wish to be informed of the best modes of the structure of graperies, and other horticultural buildings. Published by Woodward of New York, and sold by A. Williams & Co. of Boston, and J. F. Shores, Jr., Portsmouth.

ANTHRACITE COAL AT COST.
THE EAGLE HILL COAL MINE.

One of the great problems of the day, is the future fuel supplies of the country. Our people are not yet quite awake to its importance, but coal at seventeen dollars per ton, and wood at fourteen dollars per cord, will soon wake them up.

From these and other considerations, we have taken a very lively and personal interest in the "Coal at Cost" plan, initiated by "THE EAGLE HILL MUTUAL COAL COMPANY." The principle which underlies this movement is one of great public importance, beyond any question—and this is proved by the remarkable popularity of the stock, and the earnestness with which the public have rushed to subscribe to it. In order to determine, to our own satisfaction, just what the Eagle Hill Mine really is, we visited it last week, in company with several gentlemen, and gave it a critical and thorough examination. The result was the fullest conviction that in quality of coal, and the facilities of all its arrangements, the Eagle Hill Mine is one of the best in the Schuylkill valley, and win justly all that the Company can well claim for it.

The mine is located about four miles from Pottsville, and has both railroad and canal facilities for transportation to market; and is one of the nearest to tide water of all in that region. The principal workings are upon the well known "mammoth vein," twenty-eight feet thick, and a new vein has just been cut, seventeen feet thick. The workings are from two "levels," as they are termed—one about 160 feet, and the other 300 feet deep. The tunnels driven upon the great vein, are of immense extent, both railways and cars constantly in use, bringing up the coal; mules being used to haul it to the shafts, through which it is raised to the surface by steam power.

The quantity of coal the mine can supply may be termed inexhaustible. The quality of the coal may be judged from the fact the Palo Alto Iron Company consume twenty-five or thirty thousand tons of it per year, and no inferior coal would or could be used in the manufacture of iron. In fact all that has been claimed for this mine was fully verified by our own careful examination, and that of the gentlemen who accompanied us. Favorable as our impressions were, the reality very far exceeded them. But it is not necessary to say more. The "EAGLE HILL MUTUAL COAL COMPANY" is an enterprise of public benefit and importance; and cannot prove otherwise than largely profitable if judiciously managed. We give it our cordial support, and feel no hesitation in thus testifying our personal appreciation of it. A specimen of the coal can be seen at our counter.

It may be well to add that the Eagle Hill Coal Company not only own all the property connected with the working of their own colliery, but also three-fifths of the celebrated Eagle Hill tract in fee, upon which there are three other collieries now in operation, three-fifths of the rents from which go to the Eagle Hill Mutual Coal Company, and swell its dividends. There is sufficient area also for the opening of two or three more collieries on the tract.

The above is from the Boston Evening Traveller, the editor of which has been on the ground. Mr. John S. Harvey is the agent of this company in Portsmouth, who has already disposed of much stock.

Coal at Cost.

The Eagle Hill Mutual Coal Company.

The subscriber has succeeded in obtaining a limited number of shares in this popular Company, which has proved such a success in Boston and vicinity, for the purpose of enabling the citizens of Portsmouth to obtain their coal at a saving of three or four dollars per ton. Full information will be given, and a small amount of stock furnished on application to

JOHN S. HARVEY,
Je20 47 Congress st., Portsmouth.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the entire profits being returned to the stockholders, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 4000 stockholders, has delivered coal at a saving of $3 per ton, and from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the matter will find it true that the price of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock, in the market.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Best Medicines. *Patients Cured Annually*

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other physician can, and his facilities are such (being a correspondence with the most eminent Physicians of the Old World,) of obtaining the select and well tried remedies for Diseases of Females, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, also, Ulcers, Venereal Sore Throat, Nodes, Bone Pains, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, we particularize that the control of these priceless medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men who have by evil habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of married life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, and is almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. Sent free, of course, and the importance of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to prevent three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy—unprecedented, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the guidance of ladies, we state that one pill, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from observation or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

The schooners LIZZIE M. STEWART, Capt. JOHN STEWART, and ELIZA JANE PILGRIM, Capt. ROBERT SPINNEY, will leave the South side Long Wharf, Boston, for Portsmouth, regularly SATURDAY. For Freight apply to the Captains on board, and to GEO. TOMPSON, No. 24 Bow Street, Portsmouth, N. H. Je24—1m

Pleasure Sailing.
The fine Schooner Yacht PILGRIM, about twelve tons, will run from Portsmouth, to accommodate Parties in the Harbor, or for the Shoals or other point, by the hour, day or week. The Pilgrim is a staunch boat and fast sailer, and well found in every particular, and will well accommodate 30 or 40 ladies and gentlemen. Apply on board the Yacht, at Pier No. 1, foot of State St., Portsmouth, or at Mr. PHILBRICK'S Stone Works.
Lovers of a fine craft, and the public generally, are invited to call and examine the "Pilgrim." Capt. JOHN DIXON.
EDWARD SMITH,
Portsmouth, June 7, 1865. Proprietors.

Pleasure Sailing.
The elegant Sloop Yacht ECLIPSE, will run daily between RYE BEACH and the Shoals: leaving the Ocean and Atlantic House at 10 o'clock; and returning, leave the Shoals at 4 o'clock. The "Eclipse" has first class accommodations for Ladies and Gentlemen; and passengers will please to remember that there is no tide to interfere on this route.
For Sailing parties accommodated to any other point. BENNY L. VARRELL,
Rye, July 10, 1865. Proprietor.

New England Screw Steamship Co.
SEMI-WEEKLY LINE.
PORTLAND TO NEW YORK.
The splendid and fast Steamships CHESAPEAKE, Capt. Hatch, Portland, and FRANCONIA, Capt. SHERWOOD, will until further notice, run as follows:
Leave Ocean Wharf, Portland, every WEDNESDAY and SATURDAY at 4 P. M., and leave Pier 9 North River, New York, every WEDNESDAY and SATURDAY, at 3 P. M.
These vessels are fitted up with fine accommodations for passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine. Passage, with State Room, $6. Cabin passage, $5. Meals extra.
Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John.
Shippers are requested to send their freight to the steamers as early as 3 P. M. on the day that they leave Portland. For freight or passage apply to HENRY FOX, Brown's Wharf, Portland: H. B. CROMWELL & CO., No. 33 West Street, New York. je20

"SAGAMORE GROVE."

PAINT! PAINT!
Winter's Metallic Brown Paint
RECOMMENDS itself.
It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gal lons less per 100 lbs than any mineral, and possesses more body than any other paint. It forms a glossy, enduding, durable *metallic coat*, protecting wood from decay, and Iron or other metals from rust or corrosion.
It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

—DEALER IN—
STOVES,
KITCHEN FURNISHING GOODS,
FARMING TOOLS, &c.
THE MAGEE
COOKING STOVE.

The subscriber would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We invite all those in want of the very best Stove in the market, to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.
"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Shaw, and others.

IODHΣ.
IODINE WATER. A Pure Solution of Iodine, without a Solvent. Sought for by Chemists and Physicians for the last 50 years. Discovered by Dr. B. Andres after 16 years of scientific research and experiment.
The most astonishing cures have followed its use in cases of Scrofula, both hereditary and acquired. All kinds of Humors, Consumption Malarious Fevers, Rheumatism, Female Weaknesses, Dyspepsia, Mercurial Diseases, and all those distressing complaints arising from a Bad State of the Blood. Chronic Diseases, that have baffled both the medical skill, often yield to the subtle influence of this remarkable medicine. It is the most powerful vitalizing Agent and Restorative known. *Its effects are immediate.* Pamphlets sent free. Price $1 per bottle, or 6 for $5. Sold by Druggists.
Address Dr H. ANDERS & CO., Physicians and Chemists, 482 Broadway, New York.

HANCOCK HOUSE,

ROOMS FROM $1 to $2 PER DAY.
Hull & Fisher, Proprietors.

SPANISH ROUGE,
FOR POLISHING,
XL
Or Cleaning Gold, Silver, Silver Plated, Brittania, Brass, Tin, Steel, Iron, Copper, Glass, or Metal of all kinds. For the purpose intended this article cannot be beat. Twenty-five cents invested in a package of this, will add more to the looks of a home than one hundred dollars spent in new ware. Every particle of any kind of metal about the house can be kept to look like new. How much pleasanter all are when everything looks bright and clean, which causes a smile upon the faces of all. The labor of keeping every article of metal polished with the Spanish Rouge is reduced to a mere pastime and pleasure. It removes the tarnish at the brush of the hand. *It is a mineral without any composition whatever, therefore one is no harm.*
Put up in three different qualities, for the finest Gold to the coarsest Metals.
Ask your grocer for it, and it will become a household word and a great assistant. Every person who has a ring or ear-drop, to an engine manufacturer, needs it. For sale by the Druggists and Grocery Dealers everywhere.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and Endicott Street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since the first introduced, been equaled in any of the alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins both body and mind, rendering them incapacitate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will find his home as pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incidental to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to this one profession, has made it his business to give practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imparts and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1865. cod&wly

NEW HAMPSHIRE BIRD LAW.

AN ACT to promote the interests of Agriculture.

SEC. 1. If any person shall at any season of the year, take, kill, or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, fly-catchers, or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sandpipers, or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sel, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere,—he shall forfeit for every said partridge, or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.

SEC 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird destroyed, in addition to the penalties named in section first of this bill.

SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.

SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered

Approved, July 8, 1862.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837.
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All needed advice, by journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy* than Mr. Eddy to prosecute their applications in order to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. This unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents; as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE PILLS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail, with full directions, on communication stating particulars, will receive prompt attention.
Office, No. 29 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor.
Address Dr. Briscoe, at No. 29 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at the old established office, No. 29 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Spring Roll and Cog Wheel
WASHING AND WRINGING
MACHINES.
To any person who wishes to obtain an article to do both washing and wringing in a Public House or Private Family, we say give this a trial. If not satisfactory, the money will be refunded.—Call and see it.
The above for sale by
E. A. STEVENS,
46 Market Street

Blood's Patent Improved Sifter.
For sifting Flour, Meal, Squash, Apple, Sugar, and all other articles requiring a sieve. A real FAMILY COMFORT. In the kitchen it is the right thing in the right place. No household would be without it after a single trial. *Rapid.* (It requires but one quarter the time of the old method.) *Neat.* (The hands do not come in contact with the article sifted,—there is no dust, no scattering of crockery, and no spilled flour). *Durable.* (It is warranted to last ten years.)
Grocers use it to bolt their meal, saving time, expense and waste. Druggists pronounce it the most efficient article ever used by them for sifting purposes, mixing thoroughly whatever is placed in it. It is equally useful in Spice Mills, and with Paint Dealers, for sifting Ochres, Whiting, &c.—For sifting Cream tartar, nothing will take its place. **Price $1.00.** For sale by
E. A. STEVENS.

The Best Ink in the World!
A CHEAP PRODUCT DISCOVERED.
A Substitute for Costly Galls, and a Writing Fluid produced that challenges Competition!
INK POWDERS
TO CARRY IN YOUR POCKET, FROM WHICH TO MAKE INK AT PLEASURE.
THE INK MADE in Three Minutes.
Forty Cents will buy Powder enough to furnish a family for years.
FREEZING DON'T HURT IT.
An accident revealed to a Machinist, in Manchester, N. H., a certain result which by the aid of Chemistry has been used till the most beautiful writing fluid, better than anything imported or home-made, flowing freer, writing easier, handsomer, as lasting as time, not injuring the pen a whit, has been produced.
It is put up in the form of a small powder, stands all climates, good for years, and can be converted into elegant black writing fluid in three minutes.
A company has lately been formed for the manufacture of these Powders, and although the Fluid has been before the public but a few weeks the most astounding testimonials have been received in its favor, all unsolicited. We select a few from the many.
The greatest qualities of these Ink Powders over everything else in the market are:
1st—It makes an ink of a beautiful, glossy, rich color, that every body will be delighted with.
2d—It flows freely, does not mark up, thicken on the pen or corrode it a particle, and never fades, and will endure as long as the paper on which it is used.
3d—Its cheapness baffles all competition. Forty cents will buy enough to fill fifty common bottles that are retailed at ten cents each.
4th—Convenience. Can be carried to the army, to sea, to the mines, to far off countries.
5th—Wipe your pen dry after using it, and a single steel pen will last with this ink till the paper wears the point off. It is as harmless as water.
Testimonials.
MIRROR AND AMERICAN OFFICE,
Manchester, N. H., Jan. 11, 1865.
To the American Ink Company: I have tried your Ink Powders. They work to a charm. They make perfect ink in three minutes, the best ink I ever saw. It flows easily, does not gum up the pen or corrode it. I have cleared my inkstands of all other kinds of ink. JOHN B. CLARKE.
MELROSE, Mass., Feb. 1, 1865.
American Ink Company—Gents: I wish heartily to thank you for the beautiful Ink which you have given to the public. I have made Ink, for eight years past, from Prof. Ure's Recipe, (made of Aleppa Gall, Sulphate Iron and Gum Senegal,) and have sold large quantities of it. Have supplied the schools with this town with it for two years, and every one using it gave it great praise. *It is a good Ink*, but my occupation is all gone now. *Your Ink is the best article of the kind I ever used.* This is no puff. Some in my inkstands froze up solid *twice* and it now flows just freely as the first, and is not changed in the color a single shade. It is a beautiful black; it flows so readily that I can write one-quarter faster with it than with any other Ink. I intend to be introduced into every school in the Union.
Yours truly, J. W. POLAND.
Washington, D. C., Feb. 4, 1864.
To the American Ink Company: I have tried your Ink Powders, and I think, without any exception, it makes the best writing fluid I ever used. I would not be without. I remain, yours,
GEO. H. HOLMES,
Battery M, 1st Mass. H. Artillery
Kewanee, Henry Co., Illinois, Feb. 20, 1865.
American Ink Company—Gents: I received the Powder that you sent, and to say that I am pleased with it is true, but does not express what I should like to say. The community have long wanted an Ink Powder that could stand the test of freezing and that would not corrode the pen, and several have been produced, but Prof. Ure's was an excellent recipe, but was spoiled by freezing. I have frozen this to test it, and find that it is unaffected *at all.*
I have introduced it into my school in this place, and had I a quantity of it, it would find a ready sale. Thanking you in behalf of the community and myself for such a discovery, I remain, very respectfully, your obedient servt,
GEO. W. PARKER.
Deering, March 1, 1865.
To the American Ink Company—This is to certify that I have given your Ink Powder a trial, and am happy to state it works to perfection. It has a superiority over all other Inks within my knowledge. And I would cheerfully recommend it to the lawyer, the merchant, or any person whose business requires *any amount of writing.*—It does not corrode, and flows as freely after being frozen as before. Respectfully yours,
ALMON M. COREY.
Nashua, N. H., March 13, 1865.
American Ink Company—Gents: The Ink made from the powders you sent me is the best I ever used. There is none of that sticky substance about it that there is to most kinds of ink. It flows freely and works to a charm.
Yours truly, GEORGE W. FLANDERS.
Brookline, N. H., March 13, 1865.
American Ink Company—Gents: I received the Powder you sent me, and I recommend it to all those that have any writing to do, as the *best* Ink I ever used. I have used J. Moore Maynard & Noyes', D. J. Rideout's, and many others, but yours far excels any I ever used.
Yours respectfully, G. E. STILES.
PRICE OF A POWDER.
An Ink Powder will be sent by mail to any address in the United States, free of charge, on the receipt of forty cents. Address
AMERICAN INK CO.,
Manchester, New Hampshire.
Write your name, town and State plainly.
THOMAS W. LANE,
Clerk for the Company and Special Agent.
P. S.—Orders have flowed in so rapidly and urgently that the Company have commenced to *Wholesale* it to the trade, at a very liberal discount. Send for a circular and price-list, enclosing a three cent stamp to pay return. 2awawdm

TUESDAY, JULY 18, 1865.

WASHINGTON ITEMS.—Reports received at General Howard's Freedmen's Bureau up to Saturday, show that the condition of the freedmen at the South is rapidly improving, and a large number are at work for fair wages.

In Alabama the planters are entering into labor contracts with the negroes in good faith, and but little persecution is complained of by the negroes. At Selma, however, an Assistant Commissioner found it necessary, in consequence of absurd stories having been promulgated, to call a meeting of planters, which was largely attended, and the system adopted for the regulation of the future relations between the negroes and planters by the Bureau, was plainly expounded. In Louisiana the system is working well.

Information received here from prominent citizens of the Southern States, gives assurance that the work of restoration is progressing much more smoothly than was anticipated, and that the unfriendly utterance of some editors are not indicative of the friendly spirit of the people.

Ex-rebel Congressman Orr, of Mississippi, who took such strong ground against Jeff. Davis and in favor of peace in the rebel Congress last winter, was on Saturday pardoned by President Johnson.

Reverdy Johnson has gone to Richmond as counsel for the rebels whose property has been confiscated.

General Carl Schurz, having resigned his commission, has been sent by the President to travel through the South on a tour of observation as to the working of emancipation, the loyalty of the whites, the condition of the blacks, and the fitness of the several states for immediate restoration.

Mr. Crane, a well known artist, connected with Frank Leslie's Illustrated Newspaper, was found dead in his bed at the National Hotel, Washington, Saturday morning. He retired in usual health Friday night.

CONSPIRACY TRIAL.—*Extra.*—In Washington, Weischman, the principal witness for the Government in the Conspiracy case, publishes a card in the Sunday Dispatch, in which he says the statement of Brophy impeaching his character and testimony is a tissue of lies from beginning to end, that said statement was twice submitted to Judge Holt and once to Andrew Johnson and all the members of the Court, without effect, before the execution, and it was at Brophy's own request that he was not called to the stand to testify to his (Weischman's) good character. The card also details some of the conversation of Mrs. Surrat, which did not appear before the Court, showing her knowledge of the conspiracy. It says Brophy is an alien and has never taken the oath of allegiance to the Government he attempts to assail in the person of its chief witness.

NAVY YARD FRAUDS—John Maxson, master boiler-maker in the Brooklyn Navy Yard, Frank Reilly, employee in the same department; William McDermott, master pattern-maker, and John R. Marsden, the foreman of the shop, were arrested by the United States Marshal on Thursday, on complaint of James Gale, who charges them with converting a number of articles belonging to the United States to their own use. It is alleged that they made bookcases, tool-chests, &c., &c., in all valued at between $3000 and $4000. The accused gave bail.

GOLD IN IOWA.—A lump of pure gold weighing six pounds, was picked up a few weeks since by a poor boy who was fishing, on a creek near New Virginia, a small village in Clark county, Iowa. The finder was offered $1500 for his treasure, which he refused. He also refuses to point out the exact locality where it was found. As may well be imagined, there is considerable excitement in that region in consequence of the discovery.

☞ The N. Y. Herald's correspondence says the freedmen in Georgia and Alabama having generally recovered from their jubilation over freedom, have settled down to work on the plantations. In Georgia, the planters to a great extent have planted corn instead of cotton, of which an immense crop is anticipated. The majority are disposed to give free labor a fair trial, and are confident, if the negroes work industriously, both will be benefitted by the change, and land enhanced in value.

The Times' Washington dispatch says efforts are being made in North Carolina to promote emigration to that State on an extensive scale. A general emigration agency has been established at Raleigh, and over 100,000 acres of land—many mill sites, town and city lots—are offered for sale.

— U. S. Senator Durkee, of Wisconsin, has been appointed Governor of Utah.

—A span of bay mares were sold by the pound in Buffalo, at $1.65 per pound. They brought $3000.

Local.

TO SMITH'S ISLES.—The Excursion to this noted locality, (sometimes absurdly called The Shoals,) on Friday morning, by a gay party of Editors, and other less important personages, such as Governors and ex-Governors and sovereigns of various sorts, clergymen, magistrates and such like, "*and* their ladies"—was, as we have already remarked, an occasion of deep (water) interest to all concerned. Never was day more lovely, never was air more bracing, never was sea more calm, never need be party more social and agreeable—never were arrangements more complete, nor results more successful, for a good time generally.

The staunch and beautiful little steamer Pioneer, lay on her moorings at Railroad Wharf, impatiently waiting her precious (set of) freight. First came—nobody from Rochester and that way, by the 9 o'clock train. Then a good many more of the same sort, from Boston and that direction, at 10—but Stockwell of the Journal *did* make out to put in an appearance, and with him Cox (and wife) of the Lynn Reporter, and a live man he is too. Box we didn't see—nor anybody in a bad box for the day. But those Boston editors don't seem to know where to go for "the greatest trip out" to sea. To be sure, there was Whittier, the quaker poet, of Amesbury; and Mr. Knapp, formerly an M. C., now connected with the Lowell press.

But what is this procession, "with a band of music sounding through the air?" Ah, there they are, from the Concord train—the editors, and all the rest of 'em necessary for the business of the day.

Let us see—there is Governor Smyth, whom we should set down, or rather set up, as a descendant of the immortal and irrepressible Sir John and Pocahontas, but for the fact that John didn't have a *y* in his name, though he was a *wise* man; and come to think of it, he didn't marry Miss Pocahontas either, did he? though we always thought he was green, not to. However, here is our Governor, and the fair one who governs *him;* Ex-Governor Gilmore and family, Hon. Onslow Stearns and lady, and all; and taking the delegation and invited guests from this city, with Admiral Bailey from the Navy Yard, and other admirable men, and especially women, we are all aboard. But we will endeavor to call the roll after we get outside. So give the order to cast off, Captain; and "down the river we glide," &c.

Now past the Navy Yard and the old and new Forts, the islands, Kittery, Newcastle, &c.; (how many more points of interest a stranger's eye can see, than your own, can't it?) and straight out to Sir John Smith's Isles we find ourselves, in about an hour. How much better is our little pet steamer, than the old pull and be—blowed (only she *wouldn't* be blowed) sail-boat plan, whereby you had to blunder ashore at New castle and walk up three miles or so—unless you could wake Card up and get him to take you up—any way to get up, without waking up, or staying down there all night.

But as we were saying—here we are at Mr. Smith's former residence,—and pity 'tis posterity cheated him out of his only namesake too. No, its Mr. Appledore's now, or Mr. Laighton's, or some such name. Here we bundle ashore, and none of us tumble; and that puts us in mind, that Br. Foster of the States and Union, (all but the Union,) was there, and asked us after that Boston Courier blackguard-but we could'nt see him because he wasn't on hand, or on board—and good "hoard" we had too. Perhaps he heard of our joint intentions on him, and didn't *dare* to come. We shouldn't think he would.*

But don't be so long getting ashore—either in fact or on paper. Here's Jim and Jack and all,—no lack; with boats both great and small; to tow us and row us—ha! they know us. And Oscar and Cedric—what a rare couple o' "brick P" to receive and achieve us.

What a ramble was that, over the rocks of old Appledore, before dinner—for those whose were not too hungry *to* ramble. With "the blue above, and the blue (much bluer) below"—not to mention the music which the Band blew out of their instruments below the hill, on the landing—the scene was witching indeed; especially when you had (opportunity) to assist some "witch" of 150 lbs. or so to *alight* from one cliff to a lower. Come, let's muster for dinner—though Col. Mccomb says he'd rather enjoy that eastern view than *have* dinner. But, tastes differ,—though from the Colonel's appearance, we guess *his* "taste" is pretty good.

The dinner was good—more than good—and there was plenty of it; and served by the promptest, neatest, pleasantest set of waiters you would see in many a day. The chowder was tip-top, though everybody topped off with something else;—we didn't see many of them "tip" there at all. It was remarked by everybody as a little singular, that the three long tables should be presided over, respectively, by His (real) Excellency Gov. Smyth, His ex-Excellency ex-Gov. Gilmore, and His going-to-be Excellency Gov. Stearns. That's a stern fact, though.

Now, after another ramble and scramble over the rocks—and everybody (even Col. McC.) is too full to climb well now; all aboard and off again. Here lay the beautiful yacht Eclipse, which now runs between Rye Beach and the Sho—Smith's Isles, and which does eclipse most of the boats to be found anywhere about for "accommodation" use. On the way in, we also pass the fine yacht Pilgrim, of this port, whose crew and passengers cheer us lustily.

We found Appledore House greatly improved since last year; and the young landlords spared no pains to please all—nor did they fail. Among other new fixtures in the office, we noticed one of the new, beautiful, and indispensable Calendar Clocks, from Bodge's in this city, and various other improvements and adornments to render more attractive than ever, that already famous hostelry.

This was a most mysterious trip. Nobody seemed to know anything about it, except to have a good time. We "solicited" Maj. Hackett, who always knows everything; and he advised us to ask no questions, and we took his "counsel," for he is President of the Common Council, you know—because we were afraid to inquire of Capt. T——, since he threatened us so severely last year, in case we—well, no matter about it, for he may see this, if somebody don't steal his Chronicle.

Of the Concord editors, there were McFarland of the Statesman, Coggswell of the Monitor, Jones of the Independent Democrat, and Jas. B. Moore, and perhaps more too; from Dover, Mr. Burr of the Star, Dr. Smith of the Gazette, and Mr. Wadleigh of the Inquirer; from Manchester, Campbell of the Union; Batchelder of the Laconia Democrat; the couple from Boston and Lynn, we named before—ah, yes, and Pecker, the Concord double ff. (F. F.) of the Boston Journal, who must be a loud 'un, to judge from his title, and the fact that he seems to be the main head and front of these editorial raids now getting to be so popular—not to mention Maj. Hackett, who of course has to attend to the management of all such trifling matters as railroads, Common (and uncommon) Councils, Legislatures, and last but by no means least, editorial excursions or incursions.

Then, besides the Major, who "represents," and ably too, more newspapers and corporations, at home and abroad, than any man in the country, and is one of the liveliest and best of paragraphists—there were from the press gang in this city, Br. Foster of the States and Union, and "yours truly" the "Jotter" of this Chronicle—the Journalists being inexorably busy on publication day. The party numbered nearly a hundred when leaving Manchester, accompanied by the Concord Band; and gained perhaps thirty or more in Portsmouth, including Rev. Dr. Burroughs, Rev. Mr. Davies and lady, Gen. Peaslee, Col. Chas. G. Pickering of the Governor's staff, and we can't stop to tell you who else; and from the Yard, "good bluff" Adm. Bailey, and Engr. Bartleman. Yes, and among the Concord folks were Mayor Humphrey, Rev. Dr. Stone, Nath'l White esq., Thompson (with a p) and wife, of the Phenix, Dr. Bancroft of the Insane Asylum, Col. John H. George, E. C. Eastman, &c. Besides these, Stephen Kenrick, Esq., of Franklin, the President of the C. & P., and prince of good fellows; Col. B. F. Martin, the paper-*maker*, of Manchester; Mr. Sheppard, of Lee & S. of Boston, who *deals* in paper after it is printed into books; and no matter who else, so the ladies were all there—ah, yes and Col. Julian Allen, and all.

After leaving the "Shoals,"—though we didn't see any *shoals*,—Capt. Amazeen, (who always keeps a sharp lookout after the interest of his boat and the comfort of his passengers,) turned the prow of his trig little Pioneer seaward, passing between Star and White Islands,—on the former of which is "the city of the sea," Gosport, and from the windows and cupola of Caswell's Atlantic House the ladies were waving their cambrics, we couldn't see whether they were muslins or not, at that distance,) while the lighthouse stood stiff and stark on old Whitey. High up on Star, stands the neat little stone church—and both at Appledore, and as we passed here, we couldn't help thinking how absurd it is to freight miserable, perishable wood a dozen miles, to build tinder-box dwellings, when such good split stone lay in heaps at their feet. But these are not the only people who do such things; and isn't it a little singular, that while in Pennsylvania they make wooden fences, and put the stones into their buildings,—here in the Granite State, we build "horrid" stone fences, and live in wooden houses, in town and country? The monument to Sir John Smith, surmounted by three Turk's-heads which he cut off, or their symbol, (we were at long range, remember,) also shows well on Gosport hill.

Our course was laid in along Rye Beach, giving a grand view of the extensive new Ocean House, with its fine sea-front; then up along-shore, past Fort Constitution and the Navy Yard, home, in season for the excursionists to take their extra train to Manchester and Concord, and thence to Boston. Before reaching Rye, there was an elegant collation served in the cabin, in charge of Mr. Perkins; and after that, a little speech and fun-making on deck, of which a word anon, as it unveils part of the mystery.

As we passed Fort Constitution, the garrison was drawn up on the battlement, and the steamer was greeted with music from the Band, and cheers; and the officer in charge desires us to express his regret that he was not informed of the distinguished officials and visitors on board, in season to prepare a louder and more strictly military salute.

And now, with a few words on the speechifying, we *must* cast anchor. The fact is, our pen has run away with us on this occasion; and we are in the condition of the Rev. Dr. B., who was of the party, and for whom words could not express his unspeakable enjoyment of the day. We are sure many of our citizens, not to mention strangers, are not aware what a really fine boat the Pioneer is. Why, we would rather go in her half a dozen times than in a sailing craft once—or, we would rather go in her once, than in a sailer half a dozen times; that is to say, any way, give us no passage to Smith's, save in the big little steamer. She is stronger, safer, makes better time, and has superior accommodations to many boats of twice her size. But let us hear a minute:

Lunch being over, Maj. William H. Hackett, who seemed to be in charge of the party, or the party in *his* charge, called the company to order on deck, and proceeded to say that he knew there were plenty of good speeches bottled up on board ready to be let off,—and called up Gov. Smyth for the first.

The Governor responded most pleasantly, and said he was especially interested in Gosport, as the extremest limit of his jurisdiction. He had found on the day of his inauguration, that by the Constitution of the State, he was invested with the command of the Army and Navy of New Hampshire; and though he had been hunting for his Navy ever since, he had not discovered it 'till to-day.

Ex-Gov. Gilmore was then call upon by the chairman, as the gallant Colonel of the Ninth, *on paper;* and he said that the great difference between his case and that of some other officers was, that he never got any pay, while they did; also, that the chairman had offered to collect his back pay for him, but he was afraid of his charges. He also alluded to another Colonel on board, who was "going to be married next Tuesday," and who of course knew how to make a speech.

And Maj. Hackett, saying we had heard something from the State and the military, we should now like a word from the matrimonial state,—called upon Col. John H. George; who after some urging, and being forced a little, blushingly came forward, and said the chairman's calling upon him for a speech on this occasion, proved him unfit for his position; and that he was not "in condition" for talking, and so must needs be excused. But he would suggest that all Governors, ex-Governors and expectant Governors, give just such excursions as this, four times a year.

Judge Upham was loudly called for, and at length, (six feet and a little strong, we should say,) to save being "waited upon" by a committee of six ladies at once, came to the scratch. And on inquiring for the chairman or president of the meeting, was introduced by the Major, to Gen. Peaslee sitting there—to whom he made his bow, which was received and acknowledged in the General's usual gracious manner. Mr. Upham said he was glad to find somebody who was in some degree responsible for the management of this party; and congratulated all on its complete success; but as he was not a Governor, had never been and never wanted to be, of course *he* shouldn't make a speech.

Gen. Peaslee followed, and said he found he was the only modest man in the company, and that it was only through the most efficient *assistance*, that he had been so very happy in his arrangements to-day. He paid a glowing tribute to the Press, for whom, after all, he said, the festivities of the occasion were designed, and referred to the New England editors scattered all over the country.

Rev. Dr. Burroughs said a few pleasant words of greeting; Mr. H. G. Twombly of New York hoped to be called to similar duties again often; and Mr. Knapp of Lowell closed the ball.

Altogether, it was a "big thing on" the Pioneer; and if we may be allowed to guess, we should say shew great liberality on the part of the Concord Railroad, the steamboat company, and the landlords at Appledore, for their unbounded hospitality. Also, the clerk of the weather deserves favorable mention, for furnishing the most delightful day of the season.

There were hints of the Editors, of a trip to Lake Memphremagog—and may we be there to see.

☞ The Lady's Friend, for August, has a fine engraving of Grandpa's Darling.—Deacon & Peterson, publishers, Philadelphia.

— * NOTE.—The Courier of Monday copies our item of Friday, inviting the States and Union man to go down and push Courier into the river; and adds:

"Ah, Frank! We understand now why our ticket was not received. It was withheld in mercy to you, with such a horrid purpose in your soul."

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and **Relief and Health to Your Infants.**

We have put up and sold this article for over 30 years, and *can say in confidence and truth* of it what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*;" after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.

REMARKABLE CURE OF STIFF KNEE BY ALLCOCK'S POROUS PLASTERS.—How many persons, from stepping on a piece of orange peel, have been lamed for life. A case which might have been of this kind has just been brought to our notice. A gentleman, from putting the heel of his boot on a piece of orange peel, was suddenly thrown down, and violently sprained his knee. He was six months confined to the house, though he had the best medical advice. As a last resort a very eminent physician was called in to see if anything more could be done. After examination he said, "My opinion is, your knee will never be bent again." He recommended that the whole leg and knee should be encased in a plaster of Paris bandage, which would accelerate the permanent stiffening of the knee, and said, "the sooner it was done the better." But the patient, before trying this application and having a stiff knee for life, enveloped it in our Porous Plasters, and in less than two months his knee was perfectly cured.

Principal Agency, Brandreth House, New York. By the yard or single plaster. Sold by all Dealers in Medicines. je29dawlm

Matrimonial.

CAUTION FROM THE
AMERICAN WATCH COM'Y.

It having come to our knowledge that imitations of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from imposition, we again publish the trade marks by which our Watches may invariably be known.

We manufacture four styles of Watches.

The FIRST has the name
"AMERICAN WATCH CO., Waltham, Mass.," engraved on the inside plate.

The SECOND has the name
"APPLETON, TRACY & CO., Waltham, Mass," engraved on the inside plate.

The THIRD has the name
"P. S. BARTLETT, Waltham, Mass.," engraved on the inside plate.

All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.

The FOURTH has the name "WM. ELLERY Boston, Mass.," engraved on the inside plate, and is not named on the dial.

All the above described Watches are made of various sizes, and are sold in gold or silver cases as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so near appoaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass.,"—no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.," others "P. S. Bartley," instead of our P. S. Bartlett; besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American Watch Company.

We also caution the public, and particularly soldiers, against buying certain articles CALLED watches, so freely advertised in illustrated papers as "Army Watches," "Officers' Watches," "Magic Time Observers," "Arcana Watches," &c., the prices of which are stated to be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for any such money.

A little attention from buyers will protect them from gross imposition.

ROBBINS & APPLETON,
Agents for the American Watch Company,
Jc28—1m **182 Broadway, N. Y.**

Durno's Celebrated Catarrh Snuff is the best known remedy for Headache, Cold in the Head, Snuffles, Imperfect Voice, Bronchitis, and Catarrh. Few persons appreciate the fatal diseases arising from disordered nasal organs. Sight, hearing, taste, and smell are frequently ruined by a cold in the head. The gas generated by the use of this snuff cleanses the entire head, and restores proper articulation. Its effects are pleasant and wonderful. It contains no tobacco nor other injurious ingredient. Colleges, Societies States, and the most eminent of the Medical Faculty have awarded it testimonials and premiums.

Sold by all Druggists for 25 cents per box. Can be sent by mail on receipt of 30 cents for one box, or $1 for four boxes. Address JAS. DURNO, P. O. Box 1326, New York City.

To Die in a Bad Cause

as those who fell in the rebel ranks undoubtedly did, is foolish. But on the other hand

Dyeing for a Good Cause,

as those who are wise and prudent enough to remedy the defects of nature with

CRISTADORO'S HAIR DYE

are doing every day, in every City of the Union, is eminently praiseworthy. This peaceful revolution is going on throughout the whole land, and thus beauty and harmony supplant homeliness and incongruity. Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers. je29

Local.

PORTSMOUTH STEAM FACTORY.—The special meeting was held at the Mill in this city, Monday morning.—the President, Mr. Goodwin, in the chair. The Committee appointed to investigate the situation of the Co. and recommend what measures should be adopted, made report, which was read by Mr. Henry W. Fuller their chairman. It contained a plain and clear statement of the position of the Company, explained the amount and source of the loss, and discussed the several methods proposed to relieve existing embarrassments — concluding with a recommendation to sell the Mill, &c.

To bring the Committee's recommendation before the stockholders, Mr. W. H. Y. Hackett offered a resolution authorizing the President aud Treasurer, in conjunction with a committee of three stockholders, to sell the Mill, &c.

Mr. B. F. Butler of Lowell addressed the meeting, and suggested that the stockholders should have one more opportunity to save what remained of their property; stating that he had been concerned in one or more mills in Lowell, which were as much embarrassed as this is, and which by energetic efforts had been rescued, and become good paying stock. He said the Mill, if now sold, would not more than pay the debts, if it did that. It appeared there was a considerable capital here, and he thouget if the resolution now before the meeting was rejected, he could suggest a mode of saving it for the stockholders.

Mr. Hackett said that for the purpose of enabling the gentleman from Lowell to bring his plan directly before the stockholders, he would withdraw his resolution to sell.

The meeting then adjourned till afternoon, when Mr. Butler offered his plan, which provides that the stockholders have until the 7th August to devise and execute a plan to save the property. The propositions are to be printed and forwarded to each stockholder. If this plan does not succeed, the Mill is to be sold by a Committee which the stockholders elected for that purpose, consisting of the President, Ichabod Goodwin, the Treasurer, Wm. S. Eaton, and Benj. F. Butler, Henry W. Fuller and Wm. Stearns.—The Meeting adjourned to Aug. 7th.

☞ The commission of Hon. Thomas L. Tullock as Navy Agent for this Post, expiring on the 19th inst., he has been directed to turn over to Paymaster C. J. Emery, U. S. Navy, on that day, the funds, books and papers in his possession belonging to the government — it being the policy of the Navy Department to have that branch of the service under the direction of Naval Officers. Similar changes have already been made in New York, Philadelphia, and Boston.

It is only justice to say, in regard to the retiring Navy Agent, Mr. Tullock, that in all his public offices, as Postmaster of Portsmouth, Secretary of State in New Hampshire, and U.S. Navy Agent, he has proved himself an officer and business man of unusual energy, promptitude and efficiency, as well as a thorough gentleman in all his dealings.

☞ The side-wheel steamer Reindeer, acting Volunteer Lieut. H. A. Glassford, came into this port Saturday night, took an excursion party to the Shoals Sunday afternoon, and left Monday morning for Boston. If the weather had been favorable, she would have taken an excursion party with her, accompanied by the Portsmouth Cornet Band.

POLICE COURT, July 17.—John Carvin, drunk, fined $3 and costs $3.86.

Thomas G. Connor, drunk, fined $3 and costs $3.86.

William Judson, drunk, fined $3 and costs $3.86.

Mary Hennessey, drunk, fined $3 and costs $4.80.

James Hurley, drunk, fined $3 and costs $3.86.

Thomas Kiley for an assault fined $3 and cost $3.86.

NAVAL.—Lieut. John McFarland and Gunner Felix Cassidy have been detached from the Galena, and await orders.

Mate A. L. Spinney, of this city, was honorably discharged July 5.

Geo. W. Gale, of Laconia, was appointed Actg. Passed Asst. Surgeon, July 6.

The appointments as Actg. 3d Asst Engineers of Gustavus Pfeltz of the Maratanza and David E. Lyons of the Agamenticus were revoked July 3.

☞ The Annual Exhibition of the Haven Schools will take place on Thursday afternoon at 2 o'clock.

—The unissued balance of six and a half millions of the Mass. bounty fund loan having been taken on foreign account at 5 per cent, the war loan advertised has been withdrawn.

—The widow of Aaron Burr died in N. York Sunday.

Wanted,

200 WOMEN, well acquainted with SEWING STOCKINGS. The highest cash prices paid. Apply Wednesday and Saturday Afternoons, at No. 54 Islington St. Portsmouth. jy18

NEW HAMPSHIRE ITEMS.

——Commencement Exercises at Dartmouth College began on the 16th inst., with the Baccalaureate discoures by President Smith. On Monday came prize speaking; Tuesday, Class Day Exercises, with an address in the evening before the Theological Society by Rev. E. E. Adams of Philadelphia; Wednesday, an address by Prof. Alpheus Crosby and Hon. A. H. Bullock, and a poem by Saxe; Thursday, Commencement.

——Preparations are being made to put in operation most of the manufactories in the villages. At Salmon Falls a large brick factory is being erected on the site of the one which was destroyed by fire in 1864.—At East Rochester quite a little village is now growing up. Many manufacturers are prevented from doing so much as they desire on account of scarcity of help. Factory girls are in demand.

——Dea. John Knowlton of Portsmouth, many years Treasurer of the Grand Lodge of New Hampshire, has been connected fifty-one years with the same religious society in this city, and has failed only on two half days to be in his place on the Sabbath, unless when absent from town, or too ill to go; and the last named instances have been few.

——The 1st N. H. Cavalry, and 4th and 6th Reg'ts N. H. V. are all at Concord or rapidly moving towards it, and towards their homes.

——The large steam tannery of Cyrus Robinson and Sons, in Concord, was destroyed by fire on Saturday morning, together with most of the stock. Insured $20,000:—loss double that sum, or more.

——1st Lieut. Benjamin Swift Wilson, of the first U. S. Vols., was killed May 28, in Dacotah, by Indians. He was formerly Sergt. Major of the 5th N. H. Vols.

— Ex-Governor Tod, of Ohio, now in Washington, has called upon President Johnson for the purpose of obtaining, if possible, the discharge of the Ohio Union Light Guard, Lieutenant Jamieson, commanding, which acted as a body guard to the late President Lincoln, and which was retained to act in the same capacity for President Johnson. The President, in consideration of the long and faithful service of this troop, has consented to the muster out of the men, but expresses great regret at parting with them.

— The Hartford Courant of Friday says that Barnum took the news of his loss very coolly. He estimates it at over $200,000, and said he could obtain a museum collection in Europe as attractive; and, as he purchased a building lot "op town" in New York some time since, it is probable that he will erect a magnificent structure there, and have the finest museum in the world. He held a lease upon the Museum property which does not expire for fifteen years yet, and he says he can dispose of this lease at fifty thousand dollars advance.

— The Richmond correspondent of the Petersburg Express says that the delegation from the citizens of Richmond who presented a memorial to the President praying for a modification of the $20,000 clause of the Amnesty Proclamation, have returned home, pretty well satisfied that Andrew Johnson means what he says.

— The New York Post of Saturday evening says that Barnum's large White Maltese Cat was saved from the conflagration, unsinged. A boy found the animal, food was offered it, but the cat, it is said, wouldn't eat until morphine was placed on it.

— One hundred of the alumni and 66 of the under graduates of Amherst College are known to have belonged to the U. S. Army during the war, of whom 24 are known to have been killed in battle or to have died of disease or wounds.

— A heavy rain storm on Saturday night created a flood in some parts of New Jersey, which did great damage.

GOLD, Monday, 142 to 142 1-2.

'TIS NOT A FABLE.—The immense and universal demand for the Fragrant Sozodont, is a marvel in the annals of Dentistry. It exceeds all other dentifrices combined.—Neither acid from the stomach, nor any other corresponding element generated by indigestion, can effect a set of teeth regularly purified by this Fragrant Vegetable antiseptic and preservative. 3

VINELAND LANDS.
To all Wanting Farms.
Large and thriving settlement; mild and healthful climate, 30 miles south of Philadelphia by railroad. Rich soil, producing large crops, which can now be seen growing. Ten, twenty, and fifty acre tracts, at from $25 to $35 per acre; payable within four years. Good business openings for manufactories and others. Churches, schools and good society. It is now the most improving place East or West. Hundreds are settling and building. The beauty with which the place is laid out is unsurpassed. Letters answered. Papers giving full information will be sent free. Address CHARLES K. LANDIS, *Vineland Post-Office, Landis Township, N. J.*
From Report of Solon Robinson, Agricultural Editor of the Tribune: "It is one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies."

New York Silver Mining Co.,
OF NEVADA.
Capital, $150,000; Shares, $100 each. 7000 Shares in treasury; 2000 for sale. Price $40 per share; $50 per Share after August 1.
Stock full paid, and no individual liability. Company organized under the General Laws of the State of New York, with a board of trustees of honorable, Christian business men, in whose management the stockholders may have unbounded confidence that they will do all that can be done to make investments safe and profits large.
We expect this stock will be at par within one year, and making dividends of from 3 to 5 per cent. on the par value of the stock per month in gold. Any Clergyman, Insurance Agent, or Cashier of Bank is authorised to receive money and forward it; to whom a liberal commission will be allowed. Certificates will be returned on the receipt of funds. Stock for sale at the Atlantic Bank, New York, R. W. G. FREEMAN, Esq., Cashier of the Atlantic Bank, 142 Broadway, or HERMAN CAMP, Esq., 25 Nassau Street.
Our machinery is bought and will be soon upon the ground, and we expect to be taking out and reducing ore to silver bullion at the net profit of $2,000 per day, or $1,500,000 per annum, thus doubling our whole capital in one year. If you would get any of this stock you must subscribe quickly. THOMAS SPROUL, President.
S. H. HUTCHINSON, Secretary.
Office: 80 BROADWAY, over Am. National Bank.

WANTED.—Immediately. Discharged officers and soldiers from the army, and all others who are looking for a legitimate and profitable business, are respectfully invited to call at the new Inventors' Exchange, 63 Cornhill, where they can make safe investments, with small or large capital, by which they can surely make their 25 to 50 dollars every day. State or county rights for sale for thirty new and valuable inventions, many of which were never before exhibited in the United States. HOWARD TILDEN, proprietor, 63 Cornhill, Boston.

WANTED—Local and travelling Agents, ladies and gentlemen, everywhere, in an easy, pleasant, profitable and permanent business.—Will pay $5 to $20 per day. This is no patent right or medical humbug, but an article of merit needed by everybody, and sold at less than half the usual price, with 200 per cent. profit to our agents. Samples and circulars sent free by mail for 25 cents. WHISLEY & SON, No. 6, Tremont Street, Boston, Mass.

OUR RETURNING SOLDIERS,
Who are suffering from CHRONIC DIARRHŒA or DYSENTERY, or general *Debility in the system*, caused by change of Water or of Food, or the hardships of a military life, will find Dr. RICHARDSON'S BLOOD-ROOT ELIXIR a sure medicine to restore them to health. By its use, (from a teaspoonful to a table spoonful), it will act in connection with their food, and *immediately change the character of their secretions*,—thus arresting the cause of their weakness or debility. Through its action in the blood it will expel all *Humors* and *Impurities*, that are working a slow but certain effect, invariably terminating in *Consumption of the Blood*, which proves fatal to so many of our brave soldiers, after their return to their home and friends. For *Cutaneous* and the *Piles*, it is the best remedy now discovered.
Prepared by Dr. S. G. RICHARDSON, who has had thirty years' successful practice as a physician.
The BLOOD-ROOT ELIXIR may be obtained at the *Doctor's Office*, 51 HANOVER STREET, Boston, and is sold by all Apothecaries throughout the New England States.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
For CONSUMPTION, it is the only reliable remedy known. It has in thousands of instances restored patients that seemed past hope of recovery; and, in tens of thousands has arrested the disease in its primary stages, and restored the patient to robust health.
BRONCHITIS. Its effects in this troublesome disease are very marked. It is necessary to persist in its use for a considerable length of time.
FEMALE DEBILITY. To sustain and augment the forces; to make new, rich and pure blood; to build up the nervous system; to restore energy to the mind and body, nothing can be better adapted than this preparation.
In Asthma, General Debility, Emaciation, and Coughs, it is a reliable remedy. Nine-tenths of the cases where it is supposed to fail, simply arise from the remedy being abandoned before its beneficial effects become obvious. Be careful and get the genuine, manufactured only by A. B. WILBOR, Chemist, 168 Court Street, Boston.

SAVE YOUR MONEY!
Don't pay One Dollar for a small bottle of Hair Dye, when you can get a bottle five times as large, of a better Dye, for the same money.
Wilbor's Monitor Hair Dye
Is superseding all others. It requires no preparation, does not smut or wash off, will not soil the finest linen. One application will last until the hair grows out, when it can be applied to the roots without more trouble than a common hair oil. *It is warranted not to injure the hair or skin.*—Manufactured only by A. B. WILBOR, Chemist, No. 168 Court Street, Boston.

PETROLEUM IS KING!

THE

UNION OIL STOVES!

Patented April 11, 1864, *and Jan.* 17, 1865.

A COMPLETE APPARATUS

—FOR DOING THE—

COOKING

And all the work of a Family *of any size*,

AT LESS THAN

One-Third the Cost of Wood or Coal!

THIS NEW

PETROLEUM Cooking APPARATUS

Is WARRANTED to do all the work of a common Cooking Stove, at a great saving of time, trouble and expense. Having the fullest confidence in its utility, we offer it to the public as the

Only Kerosene or Coal Oil Stove

that will Bake, Broil, heat Flat Irons, &c., with entire satisfaction. It may be used in Kitchen or Parlor, without

Dirt, Ashes, Smoke or Odor.

The ordinary Stove Furniture is used, with the addition of the "Flat Iron Heater." Kerosene Oil is used, and, at one dollar a gallon, it will cost

ONE CENT AN HOUR

for each Burner used, thereby saving the cost of the Stove in the expense of Fuel in a short time.

"How long does it take to cook anything with one of these stoves?" is a question often asked. In answer, we can say from actual experiment that

2 quarts of water can be boiled in 15 minutes		
Common potatoes baked	" 30	"
Flour Biscuit baked	" 15	"

And three good-sized Flat Irons heated in 15 minutes.

By adding a sheet iron drum to the Stove, it will warm a small-sized room in cold weather.

For use in the night in case of sickness, one of these Stoves is invaluable, as it can be put in operation in one minute.

☞ EXCURSION PARTIES will find it very useful, occupying very little space, and capable of doing a large amount of Cooking.

COAL AT COST.

EAGLE HILL MUTUAL COAL COMPANY.

This Company is organized on the mutual plan, the same in principle as the Insurance Companies, and has none of the features of the speculative movements of the day. Its officers are among the solid men of Boston, and are known as gentlemen of integrity, who have never been associated with any of the speculative operations of the times.

The Colliery is one of the best and most extensive in the coal region, produces a coal far superior to any used in this market, and from its advantages can mine cheaper than most others. It has been operation over six months, has more than 400 stockholders, has delivered coal at a saving of $3 to $4 per ton from regular market prices, and has paid cash dividends of 4 per cent.

Any one who will take the trouble to investigate the facts, will see at once that the croakings of coal monopolists have no application to this company, and that it is as safe and sure as any railroad or bank stock in the market.

The Old Established Hospital.

No. 3 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 3 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest, as well as the latest remedies for these diseases, offer inducements to the unfortunate not a quick and sure cure, to be obtained at no other office in America.

In Syhlis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Pimples, Blotches, Boils, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in over a thousand cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their vigor, and are unfitted for the duties of life, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. Teller, they will find a safe physician and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. Teller, and who now rejoice in and rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of the subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 100,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stopping irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For a full and see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 9 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

—DEALER IN—

STOVES,

KITCHEN FURNISHING GOODS,

FARMING TOOLS, &c.

THE MAGEE

COOKING STOVE.

The subscriber would especially call the attention of the public to the.

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We invite all those in want of the very best Stove in the market, to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Important to the Afflicted.

DR. DOW continues to be consulted at his Office, No. 7 Endicott Street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience, in the Hospitals of Paris, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure, the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the health, and renders life a miserable existence, individual for business or society. Patients who wish to remain under Dr. Dow's treatment may do so, and have the same kept secret, private rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receipt of the money, or your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

☞ We will not send more than one copy of the Daily Chronicle per week to out-of-town Advertisers, unless paid for.

The Chronicle.

In New Hampshire a certain proportion of the amount of taxes is assessed upon the polls. The rate is fixed by law—we believe it is one-seventh of all the money assessed. The consequence is, we are informed, that in some of the towns the poll tax is as high as $14.—*Portland Argus.*

There is no such law as that fixing the poll tax at one-seventh, in New Hampshire, nor, we presume, any where else. Our poll tax law is something like that of other States. The poll tax here is made equal to a property tax on $240; and property is appraised at its supposed value. The Poll Tax in Portsmouth this year, is $4.94.—The *fourteen dollar* poll tax is news to us, and sounds rather high,—tho' it may exist somewhere.

KITTERY.—A Portsmouth letter to the Boston Herald speaks of the population of Kittery before the war as "several hundred persons," and says the place "now boasts of *two churches*."—All this is certainly within bounds, but it so *far* within bounds as to deceive any one who measures Kittery by the letter. Kittery in 1860 contained nearly 3000 inhabitants; and it has had *five churches* open on the Lord's Day, for these twenty years past.

CARRY'S CONFESSION, a novel, by the author of "Mattie: a Stray," comes to us from A. Williams & Co., Boston, through J. F. Shores, jr., who has it for sale. We have had no time to even glance at its contents, but bearing the impress of the Harpers, as one of their select novels, it could hardly be otherwise than good. Price 75 cents.

LONDON ITEMS.—In the House of Commons, a vote of censure was passed on the Lord Chancellor, in connexion with Bankruptcy Court Scandals. Previous to this vote Lord Palmerston moved an adjournment, which was lost, 177 to 162. In the House of Lords, on the 4th, the Queen accepted the Lord Chancellor's resignation. He will continue in office until after the prorogation.

U. S. 5-20s, 72 1-2.

BANK PAPER.—It has been ascertained on inquiry that the legal limit of the three hundred millions National Bank circulation has been nearly reached, and, therefore, the creation of comparatively few additional institutions under that system will be authorized; the entire number will probably reach 1000.

HAYTI.—Advices to June 28 show the rebels still holding Cape Haytien and vicinity. President Geffrard holds the rest of the territory, but the rebels make trouble.

TEXAS, in the parts where the U. S. troops have not yet been, is infested with jayhawkers and thieves. Our cavalry are ordered to avoid injuring the country in their march.

NEW HAMPSHIRE BIRD LAW.
AN ACT to promote the interests of Agriculture.
SEC. 1. If any person shall at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bob-o'-links, yellow-birds, linnets, fly-catchers, or washers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, or sand-pipers; or shall between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges, or grouse, or quails, or shall within the respective terms, *sell, buy, or have in possession, any of said birds*, taken or killed, whether in this State or elsewhere, shall *pay for* for every said partridge or grouse, quail, woodcock, snipe or plover, taken, killed or had in possession, the sum of *Three Dollars*; and for other birds named above, the sum of *One Dollar*; to be recovered by complaint before any Justice of the Peace.
SEC. 2. Any person owning or occupying land may forbid the destruction of birds on the same at any season of the year, by public notice in any newspaper published in the County, or by posting notice on the land; and any person taking or destroying birds on said land, in defiance of said prohibition, shall be subject to the penalty of One Dollar for each bird so destroyed, in addition to the penalties named in section first of this bill.
SEC. 3. It shall be the duty of the Selectmen of towns, and of the Mayor and Aldermen of cities, throughout this State, to cause the provisions of this act to be enforced within their respective limits.
SEC. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall inure, *one-half to the use of the complainant*, and one-half to the use of the town or city where the same shall be recovered.
Approved, July 8, 1862.

American and Foreign Patents.
H. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1857.
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides its extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
Order yourself or a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can *safely* employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. H. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending, under unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to promptly secure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in court of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. H. H. EDDY.
Boston, Jan. 1, 1865.—3tawly

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppression of Menses, also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and strict secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. 1Tbsly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 23 Endicott street.
N. B. The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with good nurses. Charges moderate.

Carriages.
Persons thinking of purchasing CARRIAGES, would do well to call

Portsmouth, N. H.

WEDNESDAY, JULY 19, 1865.

WASHINGTON ITEMS.—Official communications received from Paris by the Department of State justify the expectation that the cannon and other property carried across the Rio Grande by the rebel leaders after their capitulation, will be fully and freely restored to the United States.

In compliance with a demand heretofore made according to the ruling of the Commissioner of Internal Revenue, the mere carding of wool is not regarded as manufacture, and therefore liable to duty.

Owing to the payment of troops being mustered out of service, including bounties, and other necessary obligations of the Government, the daily demands upon the treasury are, it is said, to the extent of from four to five million dollars.

The Commercial's special Washington despatch says General Howard is organizing a general intelligence office in Washington for freedmen seeking employment and employees.

The Second regiment of Hancock's First Corps is detailed to Albany and Elmira, N. Y., and the Fifth to Connecticut, Vermont and New Hampshire.

Trains run regularly to Richmond via Alexandria.

Their are at least 10,000 applications on file in the Treasury Department for appointments.

There is much scattered cotton and tobacco in North Carolina awaiting purchase, and holders have no means of sending it to market.—Two of the citizens of that State left for New York, in order to make arrangements with merchants for its sale and conveyance North.

WASHINGTON ITEMS.—The present series of the 7-30 loan will probably all be absorbed within a week or ten days. This is the last of the 600,000,000 loan authorized at the last session of Congress. When the soldiers are paid off, with the decrease of government expenses, the Secretary will be able to get along until congress meets, with the use of certificates of indebtedness and temporary loans.

George Gayle, the man who offered $1,000,000 for the murderer of President Lincoln, Johnson, and Seward, arrived at Hilton Head, S. C., on the 12th inst., under guard, and was sent to Fort Pulaski.

The Tribune states, by authority, that the families of Jeff. Davis and C. C. Clay retained eminent and loyal advisers about the middle of May last to appear whenever the Government thought proper to order the trials of those State prisoners. Reports therefore as to efforts made on behalf of the prisoners by persons representing themselves as their counsel, may be safely regarded as unauthorized by the parties chiefly concerned.

FROM HAVANA.—The Diaro denies the report that Capt. Page, of the ram Stonewall, had entered the Mexican Imperial service, and says he has gone to England to enter the merchant service. It is well known, however, that several of the Stonewall's officers did go to Mexico, and others have engaged in the Spanish navy. It is reported that the blockade-runner Zephine is to engage in the slave trade.

Monte Christi and Punto Plata, San Domingo, have been evacuated by the Spaniards. There were yet about 3,000 troops at St. Domingo.

A heavy drouth prevails at Sagua La Grande. The corn crop is lost, and it is feared that the cane crop will be irreparably damaged.

HOW A SHIP WAS BURNT, and 400 lives lost: Halifax papers have the statement of Capt. Hart, of the barque Meteor. He searched a day and a half for the unfortunate prisoners of the ship Nelson, the wreck of which was scattered over miles of water Passengers say that on Sunday, the 25th ult., the Captain determined to fumigate the ship. A pot of pitch was taken into the lower hold, and red hot irons thrown into it! The pitch ignited and boiled over, setting the ship on fire. When it was found impossible to save the ship, the officers, with the cabin passengers on board, left in the ship's boats! The ship soon burned to the water's edge, and sunk, carrying down over 400 passengers. The scene is described as truly heartrending. Capt. Hart says another ship, five or six miles off, was apparently searching for the wrecked passengers, and has undoubtedly saved some. All had been three days and three nights in the water. The male passengers saved are recovering, but the female passengers are badly burned about the arms and legs.

YELLOW FEVER.—A Norfolk, Va., paper of the 13th inst. says, referring to certain rumors of a contrary description, that there is not a single case of yellow fever in either Norfolk or Portsmouth; and further, that there are no apprehensions of this disease visiting the "twin cities" again.

HORSE ENDURANCE. — "Bell's Life," London, gives the following as an "interesting test of the respective endurance of the English and Arab horse:"

A match which has caused quite a sensation for some time, past, has at length been brought to conclusion. It was a question of endurance between the Arab and English horse in the dessert, this having been a much vexed question for years past among sportsmen generally. The question of endurance having been raised between H. H. Prince Halim and Mr. Ross, (English,) the Prince offered to bet 10 to 1 no English horse could go through a week's gazelle hunting with him on the desert; he, of course, always riding the same Arab horse. Mr. Ross at once accepted the challenge, and a bet was consequently made, the prince laying £1,000 against £100. The prince chose from his stable his little Arab horse Al Cissi, who won the Grand Egyptian Prize of 500 sovs, three miles, at the last Alexandrian Race Meeting, whilst Mr. Ross depended upon his chestnut mare Beechnut. The prince rode for himself, but Mr. Ross entrusted his mount to a friend.

The competitors having met at Shoubrah Palace (the prince's residence,) started off at a slow canter for the first encampment in the desert at a spot near a small village. An hour and a quarter brought us to our destination, neither of the horses having at all suffered, though it is to be remarked that, not having started until 4 P. M., in the cool of the day, and having proceeded at a pace less than an exercise canter, there was nothing to hurt either of them, the whole road being extremely good going. The mare was very restless during the night, and twice broke loose from her picket, though not until having eaten her supper with a hearty good will; while the horse, although perfectly quiet and comfortable, altogether refused his food.

On the morning a little before sunrise, at 4:30 A. M., we started for the real hunt. The mare was very fidgetty, and took considerably more out of herself in consequence, than if she had taken it quietly during the five hours and a half of walking before finding a gazelle. The hawks were flown and the dogs slipped at this point, and after a run of about a mile and a half the gazelle was taken; the two horses were now both apparently as fresh as when we started. We now started off on our way to join the tents, which had been ordered to meet us at a certain point. We proceeded at a slow canter, so slow that the English mare simply trotted over the hard ground, cantering merely through the heavy sand. Unfortunately for the mare's chance, we missed the way, and instead of going towards the encampment, went off in the opposite direction.

After proceeding at this pace for an hour and a half, the mare, who was going well within herself, with the bit between her teeth, suddenly stopped, as if shot. The rider immediately dismounted and endeavored to keep her on her legs, but reeling about as if tipsy, she went a few paces forward and fell. The Arab horse, on arriving at the encampment, showed not the slightest symptoms of fatigue, and, unlike the previous evening, went into his nose-bag with a good will.

The match was thus brought to a speedy conclusion, and I might even say satisfactory, as it proved beyond doubt, at least to all present, that for slow continued work the Arab horse is immeasurably superior to his English brethren. I should add that the Arab horse continued hunting the following four days, always going strong and well; at the same time, the hunting on the succeeding days was of shorter duration than on the first occasion. From my own personal observations of the merits and demerits of each horse, I am of opinion that, for any given distance of ground, the English horse would always show his superiority, but for slow, continued, and indefinite work the Arab is far superior. They seem to be able to go for ever at their own pace, but if fairly extended they shut up almost immediately. Thus, in our race meetings we have always found that in the five-mile race the English horses can beat the Arabs by a mile. I think there is no doubt but that the heat alone caused the defeat of the mare, as calculating it at the outside, she could only have gone forty miles, and at the pace described, under ordinary circumstances, it would be next to nothing to a well-trained horse; but it is difficult to conceive the heat in the desert, with no kind of vegetation or shade near, and with the sand reflecting back upon you. On getting in between two sand-hills the temperature may be best imagined by fancying yourself in a hot oven. On this day we had not a breath of wind. What would it have been if a "khamseen," or hot wind, had been blowing?

PAULINE PREACHERS.—The Black Republican gives the following as the occupation of some of the New Orleans pastors, and affirms that their imitation of Paul's example is a "strong pillow" for colored Christianity: Rev. N. D. Sanders, pastor First Baptist Church, carriage maker; Rev. G. W. Steptoe, pastor Second Baptist Church, druggist; Rev. R. H. Steptoe, pastor Fourth Baptist Church, clerk; Rev. S. W. Rogers, pastor Fourth Baptist Mission, photographer; Rev. A. Ross, pastor Wesley Chapel, drayman; Rev. Henry Green, paster Wineu Chapel, carpenter; Rev. Isaac Griffien, pastor O'Reland Baptist Church, planter.

— In the "Life of Wilberforce" is the following entry in his diary: "Went to hear Mr. Foster. Felt much devotion, and wondered at a man who fell asleep during the psalms. During the sermon went asleep myself."

— A very great freshet took place in Vermont on Saturday, washing away bridges, rail-road tracks, &c.

— The fatal prison pen at Andersonville is to be enclosed, and used as a burial ground for U. S. soldiers, and a proper monument erected.

THE METHODIST CHURCH SOUTH.—A meeting of the ministers of the Methodist Church South was held at Palmyra, Mo., last month, at which the proposition from the Methodist Episcopal Church, for the Southern branch to abandon its distinct organization and form one body, was debated at length. The result was the adoption of a resolution which stated that "we consider the maintenance of our separate and distinct ecclesiastical organization as of paramount importance and our imperative duty." In the report which prefaced the resolution the committee state that "the abolition of slavery has not destroyed all the differences that existed between the two bodies;" that the question upon which the church divided was not whether the institution of slavery was right or wrong, *per se*, but whether it was a legitimate subject for ecclesiastical legislation;" and to go into the Methodist Episcopal Church "would be to yield the position we we have so often taken, admit the charges we have so often refuted, and, by accepting political tests of church fellowship, stultify ourselves, compromise the essential principles of the Gospel, and admit the charge that with the institution of slavery we stand or fall."

The Methodist Church *South*, and also the Hardshell Baptists, (if they still exist,) should send Missionaries up this way, to gather in all the copperheads who don't know where to go, and to convert the abolitionists.

TEMPERANCE MOVEMENTS.—A Dover Correspondent of the Rochester Courier writes as follows:

The Temperance question following on the wake of War, bids fair, at least in New Hampshire, to keep on increasing in influence and interest, in spite of determination and misrepresentation. It bids fair to become the balancing force in political circles and control coming elections. One of the longest experienced in the liquor trade in Dover, (and personally one of our best citizens) has decided to give up the traffic, and as he owns the store in which he now trades, he is determined it shall never be leased for the business. He proposes the establishment of a Metropolitan Market here, which will be an honor to Dover. Another dealer, a few days since, declared that "the negro question was dead, and now it's temperance;" and added his determination to cease the business. This is not merely a whimsical item, but the evidence of a growing temperance interest, which is highly commendable to our citizens.

Alderman Joseph Morrill, who is one of Dover's wealthiest men, has had "a cold water drinking place" erected in the centre of Franklin square, and in a few weeks a handsome basin, fountain fence, &c., will be placed there. It was crowded on the 4th of July. "Things are working."

MECHANICS, MANUFACTURERS, ARTISTS AND INVENTORS, are refered to the advertisement of the Massachusetts Charitable Mechanic Association, in this day's paper, of their Tenth Exhibition of American Manufactures and the Mechanic Arts, to be held in the City of Boston, in September next. It is supposed that this will be the largest and most complete Exhibition ever held by the Association.

— Crop prospects in Louisiana, Texas and Mississippi are fair; and the freedmen there and their former masters are doing their work, with some friction to be sure, but no more than might be expected.

— A correspondent of the Nashville Times, from Macon County, Tenn., reports the death of John Brannon, a Revolutionary hero, who reached his hundredth year on the 4th day of last December. He died on the 3d day of June last.

"DUKE GWIN."—The starch has been fairly taken out of this pretentious individual. The Diario, the Mexican official journal, contains a repudiation of Gwyn and his pretenses, from which the following is an extract:

"We, the Imperial Government, never at any time have entered into negotiations with Dr. Gwyn. So we never contemplated making him Duke nor Governor of Sonora, nor Viceroy of any other province. We never knew that his services were worth $60,000 a year. Moreover, the very person of Dr. Gwyn is not known by any of the Ministers, and we did not hear of any having the desire to get acquainted with him."

INCREASED PENSION TO CERTAIN SOLDIERS.—The Commissioner of Pensions has decided that a pension of $25 per month is to be granted to those having lost both hands or both eyes in the military service of the United States in the line of duty, and $20 per month to those who under the same conditions, shall have lost both feet, if such parties were entitled to a lower rate of pension under the act of 1862. This higer pension will date only from the 4th of July, 1864, in the case of pensioners already enrolled, or of applicants discharged prior to that date.

GOLD, Tuesday, 143.

— The Bunker Hill Aurora says Mr. Josiah Dunham, it seems, declines to give up his office to Lieut. Keene, of Portland, and by the influence of Mr. Rice, member of Congress, the change has been put off until the first of August.

— A few days since a fellow was tried for stealing a wood saw. The culprit said he only took it in a joke. The justice asked how far he had carried it, and was answered, "about two miles." "That is carrying the joke too far," said the magistrate, and committed the prisoner.

— Lord Cranworth is the new Lord Chancellor of England.

THE TENTH

EXHIBITION

—OF—

Mrs. WINSLOW

An experienced Nurse and Female Physician, presents to the attention of Mothers her

SOOTHING SYRUP

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammations, will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to your selves and Relief and Health to Your Infants.

We have put up and sold this article for over 30 years, and *can say in confidence and truth of it* what we have never been able to say of any other medicine—*never has it failed in a single instance to effect a cure*, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter of "*what we do know*," after 30 years experience; *and pledge our reputation for the fulfillment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup administered.

Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Price, Only 35 Cents per Bottle.
